ST. LOUIS CORRESPONDENCE. The "Little Grant 3" Speech at the Court House House His Views on Kansas Affairs Gov. Shan non and Kansas Sam Houston-Personal Matters—Sickness in the South, Ga., Le. The weather has been fair and favorable for outdoor operations during the week just closed. Business still improving, and wholesale danlers actively engaged in packing and shipping the fall stocks for country merchants. The rivers are all in good boating order, except the Missouri, which still continues extremely low. The health of our city never was better.

extremely low. The health of our city never was better.

On Friday night last, the Hon. Stephen A. Dougles, the "Little Giant," of Illinois, by invitation, addressed the citizens of St. Louis, in front of the Court House, upon which occasion he touched of the Nebraska Bill, and advocated and defended it on broad Constitut onal grounds; he adverted to Know-Nothingism, and denounced the proscription of Roman Catholics, and foreign-born and naturalized citizens. He took the ground and proved conclusively that the Know-Nothings were opposed to and in direct opposition to the spirit and meaning of the Constitution. During the speech several questions were put to Mr. Douglas, which he answered satisfactorily, and in good humor. He was opposed to the New England Emigrant Aid Society sending out hirelings for no other purpose than to war upon Slavery; he was down upon Massachusetts like a thousand of brick, and thinks that the Missurians were forced to defend themselves against the Abolitionists of the North, sent there as hirelings, merely to carry the elections in favor of the Free State candidates. e Abolitionists of the North, sent there as hirelings, erely to carry the elections in favor of the Free ate candidates. He said the Missourians, notwithing they were forced to do as they have done where no. justified by any law, but in direct violation of the true meaning of the act entitled the Nebraska-Kansas Bill—leaving the people of each State and Territory to decide for themselves, and regulate their own domestic affairs as they may deem most fit for their welfare and prosperity. This, he says, has not been done, and the Missourians, as well as the Northern Abolitionists, have violated the meaning and spirit of the territorial bill, and are both justly censurable for their conduct. If he wanted to make Kansas either a Slave or a Free State, he would move there and become one of the people of the Territory, and exercise the rights of a citizen—that is what the bill provides for, and all outside interference is contrary to the true spiric and meaning of that bill. Mr. Douglas further said that Abolitionism, Maine-law-ism, Know-Nothingism and all the other isms of the day, was an allied army, against which the Union and Constitutional men of the country will have to fight manially, if they would wish to preserve our cherished institutions. His speech was attentively listened to, by from 5,000 to 8,000 persons, and pronounced one of the best, most brilliant and patriotic speeches delivered from that stand for a number of years. He was frequently cheeved during the course of his remarks. The speech was based upon constitutional grounds, and was incontrovertible, either by the opponents of the two parts of the town." fied by any law, but in di the true meaning of the act entitled the Nebraska

cheered during the course of his remarks. The speech was based upon constitutional grounds, and was incontrovertible, ether by the opponents of the Nebraska Bill, or of Know-Nothingism, and Senator Douglas retired from the stand amid the loud huzzles of the congregated thousands.

(The Know-Nothings present—that omnibus load eried for Dr. M'Dowell, the famous blackguard, and leader and chief of the dark-lantern order, of this city, who, always ready and willing to attack the datholic Church, took the stand amid shouts and groans—Douglas, being aware of the dirty language generally used by the K. N. Chief, left the ground before the opening scene commenced—which was in these words—'If there are any ladies present they had better retire, as the great Mogul of Americanium is about to talk to the b'hoys.' This text was sufficient to drive the respectable portion of the assembly out of hearing, and the Doctor was left, with had better retire, as the great Mogul of Americanism is about to talk to the b'hoys. This text was
sufficient to drive the respectable portion of the assembly out of hearing, and the Doctor was left, with
his men, to enjoy the remainder of the crening.—
Whilst McDowell was blackguarding the Catholic
religion, as well as Senator Douglas for defending
the Constitution, and upholding the fundamental
laws of the land, the "Little Giant" was being serenaded at the Planters House, and he came to the
window and made a brief, but most patriotic, speech
to the crowd that had gathered around. Thus ended
the proceedings of Friday night.

Judgo Douglas is traveling through his own State,
(Illinois,) and addressing the masses on the important questions of the day, refuting the false and unfounded charges brought against him, and his Nebraska-Kansas bill.

