has not acted a part commensurate with his previous peaceable and law-abiding sentiments.

If he did not sanction the fraud practised upon the Settlers of Kansas, why does he not like a good citizen,—with the influence he profeses to command—denounce in unmeasured terms the conduct of this lawless mob, bringing disgrace and reproach upon the State and the Nation! Why, as a good citizen of Missouri, does he lit quietly in his seat and witness the laws of his own State trampled under foot? And why, as a christian, does he permit his voice and his influence to be witheld when an inoffensive and peaceable citizen is having his property forceibly taken and buried in the Missouri river, and his life threatened with the halter and dagger? Gen. Atchison is not acting the part he should, and the people in this vicinity, as you might suppose, are very much astonished.

OLD GUARD. Yours, SCHAMYL AND HIS SON.

Within the last few months, Schamyl has been rejoiced by the return of his son, who eleven years ugo, when of tender age, had the misfortune to be taken prisoner by the Russiar.s. Since then Schamyl had not heard of the boy, and long ago gave him for lost. It appears, however, that when he was captured, the Russian General, Prince Woronzon, sent him to St. Petersburg, where the late Emperor took a liking to he lad, and had him educated in the Military Academy.

It happened last year that Schamyl, in some sudden surprise, took several Russian ladies prisoners, among whom was the Princess Tascharawaddy. They were conducted to one of Schamyl's induntain fastnesses, and confined there as prisoners of war but treated with the respect and decorum due to their rank and sex.

The Governor General of Tiflis sent a flag of truce to Schamyl to demand the release of the captured ladies, offering a large sum of money and the liberty of several Circussian ladies, who had been made prisoners by the Russians. But Schamyl replied that if his son were alive, and the Russians would restore him, he would release all the lady captives. The Emperor Nicholas sent for young Schamyl, gave him his liberty, and fitted him out with he needful equipments to undertake the long journey. The exchange took place in the end of January. Young Schamy, who, when at St. Petersburg, was not required to abjure the Moslem creed, has profited by his involuntary sejour at the Russian apital, and has now returned to his overjoyed father an accomplished cavalier, with a comparatively civilized edu-cation. It is said that he entertains great gratitude to the Emperor for his personal return to his native mountains may have an effect on the future mode of Circussian war-fare, and the introduction of more civilized manners, and customs generally, among his

countrymen.

The following was related by one of the Prussian officers of the 6th Cuirassiers, (Emperor of Russia,) who were sent, in the year 1852, to St. Petersburg, as a deputation from the regiment to congratulate the Czar on his having been five and twenty years Colonel of that corps. Nicholas, who received the offi-cers with marked distinction, took them in propria persona to inspect his different mili-tary establishments, and among others, to the School of Cadets, where all the lads were drawn up in a long hall. The Emperor, closely followed by the Prussians, stopped before one of the youngest cadets, patted his cheeks with both bands, and then lifting him kiesed him most affectionately. Then, turning to the Prussians, he said: men, you will never guess who this lad is. He is the son of my most bitter enemy, the Cireassian chieftain, Schamyl, who has placed him under my care for his education. ______

Boston, May 10. Case of Junge Loring.—In the House, this morning, a message was received from Governor Gardner, respectfully declining to remove Judge Loring. The message is rathe The House refused to refer it to the Committee on Federal Relations, but ordered it to be laid on the table, and 5000 copie

A majority of the Governor's Council are adverse to his decision, retaing Judge Loring; and though it appears to give general satisfaction to the people here, it will probably act against the future political prospects of overnor in the State at large. The Senate to day passed to a third reading the personal liberty bill, which nullifies

fuzitive slave law. COUNTERFEIT DOUBLE EAGLES.—A well made counterfeit of the \$20 gold pieces is now in circulation. It is precisely the same circumference of the coin, but it is not as thick. It is valued at \$13,50. The coin may be detected by observing the word "sold" small raised letters, on the bottom of the

