An armed force of one thousand men, with all the implements of war, it it is said, are at Lawrence. They have rescued a prisoner from the sherist, burnt houses and threatened the lives of citizens. Immediate assistance is desired. This is the only means to save bloodshed.

Washington, Dec. 3.—Your dispatch received —
All the power vested in the Executive will be exerted to preserve order and enforce the laws. On the receipt of your letter the preliminary measures necessary to betaken before calling out troops will be promptly executed, and you will then be fully advised.

promptly executed, and you will then be fully advised.

The country will observe with satisfaction that the President is not disposed to act rashly. He must be satisfied that the troops are indispensably necessary to the preservation of law and order before he will order them out; and if compelled to order them out, care will be taken to keep within the strict line of duty. The government will be sure it is right, and then it will go ahead, and put down insurrection, if insurrection exists, with a strong hand.

The House spent yesterday and to-day in fruitless attempts to elect a speaker. Richardson, Democrat, continues to receive from 70 to 75 votes. Campbell, Republican Whig, went up yesterday to 82, and fell to-day to 43; and Banks, Republican Democrat, has rose to about Campbell's present vote. Nobody can make a respectable guess at the result, although some newspaper correspondents occasionally show what sort of prophets they are by predicting results. Mr. Greely, who is here, sent home a despatch on Sunday, predicting an election on Monday, the first day or the session. He missed the mark, and the correspondent of the Herald poked fun at him on Tuesday, and himself predicted an election on Wednesday. He, too, missed the mark! The fact is, no human being can form a definite idea of the issue.

We may get a Speaker this week, or we may get none this month. none this month.

Senstor Douglas' friends in this city continue to receive satisfactory accounts from him. He will probably be here next week.

Gov. Barstow, of Wisconsin, is among the distinguished strangers in this city.

St. Louis, December 3, 1855.

The weather has been quite changeable during the
week—part of the time very cold, but to-day is quite
mild and spring-like. Business on the Levee is extremely good for the advanced period of the season
—a large fleet of boats are now lying in the harbor,
and all apparently actively engaged, both receiving
and discharging. Boats still continue to arrive from
all quarters, but the cold weather is driving them
from the rivers above, and navigation to points on
those streams will soon cease for the season. There
has been some floating ice in the Missouri and upper
Mississippi during the recent cold spell, and all the
boats now up will lose no time in making their way
out. The steamers from the South arrive with full
cargoes of groceries, &c. The stock of groceries in
this market is nearly exhausted, and the demand
continues good. The Milwaukie river is frozen across
with ice an inch thick, and at Racime the ground
was covered with snow.

Our produce market has somewhat improved—
There is little or nothing doing in hemp or tobacco,
as the season for these articles has nearly closed.—
There is little or nothing doing in hemp or tobacco,

In flour, a good demand exists, and it is-now held at
\$8 and \$11, according to brand. The wheat market
is active, and is sold at \$1,10 to \$1,85, as in quality.

Corn commands 55 and 65c per bushel. Oats from 38
to 40c. Barley \$1,75. Rye from 90c. to \$1. Sugar
of to be per lb. Choice butter brings 22 and 25c.—
Potatoes 55ca\$1, as in quality. The above are the

The packing season is now about commencing, and our packers are in the market buying hogs. Sales have been effected at \$6x\$6.25, and a small lot at \$6,35—the latter being the highest price paid during the week, but the indications are that higher figures will prevail. A large packing business will be done at Louisville and around the Fulls this season.

