ST. LOUIS CORRESPONDENCE. The Weather, Business, &c.—Local—Balloon Ascension—Arrival of Gov. Reeder—Arkansas Gold Mania, &c., &c.

Sr. Louis, June 25, 1855. There has been a great deal of rain in the past week, and it is reared too much for the farmers, as they are now busily engaged cutting their grain, which promises well. New Wheat has been offered

they are now busily engaged cutting their grain, which promises well. New Wheat has been ofered in our market, and several lots were sold a few days since to a miller—at auction—at \$2,65 per bashel, but this is an outside rate, and no criterion of the market price. The weather has been warm and shiwery, and business generally is steadily falling off. An immense rise is reported in the Missour river, which will somewhat revive the depressed condition of trade—particularly in the article of Hemp and Tobacco—as from that source the greater proportion of these staple articles are brought forward.

The choiera has entirely disappeared, and the health of our city is unusually good.

A child seventeen months old fell from the third story window of its father's residence upon the pavement below, and strange to say, escaped from death and only received a slight bruise on the hip. The little feitow is apparently as well as ever.

On Ariday evening last, Mr. Elliott, the Aeronaut, made an ascension from the "Carr place," in the suburbs of the city, in the presence of a large number of our citizens. The gas used on the occasion was that manufactured from the oil of vitral, and a great deal of time was consumed in the inflation of the balloon, and the anxious multitude began to think the affair was a failure, when Mr. Elliott observing the uneasiness of his auditory, explained that he hag not yet a sufficient quantity of gas to carry ring the uneasiness of his auditory, explained that need not yet a sufficient quantity of gas to carry the weight, but would detach his basket, &c. At

ate hour he cut off the basket and tied the cords together for a seat, and on this frail support he gave the order to "cut her loose," which was done, and in a few moments the Balloon and the voyager were in the upper air. The people gazed with astonishment, and every moment apprehended a fatal catastrophe. A fair breeze wasted him with great velocity immediately over our city, and when about a mile and a half high, and over the western part of the city, he appeared to be stationary for about fir-teen minutes, and thousands of eyes were turned teen infuties, and thousands of eyes were turned towards him. After being up about an hour he descended, and in attempting to gain terra firmac came in contact with a tree; which somewhat injured his balloon, but alighted without any injury to mimself about five or six miles from the city. In

greatest height he attained was two miles and a half, oon appeared to be the size of a hat.—
st beautiful ascension I ever beheld during the whole time in sight of our citizens until behind the hills and crees in the distance. Mr. Brooks, another Aeronaut, is to make an as-cension on Wednesday afternoon from 'Hyde Park.' It is to be much regretted that Mr. John Wise never me to this city to make an ascension. It would have been the most profitable trip he ever made—
It might not be, however, too late yet, and should
he come about September it would without doubt
pay him for his trouble.

Notwithstanding the letter writers at Washington City, have been bothering their brains as to the procable solution of the Kansas question, and the utter annihilation of Gov. Reeder and the officials generally of that Territory, he has nevertheless outlived them all, and is again on his way to assume the duties as Chief Magnerate of the Territory of kansas. He spent several days in this city and departed on the Polar Star, on Tuesday evening last, accompanied by G. P. Lowery. Esq., of Permeytvania. It is said that Mr. L. is to be the private sceretary to the Governor, in place of John A. Haldeman, who intends to resign, and runor says will be a caudidate for Clerk of the Senate.

Gov. Reeder will receive a hearty welcome from the settlers upon his arrival, and his presence at this time is greatly needed in the Territory. The Governor, since his departure cast, has been most shamefully villaced and calumniated by the paid hirelings who conduct the Pro-Slavery press of this State. He has been misrepresented and maticiously slandered, and placed in a false position before the Administration at Washington, but I am happy to perceive that the Cabinet very justify treated their uncalled for complaints against Gov. Reeder came from the Pro-Slavery mobocrats of some of the counties of this State; and their recent proceedings were proof sufficient to stamp their pleadings and petitions with infinany and contempt. The settlers of Kansas and the law-abiditing people of this State sustain Gov. Reeder, and his course receives the approbation of the whole country. We now look for a more peaceable and favorable condition of things in the future, and these mobocrats and violators of the law will hid their heads in shame, but the disgrace they have brought upon the State will cling to them for dde their heads in shame, but the disgrace they have brought upon the State will cling to them for

Notwithstanding our patriotic Mayor, issued his proclamation that all shops and stores should be closed on the Sabbath day, yesterday's Herald contained an fiddivit from the bar-keeper of a drinking Saloon, in which he testifies that Mayor King on Sunday night of t. e 17th inst., called at the counter for liquor and that he the bar-keeper refused to give it to him, to which the Mayor replied that "it was de-d hard a person couldn't get anything to drink."

Thus, you see the "King' himself would have trampled the law under foot, were it to satisfy his own appetite and thirst for a "gin-cocktail!" how then, can it be expected that the law will be regarded when the chief executive of the city is among the first to set it at defiance? Know-Nothingsan is a glorious thing—Secrecy a convenient thing—law a vagary, and a "gin-cocktail" a wholesome thing to a Know-Nothing Mayor of a Sunday-night! If you have contracted the terrible assesse, which whon once seated in the system, will surely go down from one generation to another, underthining the constitution and sapping the very vital fluids of life, do not text you self in the hands of Quacks, who start up every day in a city like this, and find the papers with garing Inselbods too well calculated to decaye the young and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

THE FLUID EXTRACT BUCKU has been pronounced by emilient Physicians the greatest remedy over known. the selection of a remedy in these cases.

THE FIUDI EXTRACT BULLIU has been pronounced by eninent Physicians the greatest remedy ever known—it is a medicine perfectly pleasant in its taste and tery-incoent in its action, and yet so thorough that it annihilates every particle of the rank and pot-sonous virus of this dreadful disease, and, unlike other remeans, it does not dry up the disease in the blood.

Constitutional beblitty, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brightant mopes of parents, and objecting in the but the gorious ambition of many a noble youth, can be cured by this finallitle remedy. And as a hapticine which must benefit everybody, from the simply kiencate to the confined and capairing invalid, no equal is to be found, acting both as Cure and Preventive.

HELMEDLYS HIGHLY ONCENTRATED COMPOUND FLUID EXTRACT SARSAPARILLA, for puritying the Blood, removing all diseased arising from excess of Mercury, exposure and imprudence in the, chrome constitutional disease, arising from an impure active of the Blood, and the only reliable and effectual known remedy for the error of Scrotola, salt fineum's head fread, terrations of the Skin.