INDIAN CORN.—The crop of Indian Corn in 1860, as estimated by the Cincinnati Rail-coad Record, will amount to at least nine aundred millions of bushels. The increase from 1839 to 1849, in the production of this great sta ple, was at the rate of 58 per cent. at the latter period measured 592 071,104 bushels; a less per centage of increase therefore, would make the crop of 1860 what has been allowed for that year. Two thirds of this immense yield will come from the Ohio Vallev and its prolongations, embracing Western Pennsylvania, Western Virgidia, Ohio, Ken tucky, Tennessee, Indiana, Illinois and Mis-

twenty millions of bushels of corn; and it is easy to see that when the habit of using corn throughout western Europe shall become universal as that of tobacco and potatoes—the export of this article must be enormous. There are but few parts of Europe in which Indian corn can be grown, and the great supply must come from this country. It is reckoned that at no distant period this country will be exporting annually one hundred and fifty millions of bushels of Indian corn, which ald bring into the United States \$100,000,-000, and prove a greater source of substantia wealth to us, than the gold mines of California. LAST MOMENTS OF THE CZAR.-Dr. Man-

During 1854 the United States exporte

dit, the physician who attended the Czar Nicholas in his last illness, has published a circumstantial account of the closing scenes of the monarch's life. "At ten minutes past three," says the doctor, "he asked me, after I had mentioned the name of his father confesnad mentioned the finite of his finite contessor, 'must I then die? I answered, 'yes' sire.'
Not a muscle of his face moved, not the least quickening of pulsation. 'How,' said he,' 'can you find the courage thus to doom me to death: to tell me so to my face?' 'Firs t, said I, 'by so doing, I fulfil a promise made to you a year and a half ago; the moment of which you then spoke to me, alas! has come moreover, I thus fulfil a duty to the Emperor You have several hours to live; you are in fullpossession of your faculties, and can di rect them at your will—at least I believe so. Lastly, sire, I love you, and this is not the moment to conceal the truth, which I am sure you can hear to hear. His countenance became serene, and he stretched out his hand, saying, 'I thank you! Such was the Emperor!"

PRESIDENCY OF LIBERIA.—The Presidential election in Liberia was to have taken place on the 1st inst. President Roberts had declined a re-election. Edward J. Roye and Stephen A. Benson were the opposing candidates. Roye, some ten years ago, was a barber at Terre Haute, Ind., and on emigrating to Liberia became a successful merchant at Monrovia. He has been a member and Speaker of the House of Representatives of that Republic; was candidate two years ago for the Presidency against President Roberts and is now editing and publishing a paper in that country. He is said to be pure African Benson emigrated to Liberia He is the principal merchant at Bassa Cove highest Courts of Liberia, and is now Vice President of the Republic. He is represented as a man of talent, and of great popularity.

THE HISS CASE.—The committee appointed to investigate the conduct of Mr. Hiss, a mem ber of the Massachusetts Legislature, on the visit of the Numbery Committee to Roxbury, Worcester and Lowel, submitted a lengthy report on Tuesday. They find nothing specially censurable in his conduct in his visits to Roxbury or Worcester, but are very severe on his relations with Mrs. Patterson at Lowel. and recommend his expulsion from the House.

The report was accepted. On Friday, the House, by a vote of 137 to 15 passed a resolution expelling Mr. Joseph

names, from all parts where the PHIs have been used, but widenes even more convincing than the expificates of these eminent public men is shown in their effects upon trial.

These PHIs, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined to gether in such a maliner as to insure the best results.—This system of composition for medicines has been found in the Cherry exceed and PHIs, both to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of aerimonious and injurious qualities; by this, each individued virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance complyed ara left behind, the curative effect should prove as they have proved more purely remedial, and the PHIs a sure; core powerful antitots to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attonding Physician, and as he could not properly judge of a remedy without known in its composition, I have supplied the accurate Formula by which but my Pectoral and PHIs are made, to the would be taken if their composition was known? Their life consists in their mystery. I have no mysteries.

