ST. LOUIS CORRESPONDENCE. The Weather, Grops and the Market-First. Train from the Wabash, over the Ohio and Mississippi Kaitroad-More Balloon Ascensions-Bencon-tre between Gov. Reeder and Stringfellow at Westport-Gen. Pierce and his Cabinet, &c., &c. Sr. Louis, July 2, 1855.

57. Louis, July 2, 1855. The weather has been quite warm since my last report—the thermometor ranging from 85 to 98° in the stande—yesterday, however, was pleasant, and a delightful breze was attirring thronghout the day.— The market and business generally is very duil.— The harvesting has commenced in this and the neighboring States, and some new wheat has been offered in the market, and brought considerably above its intrinsic value. It was purchased by mi-lers who were anxious to manufacture the first flour neighboring States, and some new Matca has been offered in the market, and brought considerably above its intrinsic value. It was purchased by mil-lers who were anxious to manufacture the first flour of the new erop, and upon which, as a matter of course, they did not realize the price paid for grain. I met Mr. I. F. Lightner, of your county, on 'Gnange the other day, examining samples of wheat, corn, oats, barley and ryo-flour, seeds, beans and every other article of the market. Everything is sold on 'Unange by sample, which can be seen at any hour during the day. Mr. L. coming from a county where the very best grain is raised, and being a far-mer himself, took particular pains to examine the various kinds theoroghly, and pronounced them, with the exception of corn, very inferior to that raised in the kast. The same pains are not taken in the thrashing and cleaning of the grain id this contry, as is observed by the farmers of the Eastern States, and consequently the grain appears dirty, and a considerable proportion of it is heavily mixed, which, 'of course, does not command the price it otherwise would. I will in a future letter speak more at length of the farming interests of the West, in which here is ample room for improvement, both in the working of the soil and the quality of the grain. when, of coulse, due to constant the series are more at length of the farming interests of the West, in which there is ample room for improvement, both in the working of the soil and the quality of the grain. Since the commencement of harvest, prices have de-clined in nearly every ar icle, and hemp is now selling from \$50 to \$150 per ton, as in quality and condition of tots. Flour is worth from \$5,50 to \$12 per bbl.; Wheat \$1,20 to \$1,70, and some new crop sold at \$2 per bushel. Corn 60 to 72c.; cats 49 to 52c.; nothing doing in rye, and barley is unsaleable; pork is worth from \$12,50 to \$17 per bbl.; shoulders 7 to 74; rib sides 5 to 54; hanns 8 to 9e as in quality; lard 8 to 93; sugar 54 to 64; molasses 31 to 34c per gallon; coffee 11 to 114; salt \$1,60 to \$1,65; whiskey 31 to 32c; butter 12 to 13c; eggs 12c; new hay is sell-ing at 50c per 100 lbs; new potatoes \$2 per bashel --very few old in the market. The rivers are in fair navigable condition, excepting the Upper M is

a) to bbc; butter 12 to 100; eggs 120; hew may is self-ing at 50 eper 100 lbs; new potatoes \$2 per bashel —very few old in the markot. The rivers are in fair naviguble condition, excepting the Upper M is-sissippi, which is extremely low. The health of our city continues good, and no cases of cholera have been reported in the past week.
A dispatch was received in this city, on Saturday, from V incennes, 1.0., stating that the last rail was laid that morning between the above named place and this city, and that the first train of cars would pass over the Ohio and M ississippi Railroad in the afternoon, and reach St. Louis at half-past seven in the evening. Our citizens immediately made pre-parations to welcome the "Iron Horse" in a becom-ing manner, and upon the train arriving ät Illinois-town, opposite this city, one hundred guns were fired in honor of the arrival of the first train from the Wabush ! A largo number of our citizens crossed the river to witness the reception. Vincennes is now connected with an iron chain to St. Louis, and on Thursday next regular trains will commence run-ming upon the Ohio and M ississippi Railroad. In the early part of last week the Linseed and Castor Oil Manufactory of D. I. Latourette, in this city, was entirely consumed by fire. The loss in the machinery and stock is estimated at S40,000, and on which there was no insurance. The building be-louged to Francis P. Blair, Jr., and was fully in-sured. The babloon mania seems to be taking hold of the

The balloon mania seems to be taking hold of the people in good earnest. Mr. Brooks made a fine ascension on Wednesday, and another on yesterday —Sunday from Hyde Park. Mr. Elliott endeavored with the State but when the hour arrived.

