Important Foreign News. We have news from Europe one week later, by the arrival, at New York on Thursday, of the steamship Pacific. The London Times still continues its warlike articles against the United States, and has managed to create an extraordinary excitement in England, so that it was rutnored that an actual rupture had taken place between the two countries, and that the American minister was about to leave. The latter report is contradicted by Mr. Buchanan himself. When the allied troops withdrew from Odessa, the most of the Russian troops there were marched back to Nicholaiff, and the fugitive inhabitants returned. The liners of the fleet at Kinburn had left there to make a reconnaisance of Cherson. The fort and town of Kinburn were still occupied by 15,000 allied troops. The allied gunboats have been up the Bug to make a reconnaisance. General Codrington has been appointed Commander of the British forces in the Crimea .-A belief prevailed that the Russians meditate an attack upon the allied positions at and about Sebastopol. Lord Panmure telegraphed the information to General Simpson, and for many nights the troops slept on their arms. -It was also owing to this cause that the advance of the allied troops was countermanded, and the forces recalled to their former positions. The Allies are repairing and arming Sebastopol, and keep up a desultory fire against the north side of the harbor. An article in the London Times says that the main body of both armies of the Allies will at once go into winter quarters, and that the operations for the expulsion of the Russians from the Crimea are abandoned for the season. At the same time that the allied fleet in the Sea of Azoff destroyed Taman and Funagina, it made a successful demonstration against Temriouk. The object of the expedition was not only to deprive the Russian troops of shelter during the winter, but also to procure materials for housing the allied forces at Cape St. Paul and Yenikale. They destroyed and carried off large quantities of building materials, and found about seventy disabled guns.

From the Baltic fleet the news is that some English ships had effected reconnoismoes in the Gulf of Pernau. A number of Russian consting ships had been burned, and a steamer had bombarded the batteries of Gamla-Carleby. A trilling engagement had occurred at Bernalhem between a few Russian soldiers and some English marines from the corvettes Archer and Desperate, which resulted in the retreat of the Russians, and the demolition of the Custom House by the victors. Several of the ships had suffered from storms. The English fleet, which recently numbered one hundred and four vessels, is now reduced to fifty, while only two French ships remain. The remainder of the squadron is withdrawing from Nargen to Keil .- North American.

THE BRITISH FLEET-NICARAGUA AFFAIRS. -Washington, Nov. 16.—The Secretary of the Navy, withheld his instructions to Commo-dore Paulding until the arrival of the Pacific, and it is now understood, that, in consequence of official intelligence from England, assuring our Government that the despatch of the Brit-ish squadron to the West India station has no reference to Central American matters, nor any object hostile to the United States, only one vessel of the Home Squadron will proceed to Nicaragua, viz: the flag-ship, the Potomac, with Commodore Paulding, in charge of the general interests of the United States in that

IMPORTANT PROCEEDINGS. - Several distinguished merchants of New York have recently had their property attached by the United States Marshal, to satisfy judgments from the obligations of which they had supposed them-selves released by the operation of the genereral bankrupt act. The proceedings ken, says the Journal of Commerce, pursuant to a recent decision of the United States Attorney General, that debtors to the United by virtue of that act, and that the government as the same legal right to proceed to the collection of judgments against those who subsequently obtained certificates of 'release as if the bankrupt law had never been in force.

Baltimore, Nov 15 .- Thanksgivingday is being observed to-day in this State, Virginia, and the District of Columbia. Business is entirely suspended in this city. The day has universally been kept as a holiday in this city. The weather was charming, and the streets were thronged with pedestrians .- The churches were also well attended.

THE CANAL BOARD-HARRISBURG, Nov. 15. The Canal Board adjourned yesterday, and Messrs. Mott and Hopkins left last evening. It is understood that several subordinate appointments were made, but it was resolved not to make them public at present.

Gen. Callahan, Superintendent of the Alle gheny Portage Railroad, has appointed John O. Osterloh and Mr. Linton his Assistants. PENNSTLVANIA COAL .- It is more than twentyfive years since Pennsylvania coal began to be a recognized article of production and commerce. This year the product will amount to no less than six million of tone. This, as delivered at the mines, is worth at least twelve millions of dollars, so that this great snm may be regarded as the amount of solid wealth dug annually at the present time, from the bowels of the earth.

The Human Hair.—To minister to a penchant for "auburn waves" and "raven tresses," the brains of inventors have heretofore been called in requisition to little purpose, for although many oils, balms, dyes, and "specifies" have been the result of the incubation, they have not only proved to be valueless, but many of them positively injurious to the hair and scalp—being the inciplent of scale head and various other painful and dangerous cutageous disorders.

positively injurious to the hair and scalp—being the fuel plent of scald-head and various other painful and danger ous cutaneous disorders.

