The tolyantages are the ability of making a more pefect fit, and a more natural and beautiful job; and the material is vastly more congeni-al and more pleasant to be worn in the mouth than metal. All who have ever had it applied will have nothing else.— It is impervious and pericetly indestructible by acriss or al-killes, and cannot be in the least affected by the sali-va of or by anything taken into the mouth. Thave tested this by anything the saliton the strongest aqua fortis, with no

va of or by anything taken into the month. I have tested this by putting it into the strongest aqua fortis, with no more effect from it than would be from water. All who wish to try the Gutta Percha Teeth can have a set put in, and if they do not render perfect satisfaction they need not take them. Or if they are found not to stand the test of time, a gold set, of the very best character, will be inserted in exchange or the money will be refunded. Call at the office of Dr. S. ETTER FROM ST. MARY'S ELK CO.,

LETTER FROM ST. MARY'S ELK CO., Inte EDTORS of THE PTAIL LÉDOES. On account of the im-portance of the public directing more of their attention to agricultural pursuits, we take pleasure in publishing the tollowing letter: Mesers. Editors :-deutlemen-Allow me, among many others who have addressed you from this place, through the medium of your paper, to give the public some information. It is given by me in good faith, and nothing can be found therein, that caunot be fully relied upon. The motives 1 have in writing this letter, are first, 1 know that many per-sons living in large cities labor and live very economical, and yet at the end of the year, they are where they com-menced and not a cent better off. Every change has an in-fluence upon them, and when a dear and hard time wers an in-fluence upon them, and when a dear and hard time wers an influence upon the stere, their living is expensive, rents high, fuel more than dear, whilst their wages are small, and as small as they are, they are often unable to obtain work. Now see the contrast in this country. Hents are almost nothing—living is cheap, work plenty, fuel costs nothing but the cutting, and if you do not feel disposed to cut your wood you can take your grubbing hoe and dig coal, Again, in a country like this, are not exposed to the thousand samers that are thrown in their way in a city. We may walk in our streets, from week to week, and will scareely hear a profane word, and we will meet with none of the drumken-ness, temptations and rowdyism, you have in your large etims.

 We have their engagements when they return home, so that the opportunities thrown in their way to associate with the profane, wicked and bad, are completely cut off. Again, thirdly, I know many persons in your cities, who have spent their youth and manhood, and alter arriving at old age, are compelled to be renters, and in case of sudden death, the old y prospect of their families is the Almshouse or dependence upon strangers. How different here': Every man has his own home. If a mechanic, he raises enough of potatoes, vegetables and corn to keep hina, and the time thus spent is screedy missed, and is more a pleasure than otherwise. And let your habitation he ever so bundle, it is still a home and there is more real happiness and security in your own home, than in the funct house, with rent day before you. I speak of these things understandingly, as I. myself, was a mechanic in Philadelphia, where 1 have my section of the skin of my teeth.³ I came to this place four years ago. I have succeeded in building a sing homs—have iplenty to do—plenty to cat—pleity to wear, and 1 microherted and hapy. Nothing would induce ne to return again to the extribut on wanted. Almost every methalistic of raising all the grains. For a grazing or stock commy, nothing better can be wanted. Almost every methalistic of raising all the grains. Almost every menomia the underlaw with coal. I would with coal. I would rever seen a place more abundantly supplied. You can, and place way the sound here is fertile and agoid limestone stock contry, nothing better can be wanted.
 As for cad, I have never seen a place more abundantly supplied. You can find it everywhere. I know of six or eight coal mines opened in the visionity of the borough, and even some in the limits of the borough, and even some in the limits of the borough the simmer mont ies thrown in their way to associate with

The recent elections in Mississippi, Louisiana and Wisconsin have created no little talk in political circles. It was believed, and actually claimed, that all three would go against the Domocracy, but the recent has proved otherwise. In Louisiana the K. N.'s nominated a candidate for Governor who was a Catholic in religion, and a Frenchman by birth-merely to suit the locality-but the 'unterrifed' were not to be thus deceived, and nobly and carried of 2,000 mg/ority and leted the function of the Legislature arc Domocratic. In the city of New Orleans the Know-Nothings created a riot, as is usual with them, for the purise created a riot, as is usual with them, for the purise created a riot, as is usual with them, for the purise created and actaried of by those "pure and patricic Americans," who declare that. probability is, however, that the Democracy have earried the State. The glorious old West is beginning to show its preference for the next Presidential candidate, and that preference seems to be "Pennsplvania's Favor-its Son," as every day he is growing in public fa-vor, if we may judge from the signs of the times.— The Evening Mirror, Pilot, Herald, Intelligencer, Democrat, and Chronik, all of this city, have de-clared in favor of Javes Breuraxy-memore indirect.

Democrat, and Chronik, all of this city, have de-clared in favor of JAMES BUCHANAN-some indirect-ly, and others openly-but all, without doubt, would support him were he the nominee. The Mirror and Herald are independent papers; the Pilot, Anti-Ben-ton; the Intelligencer, formerly Whig, then Know-Nothing, and now a "National" advocate; the Dem-o crat, the Benton organ of Missouri; the Chronik, a German Democratic paper of immense influence-all the daily papers of this city. except the Republi-can and Anzeiger, have expressed themselves favor-able to Mr. Buchanan.
