Great Democratic Demonstration in Indiana.

St. Louis, September 3, 1855.

Since the date of my last quite a change has taken place in the weather. The past week has been very wagn—indeed, the warmest week we have had this summer. Yesterday we were visited with a refreshing shower, which has somewhat cooled the atmosphere. The fall trade is now about commencing, country increnants beginning to arrive, and business generally improving. The rivers are in fair navigable condition, but many boats in the southern trade have laid up, owing to the prevalence of the yellow have faid up, owing to the prevalence of the yellow fever in New Orleans, which is now riging to a fear-ful extent, and business in that city, in consequence of the epidemic, is unusually dull for this senson of

the year.

The health of our city continues excellent. The market presents no material change since my last report. We are in receipt of the most gratifying accounts from various quarters of the South and West of the corn crop, which will be one of an unputally large visided in requirements.

West of the corn crop, which will be one of an unusually large yield.

There is very little local news of interest. The Balloon mania still continues. Mons. Godard, accompanied with his lady and two gentlemen of this city, made a beautiful ascension on Monday last, and his feats upon a rope, suspended from the car, some forty feet in length, excited a shudder among the vast crowd assembled, so daring and perilous were they. Whilst high up in the air ne hung at the end of tims rope by his feet—the balloon ascending anjully and taking the daring Aeronaut up feet foremost; again he changed his position and hung with one hand, gallantly waving his hat with the other. He finally drew nimself up into the car, and the four voyageurs passed slowly and beautifully in

with one hand, gallantly waving his hat with the other. He finally drew nimself up into the ear, and the four voyageurs passed slowly and beautifully in a southern direction, and landed safely about four miles below the city. On Friday last he made an ascension, for the benefit of the safferers by the yeilow tever in New Orleans. The ascension was nightly cremeated to Mons. Godard, and thousands of our citizens anonored him with their presence.

It is with deep regret that I announce the death of the Hon. Wilson Brown, Lieutenant Governor of this State. This sad event occurred last Monday at his residence in Cape Giradeau. Mr. B. was born in Anne Arundel county, Md., on the 27th of August, 1804, and died on his fity-first birth day. He was twice elected a member of the General Assembly of this State, and in 1846 was appointed State Audutor, and afterwards elected Lieut. Governor—by a larger majority than was ever given to any man in the State—which position he held at the time of his death. He was also Grand Master of the Ancient Order of Free and Accepted Masons, an institution to which he was devotedly attached. He leaves a a wife and three daughters.

Mrs. Pnebe P., whe of J. W. Towne, died in this city, of dropsy, on August 22d, aged 28 years. The decreased was formerly of West Coester.

city, of dropsy, on August 22d, aged 25 years. The deceased was formerly of West Chester, Pa.

The committee, appointed by a meeting of the Chamber of Commerce, to investigate and examino the books of the Ohio & Mississippi Railroad Company, reported a few days since, and sustained Alessrs. Page & Bason in their claims, and demands—finding that the face of the books entitled Page & Bacon to the sum for which they asked. Some people are of opinion that the books could very easily be made to show this fact, but whether the books are correct in what they present, is another thing. The Kepublican still protests that there is something frotten in Demmark," and they and the public do not appear to be satisfied with the report of this committee. For my part, I cannot altogether understand the report. It will be remembered that Page & Bacon contracted for the iron of the Belleville R. R. at \$65 per ton; and it now appears that Page & Bacon also contracted for the iron of the O. & M. Railroad, while for the Belleville road iron, and their books show that they paid \$50 per ton for that used on the O. & M. Railroad, while for the Belleville road but \$65 per ton was all that was asked and paid. This makes a difference in the aggregate of upwards of \$150,000! The case is to be taken into Court and there satisfactorily adjusted. The newly appointed Governor of Kansas, arrived here-last Monday, after my letter had been maited. He did not stop tong in the city, but left immediately to assume his otheral duties in the Territory. He is no doubt there by this time, but how he was received by the Atchison Legislature and his bullies, is not yet known. One thing is evident, however, city, of dropsy, on August 22d, aged 28 years. The deceased was formerly of West Chester, Pa.

eived by the Atchison Legislature and his bullies, is not yet known. One thing is evident, however, Wilson Shannon is not their first choice by any means, and we would not be much disappointed were they to deal with him, as they undertook to do with Reeder. The recent laws that have been enacted by the Kansas Legislature are a disgrace to the country. Should a man go into Kansas, and express his private opinion that Slavery is a curse, he is liable, ac-cording to the letter of the law, to be hanged upon the first tree. Should be even intimate that Kansas ought to be a Free State—the law is death! Should

he write a letter to a friend, condemning the acts of the Legislature, the penalty is death! This whole the Legislature, the penalty is death! This whole Kansus business has been a foul stain upon the fair Kansas business has been a foul stain upon the fair fame or our Constitution, and "Border Ruffianism" seems to reign supreme in that new Territory.

