ST. LOUIS CORRESPONDENCE. Buriness Resumed—Great Activity on the Levee—Hon. John How nominated by the Democracy—A Wel Blanket throom around Know-Nothingism—Fillmore's Nomination cool received—Democracy triumphant in Chicago—Boats Sunk

Sr. Louis, March 10, 1856. I am now happy to announce that the old-fashione onghiares of ou city. There are now more steamboats lying at our Level than were ever before known at one time. About one Steamers are actively engaged in receiving and discharging freight, and the Levee is lined from North to South with all manner of goods, wares, and merchandize generally; drays and draymen are thicker than bees in a sugar hogshead, and it is with difficulty that one can go o and from the boats-in truth it is not safe. Our mer chants are in better spirits than a fortnight since, and a heavy spring trade is anticipated. A large number of new e been opened, and many of our old levee clerks rked in the Forwarding and Commission Busidestroyed by the recent breaking up of the ice, are not in ssed, and one would suppose, to judge from the fleet now in our harbor, that boats sprung from the bottom of the Mississippi, instead of sinking in the Father of Wa The ice in the Illinois river and Upper Mississippi has not as yet broken up. Boats are running on the Mis-

Business in every department is brisk Produce will soon begin to arrive from the upper rivers, which will give more activity to the market. Thus far very little has been done—no change, worthy of note, in prices
On Saturday night last the Democracy met in mass me

ing, at the Rotunda, and after the preliminaries were gone ugh with, the Hon. John How was declared, hy scala-How has filled this office two terms already-last year he would not consent to run-a K. N. was chosen, and of al the municipal administrations-even these spoken and read of in the "comic almanacs"-there are none to compare with our present city government. St Lais has lost har cradil, her honor and her reputation, which her citizens were years in building up, and just when when we got at the top of the ladder-just when her credit stood second to none in the Union-just when prosperity perched o be relieved from heavy and burthensome taxes—in pops an administration steeped in the cess pools of Know-No thingism, regardless of her fame, credit and all that is noble; regardless of her credit abroad and her citizens at home, fastens upon the city a stigma, a faul stein, a black and damnable spot, that it will require years to remove nd oradicate. The people of St. Louis are satisfied with Know Nothing rule and ruin, and the mid-night order will receive such a rebuke at the approaching election, as

will forever silence them in this section The K. N's, hold a (I was just about to say Indianation meeting to night, to ratify the nomination of "Fillmore and Donelson." It will without doubt be a store attain and to tell you candidly, Fillmore men in this city are few and far between. Presidential nominations are generally received with instantaneous ratifications and great rejoic ing, but the receipt of the nomination of Fillmore and Don elson was an exception to the general rule-nothing of of the kind has yet taken place, and what is more of it, no one seems to give it a thought. These Know-Nothings are certainly the most strange creatures living, but in al probability about a corporal's guard of "Stu-Spangled" bulles, mob-agitators, church burners and sing-shot patriots will convene and endorse the Philadelphia nominee to-night, and herald it abroad that the Americans will support Fillmore in St. Louis. The order here possesses a good

quantity of Gas! The name of Mr. Buchanan has become a tower o strength, and all that is required to place him in the Presidential chair,—where he should be for the next four years—is to give him the nomination of the Democratic National Convention; and all the Fillmores and Donelsons from the combinations of Know-Nothingism, Black-Republican ism, Free-Soilism, Niggerism, Doughfaceism, Abolitionist Americanism, Nativelsm, and all other isms that the ene mies of Democracy are heir to dare not, will not, nor can not prevent it

The municipal election of Chicago came off a few days since, and resulted in the choice of the Democratic-Anti-Know-Nothing ticket by 400 majority. Senator Douglas was nobly sustained at this election in Chicago. The last nail has been driven in the K. N. coffin in that city. The corpse will be removed to South America. Since the election of Banks to the Speakership, the little Rock (Ark.) Democrat has been filled with cards announce

ing the withdrawal of the Know-Nothings from the various lodges. So thray go. The Steamer Great West sunk at St. Genevieve a few days ago; she was valued at \$16,000, and insured in Pitts burg for \$12,000.

the 23d. She was ladened with cotton. Supposed to be The Winchester sunk below Alton a few days since.

