LANCASTER CITY, PA., TUESDAY MORNING, DECEMBER 11, 1855.

AUTUMN DAYS.

'Tis Autumn time !--the summer flowers Have faded 'neath its golden feet; The birds have left their shady bowers, The winds chime mournfully and sweet: The maple boughs, whose faded leaves Have whispered through the summer days, Like bright-winged birds around the eaves,

Are flitting in the sun's pale rays, I hear their rustling low and sweet, As if an angel floated o'er; They seem to me like friends I meet And love, then part for evermore.

The dreamy lull of limpid streams, The azure haze that floats above, Enshroud earth as mysterious dreams O'er all our spirits softly move. Spirit of dreams ! oh, I would bless Thy soft luxurious charms for aye,
And fold these in my soul's caress.
Now and forever till 1 die!
Oh, chide, me not!—the low wind rhymes
Full many a plaintive, trembling lay.
And I could listen to tis hymns
Tilly I had breathed my life away.

A MEAT HASH .- A few weeks since, cook who had been highly recommended, was ordered one day to prepare a "hash," for dinner. The hash was served, and i was excellent-all eagerly partaking of it until the dish was scraped out. So popular after this did the hashes of the new every day. At last the poor cook, bringing in a large dish of it, the perspiration herself up, said,

'Madam, I must quit ye!'

PATENT ALARM BEDS: A LADY AND GENTLEMAN IN A PECULIARY

PERPLEXING PREDICAMENT. Those who have visited the fair at the

Crystal Palace, says the N. Y. Morning News, must have noticed the patent alarm Down East invention. The purpose of these beds is to prevent a person from oversleeping himself, for if he does not awake at the time the alarm is sounded the machinery operates in such a manner as to chuck him out upon the floor, much to his astonishment. For instance if a person wishes to retire to bed; he winds up an alarm clock attached to the bed, and sets it at the hour he wishes to get up .--At the appointed hour the alarm sounds, and, if the sleeper is awakened, he may arise; but, if he does not awake, the machinery of the clock, operating on a lever, upsets the bed frame, and the occupant is tilted out upon the floor. The bed is worthy the inspection of heads of families who have the care of sluggards and sleepy heads

We have a good story to tell in connec-

tion with one of those beds, says the Uncle Sam, a "Bosting" paper. A friend of interesting young woman. NEWSPAPER PATRONS.

TO ALL WHOM IT MAY CONCERN

This thing called patronage is a queer thing. It is very correctly remarked by some one, that it is composed of as many colors as the rainbow, and is as changeable as the hues of the chameleon. One man subscribes for a paper, and pays for it in advance—he goes home and reads it by the year round with the proud

satisfaction that it is his own. He hands in an advertisement-asks the price and pays for it-this is patronage. Another man says :-- "Put my name on your list of subscribers:" and goes off without as much as saying 'pay' once. He asks you to advertise—but says nothing about paying for it. Time passes—your

Removal.—Dr. S. WELCHENS, Surgeon Dentist, re specifully announces to his friends and the public in general, that having abandoned his intention of leaving Lancaster, he has removed his office to No. 34, Kramph's buildings, North Queen at., directly opposite Plunetrod Slaymaker's Hardware Store.

In returning his grateful acknowledgments to his numerous patrons and friends, for the great encouragement held out to him to remain, and also for the very flattering testimonials offered in regard to the integrity and beauty of his work, he takes pleasure, in stating to the public that he has taken into his practice a new and improved method of mounting Teeth upon Atmospheric Plates either of Gold, Platina or Silver, prices varying accordingly, to suit the wants and circumstances of the patient.

This mode of operating surmounts many embarrassing difficulties and disadvantages with which Dentists have heretofore been obliged to contend, in order to render their work comfortable, serviceable and pleasant to those who are obliged to wear artificial teeth. Please call at the office of Dr. S. Welchens, No. 34, Kramph's Building, and examine specimens of his plate work, to which he directs his best efforts.

I have known some of the meat desperate and long standing cases to have been cured by it, and in no lustance among the numerous cases that have come within the range of my knowledge, has its use failed to give immediate, and when persevered in, permanent rollef, I sel no helitancy in pronouncing it an infallible romedy for Dyspepsia.
