THE COTTAGE DOOR.

How sweet the rest that labor yields The humble and the poor, Where sits the patriarch of the fields Before his cottage door ! The lark is singing in the sky, The swallow in the enves,

And love is beaming in each eve Beneath the summer leaves ! The air amid his fragrant bowers Supplies unpurchased health, And hearts are bounding 'mid the flowers, More dear to him than wealth ! Peace, like the blessed sunlight, plays

Around his humble cot. And happy nights and cheerful days And when the village Sabbath bell Rings out upon the gale, The father bows his head to tell The music of its tale :

The fair and dewy sod, And every infant tongue is still To hear the word of God! Oh, happy hearts !- to Him who stills The ravens when they cry, And makes the lily 'neath the hills So glorious to the eye-

A fresher verdure seems to fill

The trusting patriarch prays, to bless His labors with increase Such "ways are ways of pleasantness," And all such paths are peace !'

ACTER. -It is asserted that the inhabitants of Innisdea, (Scotland,) are prone to litigation; and a curious legend of a lawsuit is told, upon the main illustrative of this quarrelsome disposition.

A century ago two persons were remarkable here for their superior opulence, and had become the envy and wonder of their their poorer neighbors. Their wealth consisted of a flock of sheep, when, unfortunately, some trifling dispute occurring between them, a dissolution of partnership was resolved upon. To divide the flock, one would suppose, was not difficult, and

they proceeded to partition them accordingly. They possessed one hundred and one sheep; fifty fell to each proprietor, but the odd one, how was it to be disposed of? Neither would part with his moiety to the other, and after a long and angry negotiation, the sheep was left in common property between them. Although the season for shearing had not come round when sheep are usually shorn, one of the proprietors requiring wool for a pair of stockings, pro-posed the fleece should be taken off. This ted States. was resisted by his copartner, and the point was finally settled by shearing one side of

the animal.

Only a few days after the sheep was found dead in a deep ditch; one party ascribed it to the cold feelings of the animal having urged him to take shelter in the fatal trench; while the other contended, that the wool remaining upon one side had caused the weather to lose its equilibrium, and that thus the melancholy catastrophe was occasioned. The parties went to law directly, and the expense of the suit actually devoured the produce of the entire stock, and reduced both to a state of beggary. Their descendants are pointed out to this day as being the poorest of the community, and litigants are frequently warned to avoid the fate of "Malley and Malone.

> RAVAGES OF WOLVES IN IOWA-TWO PERsons Devoured.—Owing to the extreme cold weather for some time past, the wolves in Pottawottomic county have become dangerous neighbors. Poultry yards and sheep folds have been robbed to a frightful extent, and in several instances the hungry beasts have not been inclined to spare the human species .-About three weeks ago a man was returning from a prayer meeting, accompanied by his two daughters, one sixteen and the other twenty-three years of age. They were all riding the same horse, when suddenly a pack of timber wolves assailed them, and being unable to escape by flight, they attempted to defend themselves. But the ferocious brutes attacked the horse rendering him unmanageand partly dragged to the ground, and instantly devoured. This enabled the father and the other daughter to escape. Several neigh-bors were soon mustered, but upon repairing to the spot nothing was found but one shoe, and a very few remnants of the unfortunate girl's clothing. A boy about thirteen years old left his father's house to get water at a spring, which was about half a mile distant, since which time nothing has been seen of him. The pail was found near the spring, also som marks of blood and a lock or two of hair. Several persons have been chased by the savage monsters.—Keokuk Post, Jan. 11th.

the proprietor has resolved to make it still more worthy of the patronage of the public. That this admirable work is A Miracle of Cheapness, is admitted by every one, containing, as it does, one hundred pages of reading matter in each number, being more than any of the §3 magazines, and forming two volumes a year of six hundred pages each, or twelve hundred pages of reading matter per ainnum. for NEDOLLAR!