-Sunday-from Hyde Park. Mr. Elliott endeavored to 'go up' on Saturday, but when the hour arrived-for him to depart for the upper regions, it was found that he had not sufficient gas, and consequently re-funded the money to his greatly disappointed audi-tory. He makes another trial this week. A dispatch received in this city, speaks of a per-sonal rencontre at Westport, in this State, between Gov. Reeder and a Mr. Stringfellow. No particu-lars are given, and the probability is no serious damage was done to either party. There appears to be a strong disposition on the part of *some* of the citizens of this State to have Gov. Reeder removed, and the Washington correspondent of the Republibe a strong disposition on the part of some of the citizens of this State to have Gov. Reeder removed, and the Washington correspondent of the Republican says that his conserve has been springed of the Republican says that his conserve has been springed as ingular game as regards Gov. Reeder's position, and the part he acted relative to the fraudulently conducted election in Kansas Territory. Why not put to rest, at once, the question whether he has been sustained or not by the Administration? A little of then't acknows have been subtained or not by the Administration? A little of then't acknows have a server is required just now. Let Gov. Reeder alone; he is just the man for the place and the times—his opposition comestifier will show this remark to be based upon facts, and clothed with truth. A ta military celebration in Illinois Col. Win. A. Richardson was proposed as the next Democratic candidate for Governor of that State. The Colonel is a strong man and would poll a large vote.

is a strong man and would poll a large vote. I see it authentically stated that the census of t of State of Illinois is to be taken during the present month. Every body has heard of Geo. H. Chapman-

Every body has heard of Geo. H. Chapman-"crow, Chapman, crow"—of the Indiana Republi-can; he has lately withdrawn from that paper, and the Democracy of Indiana have lost an able and vigor-ous writer, but it is to be hoped we may again tear that Shanghai voice during the campaign of '56. Corn is selling in Mississippi at \$1,75 per bushel, and at the lately discovered Gold Mines in Arkan-sas, meal is scarce at \$10 per bushel. Good weath-er, however, from now on to the end of the wheat harvest throughout the country will be worth far more to the people generally than a year's product of the mines of Cathornia and Australia. The widow and family of Col. Davy Crocket have recently moved to Tayes Evils country and was sold

Arrival of the America. One Week later from Europe-Heavy decline in Cotton.

HALIFAX, N. S. July 5-A. M. The royal mail steamship America, Capt. Lang, from Liverpool at 10 o'clock on Saturday alternoon, the 22d ult., arrived at this port yesterday afternoon, and sailed shortly after for Boston, where she will be due at an

early hour on Friday morning. DEFEAT OF THE ALLIES-TERRIBLE SLAUGH-TER .- The allies have made an unsuccessful attempt to storm Sebastopol. The most un-pleasant rumors prevailed in regard to the transaction. By some accounts the English loss is set down at four thousand men, but the report is thought by some to be exaggerated. The following are the only official notifica-

tions of the event: " hord Panmure regrets to have to announce that he has received information that the Engish troops attacked the Redan and the French the Malakoff Towers, at daylight on the morn ng of the 18th, without the success which has itherto attended our efforts. Both the Both the French and ourselves have suffered considera-The names of the officers who have fal n will be forwarded immediately, but it will be impossible to receive complete returns of all the casualities before the 30th inst. (June)

at the earliest." The Moniteur announces that the govern ment has received two despatches from Gen. Pelissier : the first, dated the 17th, informs of operations concerted between the General and is allies, and that the Turks and Chasseurmade a reconnoisance towards Aitodar, Genor-al Bosquet occupying the Tchernaya. The next day, at daybreak, the French and Eng lish were to attack the Malakoff Tower. The second despatch, dated the 18th, an ounces that the atta k had failed, and that, although the troops had showed the greatest ardor, vi had gained a footing in the Malakoff Tower, General Pellissier was obliged to order the

retirement into the parallel. This was effected with order and without molestation by the enemy. Private accounts, published in the Londor

