REMARKABLE ESCAPE FROM DEATH .- An ex-

Sr. Louis, July 23, 1855. The health of our city continues unusually good The health of our city continues unusually good, and the summer thus far, with the enception of two or three days in the past week, has been remarkably pleasant and delightful. There is no improvement in business—all departments dull and decilining.— The new grain is now freely arriving, and a great faiting on in the price is suicipated. Wheat, now-ever, sold at the close of the week at from \$1,1 to \$1,40 per businel—receipts about 12, *0 bags. Flour \$5 to \$1,20 to best brands. Corn 70 to s5c; Oats 55 to \$6 i; in other articles no change has transpired worthy of note. The rivers are becoming low, and many boats are lying up for the want of business to justify them in making their usual trips. On Incesday morning last, about 2 o'clock, a fire was discovered in a livery stable, on Locust, near the corner of Fourth, and occupied by Mr. Skithmore.

The large new buildings adjoining—extending a half block south—snared the same take as that of the Merchants Hotel, and owing to the great height of the "Wash lington House' it was only saved from the travages of the devouring element. The ground flour of these buttaings was occupied by eight or ten fine stores whits the upper stories were laid off into sleeping departments, and the "Merchants' Hotel," all of when were entirely consumed. Many of those who occupied the upper stories barely escaped with their igne-citches-men, women and children rushed lown the stairs into the street bare-beaded and bareplayed, though the last person who attempte found. Very little of the furniture in the upper stories was saved, but the goods in the stores below were only damaged by water and the indiscriminate manner in which they were thrown about the streats. On Locust streag, the livery stable, extending back a hair square, with carriage noise, was completely consumed, in which iver access perioded in the down construct hereing make a visit to the penitentiary as the reward of his dishonesty.—Baltimore American. Invery scale, extending back a half square, with carriage nodes, was completely consumed, in which five horses periched in the flames; several buggies; harness, &c, with the hay and grain were destroyed. The fire then extended to a large four-story Chair Manuactory, which, with its contents, was ourne to the ground. Several other back buildings were also destroyed. It appears that Mr. David Carrington, of Betha ny, being troubled with a disagreeable scent about his premises, made search for the cause, and found beside some brush, in a sitting posture, the dead body of a man in a state of detion of property 1 never before witnessed. It is a dimension matter to arrive at the actual loss sustained by this confingential, as so much private and individual property was involved, but it is variously estimated at from 37,5000 to 35,000-1085,000-0000 and the livery stable, and is supposed to have been the work of an incendary. In the carly part of last week the steamboat Tele-graph, so. 2, burnt to the water's edgo, whist lying at New Abbany, on the Ohio river. Look for a good result on the hrst Monday in August. Loverything is now going on smoothly in Kansas. The tovernor maintains his ground tike a true hero in his opposition to the lawlessness of the pro-slavery men, who at one time imagined they had him under foot. Gov. History will place him right on the record, notwithstanding the administration has de-serted him and sympathized with those who defied lis authority. When the snoke of the condict shall have blown away, and the field of battle fairly and dispassionately viewed, there will be sufficient cause and provecation to condemn Gen. try it for Bronchilis and Dyspepsia. C. M. MARTIN. Elder J. STAMM;-I deem it an imperative duty to suffer-ing humanity, to recommend the use of your Vegetable Dyspepsia BiTTERS to the public, as an invaluable rame-dy for that sorely distressing and extensively prevalent dimesse which its name indicates. Experience and obser vation compel use to speak of it in terms of the highest commendation. I was unystippermanently cured by uning about 6 bottles, though my stomach was so weak that it would retain nothing. I have known some of the most desperato and long standing cases to have been cured by it, and in no iostance among the numerous cases that har-come within the range of my knowledge, has its use failed to give immediate, and whon porcevered in, permanout relief, I feel uo besitancy in pronouncing it an infallible reamedy for Dyspepsia.
