Sr. Louis, October 8, 1855.

We have had most remarkable weather during the week just closed. On Tuesday and Wednesday last it turned extremely cold, and heavy white frosts were observed by those who rose early, and on Friday afternoon, the 5th inst., quite a snow storm virited us, and continued for several hours. In many places, where the ground was dry, it was fully a quarter of an inch in depth. This is the earliest snow that has ever been known to have fallen in this neighborhood—nearly two months earlier than last season. The probabilities are that we will have a long and hard winter. The atmosphere to-day is very cold, and a fire feels quite comfortable. Coal, in consequence, has advanced to 15a16c per bushel. There has been a slight advance in some of the leading staples of our market. Flour and wheat is active—the former readily commands \$8,25 6,624 for uninspected or guaranteed, whilst fancy favorite brands are selling at \$7,50a7,75 per bbl. Wheat from \$1.00 to 1,45, as in quality; corn 57a58c; oats 32a36tc; sugar se per lb.; molasses 35a36c per gallon; potatoes from 35 to 55c per bushel.

Country merchants are still purchasing their fall and winter stocks, and every department of trade is quite active. The rivers are also in fair navigable condition.

and winter stocks, and every department of trade is quite active. The rivers are also in fair navigable condition.

Early on Wednesday morning last, a fire broke out in a coffee house on Main street—the upper floors being occupied as a boarding house, and in a few minutes the immates were cut off from escape by the stairway. The boarders, therefore, were compelled to make their escape by jumping out of the second and third story windows. Two 'men, one of them lying ill in bed at the time, were burnt with the building. Their bodies were taken from the rains, three or four hours after, charred and burned in a most shocking manner. They were both Frenchmen. It is thought that others perished in the fla mes, as several are missing, and nothing of them can be found. The building and contents were entirely consumed, and the adjoining houses much damaged. On Thursday last a German shoemaker and his wife got into a family quarrel, when the husband seized a knife and stabbed his wife with it five or six times, and fled to a pond near by, jumped in for the purpose of drowning himself, but his faithful New Foundland dog plunged in after him, and dragged him to the shore, when the inhuman wretch killed the dog with the same knife he had stabbed his wife with, and again leaped into the water, and sunk to the bottom. When the facts were made known, the pond was dragged and the body recovered. The woman is still living, but no hopes of her recovery.

An unknown man was also found, a few miles An unknown man was also found, a few miles from the city, suspended by the neck to a fence, with his knees touching the ground. Life was extinct. Some marks tatoocd in India ink were upon his arms, indicating that he had been a sailor. The Intelligencer chronicles, with great gusto, the arrival in this city, of the Iton. Miss Marray, mistress of the Bed Chamber to Queen Victoria. She is said to be in pursuit of her favorite study, Geology! She is stopping with Dr. C. A. Pope.

The steamer "F. K. Jr.," burnt to the water's edge, in Yazoo river, on Tuesday, the 24th ult. The pastengers and crew, were obliged to jump overboard to sare themselves from the flames, and were rescated by clinging to the cotton bales that had been thrown into the rivor. The boat and cargo are a total loss. She was freighted with 312 bales of cotton.

The Tennessee papers contain an account of an outrage and murder of a white woman, committed by a negro, near Sparta, in that State. The culprit was taken from the jail by an exasperated populace, and, after confessing the deed, hung him on the limb and, after contessing the deed, nung nim on the limb of a tree.

The yellow fever has abated at New Orleans, but at Vicksburg it is on the increase. In Canton, Miss., the epidemic was prevailing to a considerable extent, and at the town of Waterproof, in a population of 115, there had been 80 cases, and many deaths. At Memphis, it is said to be raging fearfully, and apprehensions are entertained that it will extend still further up. This spell of cold weather, however, will have a favorable effect, and in all probability arrest its further prevalence. further up. This spell of cold weather, however, will have a favorable effect, and in all probability arrest its further prevalence.

From all accounts heavy frosts have been experienced in Iows, Illinois and this State, but from the best information we believe the corn is generally safe, but the tobacco crop, in some sections, is supposed to be in some danger.

The Ransas election took place on Monday last, and passed off without any disturbance, as no interest, whatever, was manifested in the result. Gen. Whitfield, the Pro-Slavery candidate, had no opposition, and polled all the votes. The Free Soil party did not go to the polls, but hold their election tomorrow. The Shawnee Indians voted for Whitfield got 800? Gov. Shannon, the Free State man, voted the Slavery ticket out and out—he is for Slavery in Kansas, and the laws as enacted by the Legislature illegally in session—all of which Gov. Reeder still be sent from Kansas, when Congress will have to decide the validity of the election. Gov. Reeder will be voted for to-morrow.

Judge Trumbull, one of the Scnators from Illinois, made a speech in Alton, a few days since, in reply to one of Hon. S. A. Douglas, delivered some time ago. I have not seen the reply, but if Trumbull's speech was tinged with the same language as that used by the famous or infamous Dr. McDowell, of this city, Judge Douglas, in place of losing any of his former popularity, will gain immensely from the gatacks of such celebrated oliaracters. The taking of the census of Muscatine, Iowa, has just been completed, and showsthat that flourishing city now contains 7,300 inhabitants—being an increase of 2200 in a little over a year.

just been completed, and showsthat that flourishing city now contains 7,300 inhabitants—being an increase of 2200 in a little over a year.