Standard, say that the loss of the British offi-cers in killed and wounded amounts to no less From the obstinacy and courage with which the combat was maintained by the British at the Redan, and the necessity of eventually retiring from the attack, the slaughter on both

sides has been immense; and if the informa-tion be correct, the loss in killed and wounded of the British alone amounts to very little short of 4000. The greatest portion of the ss was experienced in a ravine, where a pow erful and unexpected hattery was opened on the troops. There is reason to fear that the loss has been very great, but Lord Palmerston said last night no additional information has arrived. The Allies lost terribly by the Rus

sians springing a mine, and during the confu-sion they recaptured the Mamelon Tower. Previous advices were to the 17th, stating nat there had been smart firing on both sides,

but without any result of importance. A despatch from Bucharest, via Vienna. onfirms that an expedition has been under taken against Perekop. Pelissier is exceed-ingly savage against the telegraphic messages apoleon sends him. He is reported to have Napoleon sends him. The is reported to have recently replied that, when anything occurs, he will let the Emperor know, but that he has not time to act as a telegraph operator.--This, according to rumor, accounts for the recent absence of news in the Moniteur.

Additional Foreign News by the America a Halifax-The Loss stated to be from 4000 to 5000 men.

Boston, July 6. The London Herald says that the English troops carried the outworks of Redan, but vere stopped in their progress by a deep trench, where they were exposed to a murder-ous fire from the Redean as well as from the Malakoff tower, whose guns enfilated the outworks of the former. The ships in the harbor were also laid

broadside on, pouring shot into the retreating troops. The British loss is stated to be from fou

to five thousand, including forty officers. The London Times does not profess to g the particulars of the battle, but says the loss

s believed to be greater than at any previous action. Many officers, distinguished for ther gal lantry, busides Sir John Campbell, were killed.

while the French lost two general officers, with the service. The London News intimates that the Government is in possession of fuller intelli-gence which it withholds.

Bryger of THE LATE EATTHOTATE AT BALTI-NORE.—The only effect which has come to our knowledge, is a sinking of the earth in the yard of the turning establishment of Mr. James 8. Sater, on Frederick street. Before the earthquake is to knowledge ledge was had of any break in the yard, but on the following morning it was discovered that there was to be again turned to the state of the cont House, in et al 2 octock, P. M. JAMES C REVAULOS EFFECT. OF THE, LATE EARTHQUAKE AT BALTI-NORE.—The only effect which has come to our knowledge, is a sinking of the earth in the yard of the turning establishment of Mr. James B. Sater, on Frederick street. Before the earthquake in know-ledge was had of any break in the yard, but on the following morning it was discovered that there was a hole about twelve inches in diameter, though larg-er below, and about fiften feet deep. It has been partially filled up, but the hole is still there, and can be seen by any who feel curious on the subject. Whether it was the result of the earthquake or other cause is not certainly known, but it was not discov-ered until after the convulsion of the earth.—Amer-tcan.

