David M. Alchison.

St. Louis, April 30, 1855.

The weather up to last Thursday continued clear and very warm, but since has been somewhat cooler. Vegetation is coming forward rapidly, and the fruit and grain crups in this vicinity promise an shundant yield. We have also favorable accounts from the adjoining States in reference to the prospect of the coming narvest. Dur money market is easy for all legitimate purposes of trade. Freights to New Orleans are very inga—cocasioned by the scarcity of boars, and the large amount of produce and merchandize awaiting transportation. The rivers are in fair condition, and business generally continues good. The health of our city is unusually good for the season of the year. The interments for the past week reach but 65; out of this number 24 were children under five years of age. Various rumors have found circulation that the cholers is again in our midst, but from all that I can learn, but few cases have occurred in this city. However, the boats in the upper Mississippi river have lost some of their passengers from this dreaded disease. The steamer Montank buried seven of her engirent passengers. passengers from this dresded disease. The steamer

passengers from this dreaded disease. The steamer Montank buried seven of her emigrant passengers between Keokuk and Dubuque, and the koyal Arch seventeen during her last trip to St. Paul.

The trial of Edward Milligan, for purloining letters from the U. S. Mail, was in progress during the past week, and on Saturday the jury rendered their verdict of "not guilty," and the prisoner was discharged. I did not believe him guilty from the very day he was arrested, and this decision of the jury is what every body anticipated. The Judge has always stood above suspicion in this community, and the most implicit conndence was placed in him for his honesty, integrity and futhfulness in the discharge of his official duties, in whatever capacity he has heretofore occupied.

A striking illustration of the rapid growth of the commerce of St. Louis is seen in the amount of duties collected at this port on foreign imports. The future greatness of this city is apparent from the comparative figures given below, which proves conclusively that St. Louis is destined to be the greatest. Commercial city west of the Alleghenies:

The duties collected for the months of August, September and October, 1645.

For August, September and Octo-

ber, 1645. \$2,643 34

For August, September and October, 1654. 262,650 38

A difference of over \$260,000 a quarter!

The work on our new Custom House is rapidly going on. The foundation is already completed, and a strong force is daily at work upon it. This building, when completed, will not only be of great usefulness. but an organization or city, and a monufuiness, but an ornament to our city, and a monu-ment to the rise and progress of the people of the Valley of the Mississippi.

ment to the rise and progress of the people of the Valley of the Mississippi.

A man named Henry Coons, eighty one years of age, committed suicide by shooting himself with a pistol, a few days since, in this city. No cause is given for the dreadful act, but he is supposed to have been suffering under derangement of the brain, occasioned by a fall some time since.

The steamer Texana was burned to the water's edge, in the lower Mississippi, a short time since.—
The bont and cargo are reported as being a total loss. The Fanny Fern, while on the Upper Rapids, was caught in a gale which dismantled her of all her upper works. The cabin and everything above her main deck was blown into the river. The pilot and passengers all went overboard, but fortunately no one was lost. The steamer Wm. Knox was burned on the Ohio, and, it is said, several liv.s were lost.

It appears that the hirelings who went to Kansas, and carried the election to sunt themselves, are not yet satisfied, and have issued a proclamation to the effect that Gov. Reeder is not a suitable person to administer to the wants and necessities of the settlers of that Territory, and consequently they had set apart the 25th inst., as a day for the election of a Governor, whose name will be presented to President Pierce, as the choice of the settlers, for his approval. This proclamation purports to come from the settlers of Kansas, but no names are attached to it, and from this fact it bears the impress of another fraud perpetrated, without doubt, by the Missouri cohorts, who but recently disgraced themselves, and the State, in their unlawful and monstrous outrages upon the people and the ballot box of Kansas Territory. The proclamation calls aloud for the removal of Gov. Reeder, and as there is not a paper in this State, possessing independence enough to expose this foul charge and dastardly attack upon the Chief Executive of this new Territory, it might have some weight and influence with the Cabinet, at Washington. Therefore, let it be remembered, that it is but another artifice of deception, to draw the wool over the eyes of the President, by making him believe that it is the wish of the actual settlers that Gov. Reeder should be supplanted, and a member of their own band of negro Skinners seated in this area. It appears that the hirelings who went to Kansas Reeder should be supplanted, and a member of their own band of negro skinners seated in Gubernatorial own band of negro skinners seated in Gubernatorial chair, who will lend his influence in crushing the people of the North who emigrate in their midst. It is all a stratagem on the part of this Missouri banditti, to hold Kansan Territory in their own hands, and use the Governor as a cat's paw, to subserve and further their schemes of corruption and fraud upon and use the tovernor as a cat's paw, to subserve and further their schemes of corruption and fraud upon the people. Gov. Reeder has faithfully and manfully discharged the duties imposed upon him, and is held in high estimation by those over whom he presides. No such proclamation ever came from the settlers of Kansas, but on the contrary from the Pro-Slaveryites of Missouri, and it should be treated by the President as such, and hurled back into their teeth, with all the scorn and contempt it so justly merits and deserves. The people of kansas are satisfied with their Chief Executive and want no other—no man would suit them better, and President Pierce would be doing a great injustice, both to the people and the Governor, by entertaining, for a moment, any proposition, that might come from these unlawful men, and violators of the ballot box. He would be conierring a great benefit upon the State at large, were he to silence them by a few of "Uncle Sam's" troops. A meeting was held in Kansas Territory, by the Pro-Slaveryites of Missouri, and David R. Atchisco was unanimously declared their first choice for the Presidency in 1856! It might house R. Atchison was unanimously declared their first choice for the Presidency in 1856! It might have been that Davy has contributed largely, out of his own pocket, towards bringing about the recent result of the election in that Territory, and this honor has been conferred upon hims birrand larged.

