Chaon-Later from Sall Lake-Brigham Young, Ge., Ge. Sr. Louis, Soptember 10, 1855. The weather has been warm during the past week. Business has improved, but the two wage of water in the rivers has materially checked snipping opera-tions. The boats in the continued sickness in New Or-leans-wanch is quite as prevalent as at my last date. Country mer.hants are arriving daily and purchasing their fail stocks. Present appearances indicate a newy trade. No change worin reporting has occurred in our market. The greater proportion of the wheat received here is in a canneged condition —the result of the late heavy rains—aid is conse-quently very dimentit to dispose of . Damp and sprouted wheat ranging in price from 40 to 70 per bushet, whilst choice and best qualities command from \$1,18. Flour is soid at from \$6 to \$7 per barrel.

From \$1,05 to \$1,15. Flour is solid at from \$6 to \$7 per barrel. Ou Monday last the election for Directors of the 0. & M. Kauroad took place, and from the roturns two setts of Directors were chosen—ino Page & Ba-con, or "Deed of Tras." ticket polled the highest number of votes, but it is claimed that the "Stock-houters' tacks," voltained the *legal vote*, and conse-quently persist in their right to their seats. The dimension was upon both thesets for some object or other best known to those interested. In the meantime, road is running under the direction of Mr. J. W. Jenks, who claims to have leased it for fifteen years, at a specified amount per annum. The whole affair is so intized up that nothing but a legal tribunal can unravel the knot. is so mixed up that nothing but a legal tribunal can unravel the knot. On Wednesday last a grand railroad celebration came off at St. Charles-wenty-live miles distant from St. Louis, in the event of the opening of the "North Missouri Railroad" to that city. Some nye hundred persons participated, and everything parsed off to the satisfaction of all. There seems to have been some difficulty in the management of the Chicago, Altoff and St. Louis Kairtoad, as well as in that of the Ohio and Missis-sippt road. It has been anounced, and I bettere on good authority, that the Chicago, Alton and St. Louis Rairtoad has been leased for a term of twenty years; to Hamilton Spencer, Esq., inte Vice President of the road; the lessee to pay to the Company \$000,-000 per anoum, including the Broating debt of the company. Nowithstanding the great necessity for rairtoad rabilities in the West, and the fact that they are being constructed in almost every section, yet

that if the President has the power to remove the Chief Executive of a Territory, that right extends to the Judical officers also. During the Presidency of Mr. Fillmore, it became necessary to genove a Judgo in Minnesota Territory, Mr. Fillmore applied to Mr. Crittenden,—he then being Attorney Genor-al,—for his written opinion, and Mr. C. turnished one sustaining the power, and the removal was made. It is, therefore, doubtful if Judge Ellmore will ob-tain a reversal of that opinion. According to some of the recent acts passed by the Kanasa Legislature, and which Gov. Keeder boldly vetted, was one making it an offence to introduce into that Territory, the writings of Thomas Jefferson —not just so worted but to that effect—and I sup-pose the punishment is death, as nearly everything they have done, death, blood and vengennee seem to be their motto and their faue. It is stated in the China Mail, that the theusand of men brought to Canton as prisoners are now being decapitated at the rate of one hundred and fifty a day. The editor, whe

witnessed some of the executions, says : With a sharp knife a slice was cut out from under each arm. A low suppressed fearful groan from each followed the operation of the weapon. Dexterous as butchers, a slice wa-taken successively by the operators from the calves, the thighs, and then from each breast. We may suppose, we may hope, that by this time the sufferers were insensible to pain : but they were not dead. The knife was then stuck into the abdomen, which was ripped up to the breast bone, and the blade twisted round and round as the heart was separated from itholding. Up to this moment, having once se eyes on the victim under torture, they had become fixed as by fascination, but they could be riveted there no longer. A whirling sensa tion ran through the brain, and it was difficulty we could keep ourselves from falling. But this was not all; the lashings were the. with cut, and the head, being tied by the tail to the limb of a cross, was severed from the body. which was then dismembered of hands, arms feet and legs, separately. against it, and every hand and voice should be raised to institute a reform. The rules who sanctions such wholesale and cold blooded murder should be dethroned, and like Neb uchednezzer forced to cat grass like the cattle Even if these subjects did rebel, they should be treated with some degree of lenity, and the fact that they are not is a proof that the present dynasty in China should be overturned, and a more humane one be raised up to rule over the people.

FLY PLAGUE.-Baltimore, as well as. Nor folk has been afflicted with myriads of flies foils has been afflicted with myriads of mer-of a strange appearance. At first it was sup posed by the Baltimorenes that this phenom-enon indicated a condition of atmosphere sim ilar to that in Norfolk, but Dr. Gideon B. Smith, the well known entomologist, explains it very intelligently. He says that at this season of the year certain species of ants take wing and seek new homes, and that as they generally do so in single swarms, they attract but little notice, Occasionally, however, nu-merous colonies of them take wing and swarm, thus filling the air. Those which appeared thus filling the air. Those which appeared in Baltimore, on Fridáy last, were the little red and black ants so annoying in houses and gardens, and Dr. Smith supposes that, coming from the country about Baltimore, they became confused in passing over the city. According to the description of them, they do not resemble the flies which have became so numerous in Portsmouth.