St. Louis is destructe of local items of any interest to your readers. Our citizons, however, have been greatly annoyed by a gang of thieves now prowling about, and committing petty thefts in almost every ouncity. quarter of our city.

sinking the latter in 12 feet water. She had on board a fair cargo, hearly, if not quite all of which, will be lost. She also had aboard 200 head of cattle, the whole number of which is said to have been drowned. There has been nothing doing in the Legis.nture worthy of report. No vote as yet on the question of Senator. I spoke in my last of a probability of the Benton men and the Whigs uniting, and electing Col. Benton and Col. Doniphan—the latter to succeed Mr. Geyer, whose term expires in '57. A dispatch has since been received, the substance of which is quite the reverse. It is Atchison and Doniphan—the Anties and the Whigs uniting. But from the contradictory reports, ir m the Capitol, it will be said to say—want for the wagon. 'The Whig members, and the Whigs of Jefferson City, and surrounding country, held a mass meeting, for the purpose of breathing new life into the caroass of Whiggery—which already smells to heaven. At this meeting a string of resolutions, as long as the moral law, was offered, and upon the adoption of which much discussion ensued, and the meeting finally broke upleasing our to understand that heat the caroass of the property of the purpose of the caroast of the purpose of the caroast of the outsion ensued, and the meeting finally broke up, leaving no one to understand what had taken place; whether the resolutions were received or rejected; whether the Whig party liveth or not. whener little remained or not. The Know-Aothing and Whig politicians of this State, belonging to the same family, are beginning to show strong symptone for "ruling the rooss, or a muss.":

They now have exciting times in Kansas, and a civil war, as almost every body anticipated would be the result, seems to be going on in that Territory. As near as I can come at the cause of the disturban-As near as I can coinc at the cause of the disturbances, and the facts in the case, are briefly these:—Some difficulty occurred between two men concerning a "claim"—one a Free State mau, and the other (Coleman) Pro-Slavey. Words passed between the parties, and Coleman was ordered to vacate the claim, which he refused to do, when the other leveled his rifle at him, but it missed fire, whereupon Coleman space himself up. Coleman's, with several other houses belonging to Pro-Slavery men, were burned to the ground. Jones, the Deputy Marshal, arrested the ring-leaders, and took them to Lecompton—(the scene of disturbance being near Hickory Point.) The friends of the murdered man, whose name is not given, turned out in large numbers, armed to the teeth, and demanded the release of the prisoners and the surrender of Coleman, which was

name is not given, turned out in large numbers, armed to the teeth, and demanded the release of the prisoners and the surrender of Coleman, which was promptly refused. The mob, by this time, was exasperated, and hourly increasing—arriving from all quarters. A dispatch from Westport, dated the 28th, says:—"thast night Gov. Shannon ordered out the militia against Lawrence. They are now in open rebellion against the laws, and Jones, (the Sheriff of Lawrence county,) is in danger.

The last accounts report large numbers gathering at Lecompton, to offer their services to the Governor. Many Missourians have left for Kansas, and warm work is expected. A letter dated the 29th, from Shawnee Mission, says "an number of the citizens of Hickory Point are missing, and sixteen or more houses have been burned." Jones, the Sheriff of Lawrence county, has sent to Missouri for a wagon load of ammunition, and for muskets and cannon.—A cannon was obtained at Independence, and immediately sent over. It is also said that the Free State men are well armed and equipped—drilling fivo companies daily on the open prairies, and are determined to fight the battle through this time, either to conquer or to fall.

As much as such preceedings are to be deplored,

companies daily on the open prairies, and are determined to fight the battle through this time, either to conquer or to fall.

