mited and small majorities -- prophesying that, in limited and small majorities—prophesying that, in the next contest Know-Nothingism will be among the things that were. And is this indeed the fate of this order? Must the boasted perpetuity of this order so soon come to an inglorious end? We answer—Yes! Yes, those inglorious principles on which its base fabric rested—deserves thus to be annihilated—thus to end! This order has reached the aeme of its deceptive limits, and is falling—plunging headlong down—and ushering its deluded adherents into the dark sea of forgetfulness and infamy—ill requiring them for the earnestness they were impired with in propagating its principles. For the unlimited fanaticism which possessed their minds—the ardor which characterized them in defendingsuch treasonable, and anti-republican principles, would have deserved commendation, had they been employed in a better and a more praiseworthy cause. better and a more praiseworthy cause.

ST. LOUIS CORRESPONDENCE. The Weather—The Case of O'Blenkin-Page & Bacon—Report of the Gasconade Disaster In vestigating Committee—Benton and Doniphato to be elected Senators, &c., Ward Electrons-Senator Douglas—Political, &c., &c. St. Louis, November 26, 1855.

The weather in the past week has been quite changeable—part of the time rainy and disagreeable for out-door operations, but toward the close turned cold enough to make ice, and our gutters presented a wintery appearance on Wednesday and Thursday. But since then it has moderated, and to-day it

again like Spring.

Business is much depressed, and rapidly falling off. Our market is quiet, and very little change in ries seem to be arranging for the resumption the leading staples has taken place. The health of of the negotiations for peace. our city continues remarkably good. 🕐

Items of localinterest are, like angel's visits, few and far between. The only only one, worthy of note, and far between. The only only one, worthy of note, is the case of O'Blennis, for the murder of Deputy Marshal Brand, which has been occupying the attention of the Court, as well as the public generally, for the past two weeks. Everybody seemed to be more or less interested in this case, and the Court Room was daily crowded with the young and the old. The friends of the prisoner avowing his innocence of murder, and expressing their belief of his final acquittal; whilst Brand's triends were quite as sanguine of a verdict of guilty. The Jury finally retired, and much excitement provailed in the street. In about 24 hours the Jury returned, into Court, with a verdict of "murder in the second degree," and assessed the punishment at ten years in the Penitentiary. The prisoner received the verdict trembling and pale. His attornies at once asked for a new triat, which the Judge refused to grant; they then took an appeal to the Supreme Court, and demanded the prisoner's liberty on bail; which, after much argument and delay, was granted by Judge Hamilton, and the amount fixed at \$40,000, which was agreed to on the part of the defendant, and the bond was signed by B. W. Alexander and Mr. Mathews, the latter a partner, or otherwise interested in the omnibus lines of this city, with which O'Blennis is also connected. The verdict of the Jury was deemed by the public generally as a just and righteous return, under the testimony elicited on the trial. But the technicalities in the law gave to the prisoner his liberty, on a bond of \$40,000, which is not selished by a large majority of our citizens, and greatly against public generally as a just and righteous return, under the testimony elicited on the trial. But the technicalities in the law gave to the prisoner his liberty, on a bond of \$40,000, which is not selished by a large majority of our citizens, and greatly against public generally as a just and righteous return, under the restimony elicited on the rial. but the notorious and reckless ruffian is again at large, and with his hands, more than once stained with the blood of his fellow-man, seeking out another victim. Such is the law in St. Louis-such the punishment of the transgressor.

It appears, from present indications, that Page & Bacon are about making their last struggle. Their Railroad was advertised for sale on the 20th inst., but not deemile, it proper to put it as score but not deeming it proper to put it so soon under the hammer have issued another, and no doubt their last, "proclamation," which I annex, as some of your many readers may possibly be interested, considering that this firm was recently engaged in an extensive banking business, and their paper circulated throughout the Union—depositors with them, as well as stockholders in the C. & M. Railmond, are alike interested.

Sr. Louis, Nov. 20, 1855. Page & Bacon.

L. M. Kennett, of this city, and G. Porter, Members of Congress, left a few days since for Washington. Gen. John A. Quitman, member elect from Mississippi, is also on his way to the Capitol.