There is a division in the ranks of the Pro-Slavery party, and it is understood that there are two Pro-Slavery candidates in the field, and both stumping the Territory. The Free State party believing that they might be considered as acquiescing, in some degree, in the acts passed by the Legislature, and suspected of making some show of submission to the laws, have resolved to hold their election on the second Tuesday in October—the Legislature designates the first. day in October—the Legislature designates the first. I stated in a previous letter that Gov. Shannon took the first opportunity of assuring the Western Missourians of his strong Pro-Slavery sentiments.— The Pro-Slavery party did not believe the Governor to be sincere in his declarations upon his arrival, and thought he was playing a double-handed game—they think so still, and look upon him with suspicion. My own opinion is, Gov. Shannon is merely sounding the Western people upon the Slavery question. ill fall upon their own heads

The actual settlers are opposed to Shannon, and are remonstrating with the President, in relation to the Governor's haste in expressing, uncalled for, his Pro-Slavery sentiments. He has placed himself in an awkward predicament—the Free State men believe him to be a renegade, and the Pro-Slavery party consider him a hypocrite in sentiment.

Last week the epidemic was reported to have entirely disappeared from New Orleans, but a dispatch in festoraly's paper reports it again prevailing in the hospital of that city—44 deaths in one day. A most shocking accidant occurred on Friday last to a man named John Carrigan, who was employed in the Empire Store Works. He was caught by a large fly-wheel and torn literally to pieces. One half of his head was completely crushed, and particles of his brain were thrown into the second story, through an opening in the floor. His jaw-bone was found some distance from the place of accident. He presented a most shocking spectacle. The celebrated pedestrian is still at work. He has thus far kept up to time, though he looks very much worn out, but it is believed will accomplish the undertaking. The wager is \$2,500 that he will walk a half a mile in every half hour during twenty-two days and nights.

A new boat called the A. B. Chambers, (named after the lamented Col. Chambers of the St. Louis Republican) made its appearance at our Levee on Thursday last, and a large crowd partook of a sumptuous repast, prepared by her owners. The occasion was one long to be remembered.

The Criminal Court is now in session, and business is being despatched as rapidly as possible. The trial of the notorious Bob O'Blennis, for killing the Deputy Marshall, has not yet come on, and probably will not this term, as the principal witness against him has since died from the effects of an accidental shot of a pittol which fell from his pocket, whilst in the act of picking something up from the parement.

THE DANISH SOUND DUES.—We may have a acrimmage with Europe upon paying this tri-bute to Denmark. The sound is a narrow strait lying between the Island of Zetland, be-longing to the Danes, and the Swedish coast, and gives entrance to the Baltic sea. The fortress of Cronburg Castle commands the passage, and exacts a payment from all vessels entering the Baltic; the ships of Denmark herself have to pay, as well as of foreign ton-nage: England, France, Holland and Sweden pay a duty of one per cent. on every cargo entering the Baltic. Other countries, including the United States, pay one and a quarter per cent.; even Danish ships are taxed to this rate. In the year 1826 a treaty recognizing this duty was concluded between the United States and Denmark. This treaty, however, according to one of its stipulations, may be dissolved by either of the parties, provided they give one year's notice of their intention. This notice has been given by the United States, and hence the dispute. pay a duty of one per cent. on every cargo en-tering the Baltic. Other countries, including

The Washington Star says:—The nevt steamer will, it is believed, carry out letters to Mr. Bu chanan, directing him to demand of the Brit-ish government the prompt recall of Mr. Cramp-ton, with the understanding that that course was adopted to avoid the necessity for a resort to the only other alternative—that of sending him out of the country without awaiting his recall by those under whose instructions he undertook to set at defiance the laws of the United States. But we shall not be surprised to learn from the annual message that Mr. Buchanan was instructed some time since to bring the matter to the notice of her Maiestv's government, immediately after it was first as-certained what the United States would be able to prove in the Philadelphia trial now in pro

PENNSYLVANIA IRON. -- It is said that Pennsylvania now produces as much iron as was manufactured in all Great Britain 30 years

HORRIBLE SACRIFICE OF LIFE ON WESTERN WAS HORRIBLE SACRIFICE OF LIFE ON WESTERN WATTERS IN FORTY-POUR YEARS.—From Lloyd's forthcoming Steamboat Directory we learn that since the application of the steam on the Western waters there have been thirty-nine thousand six hundred and seventy-two lives lost by steamboat disasters, three hundred and eighty-one boats and cargoes lost, and seventy boats seriously injured, amounting in the aggregate to the enormous sum of sixty-seven millions of dollars. It is to be hoped that this forthcoming work will have the effect of arresting the attention of the Government to the importance of Western interests, so far as our great rivers and lakes are concerned.

The Human Hair.—To minister to a penchant for "auburn waves" and "raven tresses," the brains of inventors have heretofore been called in requisition to little purpose; for although many oils, baths, dyes, and "specifies" have been the result of the incubation, they have not only proved to be valueless, but many of them positively injurious to the hair and scalp—being the incipium of scald-head and various other painful and dangerous cutaneous disorders.

plant of scald-head and various other painful and danger-ous cutaneous disorders.