As much as such precedings are to be deplored, it is nevertheless a matter that might as well be settled now, as at any future period. It must be done at the risk of lite and limb, and no doubt the Free State, or actual settlers, consider themselves shamefully abused, and bullied out of their just and legal rights in more instances than one, which every considerate man must admit, and acknowledge that the actual settlers, and legal voters, of Kansas Territory have been rode over rough shod, and their rights trampled upon by "hirelings?" and "bullies," ready and ripe for anything and everything to serve their masters. The settlers submitted to this; they were driven from the election polls; hooted at and ridiculed by ruffians and men wholly unfit to govern their own passions. They were drove like sheep from one place to another—some were lynched—some sent down the river on a raft—several tarred and feathered—printing presses destroyed, and their owners and editors ordered to leave the country at the peril of their lives, &c. All this, and more, too, were they obliged to submit to, because they feared that the citizens of the entire State of Missouri were plotting plans to exterminate them from the land and country they had adopted for their future homes. They now know better, and their numbers have been greatly augmented; hence their refusal longer to submit to the wrongs and outrages committed upon their persons and property. I ropeat, such a state of things is greatly to be deplored, but if the rights of the oitizens of Kansas can only be maintained by civil war and bloodshed, why not enter upon that war at once, and put to rest the various questions which do, and always will, excite and lead to difficulty? Let the peoplo of Kansas understand whether they are to make their own laws, or whether the

which do, and always will, excite and lead to diffi-culty? Let the people of Kansas understand whether they are to make their own laws, or whother the Pro-Slavery men of Missouri are to conduct and con-trol the affairs of the Territory, over which they have no more right than have the people of Illinois to in-terfere with the domestic concerns of Missouri. Let the matter be settled at once. This, the present, is as auspicious as any other time. Our latest dates, from the scene of disturbances, are to the 30th, and nothing further had been done up to that date, than I here communicate, but a boisterous time is appre-hended.

The Know-Nothings of Missouri, have issued an address to the people of the State, in which they resulted in the state, in which they resulted in the state, in th ism, as one pole is from the other, and there is no more probability of a union being effected now than there was at Philadelphia, last June. In the South, Know-Nothingtem consists principally of Catholics—in the North, they are unworthy of membership. What a happy time the two wings will have, in coming together, on a Presidential candidate. But they have no fixed principles, or regard for the Constitution, or laws of the country, and it would not be astonishing, to me, to see the owner of 500 negroes voting for a woolly-headed Abolitionist, of the North, for President, knowing, as he certainly ought to, the paril in which his property—his all—is exposed to. Stranger things than this have come to pass, and as the old prover has it, "every one must pay for his learning," so the South will pay dearly, if they support and elect a Northern Know-Nothing to the Presidency in '56, which, however, the Democracy will endeavor to prevent.

Politics in Illinois are beginning to assume an ex-18M, as one pole is from the other, and there is no

Presidency in '56, which, however, the Democracy will endeavor to prevent.

Politics in Illinois are beginning to assume an exciting character, as the time for holding the Democratic State Convention is rapidly approaching. It is announced, by authority, that Col. Richardson is not, and will not be, a candidate for Governor, before the Convention. The Quincy Herald suggests the name of Hon. Sam: Holmes, for the office.

Halifax on Wednesday, with a week's later intelligence from Europe. Rumors of peace are abundant, but they are not traceable to any substantial basis. The wish of the Allies is getting to be "father to the thought." Gen. Canrobert is reported to have concluded a treaty of alliance with Sweden, to take effect in the Spring; but, of course, it is not to be supposed that Sweden will be quite so foolish. It is said to be the intention of the Allies to bombard the north side of Sebastopol, and get well peppered in return. There have been no active hostilities in the Crimea or Asia. It is stated that Lord Palmerston has determined upon the immediate dissolution of Parliament and a new one to be called in February. In Asia, it was expected that Omar Pasha would have a battle.

Further Foreign Intelligence. TERRIBLE EXPLOSION AT INKERMANN.—New YORK, Dec. 6.—The steamship St. Louis, from Havre and Southampton, brings London dates of the 21st ult.

The papers furnish the following interesting items not contained in the Halifax despatch v the America:

The steamship Africa arrived out on the

Three magazines belonging to the French artillery were blown up near Inkerman, killing 70 soldiers and two officers, and wounding 10 soldiers and two omeers, and wound-ing 100 soldiers and ten officers. The maga-zines contained 30,000 kilogrammes of powder, 600,000 cartridges, and 300 charged shells, all of which were destroyed.

