Every indication of public sentiment among the people of the States, daily proclaims, that Pennsylvania's favorite son, is the decided choice of the democratic masses of the country. This is not unexpected to the undersigned, for, news from Europe one week later, but no tidings of the missing steamer Pacific. Some having been a close observer of events that are in the States among our political friends, we find, that there are a very large and decisive outpouring, in the exof her passengers, however, report having seen, when three days out from Liverpool, a Collins of he pectation that James Buchanan, of Pennsylvania, is the steamer on the 10th, with a signal of distress flying, and apparently heading for the Eng-lish channel. The Peace Congress would very man most likely to obtain the unanimous call to the Presidency by the decision of the Delegates at Cincinnati He is, among the competitors for that great honor, a states probably not open until the 21st, on account nan of the first order of talents and experience,--pure, lofof the non arrival of the Austrian and Turk ty, and firm in sentiment devoted to the Constitution ish Envoys. It will be a proud day to this confederacy, when James Buchanau shall be placed befors the people of the land for their suffrage as the nominee of the democratic party. There is no mistake in this result, Messrs. The correspondence between this Government and the British Ministry, is now before the nation. You will find much of it in the Sun of this morning. The outrag tted by British Agents, in the U. States, in enli men for the Crimean British Army, in open violation of the neutrality laws of the land, turns up to be a more serious question than many of our citizens seemed willing to admit. Long ago, it was my province to notice in, the col r valuable journal, this very outrage commi ed through the complicity of Mr. Crampton, the British Minister, and the Consuls at New York and Philadelphia on the promulgation and conviction of Hertz, at Philadel United States. phia, and we rejoice that our opinion so early expressed has come so near in accordance to the views of our Exec

ive, Mr. Marcy and Mr. Buchanan, as expressed in the pullished correspondence, now for the first time made public. The recall of Mr. Crampton has been demanded, and the demand has not yet been conceded by Lord Clarendon.-Consequently, the last despatch of Mr. Marcy to Mr. Buchanan, which Lord Clarendon failed to announce, is still an open question. It is presumed, here, in this city, that Mr. Dallas will review the question of the recall of Mr. Crampton, immediately efter entering upon his duties at This whole correspondence, shows that the British Min

istry is good at shuffling off the responsibility, and that much of their diplomacy in this matter has been conducted solely to procrastinate and deceive the Government of the U. States. But, they have deceived themselves, and the favorable winter for the grain, uninterrupted correspondence fully discloses the fact to the public, that we have a report this morning, that Mr. Crampton has grain. The Chicago Journal says :

received his recall from the British Ministry. Whether true or not, I am not able to say. One thing is certain, our ecutive will hold to their demand for his recall Yours. MCFARLAND.

ST. LOUIS CORRESPONDENCE. The Snow, let and Weather—Port Packing in the West— Census of St. Donis—The Gordon Macderers arrested— Ool, Parker H. French-Gov. Shannon—"Administration Democrats," & c., & E. Lowe Echo Med.

St. Louis, Feb. 25th, 1856. Since the date of my last we have had freezing, thawing ining and snowing, and to take it all in all, a more favorable prospect for a speedy breaking up of the ice; which, though believed to be somewhat woakened, is still crossed by the heaviest fcams with safety The weather now is mild and pleasant, and should it continue so a few days interspersed with rain, the Ice King must let go his hold, and when he does much damage is anticipated to the beating interests of our city. Some of the finest steamer pat on the Western rivers are now ice-bound in our harbor, and exposed to all the dangers incident upon the final breaking up of the ice. Another week, most probably, will finish the very severe winter all sections of the country have experienced-the "oldest inhabitant" cannot remember of one half so hard. Heavy shows have ntly fallen in Northern Illinois, Iowa and Wisconsin, and in many places the ground is covered to the death of two and a hulf feet. In some parts of Kentucky the ground has not been seen since Christmas, and the snow on the mountains is said to be in precodented in death and it is generally conceded that more water is now lying upon the ground than ever known before. The railroads in Northern Illinois have been blocked up for the past week -the snow in some places drifted to the very tops of the

That to send the pro-duce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of culti-vating them; and hence, Government lands thus sitnated, at \$1,25 per acre, are not so good in relation - to the lands in Kansus and Nebrask, for although vacant lands may be found nearer the water courses, the distance to market is far greater, and every hundred miles the produce of these lands are carried either in wagons, or interruptod water communications, increases the expenses of intenspontation, which must be borne by the settlers, in the reduced price of their products; and to that extent procisely are the incomes from their farms, and of course on their investments, an-mally and their consequent yield over those of the Eas-tern and Middle Sittes, is much more than sufficient to pay

The St. Louis Evening Mirror drew its last on Wednesday and out of its ashes sprung the Evening Pilot, which claims to be the great National Democracy, and uncompromisingly onnosed to Col. Benton. Its party and backers claim to Administration supporters, yet nine-tenths are sworn members of the Know-Nothing order. If that is the doctrine of the Administration party, consider the "Old Guard" uncompromisingly opposed to it. This "Administration" party of Missouri, is a counterfeit of the rankest dye-a be and a swindle, and to prove the assertion, I have only to refer to their acts of the past two years. They voted to a man for Luther M. Konnett, the K. N. candidate for Congress, and the whole K. N. ticket; and last April they supported their same sworn brothers, and with their votes de feated the regular Democratic nominee for Mayor, and the whole Democratic ticket. If we are to break down Know Nothingism, the "Administration" party of Missouri is not with us; but if it is for the spoils of office, coming from with us but if it is for the spoils of office, coming from Washington, they are the best and purest Democrats the party ever contained! Three months ago my hair was very gray. It is now a dark brown, (the original color), smooth and glossy. Front the School of the Real Estate Advertiser, School street. PROF. Wood,-Dear Sir:-Having become previously quite gray, 1 was induced, some six weeks since, to make trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and al-though my hair has not fully attained its original color, yet the process of change is gradually going on, and i have great hopes that, in a short time, my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before, was harsh and dry, and it has ceased to come out as for-merly. Respectfully yours, D. C. M. RUPP. Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing mate-rials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices. It is believed that the price, long credit, and, low rate of interest, charged for these lands, will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the coun-try will probably have increased their value four of ive fold.
