From the Hollidsysburg Register. Sale of the Public Works...Read, Pause, and Reflect.

The attention of the members of the Legislature, and of the people at large, is earnestly invited to the following communication in regard to the proposed Sale of the Public Works. It presents a number of suggestions worthy of the most grave consideration, some of which at least, may not have occurred to others then the writer!

Sale of the Public Works. It presents a number of suggestions workly of the most grave consideration, some of which at least, may not have occurred to others than the writer.]

Mr. Edward From:—A Bill being now before the Legislature providing for the sale of the Main Line of the Public Works extending from Philadelphia to Pitteburg, it is deemed by many proper that the attention of the public should be directed to the details of of this Bill, and also to the consideration of the propriety of a sale at this time under present existing circumstances.

In the first place, take it for granted as a matter of argument, that it is advisable the State should sell this line, when this can be done to the best advantage; the question arises, is it judicious to force said of it in tile present state of money and business matters; and a sale of it too, to a party contemplate, which is attempted to be done by this Bill indirectly,—as near as well may be, would be an equivalent to an absolute giving of it away, without restriction or condition of any kind whatever, securing the terests of the public. Every one knows that owing to the very great stringency in "the money market for the last year or more, only those thing which are of actual necessity can mow, or soon, be soid except at a great and unreasonable sacrifice. Every judicious business man, when his property cannot be sale to advantage, endeavors to arrange it so that he shall not be compelled to sell it until it can be done on more favorable terms. What is good policy on the part of an individual, must be the same on the part of the Commonwealth. The propriety of the sale of the Public Works of the State, if and when it can be done on more favorable terms. What is good policy on the part of an individual, must be those such the sale should not be postponed in the property of the commonwealth. The propriety of the sale of the Pu

wides for the sale of the Main Line, by a public sale, at auction, and stipulates that it shall not be sold for feas than seven militians of dollars, it also provides that in case a concemplated to dder—the Penna. Rairroad Co.—shall become the purchaser, to give that bidder, that Co., as a siven tage over all other bidders, equivalent to from three to six militions of dollars, at least, at 5 per cent, per annum, the rate at which interest is to be paid on the purchase money to the line—that is, if that company becomes the parton of the line—that is, if that company becomes the parton of the line is fit were mill tax on the tonnage of its road ceases; otherwise it remains without further egistation. Although owing to a failure of crops and fit. In all and thus furnish to thirsty travelers relief water, and thus furnish to thirsty travelers relief water and thus furnish to thirsty travelers relief water, and thus furnish to thirsty travelers relief water, and thus furnish to thirsty travelers relief water, and thus furnish to thirsty travelers relief water and thus furnish the state, and thus furnish embarrasments, considerably less was transported over the road of the company than would obser-wise have been, yet this three mill tax, the last year amounted to between one and two bundred housand dollars. And part of its scenar crick being now completed, there is after doubt on that the tax the ensuing year, or soon will amount to \$200,000, and that in ordinar seasons and times, \$200,000, and that in ordinar seasons and those, when its second track is completed, this three mill tax would amount to 1619 \$300, 60, 60 income terest at 5 per cent per canum on on \$5,000,000. Thus I, is obvious that, write the decisive idea hold out of a public said, which biddless on have an equal chance, to point of fact, this B I provides that one contemplated bidder that, as stated, have an advantge equal to nearly the whole anterpated purchase money. Can a same on those terms be called a lair bonafide Public

forings towards the Penna. Rutrond Company, & deares its success and prosperties the should be exempted from the three mill tax in east onuage, let it be done; but and direct manner, -not in this meidibus and on jectionable mode under the pretence of a pubme-sale, where all bidders are to and should state on equal tooling. On it the deemed proper that this company should compensate the state for a repeal of this tax, let it be repealed on the pasment by the company to the State of a proper and reasonable amount as an equivalent. What ever is done in this particular, let it be done open-

directly and above board.
This present but for the sale of the Main. Line dues not, as the act of last year did provide that the whole of the line shall be kept and maintained. interests or frincy of the purchaser or purchasers, may be abandoned or cradicated. Will the closing or destroying even a part of this Line, so as to destroy its continuity and leave but one in de of transportation parallel with part of it, advance the public interest generally, and conduce to facilities and competition in the transactions of business, and the accomodation of the public ? Certainly no one can believe it would. But those who are most active in urging a sale of this Main. Line at present, say that the Columbia Railroad and the Canal from Columbia to Dun-