BALDOUS DOLLA MONTHLY is printed with new type, upon fine white paper, and its matter is carefully composed and arranged by the hands of the editor and proprietor, who has been known to the public as connected with the Boston press for sixteen years. Its pages contain New Tales, Poens, Stories of the Sea, Sketches, Miscellany, Adventures, Biographies, Wit and Humor, from the best and most popular writers of the country. It is also spiced with a record of the notable evens of the times, of peace and war, of discoveries and improvements occurring in either hemisphere, forming an agreeable companion for a leisure moment or hour, anywhere, at home or abroad, each number being complete in itself.

No sectarian subjects are admitted into its pages; there are enough controversial publications, each devoted to its peculiar sect or clique. This work is intended for THE MILLION, north or south, east or west, and is filled to the brim each month with chaste, popular and graphic miscellany, just such as any father, brother or friend would place in the hands of a family circle. It is in all its departments, fresh and original, and, what it purports to be, the chaspest magazino in the world.

Prescott. With Portraits, Maps, Plates, &c. 2 vols. Octavo. The reign of Philip the Second, embracing the last half of the sixteenth century, is one of the most important as well as interesting portions of our modern history. It is necessary to glance only at some of the principal events.— The War of the Netherlands—the model, so to asy, of our own glorious war of the Revolution; the siege of Malta, and its memorable defense by the Knights of St. John: the brilliant career of Don John of Austria, the hero of Lepanto; the Quixotic adventures of Don Sebastian of Portugal; the conquest of that by the Duke of Alba; Philip's union with Mary of England, and his wars with Elizabeth, with the story of the Invincible Armada; the Inquisition, with its train of woes; the rebellion of the Moriscos, and the cruel manner in which it was avenged—these form some of the prominent topics in the foreground of the picture, which presents a crowd of subordinate details of great interest in regard to the character and court of Philip and the institutious of Spain—then in the palmy days of her prosperity. The materials for this vast theme were to be gathered from every part of Europe; and the author has for many years been collecting them from the archives of different capitals. The archives of Simancas, in particular, until very lately closed against even the native historian, has been opened to his researches; and his collections has been further enriched by MSS, from asmeng of the principal bouter.

LANCASTER COUNTY PRISON. REPORT OF THE INSPECTORS, To the Honarable the Judges of the Court of Quarter Sessions of Lancaster county. pursuance of law the undersigned

IN pursuance of law the undersigned submit to your Honorable Court, the following Report of the Prison.

The Act of February, 1850, relative to the Lancaster County prison, requires the Inspectors to make a Report on or before the Monday of the first term of the Court of Quarter Sessions in every year to the said Court.

The time intervening between the 31st of December, and the third Monday in January was found by the experience of three years to be entirely inadequate to the performance of the duties incident to the preparation of the numerous Tables and Statements accompanying their Report, in addition to the ordinary duties of the officers, which in their nature leave but little of their time unoccupied.

officers, which in their nature leave but little of their time unoccupied.

This has rendered necessary the changing the time of terminating the fiscal years as well as the prison year, which was accordingly done by a resolution of the Board, adopted the 5th day of March, 1855, fixing the time of closing the year on the 30th day of November, instead of the 31st day of December, as heretofore. The Tables and Statements accompanying the Report therefore embraces a period of but eleven months, commencing on the 1st of January, and ending on the 30th of November, 1855.

