BOOK FOR EVERY FEMALE the action baving devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of struction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms

which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular ities peculiar to the female system, which undermine the

health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (failing of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant arony for many months preceding confine-

ment. Many have difficult if not dangerous deliveries and slow and uncertain recoveries. Some whose lives ar hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fally the various subjects treated of, as they are of a nature strictly inended for the married or those contemplating marriage Reader, are you a husband or a father ? a wife or a mother? Have you the sincers welfars of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education

vour children. In consequence of the universal popularity of the work, as avidenced by its extraordinary sale, various imposi-tions have been attempted, as well on bookselters as on the public, by imitations of tile page, spurious editions, and correptitious infringements of copyright, and other devices and deceptions, it has been found necessary, therefore the second second second second second second devices and deceptions, it has been found necessary.

I have had a very obstinate case of gravel and stone, of some five years' standing: causing very acute pain in every attempt to urinate. After using many remedles without much relief, I was induced to try a bottle of your medicine. In the course of three days it proved effectual, dislodging large pieces of stone, some of which were as a narrowfat pea. I continued the cordial, according to directions, and the patient continued to gain, and is fast recovering. I think a medicine of so much value in so distressing a complaint, should be known to the public, and the world at large. And I, for one, must give it my approbation and signature. Thos, Pator, M.