Of all the Patent Vedicines that are offered, how few would be taken if their composition was known? Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject. Freely schowledge their convictions of their intrinsic ment. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine be

I beg leave to call the attention of the citizens of l'enn-lvania to the above article, manufactured by myself ex astrely, at my Factory in Schiedam, in Holland, expresssylvania to the above article, manufactured by myself exclusively, at my Factory in Schledam, in Holland, expressly for medicinal purposes. It is made from the best Barley that can be selected in Burope and the essence of an aromalic italian berry, of arknowledged and extraordinary medicinal properties; and it has long since acquired a higher reputation, buttin Burope and America; that any other distatic betwenge. In Gravel, Sout, and Elementies, in Obstructions of the Baddies and Kidneys, and Beblitty of the Urstarry Functions; its effects are prompt, decided, and invariably reliable. And it is not only a Remedy for these maladies, but in all cases in which they are produced by detaking Bad Water, which is, almost universally, the cause of them, it operates as I Sure Perventive.

The distressing effect upon the Stomach, Bacels, and Badder, of travellers, new residents, and all persona unaccustomed to them, produced by the waters of nearly all oins grays inlaind friers, like the Otho, Mississippl, and Alabama; from the large quantity of decayed vegetable maters, contained in them, in a state of salution, is well known; as is also that of the waters of limestone regions, higher directive of all these injurious properties of hed water, and consequently prevents the diseases which they occasion. It is also found to be a cure and preventive of Feer and Ague, a complaint caused by the conjective facts of vegetable maintain in the atmosphere, and vegetable put resences in the waters of those districts in which it principally prevails. The AROMATIO SCHIEDDAM SOIMAPPS is consequently pravents the ideases which they occasion. It is also found to be a cure and preventive of Feer and Ague, a complaint caused by the conjoint effects of vegetable maintain in the atmosphere, and vegetable put resences in the waters of those districts in which it principally prevails. The AROMATIOSCHIEDAM SOIMAPPS is consequently in great demand by persons travelling, or about to settle in those parts of the country especially; as well as by

vegetable malaria in the atmosphere, and vegetable putressness in the waters of these districts in which it principally prevalls. The AROMATIO SCHIEDAM SCHNAPPS is consequently in great demand by persons irrevelling, or about to settle in those parts of the country especially; as well as by many in every community where it has become known, on account of the various other remedial properties. More than three thousand physicians, among whom are numbered the greatest names belonging to the faculty of medicine in this country, have certified, over thair own signatures, to the vetatable medicinal properties of such an article, as the several tests have proved the SCHIED DAM AROMATIC SCHINAPPS to be, and have accepted it as a most desirable addition to the materia medica.

**Mr. Uddles of Volfe, No. 22Beaver st., N. Y.—Duar Sir:
Last season the writer received, through your agent in this
city, a bottle of your Aromatic Schledam Schnapps, and
direc that period has prescribed the same in certain forms
of urinary complaints; also in cases of debility in aged persous. So far, the Schnapps has been of much benefit to
those using it. * * * In conclusion, where a diucitic and stimulant is required, I abould use the Aromatic
Schledam Schnapps. Thanking you for your kindness. I
am respectfully yours.

The subjoined letter from Dr. Palne, oil Manchester, N.
H., relates to one of the most valuable medicinal properties
possessed by the Aromatic Schnapps, and shows that it
acts as specific in a very painful disease—the Gravel:

"Mr. Wolff:—Permit me to address you a few lines,
which you are at liberty to use if you think proper, in respect to your medicine, called Schledam Schnapps. I have
had a very obstinate case of gravel and stone, of some five
years' standing, causing very acute pain in every attempt
to urinate. After using many remedies without much
rollef, I was induced to try a bottle of your medicine. In
the course of three days it proved effectual, dislodging
large pieces of stone, some of which were as a marrowfat
pea. I continued the cordial, according to directions, and
the patient continued to gain, and is fast recovering. I
think a medicine of so much value in so disrections, and
the patient continued to gain, and is fast recovering. I
think a medicine of so much value in so tistressing a
complaint, should be known to the public, and the world
at large. And I, for one, must give it my approbation and
signature.
