BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complants peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character,

causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of

instruction and advice of the utmost importance to be future health, in respect to which her sensitiveness forbids consulting a medical rentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularitles reculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus ulers (falling of the womb), or from theor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confine

ment. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hararded during such time, will each find in its pages the

means of preparation, amelioration and relief. It is of course impracticable to convey fully the various subjects treated of, as they are of a mature strictly intended for the married or those contemplating marriage Reader, are you a husband or a father? a wife or a mother? Have you the sincers welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those

In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various imposi-tions have been attempted, as well on booksellers as on the public, by initiations of tills page, spurious editions, and surreptious infringements of copyright, and other levices and decry toop, it has been found necessary.
