Have you heard from Maine ? The returns from Maine continue to come in altogether against the fusionists. The entire vote will be over 107,000, and the majority against Morrill, (the K. N. candidate) and Maine law will be nearly EIGHT THOU-

SAND. The democrats and whigs have elected their county officers in Cumberland, Franklin, Kennebec, Lincoln, Oxford, Penobscot, Piscataquis, Somerset, Waldo and York, and proba bly in Aroostook. The Morrill party have elected in Sagadahoc and probably in Andros-coggin, Hancock and Washington.

Speaking of the result, the Belfast Journal

says: This result in Maine,-a result accomplish-This result in Maine,—a result accomplished by the united effort of the whole body of the democratic and the honorable portion of the whig party—settles the question of Know Nothingism and Sectionalism in the Country! We ask the reader to mark this prediction, that any party that aims to carry the country by carrying the States of the North by a prejudice against the other section of the Union, will be utterly defeated in every

Northern State. We are rejoiced at this result, and ask all true patriots to rejoice with us. The people of Maine are true to themselves, true to the whole country,—true to the constitutional rights of every citizen,—true to the guiranrights of every citizen, true to the guarantees we extend to foreigners who come among us, and true to that freedom of religious opinon which is one of the bases of our government tal system.

To PREVENT THE POTATO ROT. -The Uties Herald says that Samuel Wilkins, of that city, avers that he has tried for 8 years a plan to prevent the rot of the potato, and has always found it successful. It is simply to pull off the vineat the root, as they show symptoms of disease. He is so confident of the certainty of the cure. that he has purchased an acre of potatoes in the ground, and treated them in this way.— These, he is willing to wager \$100, will not rot, while others in the same field, with the vines left on them, will be thoroughly diseased, ¿¿y The Newburyport Herald states that all the vessels of the Labrador fleet, ongaged in the cod fisheries, have returned home. The catch has been rather more than an average, and it is doubtful if the present prices will be sustained. Not a man has

lost in the fleet, and no vessel has sustain any material damage. THE MAINE LAW IN MAINE, -The Portland Argus of Tuesday, mentions as a significant fact, that so far as the returns have been received, but one person who voted in favor of the present Liquor Law, has been returned to the Legislature. TO. Dr. CHEESEMAN'S PILLS FOR FEMALES.—The combinations of ingredients in these Pills is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every, instance have the Pills proved successful. The Pills invariably open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular, and whenever an obstruction takes heating to a healthy one. No female can enjoy good hea unless she is regular; and whenever an obstruction to place, whether firm exposure, cold, or any other cause, igneral health legins immediately to decline, and it want of such a remedy has been the cause of so many c want of such a remedy has been the cause of so many con-sumptions among young females. Headache, pains in the side, paipltations of the heart, loathing of food, and dis-turked sleep, do most always arise from the interruption of nature; and whenever that is the case, the pills will in-variably remedy all those evils. Bito-Kyrille, Sep. 11, 1855,

Charles K, tandis, Esq.—beer Sir; Yours, dated Phila delphia, 8th inst., came to hand an hour ago, and I hasten to reply. You desire in it a true statement or description of the land, &c., about St. Mary's in Elk county. I am happy to be able to give you a full description, as by living in the place for the last five years, as also having frequent occasions to explore the lands and its mineral worth. I have become thoroughly acquainted with the value of the land and its mineral resources. As an agricultural country, it surpuses any land in this or adjacent counties. It produces the best of rye, corn, oats, potatoes and grass. Last year, when there was a general failure of crops in Eactorn Pennsylvania, 54. Mary's had an abundant harrest, and whilst scarcity prevailed everywhere else, there was abundance here. Thousands of dellars' worth of produce was sold in this settlement hast year. Thousands of dollars' worth of produce was sold in this settlement hast year. It is a good limestone was fold in this settlement hast year. It is a good limestone was sold in this settlement hast year. It is a good limestone sold limestone is found in abundance, so that the land can at any time be improved by liming.—Abundance of ceal is found everywhere in those lands: I have, although wood is so pleaty, for the last two years used nothing but coal for my family use. I know of more than ten or twelve different ceed lands, spened within a short distance of St. Mary's. They sold at ence from four to six feet vein, running in general into the infls or rather working upwards, so that water never can disturbed.

There is also abundance of iron one. The Kidney took, and some pipe ore has been found. At the base of hills torn away by the ravines, I can in many places got lumps of our weighing from five hundred to six hundred pounds, of the best of rock ore. There is also abundance of fire proof clay lying in strata between the cost and limestone.

The northern part of the St. Mary's tract absunds in the best of cherry timber and salt; such is the quantity, that from fifteen to thirty thousant feet, of humber can be manufactured from the acre. The southern part is mostly fir, plue and hemlock.

The water powers in the various streams cannot be surpassed; they are on the Elk creek, East Trout run. South east crack, West creek, Dent's run, North Crooked creek, east branch of the Clarion river. Silver Creek and Kersey run. All these streams possess first rate mill sites; and the day will not be far distant when every stream will be filled with manufactories of some sort. The Sunbury and Erfe railroad passes directly through the whole of this land—and when once funished, nothing is able to compete with this section of the State.

