ST. LOUIS CORRESPONDENCE Weather and Business—Murder and Suiolde-Den of Gamblers Broken Up-Politics-Jame Buchana and William G. Butler-Weater Railroads—Kansas Legislature-Gov. Reeder rc., &c.

Sr. Louis, July 16, 1855. This has been one of the most delightful summer experienced in this section for many years. The mornings and evenings are quite cool and pleasant, while at mid day it is far from being as hot as at corresponding periods of previous seasons. Many of citizens, as is usual with them during the dull summer months, have gone to the Lakes and the sea shore to catch the cool breeze incident to those climates, but they will find the heat there quite as oppressive as they would have done had they re mained at the r homes. We have had several very heavy storms during the week just closed-the wind blew terribly and the rain fell in torrents, but no damage to life or property has as yet been an-

Business generally is dull. In the produce as well as the money market we have no change to report Wheat has not arrived as freely in the past lew days, and what has been thrashed by the furmers i ing kept back, and consequently millers are hold he price of flour, which still commands from w \$11,50 for extra. The day from tark. On abond ay last a nurder and suicide were com-mitted in this city, and the particulars are briefly as follows: A young lady by the nume of kmilly Biess-ing, who has no parents tiving, but was left to the guardhansnip of her brothers and a married sister who lives in this city. It appears that Linily was of rather dissolute habits, much to the mortification of her brothers and isister. One of the brothers on Monday last saw her at a house of bad repute; wont to a livery stable, hired a horse and baggy and drove to the door of this house, when, after some persussion, his sister got into the buggy and they drove to the doonstry. In the evening the brother returned without the sister, and his other brother and several of his friends spent the evening with him at the hotel-where he was stop-ping, and apparently in the most happy manner, as leveas bottes of champagne were uscussed, and house thisk piace. At a late hour they dispersed and leve young blessing at the hotel, to all appearances in the mast hanow mood. He was found in his room next morning a corpse, with his brains seat-tered about the moor and against the wall, with a tered about the noor and against the wall, with a revolver lying at his side. It was evident that he had committed self destruction, and not for some time atter the body was discovered, did any one dream of the fate of his sister. Inquiry was then made atter her, and when it was stated that they both lett that house together, and she had not been Seen since, suspicion was aroused, and a general search was made, when late in the aiternoor her had was found about some miles from the size. body was found about seven miles from the city.-She had on a pink dress and straw bonnet, and there but had out a plink dress hind straw bonnet, and they were two built holes through her h. ad, one pene traing above the right temple, and the other jus below the check-hole, the bail passing out through the left ear. At the Coroner's inquest it was prove that hve successive piscol shots were heard in tha direction on the evening previous. It is clear that it was his intention to hist take the life of his siste, and then bis away now the set but set but set. The evening provides. It is clear that it was his intention to hist take the life of his sister, and then his own upon the spot, but as his pistol was exhausted in sacrificing his sister, he was com-pelled to return to the city before putting his hata hesofation into effect. The same hand that sent the spirit of his sister into another world, released him also of all earthly trouble. Horribic as this ease is, he has been driven by a keen sense of honor, which is entitled at least to respect, to sacrifice his own life, and that of his sister, rather than live to see horself and ner relatives disgraced. Un Saturday the police made a descent upon a gambling use in this city, and took in custody about inteen or twenty "blacategs"—among whom were men both old and young, ittle and big, fat and lean, respectable and debauched. A faro Bank was also serzed and rouveyed to the Police Office. What disposition will be made of this gaug, is yet to be seen.

METHODIST PREACHER MOBBED IN MISSOURI. -A correspondent of the Chicago Press gives the following account of a disgraceful occurrence in Platte county, Mo., growing out of the Slavery question :

The Methodist Church North had an appointment for quarterly meeting near Forley.

The presiding elder, preachers and congrega-tion had assembled, and concluded the morning service, and were proceeding, when a mob of about eighty armed men made their appearance. The congregation, it being warm, were seated in the shade in front of the house, and the preachers were inside, when a certain doctor led the mob to the door, where the Rev. Mr. Morris was preaching, and seized him.-Mr. Morris drew his revolver and cockod it when some caught his arm took it from him.

The mob then rushed on him, yelling, "Hang him! shoot him!!" Some in the congregation interceded for him, and, after a long barley, they consented to let him go, under a bledge to leave, and not preach any more till they gave him permission. The preachers were all armed with revolvers. They are aware were all armed with revolvers. I ney are aware of the threats daily made against them. The mob brought tar and feathers and hemp along with them. The excitement is great. These humble and pious ministers of religion will

be driven out, and utter lawlessness prevail. AN IMPORTANT CASE .--- The case of Passmore Williamson, charged with abducting slaves while in transitu, was heard on Friday, before Judge Kane at Philadelphia. Mr. W.

made a return to the writ to the effect that he could not produce the slaves because they were beyond his control. and the District At torney proceeded to adduce testimony to prove the return false. At the conclusion of the hearing Judge Kane deferred his decision, at

the same time ominously intimating that the respondent had better produce the slaves if in his power.

The subject of the above notice, whose uptimely deceas s here recorded, was well and widely known throughout

A few weeks since he left his home on a business tou through the Western States, with the expectation of re turning to greet the friends and loved ones around whom the fondest affections of his heart clustered; but the hat had gone forth, the decree was issued from the Great Arbiter; and struck down suddenly, far away from the scenes of his childhood, he died confidently reposing on the merits of his Redeemer, in whose vicarious sufferings he placed his hopes of final and eternal happiness. It has passed into a maxim that the language of the

is that of adulation, and while bituary that there is truth in the proverb, we must be allowed to record our testimony in memory of one of our earlies and truest friends. The poet has said, and we believe truly, that "An honest man is the noblest work of God," and our lamented friend was, by the common judgment of all his acquaintances, justly entitled to that character.july 10 3t 25

But, by his friends, to whom he was best known, he was loved in every relation of life. Isaac F. Lightner was no only the type of an "honest man," but a devoted friend whose "hand was open as the day," and whose kind and unselfish heart was indexed by his actions. In the prime of manhood,

and with the promise of many years of usefulness and happiness before him, the summons came to remove him from earth, and leave his friends and relatives with laerated hearts to mourn his departure. Our loss is irreparable, but we trust it is his gain.

He is gone the way of all the world, and it is only be use we hope to find a re-union in Heaven that our heart do not burst with heaviness of grief.

Elder J. STANK--T deem it an imperative dury to suffer-ing humanity, to recommend the use of your vegetable Dyspepsia BiTTERS to the public, as an invaluable reme-dy for that sorely distressing and extonsively prevalent disease which its name indicates. Experience and obser vation compel me to speak of it in terms of the highest commendation. I was myself permanently cured by sing about 6 bottles, though my stomach was so weak that it would rotation nothing. I have known some of the most desperate and long standing cases to have been cured by it, and in no instance among the bumerous cases that have come within the range of my knowledge, has its use failed to give immediate, and when persorterd in, permanent relief, I feel no hestiancy in pronouncing it an infailible remedy for Dyspepsia.
