Nearly every day or night during the past week it has raned, and the weather has been coul and pleasant, with the exception of one or two days when it was oppressive. But, we should not comparin, for a more caughtful number than the freeent, the "oldest funational" obeyes, has never been experienced in this section of the West.

There is very incie change to notice in our markeos, waste and flour, however, have declined a trifle, owing to be heavy receipts of the past week; oats nave advanced to ode per oushel. The new grann is now eximing on come forward, and we may expect a taning on in prices.

The neastm of our city is remarkably good. The interments in the pair week of the season.

The principal topic of conversation just now is the Ohio and Mississippi Hailroad and the management of this road, have not been fully paid for near work, and who, principally, reside along the track. These men have presented their claims for adjustment, but were unable to effect a settlement what the present managers of the road. Some of them became exasperated, and tore up the rails of the road, running an engine and train, of the express line, of the track. cerned, and the President, Mr. H. D. Bacon, in a letter to the public, informs us that the operations on the road are suspended, owing to the outrages committed on the track, along the entire route, by persons previously engaged in its construction. This suspension is to be deeply deplored, as it affects the interests and welfare of our city. We want to see the work of this road progress, and it is not practicable to depreciate the importance and uniting of this great inchway, as has been done by the cultors of the St. Louis inepublican. It has been said that the articles in the depublican on the O. & M. H. K. have seen the means of interiating and exasperating.

Its natters not whenter not whenter not whenter this road has been reckitesly managed and constructed by those who were duly appointed to oversee the work. It matters not whenter Mr. Bason, or the Directors, have imposed upon the stockholders, and taken it out of the hands of the city and individual shareholders. It is enough to know that the road has been built, and is one of the best, as well as most important, on the American continent. Its construction is the future greatness of St. Louis, and our city press knowled be the lists to depreciate a single spike in this connecting link or depreciate spike in the single spike and constructed in successive days:

Let the Kepublican strike at the fountain head—those Directors who assigned the road over to Page & Bacon—and not underwine this important work to the city and the whole West. The friends of the road are greatly worked up at the course of the Kepublican, whilst on the other hand the paper is sustained by a large portion of our citizend and those of the surrounding country; but which party will be sustained in the end, is yet to be seen.

This day one week the great political battle in Kentucky will be fought. It is said that more money has been spent in that otate by the Wnigs and know Rothings in this canvast than in any previous one, and it the Democracy succeed, of which there is a fair thresheld it will be succeeded. fair prospect, it will be a still greater triumph of Democratic measures than that recently won in the Democratic measures than that recently won in the "Old omnition," for kentucky is a Wnig State by 10 to 15,000 majority. But we have the strongest hopes of sweeping the State on Monday next. The know Nothings and Wnigs claim 40,000 majority for their candidate for tovernor. In Virginia, 1 believes the strong statement and the strong terms are strong to the strong terms and the strong terms are strong to the strong terms and the strong terms are strong terms. believe they claimed and bet upon 20,000. So if the result will turn out the same in Kentucky as it

The following resolutions were adopted by the Rough & Ready Council of the (K. N. s) No 231, in Angerson Co., Ky., the evening of July 18th:

John J. Crittenden is stumping the State for the Know-Nothings but denounces the Catholics. O, consistency thou art a jowel! That won't do, Mr. Crittenden, all or none, is the motio of your prescriptive and bigoted order, and urless you toe the mark, you will be once more called upon to "resign your seat!" The Tennessee election comes off on Thursday week. Flattering reports to the Democracy reach us every day. Look out for Tennessee.

He spoke to the people plainly and calmly, and informed them that he was prepared to meet the consequences, be they what they might. No indignities were offered, and his speech was listoned to by thousands who had congregated there expecting to witness the suspension of "Cassius" between heaven and earth.

A Pooria (Ill) paper says: Wesaw a farmer deposit with one of our bankers \$4,200, the amount he had just received from the dealer to whom he sold his crops of last year; and it was only the day before that another farmer left \$3500 on deposit, all received for products of his farm."

This is one of the best evidences of the industry and prosperity of the farmers of the West.

