ST. LOUIS CORRESPONDENCE. Installation of Mayor King—Patriotic Office Seekers—Boats Sunk—Kansas Election—Gov.

Seekers—Boats Sunk—Kansas Election—Grov. fixeder—Jowa Election—Senator Dodge, &c.
Sr. Louis, April 16, 1855.
We have enjoyed delightful weather during the past week. Business is brisk, and our city is still thronged with country merchants. Local news of any particular interest to your readers is rather measure. meagre.
On Tuesday last Mr. King, our new Know-Nothing Mayor, was installed into office and delivered his inaugural address before the members of the City Councils. He is of the opinion that native born cit-zens should fill the offices under our government—that adopted citizens should quietly pay their taxes, and not interfere with the management of our nuand not interfere with the management of our nu-nicipal affairs, believing that the Know-Nothings are numerous enough to fill all the places (that pay well) in this city, and that he will endeavor to carry out the principles of Know-Nothingism to its fullest ex-tent.

But one or two appointments have as yet been But one or two appointments have as yet been made, and "patriotic" office seekers are thicker than stubbles in a wheat field, and petitions, with any conceivable number of "patriotic" names attached, are circulated throughout the width and breadth of the city, praying the "patriotic" Mayor for this and that office. We never had so many "patriotic" American citizens in search of place and position before, and I should not be astonished if these "patriqtic" aspirants would quarrel among themselves before the "patriotic" fire burns out.

The steamer EI Paos struck a log near Booneville, on the Missouri river, and sunk. The Banner State has also sunk in the Missouri river since I last wrote. The Belle Goulding is reported to have struck a snag The Belle Goulding is reported to have struck a snag in the Mississippi, below this city, and sunk. The A. L. Shotwell sunk a few days since on the Ohio river, but later accounts report that she has been raised again. No lives were lost on either of the

The recent election in Kansas Territory has been The recent election in Admission of the returns a one sided affair, if we may judge from the returns published in the papers of the Missouri river towns. The vote polled was unexpectedly large in comparison to the number of actual settlers. In the town of Lawrence, and district, which embraces the greater bulk of those sent out by the "New England Emi-grant Aid Society," the Pro-slavery vote far exceeds that of the Free Soil—the former polling 778, while that of the Free Soil—the former polling 778, while the latter reaches but 255 votes—giving the Pro-slaveryites 523 majority. Other districts show a still greater preponderance of Pro-slavery votes, and, where, too, it was confidently expected that the Anti-slaveryites would have a large majority of the votes polled. In Douglas district there were 330 Pro-slavery against 6 Anti-slavery, and so on throthe whole territory as far as the returns have been received. Thousands of emigrants passed through this city last summer for Kansas, (accounts of which I then communicated to you,) but where these men were on election day, or what they did for those who sent them there, is not shown, unless they have turnsent them there, is not shown, unless they have turned recreant to those who have furnished them the means to purchase and build up their new homes by voting against their instructions, and themselves for

voting against their instructions, and themselves for negro labor, and negro buyers and sellers.

A little light on this subject will no doubt be a consolation to Horace Greeley and the "Massachusetts Emigrant Aid Association." There certainly was a much larger vote polled than the population of the Territory will admit of, and the question very naturally arises—where did it come from? A few words will explain. Our up country towns turned out the stufi, and from all appearances "layed their pipe" where it was most needed. Missourians crossed the line by the hundreds, and voted at the election. Where the Anti-slavery settlers were the strongest. the line by the hundreds, and voted at the election. Where the Anti-slavery settlers were the strongest, there the pipe was laid the thickest, and the consequence is Missouri heas gained the victory! When these Missouri voters returned from their disgraceful mission, they were greeted to their homes by the firing of cannon, and paraded through the streets of their respective towns with the American flag floating over them, cheering and boasting of their unmanly and fraudulently achieved victory! Missouri has triumphed and not the Pro-slaveryites of kinisas, for every body knows that a majority of the actual settlers are opposed to slavery.

the actual settlers are opposed to slavery. Gov Reeder, it is said, has given certificates of election to the men who claimed the highest number of votes. But two Anti-slaveryites have been lected—one in the Council and one in the House. This speaks bad of Kansas ever being a Free State. whole Territory) but 408 are Anti-slavery.
Gov. Reeder did his duty, and used every possible means to have a fair and honest election among the means to have a fair and honest election among the settlers, but the slave-lashers of Missouri overpower-ed him and took the law into their own hands, and nade it to subscrive their own base ends.

We have received but few additional returns of the

ove election, but the probability is that the Inde-pendent-Whig-Abolition-Know-Nothing State ticket is successful, and that the Liquor Law has been car-ried by a large majority. Questions of a local char-acter, and not of a political nature, predominated in that State, and consequently the result is no test of religibility targeth. nsequently the

Mr. Dodge, who has recently been appointed Minister to Spain, left his residence in Burlington, Iowa, a low days since for New York, from thence to proceed immediately on his mission to Spain.