I beg leave to call the attention of the public to the following letters from physicians:

"Lawrent by New York, May 2, 1353,

"Mg. Ubolino Wolst-Bay Sir: I cannot speak too highly of the purity of your schiedam schnapps. It is decidedly superior to anything of the kind in the market—It is perfectly free from the admixture of fusil oil, or of any of those arrylic compounds which produce such a mischie-vous and irreparable effect upon the constitution, and which very few samples of alcoholic distilled liquors ar-without—most of them being largely impregnated with it. nave personany inspected the various processes of distillation practised at Schiedam, and know that unusual care is taken to separate the the noxious elements from the pure alcohol, and your Schiapps is a striking proof of its success. As a medicinal agent for chronic and renal affections, I have successfully prescribed it, and recommend it as an agreeable cardial and harmless stimulant, and shall continue to do so as well as to use it as a source of pure alcohol for chemical investigations and experiments.

Dr. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of Schnapps as a remedy in chronic catarrhal complaints, &c. The letter is dated July 27, 1853:

"I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genitourinary apparatus. With much respect, your obedient servant,

"PHILADEPHIA, July 18, 1853.

"Mr. UDOLPHO WOLFE, No. 22 Beaver st., N. Y.—bear Sir Last season the writer received, through your agent in this city, a bottle of your Aromatic Schiedam Schnapps, and since that period has prescribed the same in certain forms of urinary complaints, also in cases of debility in aged persons. So far, the Schnapps has been of much benefit to those using it. * * In conclusion, where a diu-etic and stimulant is required, I should use the Aromatic Schiedam Schnapps. Schiedam Schnapps. Thanking you tor your kindness, I san respectfully yours,

The subjoined letter from Dr. Paine, oi Manchester, N. H., relates to one of the most valuable medicinal properties possessed by the Aromatic Schnapps, and shows that it acts as a specific in a very painful disease—the Grawel:

"Mr. WOLFE:—Permit me to address you a few lines, which you are at liberty to use if you think proper, in respect to your medicine, called Schiedam Schnapps. I have had a very obstinate case of gravel and stone, of some five years' standing, causing very acute pain in every attempt to urinate. After using many remedies without much relief, I was induced to try a bottle of your medicine. In the course of three days it proved effectual, dislodging large pieces of stone, some of which were as a marrowfat pear. I continued the cordial, according to directions, and the patient continued to cordial, according to directions, and the patient continued the cordial, according to directions, and the patient continued the cordial, according to directions, and the patient continued the cordial, according to directions, and the patient continued the sortinued to gain, and is fast recovering. I think a medicine of so much value in so distressing a complaint, should be known to the public, and the world think a medicine of so much value in so distressing a complaint, should be known to the public, and the world at large. And I, for one, must give it my approbation and signature.

From Dr. John S. Reese, Chemist, Baltimore, Md., September IS, 1852:

"A number of our physicians are ordering the article, and several have already prescribed it. Persons to whom I have sold it speak very highly of its qualities. A gautleman of my own personal acquaintance, having suffered greatly with an affection of the kidneys and bladder, took two bottless, and subsequently passed a stone of considerable size, and was greatly relieved. It will, no doubt, go into general use."

A HOME. WITHIN THE REACH OF EVERY MAN BY PAYING \$1 A WEEK—ONE MORE OPPORTUNI. TY!—Building Lots at \$\$5, payable one dollar a week-located for the most eligible and improving part of Lancaster. In situation they are immediately within the improvements, fronting upon the best main streets, as follows:—Chesnut, Waihau, Fulton, Marion, Aun, Franklin, Marshall and Marion streets. A more desirable and beautiful locality cannot be found by persons wishing to save their money or have a pleasant home of their own near their business. It is a known fact that in this direction property within the past two years has rapidly improved, and either for the purpose of an invastment or residence cannot be excelled. An opportunity is now presented to all industrious persons to obtain a home and a freehold upon terms which were never before offered, and at a price which for cheapness is unprecedented. The Logs being payable in the small sum of one dollar a week, every workingman has a chance. He would scarcely miss the outlary, whilst he would be paving his way to a competency.

There can be no better means of economizing than this; the ground is purchased at its present value, and judging from past experience and the past ratio of increase, it will be worth by the time it is paid for, three times its present price. At that time a man can have a Lot of his own and rid himself of his landlord, or by means of these small savings scarcely noticed, together with the accumulation of profits, have a sum sufficient to start him in business. Many who have made fortunes would never have-been worth a cent, if by accident or otherwise they lad not made a commencement and gathered together a small sun; and subsidiary to this we may well say, that the foundards and such as commencement and gathered together a small sun; and subsidiary to this we may well say, that the foundards and such as commencement and gathered together a small sun; made a commencement and gathered together a small; and subsidiary to this we may well say, that the foution of wealth is investment in real estate.
