STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health THE BLOOMING BRIDE, the blooming beath and youth, and hunyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, deblinted wife, with frame emsciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an atter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " CARO THE THIRD AND FOURTH GENERATION."

Besides this, there is a valuable saw mill upon the property, and one hundred and fifty lots in the thriving town of \$1. Mary's, which the subscribers get.

This originally formed part of a large tract, a great portion of which was settled by Industrious and educated Germans, numbering some twenty-five hundred. They selected the land on account of its agricultural and mineral wealth, which alone is an indisputable evidence of the facts, as they are well known to be superior judges upon these subjects. They went there some tweive years ago, and they now have a thriving and beautiful settlement, which is laid off in regular rotations of fine farms. \$1. Mary's is the town of the settlement, and is rapidly increasing in population. It has hotels as good as any in the state—fine stores—a college, where the highest branches of education are taught, both literary and musical—saw mills, grist mills, coach manufactories, and every thing conceivable to add wealth and prosperity to the place.—The land of the company surrounds this town, and all the improvements, thereby reaping the benefits, and presenting a splendid opportunity for settlement. Limestone abounds. This is both an evidence of the quality of the soil and a great fertilizer. At \$t. Mary's it sells at from ten to twelve couts a bushel, burnt.

The timber is of great value, and consists of Cherry, Ash, Chesnut, Pine, Oak and Hemlock, all of primeval growth, of great size, and towering from eighty to a hundred and twent is the soil of the timber merchants, with conditions to cut it in a certain time. This will clear the land, and bring a large revenue into the treasury, which will go to the reduction of the price of the farms.

This explains its agricultural 1 resources. But there is

But there is another consideration of equal, if, not greater, insportance. The land is one great bed of coal. Upon this property it is literally inexhaustible. By taking a glance at the latest map, first at this locality, and then over the State, it will be found to possess the grandest feature of prosperity, improvement, and almost immediate development. It is superior to any other. It is the only place having the great concentration of radiroads, by which New York, the Lakes, Philadelphia and Pittsburg are at its doors. There is no coal in New York, and on account of its northernly situation, it possesses the advantages of nearness. This is destined to become the Pottsville of that portion of the State. The prospect in the future for this place exceeds any that

From A. Wondward, M. D., of Penn University Districts of the present of t

Numerous cases of disease of the Gental Organs, some of them of long standing, have came under my notice, in which his skill has been manifest in restoring to perfec, health, in cases where the nationt has been considhealth, in cases where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by self-abuse, or excess of venery, I do not know his superior in the profession.