The steamer Lucy Donovan burnt to the water's edg on the 28th. Loss \$17,000;-no insurance. James Riley, charged with forgery, was surrendered by his security and taken to jail.

Parker H. French was in New Orleans on the 29th, on route for Nicaragua-he is trying to muster up recruits for the land of great promise The "Old Line Whigs" are about re organizing in Iowa, and the Democrats are picking their flints for the Dext campaign—they have a good ticket in the field, and will no doubt triumph over the Know-Nothings and Black-Re-

publicans combined-they have united in Iowa and made

one party out of two, and so it will be in other states when

the proper time arrives. Lefour motto be "Down with Black-Republicanism and Know Nethingism." It is a difficult matter for one to follow up the various names the opponents of Democracy assume—sure enough. what is there in a name,—nothing; but there is something in the spoils, hence the disguises, the dark lanterns, and Star Spangled Banners
Yours, OLD GUARD.

WESTERN GRANARIES .- We ascertain that the following amounts of corn are in store at the places named: Peru, 124,000 bushels; Lasaile, 70,000; Ottawa, 200,000; Pebria, and towns between

that place and Lasalle, 700,000; making a total of 1.094.999. It is estimated that there is in store at Lock-

at Joliet 60,000 bushels. In this city the amount of grain in store, and 14,000 bushels oats.

This gives 182,100 bushels at this point, 1,561,100 bushels. A very large portion of the tock, C. R. Buckalew, Thos. P. Knox, H. D. corn in store at points on the canal and Illinois Foster, S. S. Jamison, John Cresswell, Col. river is owned in this city. The probability is that the amount of Corn in store below will be nearly double before the canal opens, and

WASHINGTON CORRESPONDENCE. Washington, D. C. March 14th. 1856.

The Abolition party proper, held a caucus in the hall of which meeting the Hon. Solomon Foot, senator from Verecretary. I notice this meeting merely, as the first link n the chain, that are to follow, as feelers from the same party, in favor of the union ticket of Abolit Nothings!!!—The great man of the party spoke on that occasion, Mr. Seward of N. Y., and he announced, that he would support any candidate of the freesoil party, so that he was a liberty anti-slavery man. This is authority "good enough Morgan" to receive the united support of the abolition and know-nothing parties. Thus it is become ing plain to my view, that there will be no third candida for the Presidency, at the ensuing contest, as many suo ness on their own hook. The boats that were sunk and gress. When Mr. Seward speaks to this question of unity in all the elements of the opposition to the democratic nom-ince, you may be sure that there is truth in the arrangement. It is their only hope of success, and, as meagre a that is in any arrangement the discordant opposition may adopt, it, certainly is their best and only hope of success, by this concentration of all their energies in favor of but

The democratic nominee will be a man of mettle,—a man of talents and a Statesman,—consequently it follows, that being the choice of the national democratic party, he is al. so a friend or the Union, and of that Constitution tha bind these States by the chords of unity of interest loo losely together, ever to be rent asunder. And all the arts of those, who, oppose the democracy, and disregard th guarantees of the original compact that bind the States as ne family, will fall before the people, when the people sec. that the abolition and know-nothing parties are linked ogether to destroy the Union of these States. All the cool nd sober minded friends of their country, will pause in eir further support of the Abolition party, when, such fearful consequences are to result to our common country should that party ever prove successful in their crusade against the Constitution of the land

Judges Douglas and Collamar, read in the Senate of ednesday, two long and able reports. The first report sustains the President, in his endeavors to preserve the peace in the Territory of Kansas from violence from any tarter. The second assumes, that there is no occasion or the employment of force against the agents and settle of the emigrating Boston Sharps rifle emigrants, and, that that society at Boston, has done no wrong, consequently, emigrating aid society of Boston, and Gev. Reeder are to se looked upon hereafter, as the innocents in this whole ffair. Time will show, who are innocent, or who the guilty partie-. Our only liope and desire is, that there e no occasion for the employment of force in that distant and unfortunately governed Territory. There certain ly will be no cause of collision there, if the people of the Territory are left to manage their own matters, and, as uch is becoming to be the opinion of the best informe persons here, will now be the case, it will be well for the itizens of the Territory to harmonize, all their difference at an early day, and take the legal steps for becoming a ember of the confederacy with, or without the privilege f slavery among them, as the interest of the people may lecide the question for themselves

