ST. LOUIS CORRESPONDENCE. Indian Summer—Destruction of Fort Armstrong—Runored Murder of Gov. Reader—New Invention—Georgia Money—Political—Hon. James Buchanan—Stock at a Premium, de., de. Sr. Louis, October 22, 1855.

We are now in the full enjoyment of "Indian Summer," and the weather is truly delightful, and every body seems to be making the best of it—our merchants pushing things forward as rapidly as possible—business men actively engaged in their various pursuits—ladies promenading and "shopping" from early dawn 'till the curtain of night drops between them and the rich fancy fixens' that attract one's eye at every step—rich and showy windows—clerks barbered sleek as silk, and, in a word, everything and every body seem to be taking advantage of "Indian Summer," and mankind generally "bobling around!" Quite a thunder storm passed over our city, on Saturday afternoon last, and yesterday it was quite chilly. There is no material change in our produce market. Business continues brisk, and the health of our city remains good. A young lady, seventeen years of age, named lancy Jane McCormick, from Belmont county, Ohio, fell overboard from the steamer "Prairie State," lying at our levee, on the 17th inst., and was drowned.

She disappeared in a moment, and her body has not been recovered.

It is with regret, that I announce the destruction, by fire, on the 7th inst., of Fort Armstrong, near the town of Rock Island, on the Upper Mississippi river. The buildings have been long unoccupied, and the torch was, no doubt, applied by the incendiary, who would see all memorials of the past obliterated from our view. Fort Armstrong was built by order of the tovernment, under the supervision of Lieut. Col. Havenport, (late of the U. S. Army, and now a resident of Philadelphia.) in the year 1816. For upwards of twenty years, it was garrisoned by various portions of infantry and artillery, under different well known and gallant commanders.

The late President Taylor, when a Captain of Infantry, was stationed here, and the memorable treaty between Black Hawk and Lieut. Gen. Scott, by which Iowa was ceded to the pale face, was held within the range of its guns. Standing, as it does, upon the top of the rockey islet, at the foot of the upper rapids, its deserted blockhouses and dismanted ramparts have ever presented a picturesque applearance to the yourger as he account the absorber. lisappeared in a moment, and her body has not

A rumor reached this city, several days ago, that ex-Governor Reeder had been murdered in Kansas flerritory, and quito an excitement prevailed for a time, but it is now believed to have been a hoax, as further information has been received, which reports Gov. Reeder to have been engaged in a fight, tut was not hurt in the least. Consequently the whole thing is a sheer fabrication, gotten up by border ruffans, to see how the people would receive such intelligence, were the case a matter of fict. It is, however, not likely that the blood-thirsty cravens will attempt so gross an outrage upon the Governor. Atchison, in this Kansas business, has much to abswer for. He is repudiated by the Democratic plarty of Missouri, and the Administration, at Washington, had better be careful of him, as he is not to be relied upon. He is a Know-Nothing, and a sworn secret enemy to Democracy, and some of his best friends have deserted him. It is said that the border rhiffians, and the K. N.'s, will demand his election to the U. S. Senate, next month, at Jefferson City, when the extra session of our Legislature is to convene. God forbid such a result. He is a disunionist of the owns in vene. God forbid such a result. He is a disunionist of the rankest type, and the press which he owns in Kansas, recently said that it hoped "the last Congress would meet at Washington, in December next."

A Mr. Thompson, of Kansas, is said to have just completed a Prairie Ship or Wagon, to be propelled by wind. He proposes to make a voyage to the tdocky Mountains, and himself and thirty passengers are to embark in June next. This thing was tried, a few years ago, by a gentleman in Illinois, but proved inadequate to the task, and the realization of the gentleman's hopes was never reached.

A meeting, of Illinois farmers and mechanics, was held, during the State Fair, and a series of resolutions denouncing Georgia currency, and pledging

tions denouncing Georgia currency, and pledging themselves not to take any Georgia money, for their products or labor, were offered and unanimously approved. Beware of Georgia money! ploved. Beware of Georgia money!