On the 31st December, 54, there were in confinement, 55

Of these (104) 63 are convicts, 4 committed for fine and costs, 6 awaiting trial, and 41 vagrants. Of the 649 received during the year, 65 were convicted.
Much interesting information relating to the Prison, during the period embraced in this Report, is furnished in detail by the Tables he eto annexed.
The number committed to the Prison during the elevan months, excepting the 65 sontenced, was 484—of which 23% were for drunks mones and disorderly conduct, and 35 for vagrancy, as per Table No. 1.
In addition to the 484 there were sentenced during the same period 63, and remaining in Prison on the 31st of December, 1854, 83—making the above total in Prison, during the 11 months of 1856, 634, as per Table No. 2.
Table No. 3 shows how the 630 discharged prisoners were disposed of—3 being sent to the House of Refuge, 2 to the Lancaster county Hospital, 1 to the linsane Asylum at Harrisburg, and 2 hung themselves, none having been pardoned by the Governor.
Table No. 4 will show the various charges upon which the 85 convicts were sentenced; there were 35 for Larceny, against 37 the previous year, the residue were for offences of no great attority. This Table exhibits the gratifying facts not only of a proportional decrease of convictions during the period but also of a lower grade of crime than those of the previous year.
Table No. 5 their term of sentence with color and sex of each—being 12 colored and 33 white; a less proportion of colored than the previous period, among the convicts there were two white females.
Table No. 6, the nativity, color and sex, of each of the 65 convicts, but 24 were born in Lancaster city and county, and 20 in foreign countries.
Table No. 9, shows the occupations of the convictod.
Table No. 9, shows the number that can read and write—23 of the 65 colud not read and 8 write—23 of the 65 colud not read and 8 decaded and write—23 of the 65 colud not read and 8 decaded

prior to their conviction—so of the trades.

Table No. 10, shows the number that can read and write,—23 of the 65 could not read and 80 could not write; a somewhat larger proportion than the previous finement
Table No. 13, the number of Medical cases treated.
Table No. 14, shows the habits of the convicts—37 of
the 65 being of intemperate habits, and 12 moderate
drinkers.

drinkers.
It appears, by table No. 15, that the whole number of prisoners received since the opening of the prison, Sept. 12th, 1851, to the 30th of Nov., 1836, is 1940; 1613 white males, 185 white females, 207 colored males and 35 colored to the september of t males, 155 white females, 207 colored males and 35 colored females.

The health of the prisoners, considering the large proportion who were of intemperate habits, has been unusually good. The number of cases treated was 106, being in the ratio of 100 cases treated to every 598 prisoners, the ratio of the previous year 100 cases treated to every 628 prisoners, the ratio of the previous year 100 cases treated to every 628 prisoners, thus exhibiting a decided improvement in the health of the prisoners. Only 1 prisoner died during the 11 months. There were no cases of insanity developed during that period. For details on this subject, see Table No. 14.

There were committed during the past 11 months, 35 persons for vagrancy, and 235 for drunkenness and disorderly conduct; an increase of vagrancy of 6, and of drunkenness and disorderly conduct of 25. This increase is no greater, proportionably, than the increase o, the whole number of immates of the prison.

The undersigned deem it unnecessary to say more than to reiterate the opinion, expressed in the previous Annual Reports of their predecessors, in reference to the superiority of the system of separate and solitary con-

the beneficial fruits of the system. The consideration of the system of the remedy this inconvenience and make it practicable to carry out the system fully and effectually, the erection of another wing will be required, the expediency of which is recommended by the Board.

Manufacturing operations of the Prison, during the 11 months ending November 30th, last, and contain much nteresting information touching these subjects. Statement A. shows that the orders issued by the Investors of the American Control of the Co Statement A. shows that the orders issued by the inspectors on the Treasurer of the Lancaster county Prison, from January 1st, 1855, to November 30th, 1855, both days inclusive, amounted to \$19,083 68 From which deduct extraordinary expenses,

As the above amount was expended during the year for raw materials, manufacturing, maintenance of prisoners, officers' selaries, current expenses, &c., it becomes necessary in order to ascertain the actual cost to the county, to deduct the following cash received, and assets of the manufacturing department, to wit: Cash received by the Keeper for goods sold, and by him paid to the Treasurer of Lancaster co. prison, \$3,637.05

By reference to Statement 0, it will be seen that the number of prisoners maintained the last year was 30,698 days, 10,679 days of which at 17 cents a day, and 20,019 days at 20 cents a day, amounted to \$5,519 23-100—whereas the number maintained the previous year was but 27,341 days at 17 cents a day, amounted to but \$4,606 09—being an increase in maintained the previous year was but 27,341 days at 17 cents a day, amounted to but \$4,606 09—being an increase in maintained the previous year was but 27,341 days at 17 cents a day, amounted to but \$4,606 09—being an increase in maintained the past eleven months, over the preceding year of \$1,213 14.