The Louisville papers state that since the riots there, the foreign born population are winding up their business and making preparations to remove to the new Territories. On the 21st ult., a party of eighteen Germans—tailors, shoc-makers, carpenters cigar-makers and laborers—left for Minnesota. everal families have also left for Canada, and many more are getting ready to go. A movement is now on toot in that city to organize a Kansas emigration party of five hundred families. Over one hundred families sigued the agreement on the first day, and party of five fundred families. Over one hundred families signed the agreement on the first day, and the Democrat, of that city, says these families are among the best citizens of Louisville. Property has depreciated 100 per cent. since the riots, and the determination on the part of the foreign born citizens emigrating to other places, where their rights will not be disjusted or infringed.

On Wednesday last one of the largest Democratic demonstrations care sourced in latters.

On Wednesday last onc of the largest Democratic demonstrations ever convened in Indiana, assembled at Indianopolis. There were over twenty thousand dersons in attendance from all parts of the State, and all were intensely enthusiastic. The Hotels could not accommodate the one-twentieth of the immense mass of the Democracy, and the private dwellings were thrown open for the reception of the guests. Speeches were made and resolutions adopted democratory of the dark laptern order. Gov. Wright, from John W. Davis, Gov. Willard and other distinguished gentlemen were present and addressed the people. The resolutions are purely National and should be published in every Democratic paper in the Union. I annex them for the benefit of your readers:

Resolved, That we claim with pride the name of Resolved, That we claim with pride the name of National Democrats—that we are old liners, and always expect to follow old lines so plainly marked by the patriots and sages of the Revolution in the Declaration of Independence and the Constitution of the United States; our name is as unchangeable as our principles, as immutable as the foundations of the Union.

Resolved, That we announce our hostility to all secret political societies and organizations as being inimical to the genius of our institutions, and revolting to the pride and manly spirit of free and intelligent people—that we deeply deplore the frequent scenes of riot, outrage, murder, arson, and desolation, which have been occasioned by these more than Jacobin organizations; and that we appeal to every man who values good reputation and an honorable name among his fellow men, to lose no time in separating himself from so foul a conspiracy: for he that counsels and associates with men who commit those revolting crimes is a participant in their guilt, and morally, if not legally, responsible for their acts.

Resolved, That we hereby proclaim our decided Resolved, That we announce our hostility to all

Resolved, That we hereby proclaim our decided hostility to the principles and conduct of that sectional and fanatical party known as Abolitionists and Disunionists throughout the United States; that we view their proceedings with increasing apprehension of great injury to the peace and prosperity of our common country, and as being diametrically opposed to the provisions and requirements of the United States, which if violated as they propose, must bring the dreadful result of disunion, civil war, and the ruin of our beloved country—the destruction of the last pillar which sustains the Temple of Liberty on earth.

Resolved, That we cordially re affirm the principle of the Democratic National Convention of 1846 and 1852, as embodying the only practical system of action which can be taken in any great national question to which they refer, and as best tending to perpetuate the peace, harmony and integrity of the Union.

Resolved, That we most positively and unequive.

Union.

Resolved, That we most positively and unequivocally condemn and oppose all attempts to control by force or violence the right of free suffrage of citize as at the polls, either in States or Territories of this Union. The will of the people properly expressed is the highest law, but if that expression be stifled or defeated, there is an end of civil government and a failure of the power of the people to protect themselves.

and a failure of the power of the people to protect themselves.

Resolved, That we view with disgust and disapprobation the conduct of non-resident Know-Nothing bullies in Missouri, or hired abolition fanaties from Massachusetts or elsewhere, in interference with the legal rights of actual settlers in Kansas to vote as they please, or deprive them of the sacred and inestimable privile e of deciding laws which are to govern them as citizens of that territory.

Resolved, That we cordially invite all men of a national sentiment and faith, to co-operate with us in maintaining the sancity of the American Constitution, the principles of the Declaration of Independence, the integrity of the Union, against the attempts of fanatical Abolitionists and demagogues, who are aiming to set any one section of this Confederacy against the other, and whose ambition to possess political power would induce them to sacrifice the descriptions.

possess political power would induce them to sacri-fice the dearest interests of their country, and entail the dreadful consequences of civil war, bloodshed, disanton, and anarchy upon the ruins of our now happy, prosperous and mighty nation.

Resolved, That we will most strenuously maintain the fundamental principles, the right of civil and religious liberty; the right of the citizen to worship according to the dictates of his own conscience; the reedom of speech and the press; the offering of the benefit of our laws and institutions to men of every

nation and every clime; the equality of all good citizens, and the protection of the Government to every man who legally claims to be an American citizen The election in Indiana comes off on the 9th of October.