Great preparations are being made for the expedition to the Plains—the troops are put en route as rapidly as possible. Several companies departed about the middle of last week, and a much larger force will leave to-day for Fort Leavenworth, from which place they will start in a body. Some idea may be formed of the extent of this expedition from the expenditures in its outfit. 5,000 barrels of flour have been purchased at \$12 per barrel, which is only one of the many items it will require. Alas! the poor untutored Indian.

poor untutored Indian.
Our city now offers a fine field for farmers—everything is exhorbitantly high—eggs are selling at 20 cents per dozen; potatoes \$2,50 per bushel; and chickens from 35 to 40 cents each. Broadstuffs of all kinds bring high prices, and there is no prospect of a decline for some months to come.

The Auditor of the State of Illinois gives notice

that he is redeeming the notes of all suspended Banks of that State at par. The notes of all the Free Banks of Wisconsin, are also passing at par.

The Examiner, published at Jefferson City, in this State, has hoisted the name of Gen. Atchison, (Ex-Senator from Missouri) for the Presidency in 56! I should rather think Presidential material is getting scarce, if George Law, Gen. Ranney, Gen. Atchison, Simon Cameron and Gov. Johnston are the stuff out of which to manufacture a head for this

The Glasgow Times says that every boat down The Glasgow Times says that every boat down brings more or less returning Kansas emigrants on their way that—some in the cabin, some on deck, or as hands or freemen. This paper says that these emigrants have expressed themselves "thoroughly disgusted with Kansas." One poor fellow swore by the Eternal that he only wanted to live long enough to get back and thrash the scoundrels who had deluded him into coming to Kansas. The Times hopes that health and strength will be spared him!

Yours, OLD GUARD.

Speaking of this recent enactment of our Know-Nothing Legislature, the West Chester

Republican says:
We have no disposition to go into an analysis of this law, but shall quietly abide the results produced by it. We belong to a class, anti-quated and old fogyish if you please, who do not believe that legislation can make drunk-ards sober men. You may take away one more deleterious than its predecessors.

stimulant but another will step into its place formed inebriates take to opium and other drugs as they abandon spirituous liquors. But there is a band of reformers belonging to the present era who think they can evangelize the world by passing laws to that effect, and they will never rest satisfied until they have had trial of their favorite specifics. We are disposed to let them have things their own way, and the result will be, we have no doubt, what it has ever been, a failure.

The Maine law is referred to as successful in its operations. We know nothing practi-cally of its workings in the state where it orig-inated, but we do happen to have some knowl-edge of how it succeeds in the state of Rhode Island where it is just as fully on the statute books as in Maine. We spent three weeks in that state two summers since, and it was set at defiance there, utterly. question proposed to the proprietor of the Bellevue Hotel, Newport, R. I., as to whether the Maine law was not in force in that state? He replied in the affirmative, but said he, "the sage is, that before the law was enacted we paid a license for our best? ifference that we perceive since its paslicense for our hetels, and now we pay none!" This was the result there, and if the people of this state shall be more law loving abiding than their neighbors in Rhode Island we shall be gratified. We are opposed to multiplying laws to be broken, because the result will be that no laws will be obeyed af-

r a time. But we repeat these reformers are determined to carry their point and it is probably as well to let them have their wishes gratified. The sin of drunkenness is a fearful one, but there no heavier denunciations against it than the sin of *unbelief*. The unbeliever and the drunkard are both under the same condemnation, and the doom of the latter is just as certainly fixed as the former. The hearts of men are to be purified by a divine religion, before any moral change can be counted on as in any degree reliable. Suppose you induce a man to forsake the cup that inebriates, and he remains a scoffing infidel, a gambler, or a row—what brighter eternal interests cluster around his pathway? None whatever,

In case of an unfavorable termination of the Conferences, it is said by a dispatch from Berlin, that Prussia will side with Russia, as the Russian party is predominant there. The latest conflict occurred on the night of the 23d, when 3000 were killed and

Dr. KENNEDY, of Roxbury has discovered, in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple

Ho has tried it in over 1100 cases, and never failed except n two cases, (both thunder humor.) One bottle will cure scaly corruption of the skin.

Two to three bottles are warranted to cure the worst ase of ringworm. Two to three bottles are warranted to cure the most desheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and
perfect cure is warranted when the above quantity is

taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every cree.—
So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold another; after a trial it always speak for itself. There are two things about this herb that appear to me surprising; for that it crows in our natures, in some places with

of humor.

In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it. Some of the wholessle Druggirts who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine great and wouderful virtues have been found in it that I never suspected. ever suspected. Several cases of epileptic fits—a disease which was al-

For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the side, Diseases of the Spine, and particularly in disease, of the Kidneys, &c., the discovery has done more good than saw modifican eyer known.
