Jackson, C. H., Jackson City, O., 20th Nov., 1852.

Dr. J. C. ATER.—Sir: The CHERRY PECTORAL is much in-quired after. Several of our best physicians have used it, three of them in 'their own case, and always with the happiest effects. The numerous patent medicines al-ways before them, lead to incredulity in regard to every new remedy; and it is only after undoubted evidence of val-ue in any article, that, anything like a general confidence can be excited.

Dr. J. C. Ayer, Dear Sir—Over application for the past three years to my duties as an advocate brought on some eight months ago a severe irritation of the brought of some which was a constant annoyance to me, and fast becoming a source of great apprehension. Every remedy tried, falled even to relieve me, till I used your CHERRY PECTORAL—This has not only relieved me, but as I trust, wholly cured me. I care nothing for the reprutation of Advocating Patent Medicines, and this is at your service. I shall recommend it to members of the bar, and others whom I may meet, laboring under similar indispositions.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME

A cure for Consumption, Coughs, Colds, Asthma, Bronchitis, General Debility, and all Scrofulous Humors. This compound has been used with the most complete success by our most celebrated physicians, for the removal and permanent cure of the above disease. Hundreds for whom there was no hope before the discovery of this simple, yet effectual remedy, have been raised to health and happiness by its timely use. The following case of J. Williams is sufficient to convince all of its wonderful effects. He says, I had been sick with confirmed const antion for several months. I had used the clear Cod L. ver Oil most of the time, but had derived but little benefit from it. I had an attack of bleeding at the lungs, which alarmed my friends very much, as they now supposed there was no hope for me. About this time I heard of your Compound of Cod Liver Oil and Lime. I immediately commenced using it, and soon began to perceive its beneficial effects. In two months my cough had entirely left me, and I am now enjoying perfect health.

Valuable Invention .- A rare chance is now of Y fered to business men to realize a fortune.

A new feature has been opened up in the manufactur
of Flour, which must we think at once revolutionize th of Flour, which must we think at once revolutionize the old process, and go into use all over the land. By the ingenuity and skill of Edwin & James M. Clark, they have brought about a complete Merchant Flouring. Mill which is adapted to the wants of the whole world, and which is applicable to every locality. By this invention, the monopoly of milling herotofore carried on by heavy capitalists is completely breaken up and a complete. Merchant Flourier oly of milling heretofore carried on by heavy capitalists is completely broken up, and a complete Merchant Flouring Mill is brought within the reach of any person having a few hundred dollars. The consequence of which will behandered sand thousands of these Flouring Mills will be put in operation in all parts of the Union; it being applicable to any power, from a four-horse up to any other desired. It can be placed in a room with other machinery, and the small space it occupies not to be missed—being only 2! feet long by 4 feet wide, embracing within this small compass all the machinery, and turning out two barrels of superfine Flour per hour. It is perfectly portable, a horse and dray, at a single load, being capable of hauling it from one location to another; thus making it truly the most valuable discovery of the present age.

It can be seen in full operation at the Barrel Factory, on Duke street, a few steps north of the Railroad, in the city of Lancaster, Penn'a. 50,000

LANCASTER, 1st month, 20th, 1855.

Having seen in operation Edwin & James M. Clark's newly patented combined Grinding and Bolting or Merchant Flouring Mill, on the 1rth inst., 1 am free to state, that I believe it to be a valuable improvement in the conversion of wheat into Flour, for several reasons:

1st. In the operation referred to, the Mill ground and bolted 3 bushels of wheat in 17 minutes, by the watch which I held in my hand, and making Flour of a superior quality, and cleaning the bran about as well as is usually done by the common mills when doing grist work.

2d. The small space it occupies, and the comparatively small expense requisite to put up a Mill of that kind, after the power to propel it is obtained, strongly recommends it to the attention of those about to erect a Flouring Mill.

3d. To those engaged in the milling business, I would respectfully say, that the improvement is well worthy their attention. From the fact that the mill referred to is capable of performing double or treble the work usually done in common grist mills, with less or no more power than they now use in their mills—and lastly, on a close inspection of the mills and its operation. I was satisfied that it was capable of doing more work in the same time than which I saw done at the time referred to.

Jos. S. Longshor, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphiv.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of disease of the Gental Organs, some of them of long standing, have came under my notice, in which standing, have came under my notice, in whi is skill has been manifest in restoring to perfect nealth, in cases where the patient has been considered beyond medical aid. In the treatment of Semnal weakness, or disarrangement of the functi that weakness, or disarrangement of the functions produced by self-abuse, or excess or venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of carry indiscretion, to recommend him as one in whose professional skill and integrity they may safety confidence themselves. ALFRED WOODWARD, M. D.

"This is without exception, the most comprehensive and intelligent work published on the class of diseases of which it treats. Avoiding all techniques. nical terms, it addresses uself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it into the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and, with too little breath to puff, and too little presumption to imose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice."—Herald.

Dear Sir: You ask me for my opinion of "Sil ver's Mineral Paints," which you have put on m Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chim neys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncov-ered was entirly consumed, while the painted part vas apparently sound, though upon examination he wood was found to be charred; the Paint how ver was firm and but little blistered. sep 20 A Stong test of two of Evans & WATSON'S Salamander Safes—Late Light Street Fire. Messers. E. & T. Fairbanks & Co. Gentlemen! We take much pleusure in recommending your Salaman-der Safes to merchants and others who may desire to purchase with a view to the preservation of their ooks and other valuables. The Safe we purchased

of you in July last, and manufactured by Evans & Watson, of Philadelphia, remained in the fire at the burning of our store until the entire stock was The heat was intense, as you may suppose, as there was about seventy barrels of liquor in the store, on the nextfloor over the safe, besides some seventy thousand pounds of rags, rope, and other combustible matter. We had the safe opened after the fire had ceased, and found our books and

papers periectly preserved.

Please get us up another of your Safes, of the same size, for our future use, as soon as possible, and oblige,