The Committee appointed to investigate the cause of the late Railroad disaster, made their report a few days since. Two reports were offered—a majority and minority. From the report of the former it would puzzle a Philadelphia lawyer to ascertain where the blame should rest; but the minority report fixes it upon the miserably constructed bridge, through which the train fell. It is there shown conclusively that the structure was not capable to support the weight of the train—the timbers were weak, and hurriedly and insecurely put together—and that a temporary structure, of that kind, was not fit to invite an excursion party to risk their lives upon.—But what does all this investigation amount to?—Does it restore the lives of those valuable citizens who were lost on the ill-fated train? Does it restore the husband and the father to the wife and children? Does it banish the mourning and gloom that now overshadows many a family circle? No. The deed is done. the fist has zone forth and no

The deed is done, the fiat has gone forth, and no power on earth can restore the lives of those who were lost, and any attempt to fasten the blame or censure upon any one, only renews the horrid scene, and gives occasion to lacerate the feelings of the friends and relatives of those who met an untimaly death at the thesconded digister. timely death at the Gasconade disaster/
Nothing of any important concern has been done
by the Legislature. In the House, a bill was offered and passed, establishing a viva voce system of vo-ting all over the State, except in the city of St. Louis, by a vote of 68 to 47. It is thought that the enate will concur in the passage of this bill. It is lso reported that the Benton men and the old Whigs vill unite upon a Senator. The proposition now be-ore the caucus is this—the Whigs are to vote for tenton, to fill the place of Atchison, and the Benton Democrats to. vote for Doniphan, (Whig.) to succeed Mr. Geyer, (Whig.) whose term expires on the 4th of March, 1857. The question then arises, can the present Legislature elect a Senator to succeed another, whose term does not expire prior to the convening of another Legislature, and

Does it banish the mourning and gloom

ator to succeed another, whose term does not expire prior to the convening of another Legislature, and whose seat will not be vacant for nearly two years? It seems reasonable, and I think the statutes of this State will so show, that the Legislature preceding the unexpired term of Senator, is the legal body to elect. If this Legislature can cleed a successor to Mr. Geyer, I can see no just reason why this same body cannot elect fifty Senators to succeed one another. If the rule holds good in the one case it must in the other.

body cannot elect fifty Senators to succeed one another. If the rule holds good in the one case it must in the other.

An election was don Thursday last, in the Fourth Ward, to fill a vacancy in the Board of Delegates, caused by the death of E. C. Blackburn, Esq., at the recent Railrond disaster, and the result shows Dr. Shore, Whig Know-Nothing, to be elected by a few votes. This Ward is always Whig or Know-Nothing, by from 400 to 500. An election was also held in the Third Ward, to fill a vacancy for Justice of the Peace, also made vacant by the late Railroad accident in the death of Mahn Butler, Esq. In this Ward a test was made between the K. N.'s and Anties, and the count shows that Peter W. Johnson, Anti, has a majority of 27 rotes over hig K. N. competitor, notwithstanding this Ward gave to the Know-Nothing Mayor, last April, a thousand majority of the people of the staunch "Old Third!" The Gelena river froze over on the 17th inst. Coal in great abundance has been discovered in Kansas Territory, and pronounced a superior article. It will be remembered that some of the ballot-poxes in the city of New Orleans were destroyed, at the recent election, by the Know-Nothing bullies, and a K. N. victory claimed; but Mr. Bell, the Democratic candidate for Sheriff, appealed to the Courts, and a section was rendered in his favor, and he was declared the Sheriff elect. It is now believed that the Democratic candidate for Governor had also a majority in that city.

Mississippi has given the Democratic State Ticket 5,000 majority, which is a considerable increase over former elections. The Democrats have also a large increased majority in the Logislature, and have elected all their candidates for Congress—except one in the Vicksburg district. Quitman's majority is about 1500!

in the Vicksburg district. Quitinan's majorny about 1500!

Nothing but the official count in Wisconsin will determine the result for Governor. The Senate is Republican; the House Democratic.

The Marion (III.) Intelligencer, thus speaks of Mr. Buchanan: "In another column we publish an article from the St. Louis Mirror, which speaks highly in favor of James Buchanan as a candidate for the Presidency in 1856. Our own Douglas is our first choice, and the Democracy of the West will no doubt stand by him as long as there is any hope in succeeding in getting him the nomination. Next to

doubt stand by him as long as there is any hope in succeeding in getting him the nomination. Next to Douglas, Buchanan would be our choice. In truth, the chances of "Ponnsylvania's Favorite Son" are pretty strong, and the contest at the next National Democratic Convention will be mainly between him and the 'Little Giant."

The Memphis Eagle & Enquirer hoists Millard Fillmore's name to its mast-head, for the Presidency in '56—"snapject to the decision of the National Convention." Wonder what Convention the editor alludes to—K. N., Whig, or Republican?

The Turkish loss was three hundred. Another despatch, referring to the same encounter, says that the Turks crossed the river at the seaport of Anaklia, and stormed the Russian redoubts, after which they pushed forward towards Kutars. BREAD LEAGUES .- We clip the following paragraph from the Philadelphia Ledger, trusting to see something of the kind done in Lancaster:

Point, and a number of citizens missing.