The continuing enhancement in the prices of breadstuffs and provisions during the last spring, imperatively required a further increase of 3 cents a day to the Keeper for boarding prisoners. The fucrease was allowed, from the first of May last. This advance was made with a distinct understanding and agreement with the Keeper to submit to a reduction, as soon as the reduced price of the articles required for food would justify it, which has not yet taken place, as it is not intended that he shall make any profit by boarding the prisoners, but that he should be simply compeosated for the outlay actually made by him for that purpose. Patent Ambrotypes.—The subscribers having
purchased the exclusive right of Lancaster city. *** Datent Ambrotypes.—The subscribers having purchased the exclusive right of Lancaster city, are now enabled to offer to the public a New STILE of PICTURES, far exceeding, in beauty and durability, anything ever be fore made. These pictures ago not reversed, as daguerreotypes areand may be seen in anylight. They also possess the rare property of being impressinally, being hermetically sealed between glass plates, which is secured by Letters Patent, in the United States, Great Britain and France, and practised in Lancaster city by T. & W. CUMMINGS only, over Sprecher & Bro.'s New Store, North Queen it., Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Groek word Ambratos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. EXPLANATION.

GREAT Bargain.—3500 Acres of Land at Nicholas C. H. Va. I have for sale, (belonging to Rob ort Campbell, of Illinois) 2500 ACRES of land, lying on the waters of the Twenty Mile and Sycamore, most of very rich and excellent grass land, part excellent Farming Land. It would make a fine grazilar Farm. There is plenty of Coal and Iron upon it. Farming Land. 18 would make a fine grazilar terms 57000 cash, or \$1500 cash, or \$5500 in Coal would and Meriuo Sheep. This is the greatfast bargain ever offered in Land.

PIDGWAY FARM AND AGRICULTU-RAL COMPANY.—A Farm within the reach of every Man. Pennsylvania Land. Twenty-seven thousand acres of good land have deen purchased, with the inten-tion of giving a Farm of twenty-five Acres for each share, payable by instalments of one dollar, a week. It is located in the county of Elk, where a junction will

Besides this, there is a valuable saw mill upon the property, and one hundred and fifty lots in the thriving town of St. Mary's, which the subscribers get.

This originally formed part of a large tract, a great portion of which was settled by industrious and educated Germans, numbering some twenty-five hundred. They selected the land on account of its agricultural and mineral wealth, which alone is an indisputable evidence of the facts, as they are well known to be superior judges upon these subjects. They went there some twelve years ago, and they now have a thriving and beautiful settlement, which is laid off in regular rotations of fine farms. St. Mary's is the town of the settlement, and is rapidly increasing in population. It has hotels as good as any, in the state—fine stores—a college, where the highest branches of education are taught, both literary and musical—saw mills, grist mills, coach manufactories, and every thing conceivable to aid wealth and prosperity to the place.—
The land of the company surrounds this town, and all the improvements, thereby resping the benefits, and presenting a splendid opportunity for settlement. Linestone abounds. This is both an evidence of the quality of the soil and a great fertilizer. At St. Mary's it sells at from to twelve cents a bushel, burnt.

The timber is of great value, and consists of Cherry, Ash, Chesnut, Pine, Oak and Hemlock, all of primeval growth, of great size, and towering from eighty to a hundred and twenty feet high. That which the stockholders do not want will be sold to the timber merchants, with conditions to tit in a certain time. This will clear the land, and

of great size, and towering from eighty to a hundred and twenty feet high. That which the stockholders do not want will be sold to the timber merchants, with conditions to cut it in a certain time. This will clear the land, and bring, a large revenue into the treasury, which will go to the reduction of the price of the farms.