The many friends of Mr. Isaac F. Lightner in this city, were startled on the receipt of the sad intelligence of his death. He left our city in apparently good health and fine spirits—the very picture of health. Little did I think when I shook him by the hand on board the boat, that it was the last farewell—that a few days would find his spirit in an other world. How truly is it, that in the midst of life we are in death. Isaac lightner F. was a man beloved by a large circle of friends, and this sad intelligence will send grief to many a heart.

THE STORY OF SLAVERY IN NEBRASKA .-- A correspondent of the N. Y. Times, referring to an advertisement of slaves for sale, in the Nebraska City News, which has caused a great sensation, says that the parties referred to as importing slaves to Nebraska, are Messrs. Nuckolls & Hall, owners of the principal part of the site of Nebraska City, extensively engaged in business there, and owners of a majority of the slaves in Atchinson county, Missouri. These men have had a few slaves at work for them in household duties at Nebraska City, own the Nebraska City News, and dictate the articles which ap-The correspondent of the Time says of the slave advertisement, and a few pro-slavery articles that have appeared in the News:

"I look upon the move as simply a piece o bravado at home, and probably designed to find favor and approbation at the hands of those men in St. Louis with whom they have business connections. This is the key to the whole affair. The idea of slavery gaining a foothold in Nebraska, is utterly out of the

THRILLING ESCAPE FROM A BLACK SNAKE.nile south of West Chester, and were thrown into a panic by a large black snake. Miss Hemphill, lingering behind her comrades at ome blackberry bushes, espied a nest of young snakes, and immediately started to run to wards the clearing. She succeeded in cross-ing the fence, when her progress was impeded by a large black snake that had wound itself wice round her thighs on the outside of he garments, and bound her so tight that she could not move. How or when it got there she could not tell, her ideas being so confused by fright, on seeing the nest from which she ran. She was relieved in her locomotion by the snake taking a higher position, when she to fight the reptile, which clung to her and bit incessantly at her dress. She was finally re-lieved from her perilous situation by a gentle-

man who was attracted to the spot cries, and who killed the snake. There is not much mischief in the bite of a black snake; its mode of warfare is to destroy by constriction, and no doubt the result would have been terrible, had the reptile in this instance found its way to the child's throat. We have heard a marvellous story of a ver large snake—say ten feet long—having been repeatedly seen in that neighborhood. However exaggerated the size, we have it pretty straight that those who have seen it have been fearful to attack it without a gun. - Wes

FRIGHTFUL MINING ACCIDENT.-The follow ing is taken from the Pottsville Miners' Journal of Saturday week. The details of one of those damp is herewith given :

morning last, about half-past seven o'clock, at Mr. Agard's Belmont Colliery, in this county the place is better known by the old name of the Five Points. Four persons, two men and two boys, have been taken out of the slope, dead and dreadfully mangled—one more is not likely to live, and six others are serious ly injured. It has been and may be denomi it was a powder explosion; for the latter did the most injury, though the "fire damp," as it is generally called, exploded first and ignited

he powder. The facts of the occurrence are as follows: The miner boss, Mr. John W. Davis, went into the mine early in the morning, as usual, and examined the works carefully before any of the miners were at work. He found "fire in one of the "breasts" near the face of the gangway. This breast was worked by James Silverthorn and son, and was the only part of the mine considered dangerous. Mr. Davis met Silverthorn and told him twice, emphatically, that his place was full of fire, and that he should not venture in it with a naked lamp antil the gas was driven out. Accordingly commenced to brush fire out of the breast .-But, unfortunately, several of the miners were seated around the bottom of the breast, in the sangway with their naked lamps, taking their customary "whiff," and that before commencing work, and near them were between two and three kegs of powder, open and un-

rotected. The gas being driven down the shuts past the cross-heading, penetrated to the gangway, where the miners were seated, and as might be expected, it took fire from the lamps. But the explosion of gas would have been trifling, in comparison to the amount of damage done, had not the powder, which was in close proximity to the men, also ignited and exploded crushing and bruising everything in the v cinity, and doing considerable damage to the mines. The effect of the shock was lelt at great distance from the scene, and the mine hroughout trembled with the concussion. Coal, rocks and material, were buried with dreadful velocity far out towards the slope .-But the damage done to the work, the amoun of which cannot be fully ascertained, is no thing in comparison to the dreadful loss of life and limb-the horrid sufferings which the fearful accident occasioned.

