ELECTION ON TUESDAY NEXT.

BO We invite attention to the very able address of the Democratic State Central Committee, published on our first page. It will well repay an attentive perusal, and the sound Constitutional doctrines it inculcates should be carefully treasured up in the mind of every reader.

Democratic Head Quarters. We are authorized to say that the Demo cratic Head Quarters, on the night of the election, will be at BARNETT & Cox's "North American Hotel," fronting the Railroad. Our friends from the country are requested to report the returns at the above-mentioned place

Get Your Tickets in Time !

The Democratic tickets have been printed for nearly a week, and are being distributed by the energetic and indefatigable Chairman of the County Committee, Mr. SWARR, whenhands, and also by personal visits to various sections of the county. There are still a num ber of districts that have not yet received their supply; and the Chairman hopes that our friends will send for them by some careful hand, as it is impossible for him to visit

every district in person.

men. Turn out to the election on Tuesday next, fellow Democrats of Lancaster County, whether it RAINS or SHINES. Let nothing, save sickness or death, keep you from the Polls. Give the whole, or at least a part of that day to your country-and thereby aid in putting down the intolerant, proscriptive and wicked political heresy of KNOW-NO-THINGISM. Then, when the battle is fought and won, and Democracy triumphant, you can rest from your labors, and have the pleasing reflection beside that you discharged your duty faithfully and well, and assisted in the glorious achievement.

Are You All Ready, Democrats ?

Democrats of Lancaster County! What say you? Are you thoroughly organized and ready for the great contest on Tuesday next? Are you anxiously awaiting the day when you will, by your active and energetic participation, help to secure the triumph in the County which assuredly awaits us if every Democrat does his duty,

The town of Sebastonol was taken on the 8th inst. by the Allics, after a bombardment of three days and six repulses, and sixer being systemated and blown the by the Russians. Supposed to have been the ter. Another hecatomb has been offered t the pale Goddess of Fame; 30,000 human be ings have been immolated, to afford to the survivers the exultation of a triumphant march over a heap of smouldering ruins. The Ru signs blew up their defences, suck their ships, fired the city, and then crossed the bay. Conceding the truth of the despatches, the

These are of great strength. and command, on account of their elevated position, the opposite shore. An American, who is serving as an officer of the medical staf in the Russian army, gives the following de scription of the forts on the north side of the

bay : "On the north side of the bay is also a sucession of hills, some of which are very high, and running high in every direction. You find on them all bastions facing in every direction. These bastions and redoubts extend up the bay for a mile or so from the city, and some of them are very effective, pouring nearly a continual stream of balls across the bay inte the eneny's battery which is nearest the I think it very doubtful whether the French would be able to hold this city for any length of time if they could get possession of it, from the fact that those hills on the north side are taller than those of the south, and the city and the batteries on them, I think, would force them to leave it. In the main, they have been attempting this from the land on the south side. I will finish this by saying that it is the best fortified place I ever saw. There not a hill or a mound where a cannon could be placed with advantage, but you find them."

Thus, after nearly one year of desperate ef-forts, and indescribable suffering, at the cost of more than a quarter of a millions of human lives, and nearly 3000 million of francs, the Allies have at last succeeded in repairing a serious blunder committed at the outset by Generals St. Arnaud and Ragian. They have gained a position which, after the battle of Al-ma, might have been taken by a coup de main, as, at that time, the town of Sebastopol was entirely open and unfortified on the land side. From the tenor of the French papers it is evident that the north side of Sebastopol is yet unimpared, and hence the report that an allied force was marching along the coast to intercept the retreat of the Russians, appears to be incorrect, as, also, the rumor that the allied Generals had demanded the unconditional surrender of the Crimea and of Odessa.

With all the defection from our ranks, brought about by Know-Nothingism and other causes, there are still some six thousand honest and true men in the party who have never bowed the knee to the base and intolerant proscription which seeks to lord it over this lovely portion of our Commonwealth. These six thousand votes should all be polled on Tuesday next. And, in addition, we have reason to believe that there are hundreds of honest Whigs in the County who will willingly lend you a helping hand in "crushing out" the monster of Know-Nothingism.

We have received letters within a few days from Manheim, Sadsbury, Cærnarvon, the Cocalicos, Strasburg, Fulton, Bart, Columbia and various other points in the county-all of which speak in the most flattering tones of the prospect of electing our whole ticket. Our friends, in those districts, are doing their whole duty manfully and fearlessly-and if their example is imitated by our brethren in the other districts of the county, a glorious victory awaits the party on Tuesday next.
