THE MARRIED WOMAN'S PRIVATE' MEDICAL COMPANION, BY DR. A. M. MAURICEAU,

PROTRESOR OF DEFEASES OF WOXES. One Hundredth Edition, (500,000), 18mo., pp. 250.

[ON FINE PAPER, KATRA HINDING, \$1.00.]

A standard work of established reputation found classed in the catalogues of the great trade sales in New York. Philadelphia, and other citles, and soldr by the principal bookwellergin the United States. It was first published In 1847, since which time FIVE HUNDRED THOUSAND COPIES

old, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL, attesting the high estimation in which it is held as a re-liable popular Madical

BOOK FOR EVERY FEMALE he author having deroted his exclusive attention to the reatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice; and also explain many symptoms which otherwise would occasion anyiety or slarm as all

the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignerant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries,

and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief. It is of course impracticable to convey fully the various

subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are 'you a husband or a father? a wife or a mother? Have you the sincers welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and hanpiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of

vour children.

In consequence of the universal popularity of the work, as avidenced by its extraordinary sale, parious imposi-tions have been attempted, as well on bookselters as on the public, by imitations of title page, spurious editiona, and sorreptitions infringements of copyright, and other devices and deceptions, it has been found necessary, therefore, to CAUTION THE PUBLIC

to buy no book unless the words "IF. A. M. MACRUCKU, 129 Liberty Street, N. Y.," is on (and the entry in the Clerk's (ulles on the back of) the title page; and biy only of respectable and honorable dealers, or send by mail, and address to IF. A. M. Mauricean.

trial. These Pills, the result of long investigation and study, are offered to the public as the best and nooit complete which the present state of medical science can afford. They are compounded not of the drags themselves, but of the medicinal virtues only of Vegetable remedices, extracted by chemical process, in a sinte of purity and combined to-gather in such a manner as to insure the best results.— This system of composition for medicines has been found in the Cherry Pectoral and Pills, both, to produce a more efficient remedy than had hitherto been obtained by any process. The reasys is perfectly obvious. While by the old mode-of composition, every medicine is burstered for the curative effect is present. All the inert and obnotious qualities freach substance employed are left behind, the curative virtues only being retained. Hence it is self-evi-dent the effect should prove as they have powerd an-tiotote to disease than any other medicine known to the world.