The House is still hammering away on the Kansas question, as to the right to send for persons and papers, to investigate the rights of voters in the Territory. All this is so much time thrown-away. The law of Congress creates the right to vote, and any testimony to invalidate the law s a perfect nullity :- but, the majority of the Committee on Elections, being purely of the black abolition stripe good half-dozen, are ever willing to do any thing and very thing to mar the harmony of "law and order" and he constitutional rights of the south: therefore, the pubic need not be surprised at the action and pertinacity with which these truly black republicans speak forth their sentiments in favor of confusion and in utter disregard of the law and order of the land. It is impossible to say when

the debate will end in the House.

So soon as the Reports made by Judge Douglas and Judge Collamer are printed, you may expect to hear of a spirited and able debate in the Sonate. Mr. Summer denies ny impropriety being chargeable to the " Boston emigraing aid society" in the Kansas difficulty, and, Judge Dou das, in his bold and fearless manner asserts, that every tem in his report is substantlated by facts beyond cavir controversy;-thus then the defiance of Mr. Summer has been met by Judge Douglas, and as in this contest "Greek meets Greek," you may expect strong and powerful arguments from these gentlemen, as well as from other nators who may engage in the debate.

tioy. Bigler introduced on Wednesday, a resolution the purchase of the manuscript of the exploring expedition nder Dr. Kane and his companions, in search of Sir John ranklin. And, in thus doing, Gov. B. made some re narks in praise of the expedition, the hardships, and sufferings of Dr. Kane and his eighteen companions, the debt of gratitude the world were under to them in the diseveries they had made, of the ocean stretching far distant north. All this was the truth of history, and the remarks of Gov. Bigler, were no more than due to the vast and emi-uent services performed by Dr. Kane and his companions on the score of humanity and advance the cause of science. The history should be published, and we hope Congres may undertake to spread the light of that great expedition before the reading millions on both continents of the o and new world. Mr. Brodhead of Pennsylvania opposed the motion of Gov. Bigler, in rather a captious argument against Lieut Gillis' book on Chili, as if the expedition and explo ration of Lieut. Gillis was anything pertinent to the question before the Senate. The friends of Dr. Kane in Penn-

the efforts of the other Senator from Pennsylvania, they are as well able to form an ppinion as I am to venture one in reference to the publication of the expedition to the arctic regions in search of the lost Sir John Franklin. The publication of the correspondence with the Britith Government on the enlistment subject, is now published-This correspondence will speak for itself, and place the po-sition of our President and Secretary of State rectus in curia before the nations of Europe, as well as satisfy the British People, that their Ministers in power, are doing all they can, to embroil their nation in a war with the government

of the U. States. When Mr. Marcy's letter is published in condon, Lord Palmerston will find, himself in a very tight place with the people of England. The views of our government on the Clayton-Bulwer Freaty are published, and the difference between the Gov ernments, is shown by the able address of our Secretary of State, to have arisen solely by the double dealings o nterpretation at different periods, by the British Ministry

of the true intent of the Treaty, as understood both by Mr. Clayton and Mr. Bulwer. Yours.

From the Harrisburg Patriot & Union. Interesting Correspondence. We subjoin the following correspondence between members of the Legislature and Senator Bigler. It is to be regretted that the Hon. Senator could not comply with the wishes of his friends: but we cannot deny that he was

right in attending to "duty before pleasure:" HARRISBURG, March 4, 1856. Hon. WM. BIGLER, U. S. Senate. Sir: -- A number of your political friends, members of the Legislature and others now at the State Capital, desirous of expressing their high regard for your political and private virtues, request you to name a day on which you can make it convenient to meet them at the

festive board. With consideration of high regard for yours, &c.,
Wm. M. Piatt,
J. R. McClintock,
S. S. Jamison, Chas. R. Buckalew, John Cresswell,

Thos. P. Knox, V. E. Piolet, and others.

HARRISBURG, March 5, 1856. Gentlemen:-Your note of yesterday, asking me to name a day when it will be conve nient for to meet you and other friends at the festive board, was presented this evening.

