THURSDAY, May 24, 1855. The steamship America, arrived at Halifax to-day at noon. She left Liverpool on the 12th inst., bringing a few days later dates but

little news of any importance.
THE MARKETS.—The markets were not very active. Flour and Wheat being in limited demand and quoted at former rates. The demand for corn was more brisk and was selling at a slight demand.

THE WAR.—No event of importance trans-

pired since the last advices, in the Crimea.—
Some skirmishing was taking place daily, but
not affecting the position of either party.—
The public sentiment of England had resolved itself into the conviction that the war must be a very protracted and bloody one. The hope that Austria would take side with allies, is pretty generally abandoned, so that Austria would take side with the England and France, with the little support they get from Turkey, must fight the battle

From California. The Steamship Geo. Law, arrived at New York on Thursday afternoon. She left California on the 1st inst., and brings over a millirn and a quarter in gold, together with a large amount in the hands of passengers. The news is generally uninteresting. The papers are filled with accounts of murders, lynchings and other crimes. The Legislature has pas ed a law levying a capitation tax of fifty dollars on every Chinaman arriving in California. Business is dull—the reports from some of the mines encouraging, and the markets inactive and without change.

A yer's Pills.—A new and singularly successful remedy for the cure of all lillious diseases—Costiveness, Indigestion, J au ndice, Dropsy, Rheumatism, Fevers, Gout, Ilumors, Nervousness, Irritability, Inflammations, Headache, Pains in the Head, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevalist besidest it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend te become or produce the deep seated and formidable distampers which load the hearses all over the land.—Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exatted position and character as to forbid, the suspicion of untruth.

position and character as to forbid, the suspicion of the truth.

Among the emineut gentlemen to whom we are allowed to refer for these facts, are
Prof. Valentine Mott, the distinguished Surgeon of New
York City.

Doct. A. A. Hayes, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Ira L. Moore, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. Southwick, Esq., one of the first merchants in New York City. II. C. SOULINIES, 1851, one of York City.
C. A. Davis, M. D. zup't and Surgeon of the United States
Marine Hospital, at Chelsea, Mass.
Did space permit, we could give many hundred such
names, from all parts where the Pills have been used, but
avidence even more convincing than the certificates of
these eminent public men is shown in their effects upon
trial.

these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical selence can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results.—
This system of composition for medicines has been found in the Cherry Pectoral and Pills, both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonous and injurious qualities by this, each individual virtue only that is desired for the curative effect is present. All the linest and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is selvevident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should

purely remedia, and the medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have supplied the accurate Formula by which both my Fectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mait to his andress.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than relized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stouach, bowles, liver, and other organs of the body, restoring their irregular action to health, and by correcting whenever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

Tor. Charles A. Leas, Commissioner of Health, Baltimore, writes as follows in relation to the value of Schnapps as a remedy in chronic catarrhal complaints, &c. The letter is dated July 27, 1853:

"I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genitourinary apparatus. With much respect, your obedient servant,

"Mr. UDOLPHO WOLFE, NO. 221 Maver st., N. Y.—Dear Sir: Last season the writer received, through your agent in this city, a bottle of your Aromatic Schledam Schnapps, and since that period has prescribed the same in certain forms of urinary complaints; also in cases of debility in aged persons. So far, the Schnapps has been of much benefit to those using it. * * * In conclusion, where a diteit and stimulant is required, I should use the Aromatic Schledam Schnapps. Thanking you tor your kindness, I am respectfully yours,

A. D. Chalonen, M. D., 180 South Eighth st."

The shujoined letter from Dr. Paine, ol Manchester, N. H., relates to one of the most valuable medicinal properties possessed by the Aromatic Schnapps, and shows that it acts as a specific in a very painful disease—the Gravel:

"Mr. WOLFE:—Percuti we to address you a few lines, which you are at liberty by use if you think proper, in respect to your medicine, called Schiedam Schnapps. I have had a very obstinate case of gravel and stone, of some five years' standling, causing very acute pain in every attempt to urinate. After using many remedies without much relief, I was induced to try a bottle of your medicine. In the couries of three days it proved effectual, dislodging lar