Upon Prof. O. J. Wood, of St. Louis, fortune has conferred the honor of having discovered a balsamic preparation, which not only promotes the growth and beautifies the Hair in a high degree, but restores it when it is gone, or turns it back to its original color after it has become gray, fastens it to the scalp, and effectually destroys such cutaneous eruptions as may have been engendered by the use of dyes, essential oils, and other injurious applications.—The many respectable testimonials which are offered in its favor, from every part of the country in which it has been introduced, leaves no loop for the sceptic to hang a doubt on. The great demand for this article in the eastern States, has induced the proprietors to establish a depot for its manufacture and sale in the city of New York. It is fast supplanting all other specifies for the Hair, and already only of the state it—and you will rejoice that your attention has been directed to it.

Yours, &c.

Phor. Wood.—Bear Sir.—Having made trial of your lair Restorative, it gives me great pleasure to say that its offect has been excellent in removing inflammation, dandruff, and a constant tendency to Itching with which I have been troubled from childhood, and has also restored my hair, which was becoming gray, to its original color. I nave used other articles, with any thing like pleasure and profit. Yours, &c.

PROF. WOOD,—Dear Siy:—I take pleasure in bearing voluntary testimony to the excellence of your Hair Restorative. Three months ago my hair was very gray. It is
now a dark brown, (the original color,) smooth and glossy.
The only application I have made to it has been the Hair
Partovarive, prepared by you; and which, from the result f-my own case, I can most cordially recommend to others
Respectfully yours,

EDWARD WOLCOTT.

Bostox, March, 20, 1854.

Paor. Woop,—Dear Sir:—Having become previously quite gray, I was induced, some six weeks since, to make trial of your lair Restorative. I have used less than two bottles, but the gray hars have all disappeared: and although my hair has not fully attained its original color, yot the process of change is gradually going on, and I have great hopes that, in a short time, my hair will be as dark as formerly. I have also been much graffied at the healthy moisture and vigor of the hair, which, before, was harsh and dry, and it has ceared to come out as formerly.

Respectfully yours,

D. C., M. Rupp.

Prof. Wood:—My hair commenced falling off some three or fours years since, and continued to do so until I became quite baid. I tried all the popular remedles of the day, but to no effect; at last I was induced to use your celebrated flair Restorative, and am very happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afficied.

Obituary

Died at Elgin, near Natchez, Miss., on the morning of Sunday, the 14th of October, 1855, Dr. JOHN CARMICHALL JENKINS, in the 46th year of his age.

The intelligence of the death of Dr. Jenkins, following, after so short an interval of time, the decease of his lamented wife, came with an unexpected and stunning force upon the encle of his friends and acquisitances, notwithstanding the frequency with which our community has recently been visited by these sudden and sad betreavements. It was hard to realize that within the lapse of one short month, both husband and wife had been stricken from the roll of the living, and become the tenants of the insatiable grave. Yet so hath God wrought. Had an enemy done this, we feel that we could not have borne it. "It is the ord, let Him do what seemeth him good."

The subject of this notice was born at "Windsor Place." Lancaster county, Pennsylvania, on the 18th day of Decenter, A. D. 1809, of Scottish and Welsh ancestry, which extended back to the first settlements made in the territory of William Penn. He received his academic instruction in the vicinity of his birthplace, and graduated at Dickinson College, Carlisle, Penn. Chorsing the profession of medicine as his pursuit in life, he entered upon its study with Dr. Geo. B. Wood, of Philadelphia, and received the degree of M. D. from the University of Pennsylvania, in that city. We have been informed that he graduated with distinction in his class, and that his preceptors predicted for him an honorable career in the profession of his choice. He was not destined, however, to blow his original vecation. Circumstances calling him soon after to the Southrest, he became a resident of Wilkinson county, Miss. A life of comparative leisure, rendered more attractive and inviling by the charms of social enjoyments of his choice. He was not destined, however, to allow his original vecation. Circumst

rphan, and to emiliate, we trust, a bright example of pa-ental loveliness and worth. Such is a brief and imperfect sketch of the more promi-ent events in the life of Dr. Jenkins. To draw his char-ecter and do full justice to the many brilliant qualitie hich adorned it, we confess to be beyond our feeble power-or is it necessary to portray it before a community in hich-the was so long and so favorably known. His bes-ned most besting memorials are in the He was distinguished by nature wish more than ordin

who knew no ties of kindred or ties of blood, still weep at his departure, and feel in it the loss of a benefactor and a friend.

It was not only in these genial feelings of the heart that he was distinguished among men. His intellect, which was naturally of a high order, was improved by vigorous exercise and constant study, and was being more and more developed as he increased in years. His menury was of an enlarged capacity, which enabled him to retain the knowledge once he had acquired, and contained a rich fund which was plays available in conversation, or in the more claborate productions of his pen. Easy and published as a writer, his contributions to the literature of the day would have been more frequent, but for a strong natural reluctance to obstrude his name before the public eye; and when he did thus appear, his object was always connected with the advancement of useful knowledge, and the promotion of the public welfare. In politics he was eminently conservative, and seldom engaged in the doubtful strife of party warfare. When, however, the stability of our National Confederacy was endangered, he entered the armstonal Confederacy was endangered, he entered the armstonal congenial occupation in the more graceful and ornamental pursuits and studies. He was an intense admirer of the fine arts and a readous promoter of those useful sciences, which tend to bless and benefit makind. At the time of his decease, he was a member of the Academy of Natural Science in Philadelphia, of the Fennsylvania Historical Society, and of the American Comological Society, in which cause he manifested a cordial interest.