sound to keep up, and in operating condition the whole of the line. If this be so,—if they, or any one, believes it, why not allow and provide that those who allege and believe so, may pur-chase and have the Columbia Railroad and the Canal from Columbia to Duncan's Island, under preper restrictions and conditions at \$5,000,000, more than the whole line is authorized to be sold at, and more than it can or will be sold at under the present Bill; and at the same time provide that those who believe otherwise, and are willing to maintain and keep in good order the residue of this line may purchase 1. at such a sum as they are willing to give? Why not authorize the sale are willing to give? Why not authorize the sate of this Line in two or more parts under proper conditions if and when more can be got for a part of it, than the whole? Especially so, as the obvious purpose and the interest of those, who argue thus, if in earnest, and they do so in good faith, is to abandon and close up a part of the line.

In this connection it may not be amiss to observe as showing how public opinion is attempted to be

alone, of advancing the interest of the Common-wealth and the public generally?

Again—the third section of the bill provide that "should any association of individuals no less than thirteen in number, being citizens of this Com-monwealth, become the purchasers of the said monweath, necome the purchasers of the satural Main Line on the terms prescribed by this act, the faith of the State is hereby pledged to grant them a charter as liberal in its provisions as that of the Pennsylvania Rail-oad to enable them to control and manage the same." And the 6th section provides that they shall give security equal to one tourth of the purchase money, to be approved of by the Governor. The result of which would be, if individuals purchased, even if they performed all required to be done on making the purchase, they would then, and might be for years afterwards, without a convenient and a practicable mode and means, 'to enable them to control and manage the same,' and might never get the same unless they charged with several forgeries, About \$9000 same," and might never got the same unless they agreed to pay a three mill tonnage tax, on a line, said by those most active in pressing its sale at present, to be not worth more than half the amount required to be paid for it, if the whole of it is to be kept up. The effect of this, whether intended or not, must necessartly be to prevent individuals from hidding at all. The Act of last year for the sale of this Line, provided that the purchasers on making the purchase, should have a chartor granted to them, and thereafter be a body corporate and politic; and most cortainly any law for the same purpose now, should contain the same provision. purpose now, should contain the same provision.

THE CASE OF DR. BEALE .- A motion having the motion was delivered on Thursday by Chief

Justice Lewis: S. T. Beale vs The Commonwealth.—This is a motion for the allowance of a writ of error, tuon, has been rejected. It also appears that instead of being sentenced to "solitary confinement at labour," he was gentenced to "imprisonment ing Advertiser, Lord Dandonald's plan for destroy-labour," he was gentenced to "imprisonment ing Cronstadt has been accepted by the British at hard labor.'

The form of a juror's oath, prescribed by law, solemnly points his conscience to the evidence as the only legitimate foundation of his verdict. It is deemed proper to hear argument on the question whether another another form may be substituted, which might be understood as leaving the juror at liberty to act upon other considerations than the

A few days since I paid a visit, in company with some friends, to a large green-house, owned by one of our citizens, devotedly attached to flowers. A short description of some of the botanical curiosities we witnessed, may not be uninteresting to some of your readers. The green-house is divided into a number of different apartments, and covers a space of ground about one hundred by forty feet. We first account of the room specially set apart for the cultiva-

ers with blossoms.
Our city finances are getting in a terribly disor Our city innances are getting, in a territry disordered state. All the money in the Treasury hasbeen spent, and \$300,000 loaned from the Banks has also been expended, and the Legislature has been appealed to to grant permission for another loan of \$500,000. No wonder, however. Since the 1st of January, 1855, Councils have made appropriations to the amount of over \$4,500,000, while the receipts from all sources for the year are estimated by the to the amount of over \$3,000,000, while the correction all sources, for the year, are estimated by the Controller at but \$2,226,197. The Police department of the City alone requires for its support \$500,000 nnunny. The Old Pine Street Church is about to be exten-

The Old Pine Street Church is about to be extensively repaired. This edifice was erected in 1760, and is interesting from revolutionary associations.—During the occupancy of this city by the British troops in the War of Independence, it was used by them at one time as a stable and at another as a hospital. It has had as pastors some of the most distinguished divines which the country has produced, one of whom was Dr. Duffield, one of the Chaplains of the Revolutionary Congress, Dr. Ely, and Dr. Alexander, afterwards of Princeton.

