STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW. How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influ-ence incident to the enjoyment of health:

THE BLOOMING BRIDE, THE BLOOMING BRIDE,
But a few years ago in the flush of health and youth,
and buoyaney of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emaciated, nerves unstrung,
spirits depressed, countenance bearing the impress
of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and
plainest rules of health as connected with the marriage state, the violation of which entails disease,
suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN UNTO THE THIED AND FOURTH GENERATION." Pranomitting CONSUMPTION, SCROPULA, HYPOCHONDRIA, INSANITY, GOUT, KING'S EVIL, and other and worse Diseases, as a

The remedy is by knowing the causes and avoiding hom, and knowing the remedies, and benefiting by them. These are pointed out in THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION,

II.—Into farms or half shares of twelve and a half acres, at the price of \$100 payable, in instalments of two dollars a month or by the week.

Escides this, there is a valuable saw mill upon the property, and one hundred and fifty lots in the thriving town of \$1. Marys, which the subscribers get.

This originally formed part of a large tract, a great portion of which was settled by industrious and educated Germans, numbering some twenty-fire hundred. They selected the land on account of its agricultural and mineral wealth, which alone is an indisputable evidence of the facts, as they are well known to be superior judges upon these subjects. They went there some twelve years ago, and they now have a thriving and beautiful settlement, which is laid off in regular rotations of fine farms. \$1. Mary's is the town of the settlement, and is rapidly increasing in population. It has hotels as good as any in the state—fine stores—a college, where the highest branches of education are taught, both liferary and musical—aw mills, grist mills, coach manufactories, and every thing conceivable to add wealth and prosperity to the place.—The land of the company surrounds this town, and all the improvements, thereby reaping the benefits, and presenting a splendid opportunity for settlement. Limestone abounds. This is both an evidence of the quality of the soil and a great fertilizer. At \$1. Mary's it sells at from the to twelve cents a bushcl, burnt.

The timber is of great value, and consists of Cherry, Ash, Chesunt, Pine, Oak and Hemiock, all of primeral growth, of great size, and towering from eighty to a hundred and twenty feet high. That which the stockholders do not want will be sold to the timber merchants, with conditions to cut it in a certain time. This will clear the

So arrive at the fruit. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer.

The Sunbury and Erie Raliroad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany Valley Raliroad, of which Gov. Johnson is President, connecting this land with Pittsburg, are in rapid course of completion, and upon a great extent the locomotives are running. The reflections which suggest themsolves upon this subject are these—It takes two hundred weeks to pay for the farms. They will be distributed when they are half paid for, By that time the raliroads will be finished. That will be early enough for all practical purposes. The advantage of buying it before their completion is evident. When that is done property will go up one hundred per cont—Speculation in coal would at once run it up to such a price as would make it impossible to obtain for agricultural purposes. We now get it without paying the then improved price, and the stockholders will enjoy the rise.

A tract of about two thousand acres will be laid off at once, and ready by next Spring, in order that persons who wish to farm immediately gan do so.

Friends and relatives, as well as those having more than one share can have their farms together.

An Improvement department will also be connected with the company. By this mesns, in order to accommodate those who are unable to give their personal attention to fencing or preparation, or desire to rent their properties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stockholders can have manure furnished, houses built and other work done upon credit, they securing the payment to the company within a reasenable time, so that a man in the first place receives a farm at the lowest possible price, and then is afforded every assistance in placing it under crops.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible coment, by by which the picture will rotain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against funitations made on single plates of glast, with the Slack varnish in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture STERIESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life.

Oral and wood are delivered along the road at differen points at from \$1.50 to \$4 the cord or ton.

Parties having in view lowa, Kansas, Nebraska, or Minnesota for their future homes should take into consideration that the country west of the Mississippi is destitute of railroads; that the country west of the Mississippi is destitute of railroads; that the country west of the of the Illinois Central Railroad, direct to the great Eastern market, it sufficient of itself to pay the investment at from \$10 to \$15 per acre higher than in government lands in Iowa. In other words that it costs so much more to get produce from the interior of the country west of the Mississippi to the Eastern market, that the farmer will find it much mere profitable to jocate on the line of this railroad.
