Dr. Merse's Invigorating Cor Whatever concerns the health and happing restored and Life lengthened, by Dr. Morse's Invaluable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually changeable rom one kind of food to an other, bad Breath, pain in the Stomach, picking at the Nose, hardness and fullness of the Belly, Dry Morse, well known as a distinguished member of the leading scientific societies of the Old World and equally distinguished as a physician, a chem ist, and a traveller. The juices of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results hereto fore unheard of, in this, or any other country. A, first the properties attributed to Prof. Morse's In vigorating Elixer or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown, by a mass of testimony which is perfectly irresistible.

The Elizer remedies, in all cases, the deplorable

evils arising from a misuse or abuse of the variou organs which make up the wonderful machine cal led man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of teeble muscular frame, or deficient in vital power, it i ommended as the only means of commucating that "nergy which is necessary to the proper enjoyment of the natural appetites as will as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The fee ble girl, the ailing wife, the listless, enervated youth, the overworn man of business, the victim of nervous debility, or from the workness of a single organ, will all find immediate and perma nent relief from the useful this incomparable ren' ovator. To those who have a predisposition the paralysis it will prove a complete and unfailing safeguard against that terrible malady. There are sanguard against that critical manay. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair The Elizer deals with disease as it exists, without reference to cases; and will not only remove the disorder itself, but rebuild the broken constitution. The derangements of the system, leading to nervous diseases, and the forms of nervous diseases itself are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia, tic delerance, ne enumerated, viz: hearragid, ite discretions, headache, incipient parallysis, hystoria, parpitations of the heart, spinal affections, muscular debility, tremore flatulence, a pricking sensation in the flesh numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercises, broken sleep and terrilying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking of the stomach, femule irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions and all barrenness that does not proceed from organic causes beyond the each of medicine. Whenever the organs to be acted upon are free

from malformation or strictural diseases, it is averred that Morse's invigorating Elixir will replace weakness with strength incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is physical death. Rear in mind also, that for every kind of death. Bear in mind also, that for every kind of nervous disease the Elixer Cordial is the only reli

bie preparation known. CURE OF NERVOUS DISEASES.- No. language convey an adequiste idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and elaxed organization is at once braced, re-vivified and built up. The mental and physical symptom of nervous disease vanish altogether under its in-fluence. Nor is the effect temporary; on the contra-ry, the relief is permanent, for the cordial properties of the medicine reach the constitution itself. and restore to us nominal condition. Well may the preparation be called the medicinal wonder of the nineteenth century. It is, as the first sciontific man in the world would have admitted, that miracle of medicine heretofore supposed to have no ex-

tence.
A STIMULANT THAT ENTAILS NO RE-ACTION.—Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them, the last state of that man is worse than the first. the last state of that man is worse than the hist. But the Elixer is an exhibitant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depression, excitement, a tendency to blush, sleeplessness, dislike of society, incapacity for study or business. LOSS OF MEMORY, confusion, giddiness, rush hysteria, wretchedness; thoughts of self destruction fear of insanity, hypochondriasis, dyspepsia, gen-eral prostration, irritability, nervousness, inability on sleep, diseases incident to temales, decay of the propogating innetions, hysteria, monomania, vague terrors, palpitation of the heart, impotency, con-stipation, etc., etc., from whatever cause arising it is, if there is any reliance to be placed on hu-

man testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.—The unparallelled effects of this great restorative, in all complaints incident to Females, mark a new era in the annals of medicine. Thousands of stimu lants have been invented—thousands of invigorants concocted—all purporting to be specified in the various diseases and derangements to which the elicate formation of woman render her liable.-The result has heretofore been uniform. These noistrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles; but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has two often been greater than belore, and the end has too often been utterly to paralyze the recuperative power of the nerves, and the vital organization, and finally to destroy the unhappy patient. Every woman o sense, who suffers from weakness, derangement, nervousness, fremore, pains in the back, or sny other disorder, whether peculiar to her sex, o common in both sexes—to give the Invigoratin Cordial a trial.

MARRIED PERSONS, or others, will find this Cordial after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the happy parents of healthy offspring, who would not have been so, but for this textraordinary preparation. And it is equally positive that the state of the st ent for the many disease for which it is rec mended. Thousands of young men have been restored by using it, and not in a single instance has it lailed to benefit them. PERSONS OF PALE COMPLEXION, or con

sumptive habits are restored by the use of a bottle or two bloom and vigor, changing the skin from a pale, yellow sickly color, to a beautiful fiorid complete. TO THE MISGUIDED.-These are some of the sad and melancholy effects produced by early hab-its of youth, viz: weatness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, ner-vous irritability, derangement of the digestive func-

Mentally, the fearful effects on the mind are much to be dreaded. [Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, ac. are some of the evils produced. Alithas afflicted before contemplating marriage should reflect that a sound mind and body are the most necessary requisites to promote connubial happi-ness: indeed, without these the journey through life becomes a weary pilgrimage the prospect hour-ly darkens the view; the mind becomes shadowed with despair, and filed with the metanchly reflec-tion that the happiness of another is blighted with your own.
PARENTS AND GUARDIANS, are often

misled with respect to the causes and sources of diseases in their sons and wards. How often do they ascribe to other causes of wasungs of the frame, idnorey, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a pernicious though alluring practice, destructive both to mind and body: CAUTION .- Dr. Morse's Invigorating Cordial nas been counterfeited by some unprincipled per-
