

"THAT COUNTRY IS THE MOST PROSPEROUS WHERE LABOR COMMANDS THE GREATEST REWARD."—BENJAMIN FRANKLIN.

VOL. LVIII.

SALUTATORY ADDRESS, Delivered at the Anniversary of the Earl Lyceum, Lancaster, Pa., January 15, 1886.

By W. SEEDER BARBOUR, of New Holland.

THE EARL LYCEUM.—Mr. President.—I rejoice to find this anniversary of the Earl Lyceum, Lancaster, Pa., January 15, 1886.

We have convened, this evening, to celebrate the first anniversary of our Lyceum, the object of which, as you all know, is the promotion of knowledge and virtue.

From the period of our permanent organization, to the present time, we have met regularly every two weeks. Our meetings have been held in the parlors of the Lyceum building.

Every member has shown a willingness to perform his part. We have been able to hold our meetings, week after week, at a level with the most successful Lyceums in the State.

THE BENEFIT OF LYCEUMS.—The name Lyceum, as stated in the address of the Earl Lyceum, Lancaster, Pa., January 15, 1886.

By the slow and heavy motion of the wagon. But now, by the invention of the steam-engine, we can multiply our time and power in a few hours.

By the slow and heavy motion of the wagon. But now, by the invention of the steam-engine, we can multiply our time and power in a few hours.

By the slow and heavy motion of the wagon. But now, by the invention of the steam-engine, we can multiply our time and power in a few hours.

and by thus working together they will not only be able to do more than they could do by themselves, but they will also be able to do it more cheaply.

It is by comparing Lyceums with other places of amusement or instruction, that their moral benefit is made manifest.

By the slow and heavy motion of the wagon. But now, by the invention of the steam-engine, we can multiply our time and power in a few hours.