Politicians are beginning to show their hands as to their "first choice" for the next Presidential candidate. Col. Benton is no doubt the "first choice" of a majority of the people of this State, but as he is opposed to Conventions, will not, as a matter of course, be a candidate in the National Convention, to be held at Cincinnati, in June next; and as it is necessary that union and harmony of action should prevail in the Democratic party, his friends will no doubt acquiesce in, and endorse the nominee of that body. In conversation with some of his fast and best friends, I learn that "Bennsylvania"s Favorite Son" is their "first choice," proyided Col. Benton refuses to allow his name to be used in the Convention. The Hon. James Buchanan stands high in the Democratic party of the West and South, and a powerful support will come from these sections in his favor, which will no doubt tell in the Cincinnati Convention. The delegates from Missouri are certain for the distinguished son of the Kaystone State—which is by right, and ought to have the next President, and of we are to judge from the signs of the times, will have, in the person of the Hon. Jas. Buchanan. The Democracy are ripe for the result, and will vote as one man for Buchana and Buthan! The Human Hairs—To minister to a penchant I for "auburn waves" and "rayon tresses," the brains of inventors have her aftere been called in requisition to little purpose; for authough many cils, balms, dyes, and "specifics" have been the result to the incutation, they have not only proved to be valueless, but many of them positively hiptirious to the hair at a scalp—being the inciplent of scald-head and various other painful and dangerous cutaneous disorders.

positively injurious to the hair and scalp—being the fuel plent of scald-head and various other painful and dangerous cutaneous disorders.

1900 Prof. O. J. Wood, of St. Louis, fortune has conferged the home of having discovered a baissamic preparation, which not only promotes the growth and beautifies the Hair in a high degree, but restores it when it is gone, or turns it back to its original color after it has become gray, fastens it to the scalp, and effectually destroys such cutaneous eruptions as may have been engendered by the use of dyes, essential oils, and other irjurious applications.—The many respectable testimentals which are offered in its favor, from every part of the country in which it has been introduced, leaves no loop for the sceptic to hang a doubt on. The great demand for this article in the caten states, has induced the proprietors to establish a depot for its mapufacture and sale in the city of New York. It is fast supplanting all other specifies for the Hair, and already enjoys a popularity which no other has were attained. Buy it—test it—and you will rejoice that your attention has been directed to it.

Yours, &c.

Paor. Woon.—Bear Sir:—Having made trial of your Hair Restorative, it gives me great pleasure to say that its effect has been excellent in removing inflammation, dan druff, and a constant tendency to itching with which I have been troubled from childhood, and has also restigered my hair, which was becoming gray, to its original color. J. K. Brace, Pastor of the Orthodox Church, Brookfield, Illinois Central R. R. Office, Vandalia, June 21, '54. PROF. WOOD,—Dear Si: —I take pleasure in bearing vol-untary testimony to the excellence of your Hair Kestora. tivo. Three months ago my hair was very gray. It is now a dark brown, (the original color,) smooth and glossy. The only application I have made to it has brown the Hair Restorative, prepared by you; and which, from the result of my own case, I can most pordfally recommend to others. Respectfully yours.

From the Editor of the Real Estate Advertiser, School Paor. Woop,—Dear Sir:—Having become previously quite gray, I was induced, some six weeks since to make trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and although my hair has not fully attained its original color, yet the process of change is gradually going on, and I have great hopes that, in a short time, my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before, was harsh and dry, and it has esseed to come out as formerly. Respectfully yours.

D. C. M. Ruep.

PROF. Wood:—My hair commenced failing off some three or fours years since, and continued to do so until I became quite bald. I tried all the popular remedies of the day, but to no effect; at last I was induced to use your elebrated Hair Restorative, and am very happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afficied.

PROF. DEGRATH'S ELECTRIC OIL.

There is a rimor abroad among Druggists and others who interest themselves in a manner calculated to injure the sale of this article, that the Agents who introduced the Electric Oil into our city, paid persons to go to the respective Drug stores to enquire for the article after they had distributed their circulars and prior to calling themselves, to effect a sale. This rumor being calculated to attach the idea of of humbug to the medicine, and thereby injure the sale and use of it, I will pay Dne Dollar (81,00) to every man, woman or child who will come forward and affirm that they were sent to my Drug store by those men for the purpose above named.

Patent Ambrotypes.—The subscribers having purchased the exclusive right of Lancaster city, are now enabled to offer to the public a NEW STILE OF PICTURES, for exceeding, in beauty and durability, anything ever before made. These pictures are not reversed, (as daguerree-typestareand may be seen in anylight. They also possess the rare property of being IMPERISHABLE; being harmetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Sprecher & Bro.'s New Store, North Queen st., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated: is derived from the Greek word Ambrotos, synifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cament, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bodd in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the black lyarish in immediate contact with the Picture.—

Buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE.STERESCOPES MUST BR. SEEN.

Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polific attention.

man in the first place receives a farm at the lowest possible price, and thee is afferded every assistance in placing it under crops.

These embrace the principle features, and an excellent opportunity is now offered for a man to obtain a home toy himself, his wife and children, either at the present or time to come. Many business men, mechanics, and workingmen upon tarms, who save several dollars a month, can, by thus uniting together, become freeholders, whilst they scarcely miss the outlar, and at less expense than the annual cost of tobacco or the most trifling luxuries. A saving and purchase of this kind eat nothing, and constantly increase in value. In case of sickness or misfortune by which he is thrown out of employment, he has a home to go to, where he can always make a good living.
