Besides this, there is a valuable saw mill upon the property, and one hundred and fifty tots in the thriving town of St. Mary's, which the subscribers get.
This originally formed part of a large tract, a great portiou of which was settled by industrious and educated Germans, numbering some tweaty-five hundred. They selected the land on account of its agricultural and mineral weaklik, which alone is an indisputable evidence of the facts, as they are well known to be superior judges upon these subjects. They went there some tweive years ago, and they now have a thriving and beautiful estiment, which is laid off in regular rotations of fine farms. It has hotels as good as any in the stats—meas acollego, where the highest branches of education are taught, both literary and musical—aw mills, grit mills, conch manufactories, and every thing concelvable to add wealth and prosperity to the place—the land of the company surrounds this town, and all the improvements, thereby reaping the benefits, and presenting a splendid opportunity for settlement. On Monday night last, a public meeting was call-ed, at the instance of the Intelligencer, to pronounce a terific amount of indignation at the "monstrous and high-handed outrage" of the Legislature passing a bill increasing the salary of some of our important county officers; for as they now are, a good man can-not be found to fill them, whilst incompetent men render them worse than none at all. About 75 "in-dignant" men, like the cditor of the Intelligencer, convened and passed, with much confusion and dis-order, a string of resolves, which amount, in sub-stance, to nothing—only that the County Judge— the same Judge that took Messrs. Puge & Bacon down a pgg—should not have his salary increased! There is where the "indignation" was aimed. The whole thing was a miserable faiture. A large number of our citizens have recently had acts of emancipation, —before the law shall go into effect. We are still in daily receipt of news from Kansas. Nothing of any moment has transpired. Nine-tonths of the reports sent East, by tolegraph, are base fab-riations, and calculated to create an excitement throughout the county. Some difficulty, it is true, seems to exist among the Free State men and the Pro-Slavery advocates, and the "Border Ruffians" are endeavoring to kick up a great ado for sinister motives.

are andeavoring to kick up a great ado for sinister motives. Some sixty Squatter houses are said to have been furmed, and that the "Abolitionists" are amusing themselves shooting down the cattle belonging to Pro-Slavery mon. This, however, is believed to be a fabrication, gotten up by the "rufflans" to create an exoltement, and give cause for a civil war. No houses have been burned, as previously reported, and sent at lighting speed to the North and East by ir-responsible men. The "one thousand men" said to be "armed to the teeth," at Lawrence, are quietly pursuing their avocations, not even dreaming of a sivil war, much less being engaged in shooting down their fullow men. No estile have been shot; no war