A terribly destructive fire occurred in Paris by which the Government bakery was consuned. It contained 28,000 quintals of corn and an equal quantity of flour and biscuits were burned. The ship America, wrecked near Cabrito which was sold by the underwriters, has been

got off by the purchasers. A large amount of Russian grain on the coast near Gheerskeinan had been destroyed by an Allied flotilla sent for the purpose. he grain was intended for the army in the Crimes, and was packed in six tiers, which extended along the coast for two miles.

DON'T PAY FOR ITSELF .- The present low ates of postage and the high charges of ocean nail service keep the Post Office Department in debt to the General Government, and call for annually increasing drafts upon the Treasury. It is stated, in advance of the Postmaster General's Report, on what appears reliable authority, that the deficit in the Post Office Department for the present year will be about two millions and a half of dollars, or some three-quarters of a million more than last year. There has been added during the year some 3700 miles of road service to the operations of the Department.

THE KANSAS DIFFICULTY .-- The Washington Union publishes the call of Gov. Shannon for authority to use the United States forces at Leavenworth to preserve the peace of Kansas The President, it will be seen, promises to use all the power vested in the Executive to main tain order. The President has power, by law on the application of the Executive of a State r Territory, to call for the militia of othe States to repress insurrections against the laws of the State or Territory demanding aid. In cases where he may employ militia, he may also call out such part of the land or naval force of the United States as he may deem requisite, a proclamation being first necessary commanding the insurgents to disperse. The power then to suppress this Kansas outbreak slavery and anti-slavery mobs may be in that Territory, or however well armed, we do not believe that they are prepared to make war proclamation from the President, commanding the rioters to disperse, will probably carry force enough with it to put an end to violence A conservative Congress could do much to wards correcting the unwholesome state of feeling existing in the Territory. But there are such factional elements at work in that body, that there is but little hope of any at tempt in that quarter towards soothing exas perated feelings and restoring the authority

OUR RELATIONS WITH GREAT BRITAIN-CRITICAL ASPECT OF AFFAIRS .- WASHINGTON Dec. 6.—It has just been ascertained, beyond the possibility of cavil, that a despatch has een received from Mr. Buchanan relative the Crampton difficulty, the tenor of which is that the British government, in a courteous, but positive manner, decline giving such explanations as were demanded by our governnent, regarding the alleged violation of our neutrality laws by British agents. This as pect of affairs imposes on the American gov ment very delicate obligations, and it will re quire all its wisdom to extricate itself from the

present dilemma. At St. Paul Minnesota, on the 22nd of No vember, the Mississippi river was considered closed for the season, during which 68 steamboats had run to that port, an increase of 30 over the previous year.

The Human Hair.—To minister to a penchant for "anburn waves" and "raven tresses," the brains of inventors have heretofore been called in requisition to little purpose; for although many oils, baims, dyes, and "specifies" have been the result of the incubation, they have not only proved to be valueless, but many of them positively injurious to the hair and scalp—being the lucipient of scald-head and various other painful and dangerous cutaneous disorders.

Lyon Prof. O. J. Wood, of St. Louis, fortune has conferred the honor of having discovered a balsamic preparation, which not only provotes the growth and beautifies the Hair in a high degree, but restores it when it is gone, or turns it back to its original color after it has become gray, fastens it to the scalp, and effectually destroys such cutaneous emploitions as may have been engendered by the use of dyes, essontial oils, and other injurious applications—The many respectable testimonials which are offered in its favor, from every part of the country in which it has been introduced, leaves no loop for the sceptic to hang a doubt on. The great demand for this article in the eastern States, has induced the proprietors to establish a depot for its manufacture and sale in the city of New York. It is fast supplianting all other specifics for the Hair, and already only a propularity which no other has ever attained to the properties of the scapilian of the farm of the farm

PROF. Wood, —Dear Sir: —I take pleasure in bearing voluntary testimony to the excellence of your Hair Restorative. Three months ago my hair was very gray. The Markets.