Having made arrangements to leave for Washington City in the morning train, it will not be convenient for me to meet you on the occasion of my present visit, and it is not probable that I shall return to Harrisburg again before the adjournment of the Legisla-ture. Whilst for these reasons I must decline to embrace the opportunity you have thus pre-

sented for a meeting so agreeable to my feelings, you will believe me that I am deeply sensible to the high character of the compliment implied in your invitation, and of the friendly motives which have dictated it Whilst regarding personal and political reputation as almost inseparable, I cannot refrain from the expression of special gratification with your allusion to my personal character. It has been my steady purpose, while struggling to build up the one to avoid the sacrifice of the other—feeling impressed with the conviction that political prominence, unsupported by the moral virtues, must ever be

uncertain and temporary.

In my new position as United States Senator, the obligations of the oath of office, the teachings of the Constitution, and the policy of the Democratic party shall be my constant guide. This evidence of regard on your part port 125,000 bushels; at Morris 100,000, and is the more satisfactory and gratifying, because I recognize among your number the names of many of those members of the Leg-116,000 bushels wheat, 61,000 bushels corn, from local and other considerations, felt required to prefer another. With many thanks for your flattering notice, I remain, very truly, which added to the above totals, would make your obedient servant, WM. BIGLER.

To the Hons. W. M. Piatt, J. R. McClin-

For the Intelligencer & Lancasterian. The Juvenile Fancy Bail. LANCASTER, March 15, 1856.

MESSES. EDITORS :-- With your kind permission I would he House of Representatives on Tuesday evening last, at | beg a corner of your very valuable paper, for the purpose of expressing publicly the gratification and delight enjoyed n last Thursday evening, in witnessing the examination of Prof. F. Stouch's Juvenile Class in dancing, held in the large room of Fulton Hall. The evening was pleasant-the spacious and well illuminated—and the occasion was ed by a large, intelligent and appreciating audience The gay, the lovely and the youthful were gathered togeth er; the ladies looked charming—as our city belies always do—and what added greatly to the sight, cheerfulness could be seen in every countenance. The evening's enter-ainment commenced with a Grand March Quadrille by France, the voluptuous, dreamy Waitz of Germany, and the amorous, highly expressive and graceful Cachuca of sunny and romantic Scain, the latter accompanied with enlivening Castanets, were all gone through with, in a manner and with a finish that reflected the greatest credit upon the Teacher. The Highland Fling, the Cracovienne and the Wrenth Dance were very pretty; yet we think the Scotch Dance, composed for this occasion by Prof. Stouch, far exceeded the others, and proved that he is perfect mast of his profession, and that he is a composer as well as a

teacher of dancing. The dancers, who occupied the stage were equipped in full costume, and it was pleasing to observe the gallantry of the young gentlemen of twelve, and the arch coquetry of the Misses of eight and ten. The grand conclusion of the Fancy dances consisted of a Hornpipe by Prof. Stouch him self, which clearly demonstrates the fact that he not only professes, but actually performe. At the termination of the dances, a splendid gold watch was presented to Prof. Stouch by the parents of his Juvenile Class, which was certainly a very high compliment to him, and it also gave evidence of their appreciation of his talents in the tuition of their children. Prof. E. has the happy knack, by his correct method of teaching, of removing all stiff and angular motions of the body and members; a thing too often neglected or not properly understood by teachers, most of whom seem to kicking. Now the great art and beauty of dancing consists nost easy, natural (not clownish) and graceful motions of the body, hands and arms, the poise of the hear turn of the neck, and expression of the face. After the Ju-veniles were through, the Hall was devoted to the use of the adult portion of the audience, all of whom appeared to enjoy themselves. I understand that Prof. S, will commence all will avail themselves of this opportunity to acquire an accomplishment, which, besides being so essential to a social intercourse with the world, and so necessary a part of edu-

A Terrible Calamity. A frightful steamboat disaster occured on the Delaware on Saturday evening. The steam ferry boat New Jersey, Captain Corson, had left Walnut street wharf to make her regular trip to Camden, with about one hundred persons aboard, when she took fire from the engine room, and a terrible scene of death and ruin followed. The boat was burned to the water's edge. About forty persons are known to have been saved. Four bodies have been found, and the names of twenty-eight persons are mentioned as missing, and are thought to have been either burned or drowned. This calamity has caused an intense excitement in this community. The Coroner is

investigating the cause of the disaster .- N.