of the mines of California and Australia. The widow and family of Col. Davy Grocket have recently moved to Texas, Ellis county, and are said to be in rather straitened circumstances. The Dal-las (Texas) Herald suggests that the Legislature make some provision for the reliaf of the widow and children of the old hero of the Alamo. The Directors of the Iron Mountain (Mo.) Rail-road have just closed a contract with Messrs. Wood, Morrell & Co., of the Cambria Ifon Works at Johns-town, Pa. for nine thousand tors of rails—sufficient it is believed to lay down the entire track. The iron is to be delivered at St. Louis for Scö per ton. A large emigration is now going into Minnesota. At the town of La Crosse an average of one hun-dred teams cross the ferry weekly. Three hun-dred teams cross the ferry weekly. Three hun-dred teams cross the ferry weekly is a straight fill-ing up by emigrants from Pennsylvania and Ohio. They are now erceting a splendid Catholic cathe-driven there by land. The territory is rapidly fill-ing up by emigrants from Pennsylvania and Ohio. They are now erceting a splendid Catholic cathe-dral at St. Paul, it is to be in Laneaster county. He took his departure on the Louisville packet in com-pany with F. P. Blar, Jr., Judge Krum, James Street and others, and the "Old Guard" wishes him a pleasant journey. Whils here he made the best of his time, and in all probability his mark ! Ho was met and escorted to the boat by a number of his Laneaster county friends, who very much regret his early departure.

his Lancaster county friends, who very much regret his Lancaster county friends, who very much regret r his early departure. An attempt is new being made in the city Coun-tions in favor and against their repeal have been presented, and they will probably be repealed du-ring the present week. Mayor King is notoriously unpopular, and the party to which he is attached is alike disgusted at him and themselves for being caught in such Know-Nothing and Do Nothing company, and in all probability will endeavor to revive the old Whig party under some other name. I have seen nothing to change my prediction in regard to the result of the approaching elections in Kentucky and Tennessee. P. S. Since writing the above I have been inform-ed that the balloon ascension at Hyde Park by Mr. Brooks proved a failure yesterday afternoon-Sun-

en that the barroon accession at hyde Park by Mr. Brooks proved a failure yesterday afternoon—Sun-day. It is said that there were four or five thousand day. It is said that there were four or five thousand people in and around the Park to witness the ascen-sion, and just as the hour of starting arrived, the balloon was seen slowly sinking to the ground, and Mr. B. announced to the multitude that it had bursted, and in a short speech requested all to call for their "quarters." In this case, as well as that of Elliott, the people were very much disappointed. I still think Mr: Wise would make a good thing of it, were he to vist us with his balloon. Yours, OLD GUARD. Accurates - A young lady named Lydia

ACCIDENT.—A young lady named Lydia Large had her clothing badly burned on the corner of Duke and East King, on the evening of the 4th, by the explosion of a rocket. Her person, however, escaped all injury. We learn that in the fright and excitement of the mo-ment the last her purse containing a small ment she lost her purse containing a small amount of money. As she is rather poor in circumstances the loss to her is considerable, and it is hoped the finder of it will return it to her without delay. A young son of Mr. Geiger in Duke street was considerably burned in the face by the

explosion of shooting crackers. We have heard of a great many accidents of

a similar character, but as the injury sustained 28th ult. was trivial, it is not necessary to mention them.

AN INGENIOUS GUN .--- We learn from the Sandusky Mirror that Mr. N. B. Neal, of Mt. Gilead, Ohio, has taken out a patent for a gun which with one barrel answers every purpose of a double barrel gun, and with two barrels can be discharged four times. The contrivance is simple, yet very ingenious, and must save time in discharging, prevent confusion in loading, and in the case of one barreled gun save the weight of one barrel. It amounts putting two measured charges in the barrel, and with two balls of the same trigger, the same hammer first discharges one load and then the other,"

The Know-Nothing Order has accom plished one good result—it has rid the demo-cratic party of a horde of rascally old "suckers"—hungry comorants who wanted to be kept in office all their lives, and disorganized whenever they were among the *outs*. We could put our finger on a number of such corrupt old rats, not a thousand miles from this office. We now see them figuring as presiding Church of the Messiah, in the presence of about 2500 office: We now see them figuring as pressing officers at Know-Nothing meetings. A pre-cious set of patriots truly 1. *They* talk of "the corruption of old parties!" Why there ain't a mother's son of 'em who would refuse to sell himself for an Assessor-ship. But some men are as destitute of shame as they are devoid of wincide. Right glad are we that they are principle. Right glad are we that they are compelled to hold open meetings. Honest democrats can see the fellows blush and point

the finger of scorn at them.-Easton Argus. on thinks that the apples will be so plenty that the inferior qualities will not be gathered at all, that is if the Prohibitory Law puts an ourse in the Church, it appears that they were end to the making of eider.