PHILIDELPHIA, December 3.

The foreign news has depressed the market for Cotton and Breadstuffs, and prices are dull and drooping. There is nothing in Cotton to alter quotations, but buyers are holding off for lower prices. Flour is also very dull, and holders are free seliers at \$9.26 for standard brands, but the demand is limited to the wants of the bome trade within the range of \$9.25@\$10 per harrel, according to brand. Ryz Flours is quiet at \$3,50. Corn Mexit is steady, with further sales of 1500 barrels Pennsylvania Meal at \$3 per barrel. Whear is without movement, and buyers only offer 200c for good red, and 210@215 for white, but holders are not disposed to accept these rates. Ryz is less active, but 1500 bushels Western brought 120c. Corn is about the same, with sales of 2@3000 bush, at 70@\$0c for new, and 100c for old yellow. Oarn are lower, and 2000 bush-is Southern sold at 43c afloat. Seens—A small sale of Clover was made at \$3\style per bushel. Wester is dull at 40 cents for both hads and bbls.

CATTLE MARKET.—The receipts of beef cattle this week have been about 1400 head. The demand was good, and they were nearly all disposed of within the range of \$8@10 per 100 fbs. The most staid and conservative editors cannot kee The most staid and conservative editors cannot keep their faces straight.

Says the New York Observer:—A volume more full of genuine humor and irresistable Yankee character has not yet been published—not even excepting the experiences of the renowned "Sam Silck." We would not speak thus highly of a work of mer humor, but these papers contain most admirable stires upon many of the vices and follies that infest religious societies, and therefore are the more free to commend the book.

The New York Evening Post says:—Rev. Mr. Sniffles abroad, in which a literary solree is described, is better done than the account of the literary party of Mrs. Lee Hunter in the Pickwick Papers.

The Boston Evening Gazette says:—We have enjoyed the book most heartly, for it provokes laughter from the commencement to the finis, and we purpose to give our readers a few extracts from a volume which contains harder hits at the soft side of human nature than any volume published of late years.

The Portland Argus says:—It contains the very cream of tun—genuine fun—and if anybody can read these sketches without hearty laughter, we can only pity him. His case, is hopeless. The book is warranted a sure cure for all kinds and degrees of hypo, and is worth six times its price.

The Boston Olive Branch says:—This book is one that The Boston Olive Branch says:—This book is one that will keep all eyes awake. Its author was a gifted creature, the wife of a clergyman, and, is now, alas, dead.—Hers were the keenest powers of satire—her droller; is in imitable. The preface is delightfully written by Allce R. Vall.

B. Nell.

The New York Evangellst snys:—A book of genuing himor, and well directed, successful sarcasm. The foil bles of female character, the ugliness and absurdity of envy, detraction and match-making, and other prominent sina, are hit with great point and shrewdness.

The New York Commercial Advertiser says:—The Widow Bedott is a rival to Sam Silck, and in some respects is much the most lunderous and mirth provoking of the two She i-smade the medium of the most lundrous sketches of Yankee character, which it is impossible to read without laughting immoderately.

1850, the proprietors of the Post take it for grunted, that
the public are already tolerably well acquainted with the
character of a paper that has grown strong during the
storms and sunshine of THIRTY-FOUR YEARS. Their object always has been, as it remains to be, to publish a weekly paper for the family circle, which shall not only amuse,
but also instruct and improve, those who may read it. To
accomplish this object the best articles are addeted.

condensed from foreign and domestic periodicais, and original articles of an instructive character procured, when possible.

Letters from Foreign Lands; the most interesting portion of the Weekly News of the World; Sketches of Life, Adventure and Character; Selected and Original Articles upon Agriculture; Account of the Produce and Stock Markets; and as Bank Note List are included among the solid information to be constantly found in the Post.

