A Lecture on Love, or a Private Advice to Married Ladies and Gantlemen.

This is decidedly the most fascinating, interesting and really useful and practical work on Courtship, Marrimony, and the duties and delights of Married Life, that has ever been issued from the American press. The artificial social system, which in so many instances prevents a union of hearts, and sacrifices in conventiofallsm the happiness and even the lives of thousands of the young and hopeful of both sexes, is thoroughly analysed and exposed. Every one who contemplates marriage, and wishes for an infallible guide in the selection of a partner for life, should purchase this great text book of commubial felleity.