Upon Prof. O. J. Wood. of St. Louis, forbune has confer-red the honor of having discovered a balsamic preparation, which not only promotes the growth and beautifies the Hair in a high degree, but, restores it when it is gone, or turns it back to its original color after it has beenne gray, fastens it to the scalp, and effectually destroys such cuta-neous cruptions as may have been engendered by the use of dyes, essential oils, and other injurious applications.— The many respectable testimonials which are offered in its favor, from every part of the country in which it has been introduced, leaves no loop for the sceptite to hang a doubt on. The great demand for this article in the eastern States, has induced the proprietors to establish a depot for its manufacture and kale in the city of New York. It is fast supplanting all other specifies for the Hair, and already enjoys a popularity which no other has ever attain-ed. Buy it—test it—and you will rejoice that your atten-tion has been directed to it.

Patent Ambrotypes.—The subscribers having purchased the exclusive right of Lancaster city, are now enabled to offer to the public a NSW STILE OF PICTURES, far exceeding, in beauty and durability, anything ever before made. These pictures are not reversed, (as daguerrectypes areand may be seen in anylight. They also possess the rare property of being IMPERISHABLE, being hermetically scaled between glass plates, which is secured by Lotters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMINGS, oilly, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated: is derived from the Greek word imbratos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible coment, by by which the picture will retain its original brilliancy for ages; it will not correda by adds, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned area intimitations made on single plates of glass, with the black varnish in immediate contact with the Picture.—Such are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST HE SEEN, to be appreciated—the relief being fully as perfect as Hig. AMBROTTE STERRESCOPES MUST HE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

Excoxviiii, Sep. 11, 1855.

Charles K. Landis, Esq.—Dear Sir: Yours, dated Phila, delphia, 3th inst., came to hand an hour ago, and I haston to reply. You desire in it a true statement or description of the land, &c., about St. Mary's, in Kik county. I am happy to be able to give you a fall description, as by illing in the place for the last five years, as also having frequent occasions to explore the lands and its mineral worth. I have become thoroughly acquainted with the value of the land and its mineral resources. As an agricultural country, it surpasses any land in this or adjacent country. It surpasses any land in this or adjacent countries. If produce the best of rye, dorn, oats, potatoes and grass. Last year, when there was a general failure of crops in Easterr Fennsylrapia, St. Mary's had an abundant harvest, an while scarcity provailed everywhere else, there-was abundance har Thousands of dollars worth of produce was sold in this settlement last year. It is a good limestone soll; limestone is found in abundance, so that the land can at any time be improved by liming.—Abundance of coal is found everywhere in these lands; I have, although wood is so plenty, for the last two years used nothing but coal for my family use. I know of more than ten or twelve different coal banks opened within a short distance of St. Mary's. They all average from four to six feet veln, running in general into the hills, or rather working upwards, so that water never can disturb them. There is also abundance of iron ore. The Kidney rock, and some pipe ore has been found. At the base of hills torn away by the ravines, I can in many places get lumps of one weighing from five hundred to six hundred pounds, of the best of rock ore. There is also abundance of fire proof clay lying in strata between the coal and limestone

transportation to the Eastern market. The rapid increase and growth of flourishing towns and villages along the line of this road afford a growing home demand for farm produce.

Ceal and wood are delivered along the road at different points, at from \$1.50 to \$4 the cord or ton.

Parties having in view Iowa, Kansas, Nebraska, or Minnesota for their future homes should take into consideration that the country west of the Mississipp is destitute of railroads; that the conveniences of transporting grain and produce farms on the line of the Illinois Contral Railroad, direct to the great Eastern market, it sufficient of itself to pay the investment at from \$10 to \$15 per zero higher than it government lands in lows. In other words that it coats so much more to get produce from the interior of the country west of the Mississipplito the Eastern market, that the farmer will find it much more profitable to locate on the line of this railroad.

Price and Terms of Payment.—The price will vary from \$5 to \$25, according to location, quality, &c. Contracts for deeds may be made during the year 1855, stipulating the purchase money to be paid in five annual instalments—the first to be due in two years from date of contract, the other annually thereafter. The last payment will become due at the ond of the sixth year from date of contract, the other annually thereafter. The last payment will become due at the ond of the sixth year from date of contract, the other annually thereafter.

By the \$22d so repeated at only two per cent, per abnum.—As a security for the performance of the contract, the first two years interest must be paid in advance, but it must be understood that one tenth of the land purchased shall yearly be brought under cultivation. Longer credits at six per cent. per annum may be negotiated by epocial application.
