neither obey their instructions nor resign my seat. If a political party, whenever, by whatever combinations it attains power, can compel its opponents, holding legislative trusts, to violate their consciences and consistency, or resign their positions, it would radically attect the organization of the Senate, and be incompatible with its office as the representative branch of the sovereignty of the States. The Senate would lose every characteristic of permanence, as power was transferred from one party to another. This would operate against he Democratic party, for their opponents do not recognize the right to instruct. The intolerant proscription which is advocated by the new party would exclude from political confidence the first General who fell at the head of an organized American army at Quebec, because born across the lantic, and the last surviving signer of the Declaration of Independence, because he was a Catholic. The adoption of either measure recommended by the Legislature of Michigan, would be the signal for the breaking up of this government and the dissolution of this confederacy. There are many honest men who scout all idea of danger, and are prepared to sacrifice the structure of freedom to one over-powering impulse. I shall remain in the position I now occupy all the end of my term, unless the Democracy of Michigan shall reunless the Democracy of Michigan shall require me to act against my convictions of duty. What I fear above all things is, that the people may be struck with judicial blindness, with which the nations are punished for national offences, and thus add to the melancholy list of the people who had not wisdom enough to appreciate the value of free institutions, nor virtue and firmness enough to maintain them. enough to maintain them.

DE. CHESSHAN'S PILL FOR FEMALES.—The combina The Combinations of ingredients in these Fills is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In eyer; instance have the Pills proved successful. The Pills invisibably open those obstructions to which females are liable, and bring nature into its proper channel, whereby keetith is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Out of the 629 way faring persons who were maintained from one to 4 days, about three-fourths were of the same nitivity, many of those persons becoming a tax on our community almost as soen as they arrive on our shores. Upon examination it has been stated by persons that they with large parties have been shipped to this country at the expense of the towns or districts where they had been living, in one instance when about 100 poor persons were thus offered to be transported, amongst whom were quite a number of aged and infirm; they were given to understand that if they would not accept the offer they could not expect any further assistance. Thus we become taxed with papers not properly belonging to us, and the length of time we are to submit to the depends on the proper authorities.

Wonderful Phenomenon and Healing VIRTUES.—In the adjacent county of Berkgand the VV VIRTUES.—In the adjacent county of Berks and the immediate vicinity of the romantic Cushion Hills, on a Mountain more than 800 fact high, Nature has formed a delightful retreat of sylvan beauty, consisting of about 52 Acres of syndentities. delightful retreat of sylvan beauty, consisting of about 52 Acres of garden-like ground producing the most wholesome herbs, medicinal plants, trees and fruit in pleasing variety. From this vegetable kingdom Dr. Leisering has succeeded in procuring a Universal Remedy for the cure of Fever and Ague.

Ague.

In the same spot of magnificent rural scenery are to be found most excellent sanative springs, containing wonderful virtues only to be found in fresh water. These springs yield an abundance of water, clear arystal of a cold temperature, (46 degrees Fahrenheit.) soft and pleasant taste, very refreshing without any strange admixture or natusous small. In this beautiful spot of ground Dr. Leisering, encouraged by such a happy combination of circumstances, has established a HYDROPATHIC INSTITUTE, in order that these benificant gifts of nature, patiently applied, might be of advantage to suffering humanity. It was at Ephrata in Lancaster county, that Dr. Leisering, in the years 1845—1845, performed wonderful curea on persons laboring under diseases, and especially on such as resolutely persorred in his mode of treatment. He has done the same, and more besiede, from 1848 up to the present day, at his Mountain Home.

It is well known, for these 14 years, that he is no dealer in humbugs. From nearly all Counties in the State, Dr. Leisering has been requested by persons affilted with diseases, to afford them an opportunity of seeing him, that they might personally consult him in regard to their own complaints. He has therefore concluded to make a beginning in Lancaster County, and will carry with him his Infallible Remedy (free from poisonous ingredients.) for the cure of Feer and Ague. This remedy requires only an application of from 10 to 15 days according to directions, to effect a RADICAL CURE. For consultation, advice and medicine, the charges will be moderate.

A Valuable Discovery — EDWIN & JAMES M
A CLARKE'S Newly fatented Combined Grinding and
Buting or Merchant Flouring Mill. This valuable discovery is in constant operation at the Barrel Factory, on Duke
street, a few steps from the railroad in this city, where hundreds are calling daily to witness its astonishing operations. The entire Mill, with its machinery complete, occupying a space but 21 feet iong by 4 feet wide; and, within
this small compass, converts the grain into extra and saperfine flour, mindfullegs, shipstuffs and bran;
making at the same time the finest quality of flour, and as
good a yield as can be obtained from mills costing from five
to twenty thousand dollars. Any power is applicable to
propel it, from a four horse power up to any other desired.
It will grind, and that too on a 30 inch diameter burr
stone, two barrels of flour per hour with the utmost case.
This mill must, ere long supersede all other mills. It is
emphatically acapted to the wants of community at largo;
can be placed in a room with other machinery, and the
small space it occuples not be missed; can be hauled by a
dray at a single load from one location to another; and
only think of it, for the small sum of Fire Hundred Dollars, every location throughout the United States can be
furnished with a complete Merchant Mill, capable of maling at least 2 barrels per hour; saving as it will from itve
to twenty thousand dollars worth of capital in the selection
of a flouring mill, and at the same time this mills adapted
to all the small and large powers which are now running
idia or in use. idle or in use.