THE GREATEST DISCOVERY OF THE AGE. - 6.3 PROFESSOR WOOD'S HAIR RESTORATIVE .- This preparation, although less than two years before the pub-lic, owing to its wonderful effects upon the human hair and scalp, has already obtained a colobrity and sale perfectly unparallelled. It has without the ordinary appliance used unparallelled. It has without the ordinary appliance used for such purposes, won its way, and been heartily welcomed to most of the etites and towns in the United States the Canadas, and the West India Islands. Nor is this result surprising, when it is remembered that its popularity is based upon its merits, solely as established by actual tests. That this preparation will actually RESTORE GRAY HAIR TO ITS NATURAL COLOR, produce a luxuriant growth upon the heasts of the bald, prevent the hair from falling off, and when used as a toilet article, produce a continual flow or the natural fluids, and thus reader the hair soft, clossy and wavy, destroy diseases of the scalp, and expedits.

off, and when used as a toler article, produce a continual flow of the natural fluids, and thus reader the hair soft, glossy and wavy, destroy diseases of the scalp, and osped dandruft, the certificates of distinguished gentlemen and ladies, in every part of the country who have tried it, and therefore speak what they know, most fully attest.

Milford, Wordender Co., Mass., Nov. 13th. 1855.

Porf. O. J. Wood—Pear Shr.; I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As for back as 1856 my hair commenced falling off, until the top of my scalp became baid and smooth as glass, and it has continued to fail for a great many years, notwithstanding 1 have used many celebrated preparations for its resto-tation. Seeing your advertisement, I was induced to give your article a tial, and tomy utter astorishment, I found after a low applications that my hair became firmly set and assumed a very glossy and beautiful appearance; and, by the time I had used a quart-bottle full. my baid head was covered over with a young and vignous Yours truly, HENRY GOODRICH Senator in the Senate from the key-stone State, and with

Yours truly, Henny Goddrich.

Something Worth Knowing.—By using Professor Wood's Hair Restorative, gray Hair can be permanently restored to itsoriginal color. The subjoined certificate was received from Johnson & Stone, Gardener, Me., and is but one of the many instances that are daily coming to our knowledge of its wonderful effects. It is no longer problematic, but a self-evident trath, as hundreds can testify.

Gardiner, Me., June 22d, 1555

Mr. H. Dres—Dear Sir: I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the

attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind Yours, respectfully. DANIEL N. MURPHY.

DANTEL N. MURPH.

CARLYE, HI, June 27.

I have used Prof O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and I have no doubt, permanently so.

EX-Senator United States.

The Greatest Discovery of the Age.—It seldom occurs, that we notice, under any circumstances, patent medicines, restorativet, or anything of the kind, for we have a prejudice against m st of them. But candor compels us to invite attention to the advertisement of Prof. Wood's Hair. Rostorative. We are too juvenile to require anything of the kind, but some instances of its use bave come to our knowledge which almost assure us that it is a sovereign remety against the hair becoming prematurely gray. It is not a "Hair Dyes" but upon its application as directed, the effect is produced on the skin, which brings out the original native colored hair, without stiffness, and gives it a gluesyand natural appearance. We have seen persons who have used it, and they are much pleased with it.—Missauci Republican.

WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A Cure for Consumption, Coughs, Colds Asthma, Bron-hitts, General Debility and Scrofulous Humors. If NVE YOU TRIED IT—This important question should be asked every invalid who is suffering from pulmonary roubles in this fields climate. Have you tried WILBOR'S OMFOUND OF COD LIVER OIL AND LIME: It will troubles in this fickle climate. Have you tried W1LBOR'S COMPOUND OF COD LIVER OIL AND LIME: It will not nauseate like the plain Oil, but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow Dr. Wilbor's preparation is both simple, and surf in all ordinary cases, and has performed some surprising cures in decided consumption, where other medical aid has failed —— Dr. Wilbor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so stricted up lungs, that my physician frankly admitted his fear of consumption's following this trouble as the Spring weather set in. Medicine seemed to afford me little relief until I tried your preparation of Cod Liver Oil and Lime. The effect I am forced by facts to admit, was almost magical, and I have the pleasure of saying at this writing, (May 2d. 1852) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I codially recommend it to those who are thus afflicted:

MARTIN C. IIURD,

Chamber street, Boston.