Some eight or ten leagues, for the reduction of the price, to consumers, of provisions have been, or are in a state of formation in our city. Some of them have organized by the election of officers and the receiving of the fee of \$5, to entitle individuals to membership. At first the proposed object of these leagues was to purchase flour and retail it to subscri bers at cost price; but those organized intend to open stores, employ a clerk, and sell ali articles necessary for family consumption at cost prices. The profit on sales made to those not subscribers, will, it is supposed, yield a sufficient profit to pay all incidental expenses. If these establishments are as suc-cessful as their friends anticipate, the saving to consumers will be quite large, and, as they design to purchase from first hands, will have tendency to reduce the same articles sold by those not connected with these leagues. A present families pay enormous price potatoes, butter and other articles, which sell, but a short distance from the at one-third or one-half the price demanded

The Human Hair.—To minister to a peachant for "auburn waves" and "rayen treases," the brains of inventors have heretofore been called in requisition to little purpose: for aithough many oils, balms, dyes, and "specifies" lisave been the result of the incubation, they have not only proved to be valueless, but many of them postitively injurious to the hair and scalp—being the inciplent of scald-head and various other painful and dangerous cutamenus disorders.

Upon Prof. O. J. Wood, of St. Louis, fortune has conferred the honor of having discovered a balsamic preparation, which not only promotes the growth and beautifies the Hair in a high degree, but restores it when it is gone, or turns it back to its original color after it has become gray, fastens it to the scalp, and effectually desiroys such cutameous eruptions as may have been engendered by the use of dyes, essential oils, and other injurious applications.—The many respectable testimonials which are offered in its favor, from every part of the country in which it has been introduced, leaves no loop for the sceptic to hang a doubt on. The great demand for this article in the eastern States, has induced the proprietors to establish a depot for its manufacture and sale in the city of New York. It is fast supplanting all other specifics for the Hair, and already enjoys a popularity which no other has ever attained. Buy it—test it—and you will rejoire that your attention has been directed to it.

NOTICES OF THE PRESS.

This is one of the few large papers filled with life and thought, instead of lumbering treah. Its management is marked by liberality, courtesy, ability and tact. Hemploys the best literary talent, and spares no paina or expense—As a family paper, one of literary and general intelligence, we cordially recommend it.—Cayaga Chief, Auburn, N. Y. Our readers may rely upon it, that Deacon, & Peterson will be as good as their word. Bs far as we can judge by years of observation, these publishers do rather more than they promise; and their paper is selited with very markeded ability. It is singularly free from silly sentimentalism and bisners, but is of a healthy tone on all subjects, always moderate in language, but always mildly advocating the right, We find it one of the most generally attractive papers in our exchange.—Saturday Visiter, Pitteburg, Pa.

It is the best literary and family paper in the Union.—Rock Islander, Rock Island, Il.

We have heretofore spoken in high terms of the merits of the Post, as one of the best papers on our exchange list, and we regard it as one of the best literary papers to be found anywhere. Its editorials are written with ability, and take a liberal, independent and comprehensive view of men and things.—Star and Advertiser, Wrightsville, Pa.

It is deservedly one of the most popular public journals in the United States, combining at it does, in a literary point or view, all the interest of the best magazines, with a vest amount of general intelligence—Republican, Litcheld, Ct.

ERMAN PRUNE TREES FOR SALE.

—The undersigned, to whom was awarded as Silver Medal by the State Agricultural Fair, redently held at Harrisburg, for the best Prune Trees, has arrived in the city of Lancaster with a lot of young German Prune Trees, (German name Zwatchen.) and will remain here for one week. He will offer these Trees for sale at the hotel of Mr. Cooper, in West King street, where all lovers of good fruit can have an opportunity of purchasing them.

These Prune Trees bear every year, the fruit begins to ripon in the first week of September, and the trees will continue to afford a supply of fruit for a period of three months. The Pruit is not subject to rot. Instructions will be furnished for planting and treating trees. THE DURHAM AND AYRSHIRE BULL.

THE DURHAM AND AYRSHIRE BULL.

—YOUNG EMPEROR. This Superior Young Animal will stand ready for service at the stable of the subscriber, on the New Holland pike, one mile from Lancaster, at the rate of \$2\$ the season.

Young Emperor was gotten by a full blooded Durham Bull, called Emperor, which was imported from England in 1849 by Col. Isaac Carsons, of Westfield, Massachusetts, and by whom Young Emperor was raised. He is out of a cow of the Purest Ayrshire Blo.d, which was also imported from England by Mr. John A. Taintor, of East Hartford, Connecticut, she having cost Mr. Taintor \$350 in England; and the sire of Young Emperor cost \$1500 in England; and the sire of Young Emperor cost \$1500 in England; and weighed 1850 pounds on the lat of November, 1855. He has never failed of taking the first premium for three successive fairs, as a yearling 2 years old and 3 years old. His stock has always commanded the highest prices. And he stands ready to exhibit himself as a specimen of the Finest Thorough Bred Cartle in America.