A woman up town was burned to death recently in a shocking manner. No one was in the house with her but two or three small children, and it is supher but two or three small children, and it is sup posed that she was sleeping before the fire, when by some mischance her clothes became ignited. When she was scarce awakened, she rushed to escape, bu in her fright, apparently mistook the door leading to the street. About that time her husband came home and seeing some evidences of a configration, broke open-the door, and although his wife was then still alive, he was unable to extinguish the flames in time

Mady of our Firemen, even those who belong to accepting Companies, refuse to serve under the present Ordiunance; and in the event of a serious fire, scarcely more than one-third of our recent fire organization would be engaged in subduing it.

Our markets have not recently undergone any important change. Beef cattle sell at the exhorbitant rate of from \$11 to \$13. Flour commands \$9,75 to \$10 per barrel. Rye Flour, \$6,75; Corn Meal, \$4,50; Wheat for from \$2,40 to \$2,62; Rye, 1,33; Corn, \$93,96c; Oats, \$8,58,59. Corn, 95a96c.; Oats, 58a59c.

Truly Yours, A TOTAL WRECK .- on the 1st of January, 1854, a gentleman doing business in New York, was worth, what he had invested in business, \$110,000. At the same time he was blessed with a lovely and intelligent wife, beautiful and promising children: He was ean's Island, are cheaper at, and better worth \$8,000,000, than the whole line would be at \$4,000,000 or even less, if the purchaser should be at surrounded by friends who esteemed and repromised to continue. Indeed, his position as well as his prospects were seemingly, all that he could desire to render his happiness perfect. How complete the wreck which the year closed upon! The first misfortune was the transfer of merchandise to the amount of \$18,000 to a California dealer, for which not one cent was ever received. The next were two successive robberies, by means of which \$25,000 were lost. Soon after this, the unfortunate made an investment in real estate to

Can this have been done with a view, children, and fortune, all gone—swep from the children, and fortune, all gone-swep from the face of the earth-nothing left to show that they ever existed! We doubt whether, among the many wrecks which the past year has witnessed, there has been among them one

more melancholy than this. An Ohio defaulter, named John M Shrock, the absconding treasurer of Holmes eounty, Ohio, arrived at New York, on Wednesday, or board of the steamship Union, from Havre, in custody of a policeman. He was arrested in Germany, of which he is a native. He is about 60 years of age. Of the public funds he carried off about \$20,000, and is also of the money was found in his possession, mostly in drafts, the payment of which was stopped.

The steamship Baltic arrived at New York or Friday, bringing later news from urope. The Russians have greatly strenthened their works opposite the main points of the allied attack, and some of their works n progress are in such a position that it is thought the allied Generals will be obliged to order an at-I tack. At a council of war, held by the allied commanders on the fourth, it was resolved to commence active operations. The health of the troops was satisfactory. Reinforcements have reached the Russians. In wery instance have the Pills proved successful. The Pills in Wirkship open those obstructions to which families are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pains in the side, pulpting of the heart, leathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the pills will invariably remedy all those evils.

N. B.—These Pills should never be taken during presuncy, as they would be sure to cause a miscarriage.

THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION, BY DR. A. M. MAURICEAU, PROFESSOR OF DEFEATER OF WOMEN. One Hundredth Edition. (500,000), 18mo., pp. 250.

[ON FIRE PAPER, EXTRA ENDING, \$1.00.]

A standard work of established reputation, found classed in the catalogues of the great trude sales in New York-Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time FIVE HUNDRED THOUSAND COPIES ONE HUNDRED THOUSAND SENT BY MAIL, attesting the high estimation in which it is held as a re-liable popular Medical BOOK FOR EVERY FEMALE

the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter. Here every woman can discover, by comparing her own symptoms with those described, the nature, character; causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and solvice, and also explain many symptoms the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are

hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfars of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will aveid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by elsepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining your children.

In consequence of the universal popularity of the work, as evidenced by its eitherodinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreputitious infringements of copyright, and other detected and deceptions, it has been found necessary, therefore, to

CAUTION THE PUBLIC ip buy no book unless the words "Dr. A. M. MAURICKAU, 129 Liberty Etreet, N. Y.," is on (and the entry in the Clerk's Office on the back of) the title page; and buy with the presentable and honorable dealers, or send by ### Upon receipt of One Dollar "THE MAR-HED WOMAN'S PRIVATE MEDICAL COM-PANION" is sent (maded free) to any part of the United Extes, the Canadas and British Provinces.