We here have the health; we have the soil for the husbandand

The Illinois Central Railroad Company is now prepared to sell over two millions of Aeres of selected Prairie, Farm and Wood Lands, in Tracts of 40 Aeres and upwards, to suit purchasers, on long credits and at low rates of interest.

They were granted by the Government to encourage the building of this Railroad, which runs from the extreme north to the extreme south of the State of Illinois. It passes, from end to end, through the richest and most fertile Prairies of the State, dotted here and there with magnificent dak Govess. The recent opening of nearly 600 miles of cent that Groves. The recent opening of nearly 500 miles of the road throws open the lands for cultivation. They are statered from 1 to fifteen miles on each side of it, through its entire length. The soil is a dark, rich mould, from one to five feet in depth, is gently roling, and peculiarly fitted for grazing cattle and sheep and the cultivation of wheat, Indian corn, &c.

The first crop of Indian corn planted on the newly brother in the corn of The first crop of Indian corn planted on the newly broken prairie, usuall pays the cost of plowing and sometimes fencing. Wheat sown on new turned sod is sure to yield very large profits. One man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at \$2 to \$2.50 per acre. By judicious management farms may be broken and fenced the first and under a high state of cultivation the second year.

The larger yield on the cheap lands of Illinois, over high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market. Ceal and wood are delivered along the road at different points at from \$150 to \$4 the cord or ton.

Parties having in view lowa, Kansaa, Nebraska, or Minnesota for thoir future homes should take into consideration that the country west of the Mississippi is destitute of railroads; that the conveniences of transporting grain and produce farms on the line of the Illinois Central Railroad, direct to the great Eastern market, it sufficient of itself to pay the investment at from \$10 to \$15 per are higher than in government lands in lowa. In other words that it costs so much more to get produce from the interior of the rountry west of the Mississippi to the Eastern market, at the farmer will find it much more profitable to locate on the line of this railroad.

Price and Terms of Payment.—The price will vary from \$5 to \$25, according to location, quality, &c. Contracts for deeds may be made during the year 1855, stipulating the purchase money to be paid in five annual instalments—the first to be que in two years from date of contract. By the 22d second section of the Act of the Legislature, approved 19th February, 1851, these lands are free from taxation until they are paid for, and a deed of conveyance granted to the purchaser.

Interest will be charged at only two per cent, per annum.—As a security for the performance of the contract, the first two years interest must be paid in advance, but it must be understood that one tent of the land purchased shall yearly be brought under cultivation. Longer credits at six per cent, per annum may be negotiated by epecial application. Twenty per cent, from the credit price will be deducted for cast, in which case the Company's Construction Bonds will be received as each. Besides this, there is a valuable saw mill upon the property, and one hundred & fifty lots in the thriving town of St. Mary's, which the subscribers get.

This originally formed part of a large tract, a great portion of which was settled by industrious and educated diermans, numbering some twenty-five hundred. They selected the land on account of its agricultural and mineral wealth, which alone is an indisputable evidence of the facts, as they are well known to be superior judges upon these subjects. They went there some twelve years ago, and they now have a thriving and beautiful settlement, which is laid off in regular rotations of fine farms, \$1. Mary's is the town of the settlement, and is rapidly increasing in population. It has hotels as good as any in the tate—thus stores—college, whose the highest branches of education are taught, both literary and musical—saw aiting a splendid upportunity for settlement. Himestone abounds. This is both an evidence of the quality of the soil and a great fertilizier. At \$8. Mary's it sells at from ten to twelve conts a bushel, burnt.

Continued to the continued of the contin ion to fencing and preparation, or desire to rent their oroperties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be eady for cultivation. After the farms have been all sold.

man in the first piace receives a farm at the lowest possible price, and thea is afferded every assistance in placing it under crops.

These embrace the principle features, and an excellent opportunity is now offered for a man to obtain a home for himself, his wife and children, either at the present or time to come. Many business men, mechanics, and workingmen upon farms, who save several dollars a month, can, by thus uniting together, become freeholders, whilst they searcely miss the outlay, and at less expense than the annual cost of tobacco or the most trilling luxuries. A saving and purchase of this kind eat nothing, and constantly increase in value. In case of sickness or misfortune by which he is thrown out of employment, he has a home to go to, where he can always make a good living. The title is unexceptionably good—one of the oldest in the State, being the Holland Title. Longer period application Twenty per cent. from the credit price will be deducted for cash, in which case the Company's Construction Bonds will be received as eash.

It is believed that the price, long credit, and low rates of interest charged for these lands, will enable a man with a few hundred dollars in cash, and ordinary industry to make himself independent before all the purchase money becomes due. In the mean time the rapid settlement of the county will probably have increased their value hour or fivefold. When required an experienced person will accompany applicants, to give information and aid in selecting lands.
