Jackson, C. H., Jackson City, O., 20th Nov., 1852

Dr. J. C. Arre, Sir: The Gerry Provosal is much inquired after. Several of our best physicians have used it, three of them in their own case, and always with the happlest effects. The numerous patent medicines always before them, lead to incredulity in regard to every new remedy: and it is only after undoubted evidences of value in any article, that anything like a general confidence can be excited. an be excited.

The unrivalled excellence of this combination of agents in the Christy Pzetoral.) proved beyond cavil by repeated rial under their own observation, has compelled medical son to proclaim abroad its usefulness. It is beyond all loubt the best general remedy we have for the Pulmonary lifections of this climate, at the same time time sedative nd expectorant—a rare combination of properties.

In the hope that it will prove its own reward, I subscribe syself,

Respectfully your obt. servant,

JOHN R. KELLOGG, M. D. Yours truly,

JOHN R. KELLOGG, M. D.

Let gentlemen of the Legal Profession mark this case.

Williamsburg, L. I., Sep. 3, 1852.

Dr. J. C. Ayer, Dear Sir—Over application for the past three years to my duties as an advocate brought on some eight months ago a severe irritation of the bronchial tubes which was a constant annoyance to me, and fast becoming a source of great apprehension. Every remedy tried, falled even by relieve me, till I used your CHERRY EXCRORATION.

This has not only relieved me, but as I trust, wholly cured me. I care nothing for the reputation of Advocating Patcare nothing for the reputation of Advocating Pat-ellcines, and this is at your service. I shall recom-it to members of the bar, and others whom I may laboring under similar indispositions. Yours truly, R. F. JONES.

South Paris, Me., Aug. 18, 1850.

I have no hesitation in saying, that I regard Aven's Carter Pecroal as decidedly the best remedy within my knowledge for the cure of chronic bronchitts, coughs and all diseases of the lungs.

Montgomery, Ala., Oct. 4, 1849.

Dr. J. C. Ayer, Dear Sir-I have used your admirable compound extensively in my practice, and find it to surpass; by far, any other remedy we have for curing diseases upon the lungs.

Your obt. servant,
R. B. JONES, M. D. M. B. JONES, M. I.

What yet remains to convince the most incredulous that the Cherry Pectoral is all that it purports to be viz: an unequalited remedial agent for all diseases of the Throat and Lungs. The experience of years, has proven it to be such and we submit it to the people believing that its virtue will fully maintain its reputation.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME. 

A cure for Consumption, Coughs, Colds, Asthma, Bronchitts, General Debility, and all Scrofulous Humors. This compound has been used with the most complete success by our most celebrated physicians, for the removal and permanent cure of the above disease. Hundreds for whom there was no hope before the discovery of this simple, yet effectual remedy, have been raised to health and happiness by its timely use. The following case of J. Williams is sufficient to convince all of its wonderful effects. He says; I had been sick with confirmed constantion for several months. I had an attack of bleeding at the lungs, which alarmed my friends very much, as they now supposed there was no hôpe for very much, as they now supposed there was no hôpe for attack of bleeding at the tungs, which harmed my triends very much, as they now supposed there was no hôpe for me. About this time I heard of your Compound of Cod Liver Oll and Lime. I immediately commenced using it, and soon began to perceive its benedicial effects. In two months my cough had entirely left me, and I am now enjoying perfect health. Truly yours,

J. WILLIAMS.

Taluable Invention .- A rare chance is now o V fered to business men to realize a fortune.

Note that the manufacture is now feature has been opened up in the manufacture of Flour, which must we think at once revolutionize the ld process, and go into use all over the land. By the inculty and skill of Edwin & James M. Clark, they have genuity and skill of Edwin & James M. Clark, they have brought about a complete Merchant Flouring Mill which is adapted to the wants of the whole world, and which is applicable to every locality. By this invention, the mono-oly of milling heretofore carried on by heavy capitalists is completely broken up, and a complete Aferchant Flouring Mill is brought within the reach of any person having a few hundred dollars. The consequence of which will be— bounded had thousands of these Flouring Mills will be hundreds and thousands of these Flouring, Mills will be put in operation in all parts of the Union; it being applicable to any power, from a four-horse up to any other desired. It can be placed in a room with other machinery, and the small space it occupies not to be missed—being only 21 feet long by 4 feet wide, embracing within this small compass all the machinery, and turning out two barrels of superfine Flour per hour. It is perfectly portable, a horse and dray, at a single load, being capable of hauling it from one location to another; thus making it truly the most valuable discovery of the present age.

Lancaster, Ist month, 20th, 1855.

Having seen in operation Edwin & James M. Clark's newly patented combined Grinding and Bolting or Merchant Flouring, Mill, on the l'ith inst., I am free to state, that I believe it to be a valuable improvement in the conversion of wheat into Flour, for several reasons:

1st. In the operation referred to, the Mill ground and bolted 3 bushels of wheat in 17 minutes, by the watch which I held in my hand, and making Flour of a superior quality, and cleaning the brau about as well as is usually done by the common mills when doing grist work.

2d. The small space it occupies, and the comparatively small expense requisite to put up a Mill of that kind, after the power to propel it is obtained, strongly recommends it to the attention of those about to erect a Flouring Mill.

3d. To those engaged in the milling business, I would respectfully say, that the improvement is well worthy their attention, from the fact that the mill referred to is capable of performing double or treble the work usually done in common grist mills, with less or no more power than they now use in their mills—and lastly, on a close inspection of the mills and its operation, I was satisfied that it was capable of doing more work in the same time than which I saw done at the time referred to.

Gentlemen: It affords me infinite pleasure to bear testimony to the great value of your Metallic Burial Cases.—For durability, I think they cannot be surpassed, and their great beauty is so far superior to the ordinary coffin, that it seems to rob death of much of its gloom and terror. I had the honor to accompany the remains of Henry Clay from this city to his home in Kentucky, and the beautiful case you had the kindness to present to the committee, whilst it willstood the severest test of transportation, was the object of admiration of all who saw it.

pleasure my full and hearty recommendation of it s a preventive of Fire communicating from Chimas a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint how-ever was firm and but little blistored. sep 20 A Stong test of two of Evans & WATSON'S Salamander Safes—Late Light Street Fire. Messers. E. & T. Fairbanks & Co. Gentlemen! We take much pleasure in recommending your Salamander Safes to merchants and others who may desire to purchase with a view to the preservation of their books and other valuables. The Safe we purchased of you in July last, and manufactured by Evans & Watson, of Philadelphia, remained in the fire at the burning of our store until the entire stock was

The heat was intense, as you may suppose, as there was about seventy barrels of liquor in the store, on the next floor over the safe, besides some seventy thousand pounds of rags, rope, and other combustible matter. We had the safe opened at ter the fire had ceased, and found our books and papers periocitly preserved.

Please get us up another of your Safes, of the same size, for our future use, as soon as possible, and oblige,