But the mind requires a wider range—it has faculties which delight in the humorous and lively, the imaginative and poetical. These faculties also must have their appropriate food, else they become enfeebled, and, as a consequence, the intellect becomes narrow and one-sided, and is not able to take an enlarged and generous view of human nature and its destiny. To satisfy these heaven-implanted cravings of our mental being, we devote a fair proportion of the Post to FICTION, POETBY and HUMOR.

Among our contributors in the first two of the above Departments, are several of the most gifted writers in the land. We also draw freely for Fiction and Poetry upon the best, periodicals in this country and Great Britain. We design commencing a New Story by Mas. NOTICES OF THE PRESS.

This is one of the few large papers filled with life and thought, instead of lumbering trash. Its management is marked by liberality, courtesy, ability and tact. Itemploys the best literary talent, and spares no pains or expense.—As a family paper, one of literary and general intelligence, we cordially recommend it.—Cayuag Chief, Auburn, N. Y. Our readers may rely upon it, that Deacon & Peterson will be as good as their word. Se far as we can judge by years of observation, these publishers do rather more than they promise; and their paper is edited with very markeded ability. It is singularly free from silly sentimentalism and bluster, but is of a healthy tone on all subjects, always moderate in language, but always mildly advocating the right, We find it one of the most generally attractive papers in our exchange.—Saturday Visiter, Pittaburg, Pa.

It is the best literary and family paper in the Union.—Rock Islander, Rock Island, Ill.

We have herotofore spoken. In high terms of the merits of the Post, as one of the best papers on our exchange list, and we regard it as one of the best literary papers to be found anywhere. Its editorials are written with ability, and take a liberal, independent and comprehensive view of men and things.—Star and Advertiser, Wrightsville, Pa.

It is deservedly one of the most popular public journals in the United States, combining at it does, in a literary point of view, all the interest of the best magazines, with a vast amount of general intelligence.—Republican, Litchfield, Ct.

LPETTER FROM ST. MARY'S ELK CO., Penn'a., Relative to the Ridgway Company's. and.—To THE EUTORS OF THE PENHIC LENGED. On account of the importance of the public directing more of their attention to agricultural pursuits, we take pleasure in publishing the following letter:

Messrs. Editors:—Gentlemen—Allow me, among many others who have addressed you from this place, through the medium of your paper, to give the public some information. It is given by me in good faith, and nothing can be found therein, that cannot be fully rolled upon. The motives I have in writing this letter, are first, I know that many persons living in large citics labor and live very economical, and yet at the end of the year, they are, where they commenced and not a cent better off. Every change has an influence upon them, and when a dear and hard time sets in, they are thrown out of employment, and their wrives and children have to suffer. Their living is expensive, and children have to suffer. Their living is expensive, and children have to suffer. Their living is expensive, almost nothing—living is cheap, work plenty, fuel costs nothing but the cutting, and if you do not feel disposed oc cut your wood you can take your grubbing boe and dig coal. Again, secondly, if you are a man of family, youre children, in a country like this, are not exposed to the thousand snares that are thrown in their way in a city. We may walk in our streets, from week to week, and will scarcely hear a profane word, and we will meet with none of the drunkenness, temptations and rowdylsm, you have in your large cities.

We have the best of Schools, and our boys and girls, eve-

profane word, and we will meet with none of the drunkenness, temptations and rowdyism, you have in your large
cities.