This explains its agricultural resources. But there is another consideration of equal, if not greater, importance. The land is one great bed of coal. Upon this property it is literally inexhaustible. By taking a glance at the latest map, first at this locality, and then over the State, it will be found to possess the grandest feature of propertry, improvement, and almost immediate development. It is juperior to any other. It is the only place having the great concentration of railroads, by which New York, the Lakes, Philadelphia and Pittsburg are at its doors. There is no coal in New York, and on account of its northeroly situation, it possesses the advantages of nearners. This is destined to become the Pottsville of that portion of the State. The prospect in the inture for this place exceeds any that Pottsville ever had; and there, land which a few years ago was selling at five and ton dollars an acce, when the railroad opened its mines sold for from two to five hundred dollars an acre. These are facts. Those who are ignorant, let them make laquiry. Improvement is still progressing. So arrives at the trut. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer.

The Sunbury and Erle Railroad, of which Gov. Bigler is President, and which connected this land which the Lakes and Philadelphia, and the Alleghany-Valley Railroad, of which Gov. Johnson is President, connecting this land

The Surbury and Eric Railrond, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany-Valley Railrond, of which Gov. Johnson is President, connecting this land with Pittsburg, are in rapid course of completion and upon a great extent the locomotives are running. Therefactions which suggest themselves upon this subject are those—It takes two hundred weeks to pay for the farms. They will be distributed when they are hair paid for. By that were the railroads will be finished. That will be early enough for all particul purposes. The advantage of buying it before their empletion is evident. When that he can be reperty will go up one hundred per cent—Speculation in coal would at once run it up to such a price as would make it impossible to obtain for agricultural purposes. We now aget it without paying the their proved price, and the stockholders will ejoy the rise.

A treat of about two thousend acres will be laid of at ouce, and ready by next Spring, in order that persons who wish to farm immediately can do so.

Friends and relatives as well as those having more than one share can have their farms together.

An Improvement department will also be connected with the company. By this means, in order to accommedate those who are unable to give their personal attention to fencing or preparation, or desire to rent their properties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stockholders can have manure furnished, houses built and other work done upon credit, they securing the payment

the first place receives a farm at the lowest possible price, and then is afforded every assistance in placing it under crops.

These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for himself, his wife and children, either at the present or time to come. Many business men, Mechanics, and workingmen upon farms, who save several dollars a month, can, by thus uniting together, become freeholders, whilst they scarcely miss the outley, and at less expense than the annual cost of tobacco or the most trifling luxuries. A saving and purchase of this kind eat nothing, and constantly increase in value. In case of sickness or misfortune by which he is thrown out of employment, he has a home tog oft, where he can always make a good living.—The title is unexceptionably good—one of the oldest in the State, being the Holland Title. Those who desire farms, will please address, personally or by letter (enclosing first instalment.) to Samuel W. Cattell, at the office of the Company, No. 125 Walnut Street, between Fourth and Fifth streets Philadelphia, where Maps can be seen, Pamphlets procured and every satisfaction obtained. Letters promptly answered. Ladies are allowed to hold Shares in their own names and right, without trustees.

Many business men, Mechanics, and workingmen upon farms, who save several dollars a month, can, by thus uniting together, become freeholders, whilst they scarcely miss the outlay, and at less expense than the annual cost of tobacco or the most trifling luxurics. A saving and purchase of this kind eat nothing, and constantly increase in value. In case of sickness or misfortune by which he is thrown out of employment, he has home to go to, where he can always make a good living. The title is unexceptionably good—one of the oldest in the State, being the Holland Title. Those who desire farms, will pleaso address, personally or by letter (enclosing first instalment,) to Samuel W. Cattell, at the Office of the Company, No. 135 Waluut Street, between Fourth and Fifth procured and every satisfaction obtained. Letters prompt y answered. Ladies are allowed to hold Shares in their own names and right, without trustees.