\_\_\_\_ A BOLD WAGER .- The Cleveland Herald of-A DOLD WARR.—Ine Clevenand Herald of-fers to stake its reputation for veracity, that flour will be down to \$6 50 per barrel in thirty days. It says the crops never looked better in the state of Ohio, and the prospect in their there will be the housest between these is that there will be the largest yield ever known in that State. There are thousands of bread-eaters who would rejoice to find the Herald win its wager, but however plentiful the harvest may be, the time is too short to realize the prediction. The first new flour of the season from Charleston was sold in New York a few days ago for \$13 per barrel.

ARREST OF A PRINTER, THE MURDERER OF THREE MEX.—John C. Jackson, some years ago a printer in the office of the St. Louis Reporter, and subsequently a compositor in

the Reveille office, has recently committed a murder in Lexington, Ky., for which he is murder in Lexington, ky, for which he is now in juil. A despatch received this morn-ing from Lexington states that he confessed having which one may here with a bowie knife in 1846, and that he also killed sherman Thurston in December, 1848, or January 1849. Jackson, it seems, has been detected in the commission of a burglary and larceny in the commission of a brightly and interfy in Gerard county, Ky., and evidence found in his possession proves him to have been connected with an extensive gang of thieves. It will be remembered that after he left St. Louis he gave currency to a report that he had died of cholera. He lived in San Juan

week. Vedder was a passenger on the cars, and refused to give up his ticket until he reached his destination, and the defendant, as

conductor, put him off. HORRIBLE.-A Mrs. Abashaba Ellafield, HORRIBLE.—A Mrs. Abasha ba Ellunied, wife of Thos. Ellafield, became deranged and left home, taking with her two small children, one aged about two years, and the other about four years. Search was made by her friends through the woods for a space of twenty days, when she was found in a frightful condition, and the two children wars found entury up ht and the two children were found eaten up by the dogs. They had evidently been killed, as the skull bones of each had been broken. The maniac mother is now in charge of a friend a couple of miles from this city, in Per.

township ... - Evansville (Ind.) Enquirer,

SUICIDE OF TWO LOVERS .- A melancholy tragedy occurred in Brooklyn, N. Y., on Wednesday of last week, in which two lovers were the actors. They had loved " not wisely, but two well," and resolved to end their earthly existance together, which they did by taking prussic acid. Both were found dead in each other's arms, on a lounge at the rear of the residence of the young man's parents, in Carleton Avenue. The woman's name was Sarah Williams and that of the young man, Horatio N. Gustin. The tragedy was made, by the people of the city, the subject of the most ridiculous excitement. In consequence of the father of young Gustin sending the ody of the female, whose true character was proba-

bly known to him, to the dead house to be buried, a morbid sympathy for the deceased woman was created, and a large subscription raised to give her a splendid funeral. An ex-Mayor of Brooklyn furnished a lot to bury her in, and on Thursday her fu-neral took place, with an astonishing display. The persons.

The body, richly dressed, and in a splendid coffin, lay in state, and the pastor of the church, the Rev. Mr. Walker, preached a discourse on the occasion, lamenting and glorifying the woman as a "martyr to the sacred passion of love." The same day the Coroner's investigation revealed the fact that the subject of all this parade had been for five years a public courtezan in New York city, Gustin being THE APPLE CROP.-The Rochester Union her paramour. Both went under assumed names.-Young Gustin was also buried on Thursday, and not says that a beautiful crop of apples will be gathered in Western New York. The orch-ards are said to be laden with fruit. The Uni-attaded his funeral. The cortege passed the church of

mostly ladies !

ndopted. Resolved, That the Pastors of the Evangelical churches of this city, be requested to have the above call for the formation of a City Bible Society, read from their respect-pulpits on the Sababh, and that the same be published in the newspapers of the city.
