Br. Louis, March 17, 1856. The weather during the week has been variable, for the most part cold and disagrecable. On Saturday night a alight sprinkling of snow fell, but soon disappeared. The pring trade has not yet fairly opened, as the Illinois rive ning very weak and must soon give way. is lined with boats, and immense quantities of freight are piled up on every hand—it is all confusion and excitement mong the mercantile community. The trade of the Mis souri river has commenced, though the receipts from that quarter are light as yet. When navigation is fully resume heavy trade is anticipated, and our merchants are all

prepared for any and every emergency.

On Monday night last quite a respectable crowd congre gated in the Rotunda—pursuant to public notice—for a grand Ratification Meeting of the Knew-Nothing party to sceept and endorse the nominees of the Philadelphia Convention. About as many Democrats assembled as K. N's., merely to see and hear what course would be pursued. stars and stripes decorated the house, and every one was expected—according to announcement—to march to the music of the Union and Constitution. The meeting was organized by calling Gen. Ranney (an Anti-Benton Democrat) to the Chair—an anti-Beaton Democrat as on of the Vice Presidents, and in a word the Anti-Benton party of this city played a more conspicuous part in the ratifi-cation and endorsement of the K. N. nominees, than the most degraded of the K. N's. themselves. The Grand Master, or Grand Rascal of the order announced that they had changed the manner of persecuting the foreigners—they now admitted American Cutholics into the order, (we suppose to ecure their votes, but said nothing of supporting them eigners, and now threw open their lodge doors and invited of midnight church burners. The notorious Dr McDowell, the great Mogul of all the blackguards and rufflans-next tion, and said :- he did not send men there to discuss the nigger question, but to seek a change in the present naturalization law -- he did not send delegates there to construct a platform for him to stand upon, but to select a candidate for President: he was not satisfied with the set the United States. From Christmas until tion of his delegates, and in no measured terms denounced. Tuesday night there has been a mixture the platform then and there patched up but whilst he dis-sented from the action of that Convention, he nevertheless would support Mr Fillmore. Such is the freedom and the would support Mr Fillmore. Such is the freedom and the mouth of the fillmore and the sum of the surface of the surfa bility, Know-Nothingiam will never be heard of in this city after the election in April. They can't had men to run will support Mr. Prast, (the head and front of the Catholic Church,) If he will consent to run as the Whig candidate against the Democracy; but we think Mr. Pratt has too nuck good sense to allow his name to be used for any such purpose. They are in a had fix—like drowning men

On Saturday night the Democrate held ward meetings and appointed delegates to the City Convention, and selected ward officers. Much good feeling prevailed, and from present appearances, we will wrest the government of the city from the Know-Nothings by such a vote as will cause them to hide their faces for all time to come. Mr. John How has accepted the nomination of the democracy for Mayor. A better or a more popular man could not have been selected to carry the flag of the Democratic party of hands of Weber, Rossini, Bishop, &c., musical St. Louis. You will hear from us on the first Monday in The steamer Henry Lewis came in collision with the E

Howard, near Troy, Indiana, and sunk in twenty feet o water. Some twenty lives were lost. Mr. B. Sumner, Superintendent of the Governme archouse at Fort Leavenworth, fell from the upper story of the building through the hatchway to the groundsome forty feet, and though seriously injured is expected

and distracted, will harmonize upon State policy and National interests. So far as I am able to reflect the opinion of the Democracyof the State infregard to the Presidency, Mr. Buchanan stands first and foremost, and in all probability the delegates will be instructed to vote for him; and if not so instructed, such delegates will be selected favorable to his nomination. The feeling in behalf of Mr. BUCHANAS has become so great that all other candidates are forgotter stock is above par, as also in Wisconsi and other Western States. In Iowa, Mr. Buchanan is daily gaining ground, and his many warm friends are losing no opportunity to present his claims to the National Convention. The Dubuque Express and Herald, one of the leading papers of the State thus speaks of " Pennsylvania"

JAMES BUCKANAN The prospect of Mr. Buchanan's nomination for the Pres-dency, is becoming brighter every day. In his native idency, is becoming brighter every day. In his native State, the friends of Gen. Cass and Mr. Dallas, who had ency, came out heartily and unequivocally in his support at the recent Democratic State Convention held at Harristion, but what is much better to secure ultimate succe That Convention may be controlled by delegations from s will be the case, to some extent, with the New England States; but will it be just to the Democracy of the Union at large, to force upon it a candidate who, to be successful nust receive the support of the States which have oth er preferences. The whole of New England together, didate, wohever he may be; is it right, then, that the Delegation from these States should Insist upon the nomination of a candidate of their peculiar choice? Would it not be more becoming in them, as their States will be al-

the States whose electoral votes will probably be given for the Democratic nominee. Virginia is expressing her preference for Mr. Buchanan, even not excepting one of her own sens. At a late Dem cratic meeting held in Kanawa county, the following,

Benj. S. Thompson. Esq., moved to amend the Resolution,

The Resolution in its original shape was then adopted. This is not the first time Virginia has honored Mr. Bu-hanan with her confidence. The voice of that State, as well as of Pennsylvania, should have that influence in the Democratic National Convention, due to the fact of their eing States, without whose electoral votes no candidate of the Democratic party, for the Presidency, can hope to be

We trust that this important consideration will have its influence, not only in the Cincinnati Convention, but in the primary meetings of such States as Massachusetts, whose vote and voice in a Democratic National Convention, nght to have no more value than if such a State were not