We have the best of Schools, and our boys and girls, every one, have their engagements when they return home, so
that the opportunities thrown in their way to associate with
the profane, wicked and bad, are completely cut off. Again,
thirdly, I know many persons in your cities, who have spent
their youth and manhood, and after arriving at old age, are
compelled to be renters, and in case of sudden death, the
only prospect of their families is the Almshouse or dependonce upon strangers. How different here! Every man
has his own home. If a mechanic, he raises enough of potatoes, vegetables and corn to keep him, and the time thus
spent is scarcely missed, and is more a pleasure than otherwise. And let your habitation be ever so humble, it is still
a home; and there is more real happiness and security in
your own home, than in the finest house, with rent day before you. I speak of these things understandingly, as I,
myself, was a mechanic in Philadelphia, where I have my
acquaintances, and though I worked hard and stinted myself—I could just keep my head above water—as is usually
said—by the skin of my teeth." I came to this place four
years ago, I have succeeded in building a mug house—have
plenty to do—plenty to eat—plenty to wear, and I am contented and happy. Nothing would induce me to return
again to the excitement and dangers of the city. I have
been induced to write these lines because I believe that a
fair representation upon the subject may benefit hundreds,
and may lead many to come and see for themselves.

The land here is fertile and a good limestone soil, and well
adapted for raising all the grains. For a grazing or stock
country, nothing better can be wanted. Almost every me
chanic keeps his own cow, which feeds through the summer
months in the woods, which make first rate pasture.

As for coal, I have never seen a place more abundantly
supplied. You can find it everyw months in the woods, which make first rate pasture.

As for coal, I have never seen a place more abundantly supplied. You can find it everywhere. I know of six or eight coal mines opened in the vicinity of the borough, and even some in the limits of the borough. I believe the whole tract to be underlaid with coal. I would recommend miners and others interested in coal to come up and make examination for themselves. On account of the great market we will soon have, the land, I believe, will greatly raise in value on that account.

I have frequently found iron ore in going over the lands, though I have not seen any developments. There is a bank opponed at a short distance, but I have not been there to see lift.

It.

Limestone is plenty everywhere.

The timber cannot well be excelled. It is very valuable, being large and thrifty, and of the best quality, such as cherry, maple, oak, laktory, pine, henlock, beech, chesnut, &c. I never saw better timber anywhere, and I have seen a rood deal. a good deal.

Our community is getting along fast. The farmers are getting well of, and the mechanics are well doing. They have steady work, good pay, and no doctor bills to keep them poor, for a healthier place cannot be found. I have written with no other view than to show that the industrious mechanic who has a hard way to get along in the city would do well to come here.

ARTIFICIAL TEETH.—A NEW MATERIAL
A For Plate. The latest and best invention of the Ag c.
Dr. S. WELCHENS would respectfully announce to his patrons and the public, that having purchased, the right of this city and county to use Dr. Slayton's Patent Colored Gutta Percha, he is prepared to furnish sets of TEETH with this material in a manner for superior to any other now in use. The advantages are the ability of making a more pofect fit, and a mere natural and beautiful job; and the material is vastly mere conceni-In a superior to any other now in use. The advantages are the ability of making a more pofect fit, and a mere natural and beautiful job; and the material is vastly mere congenial and more pleasant to be worn in the mouth than metal. All who have ever had it applied will have nothing else.—It is impervious and perfectly indestructible by acids or alkilies, and cannot be in the least affected by the saliva of, or by anything taken into the mouth. I have tested this by putting it into the strongest aqua fortis, with no more effect from it than would be from water.

All who wish to try the Gutta Percha Teeth can have a set put in, and if they do not render perfect satisfaction they need not take them. Or if they are found not to stand the test of time, a gold sot, of the very best character, will be inserted in exchange or the money will be rafunded. Call at the office of Dr. S. Welchens, No. 34 Kramph's Buildings, North Queen street, for further information on this subject, and see specimens of this truly beautiful invention.

AP Dentists wishing to purchase Office Rights for the use of this Patent, in the city or county of Lancaster, can be accommodated by calling as above. Instructions will be given in the use of it.

THE Office of the Laneaster Savings Institution is open daily from 9 o'clock, A. M., until 4 o'lock, P. M.

Those depositors who have not exchanged certificates are requested to call at the Office with as little delay as possible and receive the new certificates now being is sued in exchange for those issued prior to June 6th, 1855, in order that the Institution may proceed in the regular transaction of business.

Transaction of business.