It is said that the rice, sugar and orange crops of Louisiana, have measurably failed. There was a light frost along the lower Mississippi river, near Bayrou Sara, on the 7th inst

light frost along the lower Mississippi river, near Bayou Sara, on the 7th inst.

Four negroes were executed on the 6th inst., at Point Coupee, La., for the murder of a man, named Johns, and his wife.

Since the recent elections in Pennsylvania, Ohio and Indiana, the political ball of '56 has opened, and politicians are beginning to express their sentiments and views, in regard to the anproaching Presidential campaign. You have no idea, in what high estimation "Pennsylvania's Favorite Son' is held in the West and South, and it might be considered a spirit of boasting, in me expressing myself, and giving the sentiments of the Democracy of this section, as being favorable to the Hoa. James Buchanan, as the next Democratic candidate, for this exalted position. He is, nevertheless, in the hearts of a large majority of the Democratic party, and when the proper time arrives, this assertion will be more than realized. the proper time arrives, this assertion will be more than realized.

The St. Louis Intelligencer, when Know-Nothing is was in its prime of life, occupied the position as organ of that League, in this State, but finding that Americanism was submerged into Abolitionism, openly and above board washed its hands of Know-Nothingism, and declared itself with the National Democracy, rather than support so foul a party, and shows its preference in the following paragraphs:

A democratic victory in Pennsylvania on the eve of a Presidential context is always significant. "As gas S Pennsylvania, so goes the Union," has long been a proverb. The Democratic victory now may influence the nomination at the Democratic National Convention to be held in Cincinnati next spring. to be held in Cincinnati next sprins

With Buchanan up for President, the party would, no doubt, sweep the State of Pennsylvania by a treapendous majority; and if he should not be elected, he would be the first candidate, we believe, failing f success, with Pennsylvania to back him.
That the friends of Mr. Buchanan will endeavor That the friends of Mr. Buchanan will endeavor to effect his nomination, is certain. He is a statesman of talents, of reputation, and of spotless private life. His perfect familiarity with the foreign relations of the country would fit him well for the Presidency in these troublous times; while on the slavery question his views are national. The democrats would find him a strong man with the people. The Missouri Democrat says that Buchanan stock is at a premium, and that he need not trouble himself about coming home, for his chances for the Dimocratic nomination in '56, since the Pennsylvania election, have given him the inside track, and that he will hold it at the Cincinnati Convention. The Democrat is the leading Democratic paper of Missouri, and notwithstanding Col. Benton is its first choice, and propably the first choice of the Dimocratic voters of this State, but unwilling that his name should be used in Convention, instigated, no doubt, the remarks of the Democrat favorable to the Hon. James Buchanan.

The St. Louis Morrung Herald, a supporter of Sam Houston's claims, until his famous Know-Nothing letter, says if the next President is to come from the North, that man must be James Buchana, of Pennsylvania. effect his nomination, is certain. He is a states

from the North, that man must be James Buchanak, of Pennsylvania.

The Louisville (Ky.) Courier, always an opponent of Democratic measures and men, in an article on the "Next Presidency," says—Mr. Buchanan occupies a very advantageous position, and by remaining away will escape the violent discussions and con entipns of the next Congress, and will be in a capital condition to adopt that precise phase of Democracy which the exigencies of the hour shall point out as the safest and most profitable. Upon a review of the whole field, it appears that Mr. Buchanan and Gen. Pierce will be the contestants before the Cincinnati Convention, for national support.

There is a great deal of truth in what the Courier says, of the two gentlemen above named, but judging from the signs of the times, Pennsylvania will iys, of the two gentlemen above named, but judging from the signs of the times, Pennsylvania will me off victorious, both in June and November next. The Tusambia (Ala.) Enquirer, is for the restion of President Pierce.

ection of President Pierce. The returns of the Minnesota election have not all en received, but enough is known to show tha been chosen by a large majority.

The official majority of Johnson, for Governor of lennessee, is 2.157! The majority of the Democratic party in Indiana, n the popular vote, will be upwards of 20,000.

Hon. James J. Purdy, died on the 13th inst., at fount Vernon, 1ll., in the 63d year of his age. He has a resident of this city for upwards of 20 years.

Yours, OLD GUARD.