A WHOLE FAMILY POISONED-THREE THE CHILDREN DEAD,-We learn by a letter received from Dr. J. O. Patterson, residing in Candor, Washington county, Pa., the particu lars of a melancholy case of poisoning. It seems that on Saturday, the 28th ult., three lads, sons of Mr. Alexander Plotts, residing in the vicinity of Candor, proceeded to the woods and gathered a large quantity of mush-rooms, which they took home for table use. The whole family, seven in number, partook freely of the dish, and shortly after exhibited the most alarming symptoms. Three physicians were called in, and pronounced them poisoned. The proper remedies were speedily administered, but all efforts to save the boys who had gathered the plants, proved abortive.
They died in great agony, shortly afterwards, and were all buried in the same grave. They were aged, respectively, ten, six, and four years. The parents of the children were so unwell as to be unable to render them any assistance, and the poor little sufferers, in the trying hour of death, were thus deprived of a father's care, and a mother's untiring watch-

The parents, and the two children who survived, exhibited favorable symptoms on the 31st, and at the time our informant wrote, hopes were entertained of their final recovery.—Wash. Examiner.

Q.D. Cherekana's Pills for Feanles.—The combinations of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. The Pills invariably open those obstructions to which fomates are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pains in the side, palpitations of the heart, leathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the pills will invariably remedy all those evils.

N.B.—These Pills shindle never be taken during programey, as they would be sure to cause a miscarriage.

Elder J. Szamm:—Dear Sir.—For more tina one year I was sifficted with the ague. I made every effort to be selleved, but I grew worse, until I used your BITTERS. I am happy to say, that after using several bottles, I was cured of the ague, and have enjoyed good health since.—I had no ague or dyspepsia since August last. I can recommend your BITTERS as a very good medicine, and perhaps one of the best remedies for the Ague and Dyspepsia, inasmuch as it purifies and strengthens the stomach, and gives health and tone to the whole system.

Yours with respect,

Mount Joy, May, 1855.

Bronchitis Cured.

Mount Joy, May, 1855.

I have been afflicted with sore throat for some time, which was called Bronchitis by physicians. They treated me with regular treatment, but still I found no relief—Your BITTERS was recommended and when I commenced using it I felt my throat getting better; my appetite increased, and my food agreed better with me. I was encouraged continue with the BITTERS, and now can say these BITTERS oured me. I would recommend J. Stamm's BITTERS to the afflicted, for I am confident that my sore throat came from my disordered stomach. My advice is, try it for Bronchitis and Dyspepsia.

Elder J. Stamm;—I deem it an imperative duty to suffering lyspepsia BUTERS to the public, as an invaluable remedy for that sorely distressing and extensively prevalent disease which its name indicates. Experience and observation compel me to speak of it in terms of the highest compendation. I was myself permanently cured by using about 6 bottles, though my stomach was so weak that it would retain nothing. I have known some of the most desperate and long standing cases to have been cured by it, and in no instance among the numerous exists that have come within the range of my knowledge, has its use failed to give immediate, and when persevered in permanent relief, I feel no hesitancy in pronouncing it an infallible remedy for Dyspepsia.

Elder A. R. LONG, vation compel me to speak of it in terms of the highest commendation. I was myself permanently cured by using along the bottless though my stomach was so weak that it world retain nothing. I have known some of the most deprate and long standing cases to have been cured by it, and in no instance among the numerous cases that have to give immediate, and when persevered in, permanent of irisi mimediate, and when persevered in, permanent or relief. I feel no heattancy in pronouncing it an infallible remedy for Dyspepsia. Eider A. R. LONG, R. Ruipsville, Montgomery co., Pa., May 23, 1855.