N. B.—This compound does not nauseate like the clear Cod Liver Oil, but can be taken with pleasure by the most delicate females.

Be sure and get the genuine. Manufactured only by ALEX'R. B. WILBOR, Chemist For sale in Philadelphia, by T. W. Dyott & Sons, 132 Second street, and in Languager by Druggists generally, mar 11

WENTZ CHEAP STORE.

MART LANDS FOR SALE.—THE ILLINOIS CONTROL OF THE MALINOIS SHOWN TO MAKE SOME THE MALINOIS SHOWN TO MAKE SOME THE MALINOIS OF TARMING LANDS, in Tracts of #10 ACRES and upwards, on long credits and at low rate of interest. in Tracts of 40 ACRES and upwards, on long credity and at low rates of interest.

These lands were granted by the Government, to aid in the construction of this Railroad, and include some of the richest and must fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from thicago, on the 'North East, to Cairo at the South, and from thence to Galena and Dunielth, in the North West extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, randy and cheap means are afforded by it for transporting the products of the lands to any of twose points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increases in population by immigration, etc., afford a substantial and growing home demand for farm produce.

for farm produce.

The soil is a dark, rich mould, from one to five feet in depth, is gently rolling and peculiarly fitted for grazing cattle and sheep, or the cultivation of wheat, Indian cattie and Shorp.

corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of Illinois land. Trees are not required to be cut down, stumps grubbed, or stones picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sed, asually repays the cost of plowing and fanches.

off, as is generally the case in cultivating new land in the older States. The first crop of indian corn, planted on the newly broken sed, usually repays the cost of plowing and fencing.

Wheat sown on the new turned soil is sure to yield very stree profits. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$2.10.250 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second y ar.

Corn, grain (cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle, States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous coal is unined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road, and is a cheap and desirable fuel. It can be delivered of,—that for those located in the interior, there are no conveniences and for many miles island, have been disposed of,—that for those located in the interior, there are no conveniences for transportation theorems and the produce to market, Raitroads not having been introduced there. That to send the produce of market, in the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, fovernment fands thus situated, at \$1.25 per acre, are not so good investments as the land of this company at the prices f

company, and their consequent yield over those of the Eus-tern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by the Road, and others vith which it connects, the operations of which are not in errupted by the low water of summer, or the frost of win PRICE AND TERMS OF PAYMENT.—The price will vertices to 25 according to location, etc. Contracts for PRICE AND TERMS OF PAIMENT.—The price will vary from \$5 to 25, according to location, etc. Contracts for Deeds may be made during the year, 1866, stipulating the purchase money to be paid in five annual installments. The first to become due in two years from the date of contract, and the others annually thereaftor. The last pay ment will become due at the end of the sixth year from the date of the

and the others annually thereaftor. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only three per cent per annum. As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent, from the credit price will be deducted for cash.—The Company's construction bonds will be received as cash.

Ready framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 20 feet, divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the load, givined into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the load, givined into one living and three bed rooms. The Company will forward all the materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate of interest, charged for these lands, will enable a man with a few hundred dollars in each and ordinary industry, to riske kilmself independent betwe all the purchase money becomes due. In the mean time, the rapid settlement of the com-

try will probably have increased their value four or nve told. When required an experienced person will accompany applicants, to give information and and in selecting lands. Circumsr, containing numerous instances or enecosful farming, signed by respectable and well known farmers living in the neighborhood of the hatiroad lands, throughout the State—also the cost of fancing, price of cathe. expense of harvesting, threshing, etc., by contract—or any other information—will be cheerfully given, on application, ether porsonally or by letter, in English, French, or German, addressed to MULSON. porsonary or by letter; in English, French, or German, at dressed to and Commissioner of the Illinois Central R. R. Co. Office up to the first of May, No. 55 Medigan Avenue, at ter that date at the Passenger Depot, toot of South Ward street, Chicago, Illinois. mar 4 tun 7