The Human Halt.—To minister to a penchant for "auburn waves" and "raven tresses," the brains of inventors have heretofore been called in requisition to little purpose; for although many oils, balins, dyes, and "specifics" have been the result of the incubation, they have not only proved to be valueless, but many of them positively injurious to the bair and scalp—being the inclipient of scale head and various other painful and dangerous cutaneous disorders.

Upon Prof. O. J. Wood, of St. Louis, fortune has conferred the honor of having discovered a balsamic preparation, which not only promotes the growth and beautifies the Halr in a high degree, but restores it when it is gone, or turns it back to its original color after it has become gray, fistens it to the scalp, and effectually destroys such cutaneous cruptions as may have been engendered by the use of dyes, essential oils, and other injurious applications—The many respectable testimonials which are offered in its favor, from every part of the rountry in which it has been introduced, leaves no loop for the sceptic to has ga dou't in. The creat demand for this article in the eastern States, has i stread the proprietors to establish a depot for its manure-ture and sale in the city of New York. Prof. Wood,—Dear Sir:—I take pleasure in bearing voluntary testimony to the excellence of your Hair Restorative. Three months ago my hair was very gray. It is
now a dark brown, (the original color,) smooth and clossy.
The only appplication I have made to it has been the Hair
Restorative, prepared by you; and which, from the result
of my own case, I can most cordially recommend to others
Rospectfully yours,

Boston, March 20, 1851, proc. Wood,—Iben Sir:—Having become previously quite gray, I was induced, some six weeks since, to make trial of your Hair Restorative. I have used less than two sottles, but the gray hairs have all disappeared; and although my hair has not fully attained its original coloryct the process of change is gradually going on, and I have great hopes that, in a short time, my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before, was harsh and dry, and it has chased to come out as formerly.

Respectfully yours,

Prof. Woods—My hair commenced falling off some three or fours years since, and continued to do so until I became quite bald. I tried all the popular remedies of the day, but to no effect; at last I was induced to use your celebrated Hair Kestorative, and am very happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afficient.

The Combinations of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In very instance have the Pills prayed successful. The Pills invariably open these obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and detailly countenance changed to a healthy one. No female can only good health inless the is regular; and, whenever an obstruction takes meath is restored, and the pade and deathly counterance changed to a healthy one. No founds can enjoy good health, inless she is regular; and, whenever an obstruction takes slace, whether is in exposure, cold, or any other cause, the general health begins immediately to decime, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pains in the side, palphtations of the heart, leathing of food, and distarbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the pids will invariably remedy all those evils.

The foreign advices by the Atlantic have imparted more firmness to Breadstuffs, but have had no effect upon the Cotton market.

The receipts of Flour are increasing, the inspections of the past week amounting to 19,510 barrels. There has been more inquiry for export, and prices are firmer. Sales of 2000 barrels standard and good brands at \$7,25a7 37t, and 1300 barrels extra at \$3,62ta8,8,75. There is a steady demand for home consumption from \$7,37t up to \$7,75 for common and extra brands, and fancy lots at higher figures. Nothing doing in Rye Flour. 200 barrels Pennsylvania Corn Meal sold at \$4,25 per barrel.

Grain—Wheat is in better demand, but the supplies have materially fallen off, and there were but few samples displayed on Change. Sales of 3000 bushels prime red, port Tennessee, at \$1,70 per bushel, and 500 bushels good Ohio at \$1,60. 1000 bushels Southern Rye sold at \$3. 11. Corn nothing doing—the last sale of yellow was at 96 cents in store. Oats are in better demand, and 4a 500 bushels Delaware sold at 38a40 cents per bushel, and part on private terms.

Whiskey is unchanged—sales of 100 barrels at 42a 43 cents and hhds at 41 cents.

Important to Millers 1—VENTILATING GRAIN CONDUCTOR. The subscriber has taken measures to secure a Patent for a novel and important improvement in the eye of Millstones. The object of this improvement is to provent the elogging of the grain in the eye of the stones during high speed, even at two hundred revolutions in a minute. Any kind of MOIST GRAIN, MIDDLINGS or CORN with the cob, which are liable to close the eye of the stones, can, by this Invention, be conducted to the bottom stones and be supplied with fresh air—and the foul air is driven off, whilst at the same time the rapidity of the stones can be so much increased, as to perform the work accordingly.

The construction of this Ventilator is so simple, that it cannot be excelled for durability and cheapness; and its advantages are so numerous and useful, that every Miller will be satisfied with its utility by seeing it in operation. For further information, direct to JESSE PANNABECKER, aug 35
