[ON PINE PAPER, EXPRA ENYDING, \$1.00.]

A standard work of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published to the principal states. FIVE HUNDRED THOUSAND COPIES

ONE HUNDRED THOUSAND SENT BY MAIL. esting the bigh estimation in which it is held as a re-BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, uses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of astruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms which otherwise would occasion anxiety or slarm as all the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uters (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hararded during such time, will each find in its pages the

means of prevention, amelioration and relief. It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and hanpiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and auxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the consequence of the universal popularity of the carbon times as estilenced by its extraorditary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurrous editions, and surreptitious infringements of copyright, and other active and deceives and deceptions, it has been found necessary

If a harmloss but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevalist, besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds. Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land.—Hence a reliable-family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that, demand. An extensiverial of its virtues by Physicians, Professors and Patients, has shown results surpassing anything hitherto known of any medicine. In a siate of purity and combined together in such a manner as to house the best results.—This system of composition for medicines has been found in the Cherry Pectoral and Pills, both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old indee of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being rotained. Hence it is sell-evident, the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

Schiedam Aromatic Schnapps To the Citizens of Pennsylvania.

I beg leave to call the attention of the citizons of Pennsylvania to the above article, manufactured by myself exclusively, at my Factory in Schiedam, in Holland, expressly for medicinal purposes.

It is under from the best Barley that can be selected, in Europe and the essence of an aromatic Italian berry, of axinowledged and extraordinary medicinal properties; and it has long since acquired a higher reputation, both in Europe and America, than any other dietetic beverage.

In Gravel, Goud, and Rheumatism; in Obstructions of the Radder and Kutneys, and Debitity of the Urinary Functions, its effects are prompt, decided, and invariably reliable. And it is not only a Remedy for these maladies, but in all cases in which they are produced by drinking Bad Water, which is, almost universally, the cause of them, it operates as Sure Preventive.

The distressing effect upon the Stomach, Bowels, and Radder, of travellers, new residents, and all persons unaccustomed to them, produced by the waters of nearly all our great Inland rivers, like the Ohio, Missisippi, and Ainkama, from the large quantity of decayed vegetable matter contained in them, in a state of solution, is well known; as is also that of the waters of lineatone regions, in producing Graved, Calculi, and Stome in the Bladder—The AROMATIC SCHILDAM SCHIAPPER is an absolute corrective of all these injurious properties of bad water, and consequently prevents the diseases which they occa-I beg leave to call the attention of the citizens of Penn-

The AROMATIC SCHILEDAM SCHNAPPS is an absolute corrective of all these injurious properties of had water, and consequently prevents the diseases which they occasion. It is also found to be a cure and preventive of Fetre and Ague, a complaint caused by the conjoint effects of vegetable makaria in the atmosphere, and vegetable pure trescues in the waters of those districts in which it principally occasion. The AROMATIC SCHILETAM MEETING THE CONTRACT C tresences in the waters of those districts in which it principally prevails. The AROMATCSCHEDIAM SCHNAPPS is consequently in great demand by persons travelling, or about to settle in those parts of the country especially; as well as by many in every community where it has become known, on account of its various other remedial properties. More than three thousand physicians, among whom are numbered the greatest names belonging to the faculty of medicine in this country, have certified, over their own signatures, to the valuable medicinal properties of such an article, as the severest tests have proved the SCHLE DAM AROMATIC SCHNAPPS to be, and have accepted it as a most desirable addition to the materia medica.

"Ladonaroux, New York, May 2, 1353.

"Mr. Udolphi Wolfe-Dear sir: I cannot speak too highly of the purity of your schiedam Schnapps. It is decidedly superior to anything of the kind in the market.—It is perfectly free from the admixture of fusil oil, or of any of those arrylic compounds which produce such a mischlevous and irreparable effect upon the constitution, and which very few samples of alcoholic distilled liquors are without—most of them being largely impregnated with it. I have personally inspected the various processes of distillation practised at Schiedam, and know that unusual care is taken to separate the the moxious elements from the pure alcohol, and your Schnapps is a striking proof of its success. As a medicinal agent for chronic and renal affections, I have successfully prescribed it, and recommend it as an agreeable corulal and harmless stimulant, and shall continue to do so; as well as to use it as a source of pure sleebol for chemical investigations and experiments.

Testimony of the Professor of Obstetrics in Penn College, Philadelphia.—Dr. Hunter's Medical Manual.—The author of this work, unlike the majority of those who advertise to cure the disease of which it treats is a graduate of one of the best Colleges in the United Stetes. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced ioner, in whose honor and integrity they may place the greatest confidence Jos. From A. Woodward, M. D., of Penn. Universi-

Numerous cases of disease of the Gental Organs, some of them of long standing, have carre under my notice, in which his skill has been manifest in restoring to perfect ealth, in cases where the patient has been co ered beyond medical aid. In the treatment of Sem nai weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, been acquainted with the Authorsome thirty ye, and deem it no more than justice to him as wel kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose pro-fessional skill and integrity they may safely confide themselves. Alfred Woodward, M. D.

This is without exception, the most compre-hensive and intelligent work published on the clas-of diseases of which it treats. Avoiding all tech-oical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it into the hands of his sons. The author has devoted many years to the fresument of the cretion, to recommend him as one in whose prohas devoted many years to the treatment of the various complaints treated of, and, with too little orealn to puff, and too little presumption to im-pose the has offered to the world, at the merely minal price of 25 cents, the fruit of some twenty years' most successful practice ?!-- Herald "No teacher or parent should be without the knowledge imparted in this invaluable work.