THE PITTSBURG LIQUOR TRIALS.—PITTS-PRG, Oct. 25.-William Bennett, convicted terday of violating the liquor law, appearu in Court to day, and gave bail until the motion for a new trial is decided. The Court stated that in all cases the law would be strictenforced, without regard to persons. In the case of James Shannon, charged with colating the liquor law, the jury to day rendered a verdict of guilty.

The Human Hair.—To minister to a penchant for "auburn waves" and "raven tresses," the brains of inventors have heretofore been called in requisition to little purpose; tor although many oils, balms, dyes, and "specifics" have been the result of the incubation, they have not only proved to be valueless, but many of them positively injurious to the hair and scalp—being the luciplent of scald-head and various other painful and danger-oads cutaneous disorders. positively injurious to the hair and sculp—being the lucipient of scald-head and various other painful and danger—out cutaneous disorders.

Upon Prof. O. J. Wood, of St. Louis, fortune has conferred the honor of having discovered a balsamic preparation, which not only promotes the growth and beautifies the Hair in a high degree, but restores it when it is gone, or turns it back to its original color after it has become gray, fastens it to the scalp, and effectually destroys such cutanebus cruptions as may have been engendered by the use of direc, essential oils, and other injurious applications.—The many respectable testimonials which are offered in its favor, from every part of the country in which it has been introduced, leaves no loop for the sceptic to hang a doubt on The great demand for this article in the eastern States, has induced the proprietors to establish a depot for its manufacture and sale in the city of New York. It is fast supplanting all other specifies for the Hair, and already euloys a popularity which so ther has ever attained. Buy it—test it—and you no other has ever attained. Buy it—test it—and you no other has ever attained. Buy it—test it—and you no other has ever attained. Buy it—test it—and you will rejoice that your attention has been directed to it.

Yours, &c.

PROF. WOOD.—Dear Sir:—Having made trial of your leaf the storaitye, it gives me great pleasure to say that its effect has been excellent in removing inflammation, dandruff, and a constant tendency to itching with which I have been troubled from childhood, and has also restored my hair, which was becoming gray, to its original color. I have used other articles, with any thing like pleasure and profit. Yours, &c.

cos Central R. R. Office, Vandalia, June 21, '54. Proc. Wood,—Dear Sir. —I take pleasure in bearing vol-tary testimony to the excellence of your Hair Restora.

Three months ago my hair was very gray. It is a dark brown, (the original color,) smooth and glossy, only application I have made to it has been the Hair storative, prepared by you; and which, from the result my own case, I can most cordially recommend to others.

Respectfully yours,

a the Editor of the Real Estate Advertisor, School Boston, March 20, 1854. Phor. Wood,—Dear Sir:—Having become previously quite gray, I was induced, some six weeks since, to make trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and although my hair has not fully attained its original color, yet/the process of change is gradually going on, and I day great hopes that, in a short time, my hair will be as dayk as formerly. I have also been much gratified at the healthy moisture and vigor of the hair.

PROF. Woon:—My hair commenced failing off some three or fours years since, and continued to do so until I became quite bald. I tried all the popular remedies of the day, but to no effect; at last I was induced to use your celebrated Hair Restorative, and am very happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afficied.

Friends and relatives, as well as three darks and relatives one share, can have their farms together.

An Improvement Department will also be connected with the company. By this means, in order to accommo date those who are unable to give their personal attention to fencing and preparation, or desire to rent their terms are approximated to the darks are asserted to the control of the control o

with the company. By this means, in order to accommodate those who are unable to give their personal attention to feacing and preparation, or desire to runt their properties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stockholders can have manure furnished, houses built, and other work done upon credit, they securing the payment to the company within a reasonable time, so that a man in the first place receives a farm at the lowest possible price, and theal is afferded every assistance in placing it under crops.

These embrace the principle features, and an excellent opportunity is now offered for a man to obtain if home for himself, his wife and children, either at the present or time to come. Many business men, mechanics, and workingmen upon farms, who save several dollars a month, can, by thus untiling tegether, become freeholders, whilst they scarcely miss the outlay, and at less expose that the annual cost of tobacco or the most triding luxuries.
