Dr. Hunter's Medical Manual and hand book for the afflicted. Containing an outline of the origin, progress, treatment and cure of every form of disease contracted by promiscuous sexual intercourse, by self-abuse or by sexual excess, with advice for their prevention, written in a familiar style avoiding all medical technicalities, and everything that would offend the ear of decency; with an outline of complaints incident to Remaies, from the result of omplaints incident to Females, from the result of some twenty years' successful practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added receipts for the cure of the

above diseases, and a treatise on the cause, symptoms and cure of the fever and ague.

Testimony of the Professar of Obstetrics in Penn College, Philadelphia.—Dr. Hunter's Medical Manual.—The author of this work, unlike the majority of those who advertise to cure the disease of which t treats is a graduate of one of the best Colleges in the United Stetes. It affords me pleasure to re-commend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may

place the greatest confidence.

Jos. S. Longshore, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of disease of the Gental Organs, some of them of long standing, have came under my notice, in which his skill has been manifest in restoring to perfect nealth, in cases where the patient has been considered beyond medical aid. In the treatment of Semnal weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well at cindness to the unfortunate victim of early indisretion, to recommend him as one in whose pre-essional skill and integrity they may safely confid hemselves. ALTRED WOODWARD, M. D. ATTRED WOODWARD, M. D.

"This is without exception, the most comprehensive and intelligest work published on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it upto the hands of his sons. The author placing it into the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with too little breath to puff, and too little presumption to impose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice.'?—Herald.
"No teacher or parent should be without the knowledge imparted in this invaluable work. It

would save years of pain, mortification and sorrow to the youth under their charge."--People's Advo-A Presbyterian elergyman in Ohio, writing of Illunter's Medical Manual's says:—" Thousand upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution, without realizing the sin and fearful consequences upon themselves and their posterity. Dear Str: You ask me for my opinion of "Silver's Mineral Paints," which you have put on m Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my roots, has now become as hard as slate, and I feel as secure from Pire, in this direction, as is possible. A few weeks after the roots had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncov-ered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint however was firm and but little blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to commend it as an invaluable preventive against Fire.

Respectfully, &c.