To farmers desirous of improving their stock, this offers an opportunity seldom to be met with.

ARTIFICIAL TEETH.—A NEW MATERIAL For Plate. The latest and best invention of the Agy. Dr. S. WELCHENS would respectfully announce to his patrons and the public, that having purchased the right of this city and county to use Dr. Shyton's Patent Colored Gutta Percha, he is prepared to furnish Sets of TeETH with his material in a manner far superior to any other now in use. The advantages are the ability of making a more pefect fit, and a more antural and beautiful job; and the material is vastly more congenial and more pleasant to be worn in the mouth than metal. All who have ever had it applied will have nothing else—It is impervious and perfectly indestructible by acids or altilies, and cannot be in the least affected by the saliva of, or by anything taken into the mouth. I have tested this by putting it into the strongers aqua fortis, with no more effect from it than would be from water.

All who wish to try the Gutta Percha Teeth can have a set put in, and if they do not render perfect satisfaction they need not take them. Or if they are found not ostand the test of time, a gold set, of the very best character, will be inserted in exchange or the money will be refunded. Call at the office of Dr. S. Welchens, No. 34 Kramph's Buildings. North Queen street, for further information or this subject, and see specimens of this truly beautiful invention.

E Dentits wishing to purchase Office Rights for the use of this Patent, in the city or county of Laucaster, can be accumodated by calling as aboro. Instructions will be given in the use of it.

profane word, and we will meet with none of the drunkenness, temptations and rowdyism, you have in your large
cities.

We have the best of Schools, and our boys and girls, every one, have their engagements when they return home, so
that the opportunities thrown in their way to associate with
the profane, wicked and bad, are completely cut off. Again,
thirdly, I know many persons in your cities, who have spent
their youth and manhood, and atter arriving at old age, are
compelled to be renters, and in case of sudden death, the
only prospect of their families is the Almshouse or dependence upon strangers. How different here! Every man
has his own home. If a mechanic, he raises enough of potatoes, vegetables and corn to keep him, and the time thus
spent is scarcely missed, and is more a pleasure than otherwise. And let your habitation be ever so humble, it is still
a home; and there is more real happiness and security in
your own home, than in the finest house, with rent day before you. I speak of these things understandingly, as I,
myself, was a mechanic in Philadelphia, where I have my
acquanitances, and though I worked hard and stinted myself—I could just keep my head above water—as is usually
said "by the skin of my teeth." I came to this place four
years ago, I have succeeded in building a snug house—have
plenty to do—plenty to eat—plenty to wear, and I sm contented and happy. Nothing would induce me to return
again to the excitement and dangers of the city. I have
been induced to write these lines because I believe that a
fair representation upon the subject may benefit hundreds,
and may lead many to come and see for themselves.

The land here is fertile and a good limestone soil, and well
adapted for raising all the grains. For a grazing or stock
country, nothing better can be wanted. Almost every mechanic keeps his own cow, which feeds through the summer
months in the woods, which make first rate peatir.

As for coal, I have never seen a place more abmidantly
supplied. You can find it ever

LAND.—To zur

the Washington House, St. Marry's, Elk county, Pa., Nov. 2, 1856.

On motion, Joseph Seeler, Esq., was called to the Chair, and George F. Schaffer, Esq., appointed Secretary.

The meeting was called to order, and the object stated in an eloquent manner by the Chairman. The meeting was then addressed by Mr. Charles Luhr, who recommended to the people as a duty they owed to their fellow-beings, to give a full and truthful statement of what this land was; its fertility, its coal and mineral wealth, its timber, its present prosperity and future advantages—and by this, people might judge of the quality of the Land.

On motion of G. E. Weis, Esq., a Committee of five was appointed to draft resolutions expressive of the sense of the meeting.

On motion, Resolved, That on account of the large attendance, the room in the Washington House being too small, that we adjourn to meet on the 5th instant, in the School House. The following persons was appointed the committee: J. F. Weis, B., Weidenbrenner, Anthony Hoffman, C. Weis and John Beetch.

Now, Novamber 5th, a large meeting convened at the School House—Francis Weis, Esq., was appointed President, and Charles Luhr, Secretary. The object of the meeting was then stated, and Mr. Walmslay, of Philadelphia, a stockholder, introduced, who stated to the meeting, that after having gone over the land, he was convinced that in fertility, coal and minerals, it far exceeded anything stated by the company, and that he feels happy to think that, ere long, he will enrol his name an one of our citisens. His remarks were heard with applanse. Mr. Luhr then read a letter from the Hon. G. R. Barrett, congratulating St. Mamy's on it's future prospects, increase, &c. After Mr. Luhr concluded, the following presmible and resolutions were of