We would offer this brief tribute to the memory of Dr. Jenkins as a personal testimonial of esteem and grateful affection. If we have used the language of enlogy, we would simply state that such has been our object and desire. We know that we are not alone in our estimate of his virtues, his indexts and his rich and varied attainments. Many who valued him in life, and now sorrow for him in death, will tes

RIDGWAY COMPANY'S LAND.—To THE 1855.
On motion, Joseph Seeler, Esq., was called to the Chair, and George F. Schaffer. Esq., appointed Secretary.
The meeting was called to order, and the object stated in an eioquent manner by the Chairman. The meeting was then addressed by Mr. Charles Luhr, who recommended to the people as a duty they owed to their fellow-beings, to give a full and truthful statement of what this land was: its fertility, its coal and mineral wealth, its timber, its present prosperity and future advantages—and by this, people might judge of the quality of the Land.
On motion of G. E. Weis, Esq., a Committee of five was appointed to draft resolutions expressive of the sense of the meeting.

House. The following persons were appointed the committee; J. F. Weis, B. Weidenbrenner, Anthony Hoffman, C. Weis and John Beetch.

Now. November & K. H. & Largo meeting convened at the School House—Francis Weis, Esq. was appointed President, and Charles Luhr, Secretary. The object of the meeting was then stated, and Mr. Walmsday, of Philadelphia, a stockholder, introduced, who stated to the meeting, that after having gone over the land, he was convinced that in fertility, coal and minerals, it far accessed anything stated by the company, and that he feels happy to think that, ereong, he will enrol his name an one of our citizens. His remarks, were heard with applause. Mr. Lahr then read a letter from the Hon. G. R. Harrett, congratulating St. Mamy's on it's future prospects, increase, &c. Alter Mr. Lahr concluded, the following preamble and resolutions were offered by the Committee, and unanimously adopted:

Whereas, we hear with pleasure a good account of the Hidgway Farm and Coal Co. and its steady prosperity, and we are well aware that the richness of this country has been unknown, and thereby neglected, and while thousands upon thousands have gone by us to the far West, we were able to offer better inducements here in the limits of our own State, therefore
Resolved, that we believe it to be a duty we over to our

and to other better inducements here in the limits of our own State, therefore
Resolved, that we believe it to be a duty we owe to our fellow beings to give a true statement of the advantages of this section of the country, thereby to ameliorate the conditions of many.

Resolved, that the recommondations the Ridgway Cohave published are fully correct, and that we fully concur therein. therein.

Resolved, that the best of crops are here raised; that the best of soil is here found; that it abounds in limestone; that the whole country is undermined with coal; that it abounds in iron ore, and that the choicest timber is here found. These are indisputable facts, which can be proven to all who wish to come and see for themteives.

Resolved, That we most conflictly invite the stockholders to come to our country and everying facts.

The Plantation consists of 280 Acres, more or less, principally first quality limestone land, 50 acres of which is covered with good White Oak and Hickory Timber, and 50 acres in Meadow. The Limestone lies near the surface, two or three quarries of which are already oponed, and in several of the fields Iron Ore of a-rich quality is found.—The land is also well watered, having three streams of water flowing through It; two of which are considerable and afford the means of a first class water power. A large quantity of Locust Timber is growing on the place. The improvements are a BRICK MANSION, double, two-story, with a back building and well of excellent water at the door, Smoke House, Wash House, Spring House and all the necessary outbuildings, and having in front a fine Lawu tastefully land out and planted with the choicest Fruit and Shade Trees; an ORCHARD of over 200 Apple, Peach, Pear and Cherry trees; a large Stone Barn, having a Granary and an apartment under the barn floor for the horse-power: a Stone Stable, capable of containing 50 or 00 head of cattle and horses and all the hay that may be raised. The barn yard is enclosed by a substantial stone wall, and is supplied with water by iron pipes conveying the water from an adjoining spring. In addition to the buildings already named there are two large Stables, Cider House, Corn Cribre and a Corn House with arrangements suited for threshing the corn, and all at a convenient distance from the house and larn, busides FOUR GOOD TENANT

Parent in subscribers having purchased the exclusive right of Lancaster city, are now enabled to offer to this public a new strike of Pictures, far exceeding, in beauty and durability, any thing ever be fore made. These pictures are not reversed, (as daguerrectypes areand may be seen in any light. They also possess the rare property of being intransiants, using hermatically sealed between glass placifies, which is secured by Letters Pratent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS, only, over Sprecher & Bros. New Store, North Queen st., Lancaster.

EXPLANATION.

The term ASIBROTYPA, by which these Pictures are designated; is derived from the Greek word Ambroon, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not correde by acids, may be injured by water or climate. It is bell in its offect, beautiful in tone, surpasses any thing in their calciums of both and shorts. destroy the Picture.