The inventors, Edwin & James M. Clarke, are now prepared to sell County and State rights and mills, and can be seen either at the above named place, where the mill is in constant operation, or at Clarke's Shoe Store, at the Railroad, on North Queen street, Lancaster city, Pa. We advise those who are so circumstanced to go into a speculation, to call and see this ingenious invention. Its success throughout the United States is certainly indiputable.

NEW 1MPROVED FLOURING MILL.—I witnessed of NEW IMPROVED ELOURING MILL—I witnessed on Monday the 22d inst, at the Barrel Factory, in Lancaster, thepractical operation of Messrs. Edwin & James M. Clarkes Patent Grinding and Bolting Mill. The Messrs. Clarkes advertised that they would on that day convert ten bushels of wheat into flour in one hour. There was quite a large crowd of millers and other gentlepien present—many thinking this rather a large story—the burrs being but 30 inches in diameter. Ten bushels being put into the hopper, at the request of the Messrs. Carke, Limed the grinding of it, and in forty-one minutes by the watch, it was all through, and according to my judgment, it did its work well. I would also suggest, that it is a simple, cheap and practicable Mill, and reflects great credit on the patentees.

Jackson, C. H., Jackson City, O., 20th Nov., 1852.

Dr. J. C. Atta.—Sir: The Christi Percental is much inquired after. Several of our best physicians have used it, three of them in their own case, and always with the happiest effects. The numerons patent medicines always before them, lead to incredulity in regard to every new remedy; and it is only after undoubted evidence of value in any stricts, that anything like a general confidence can be excited.

The univalled excellence of this combination of agents (in the Garrer Perconat.) proved beyond early by repeated trial under their own observation, has compelled medical men to proclain abroad its usefulness. It is beyond all doubt the best general remedy we have fir the Pulmonary Affections of this cliniate, at the same time time sedative and expectorant—a rare combination of properties.

STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health. THE BLOOMING BRIDE. THE BLUUMING BRIDE,
But a few years ago in the flush of health and youth,
and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emaciated, nerves unstrung,
spirits depressed, countenance bearing the impress
of suffering, and an utter physical and mental protration, arising from ignorance of the simplest and
plainest rules of health as connected with the marriage state, the violation of which entails disease,
suffering and misery, not only to the wife, but often HEBEDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND FOURTH GENERATION," Transmitting CONSUMPTION, SCROFULA, HYPOCHONDRIA, INSANITY, GOUT, KING'S EVIL, and other and

worse Diseases, as a DREADFUL INHERITANCE FROM THE PARENTS. "And must this continue? Must this be? Is there no smedy? No relief? No hope?"
The remedy is by knowing the causes and avoiding hem, and knowing the remedies, and benefiting by them. These are pointed out in THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION,

PROFESSOR OF DISEASES OF WOMEN. One Hundredth Edition, (500,000), 18mo., pp. 250. [ON PINE PAPER, EXTRA HINDING, \$1.00.] A standard work of established reputation, found classes in the established reputation, found classes the heatalogues of the great trade sales in New York Philadelphia, and other cities, and sold by the principa booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES ONE HUNDRED THOUSAND SENT BY MAIL. attesting the high estimation in which it is held as a re-iable popular Medical BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, eauses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of nstruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularitles peculiar to the female system, which undermine the

health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief. It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a nother? Have you the sincere welfare of those you love

at heart? Prove your sincerity, and lose no time in earning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary, therefore, to CAUTION THE PUBLIC

to buy no book unless the words "Dr. A. M. MACRICKAU, 129 Liberty Street, N. Hundreds for whom there was no hope before the discovery of this simple, yet effectual remedy, have been raised to health and happiness by its timely use. The following case of J. Williams is sufficient to convince all of its wonderful effects. He says: I had been sick with confirmed consumption, for several months. I had used the clear Cod Liver Oil most of the time, but had derived but little benefit from it. I had an attack of bleeding at the lungs, which alarmed my friends very much, as they now supposed there was no hope for me. -About this-time I heard of your Compound of Cod Liver Oil and Lime. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

From A. Woodward, M. D., of Penn. University, Philadelphia.—It gives me pleasure to add mytestimony to the professional ability of the Author of the "Medical Manual." Numerous cases of disease of the Gental Organs, some of them of long standing, have came under my notice, in which his skill has been manifest in restoring to perfect health, in cases where the patient has been considered beyond medical sid. In the treatment of Same ered beyond medical aid. In the treatment of Sem inal weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indisrettion, to recommend him as one in whose pro-fessional skill and integrity they may safely confide themselves. ALFRED WOODWARD, M. D. "This is without exception, the most compre-hensive and intelligent work published on the class nensive and intelligent work published on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it into the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with too little breath to puff, and too little presumption to impose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice."-Herald. years' most successful practice."—Herald.
"No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of paia, mortification and sorrow to the youth under their charge."—People's Advo-

The constitution of thousands who are raising families have been enfeebled, if not broken down, and they do not keen we the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and all-timetely to remove this wide accordance of the contract of the contr imately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. Intemperance (or the use of intoxicating drinks) though it has slain thousands, is not a greater scourge to the human race.