There is a great deal of common sound sense in above article, and the delegates of the several States should consider some of the points well before they cast their votes

WASHINGTON CITY IN 1801. - One can scarcely credit the description of Washington City, as Mrs. Adams found it in 1801:

"Here and there (she writes) is a small cottage without a glass window, interspersed among the forests, through which you travel for miles without seeing a human being. The house is upon a grand and superb scale-requiring about thirty servants to attend and keep the apartments in order. I could content myself anywhere for three months : but though surrounded by forests, can you believe that wood cannot be had, because people can-not be found to cut and cart it? The house

It was one of the National Theatres, and one of the handsomest, largest and best built in London It was under the lesseeship of Mr. Frederick Gye, and bore the name of the Royal Italian Opera, from the fact of his having there the best Italian singers, and producing the che, d'œuvres of the best composers; in short, after Lumley's failure at her Majesty's Theatre, it was the only Italian Theatre in London. - During the interregnum between the seasons he under let it to Professor Anderson, the Great Wizard of the North, who is known in of entertainment, a sirt of olla podri da, composed of legerdemain, pantonime

On a sudden, crash came a roller down upon the stage, followed by a shower of sparks; then rose up the appalling cry of fire, accompanied by frantic cries from the terrified women and yells of fear from boosey masqueraders. Another minute and the whole of the Theatre was a vast sheet of flame; which went roaring and licking up everything in its devas-tating progress. But little was saved. DECLINE OF BEEF IN NEW YORK.-The New

of hand.

York Tribune of Thursday says: Our Cattle Market report shows some very curious results this week. For instance 3,300 more beeves were received in the city the last week than in the one previous; and 1,928 more in the yards at Forty-fourth street yesterday, than were offered at the same place the Wednesday before. The effect of this large influx may be easily conceived; prices were reduced full an average of two cents a pound, making a difference of \$20 a head upon some large bullocks, and a difference of \$10 a head upon, whole drayes; and even at this the standard points were transported that its popularity is based upon to mentally RESTORE URAY HAIR. > TERRIBLE SUFFERING ON A RAILROAD TRAIN. -A Buffalo letter gives an account of the terrible sufferings of a large number of passengers who week before last left Hernesville for that city in the cars The writer says: "The train could not get through on the Nev York city road, and the passengers took the Erie road to Dunkirk. They lay at Perrys-

burg from Monday noon till Friday night, where they could get no beds and very little to eat. There were 520 passengers and 400 emloyees, who took in the cars all the rest they ould get. During the time two children and one young man died—not entirely from starvation, but fatigue and bad air, and being sick when they started. One lady who was on board received a telegraphic despatch tha she had three children lying ill of the scarlet fever in Illinois. It was impossible to describe her agony at the constant detentions and long delays. The cars frequently ran off the track, and when replaced the wind would drift the snow upon the track and render it she had three children lying ill of the scarlet drift the snow upon the track and render it impossible to proceed. PEACH PROSPECTS .- Notwithstanding the very severe weather, the prospects of a good crop of peaches are reported as being quite equal to the most sanguine calculations. The New-Jersey New-Brunswicker says that the cold weather has not hurt the buds yet, except in those orchards situated in low, wet grounds. There the buds are somewhat injured, though not so badly as they are some years. We have never yet known fruit buds to be injured by cold weather. Late springs are

The invention is a combination of tin cooking dishes, placed one above another, the bottom of one vessel fitting on the top part of the dish below. In the lower dish of all, a small quantity of quick lime is placed, and then, by means of a tube, cold water is introduced upon the lime. Chemical action generates intense heat, whereby the articles on the dishes are quickly cook-

Think of that! Mr. Fillmore enjoying the Jesuits at Rome, and the Papal government making a lion of him. Would it not be well for General Gustavus Adolphus Scroggs, who, it is said, initiated Mr. Fillmore into Council 177, to interfere at once for his rescue from the Pope and the Jesuits of Rome? If they make a lion of the American nominee, how can the Americans be expected to "rule America," we should like to know?—N, Y. Herald.

A Chilicothe (O.) paper contains the particplars of two horrible murders perpetrated in that State a short time since. The first was

committed near Hampshire, Victoria Co;-A family named Rhodes, consisting of the father and two sons, living about one mile from Hamden, were known to have in their ossession a considerable sum of money. The father was absent on Wednesday night, and soon after the sons had retired to bed, three men, disguised as negroes, entered the house and commenced an attack upon them. A portion of the money was concealed in the bed in which the brothers were sleeping, and on being attacked one of them sprang out of the bed, with the handkerchief containing the money in his hand, and attempted to make his escape. He knocked down two of his as-sailants, and was himself knocked down and severely cut before he escaped from the house. He immediately ran towards Hamden and raised the alarm, and after procuring assistance, returned to the house and found his brother dead and his body in a sitting position in one corner of the house. considerable sum of money in bank bills in a bureau drawer, which the murderers did not find, and, consequently, they did not secure a cent of the booty which it seems to have been

their object to obtain. Another brutal murder was perpetrated near the village of South Perry, in Fairfield county, a few nights since. A man stopped at the house of an aged couple named Fox, and procured lodging for the night. After they had all retired and the old folks fallen asleep, e arose and strangled the old man and beat the old lady until he supposed her dead also. He then searched the house and succeeded in inding about fifty dollars in a chest. he carried away. In a till in the same chest was about \$500, which he did not find. He then left and went to Logan, where he was ar-rested next day, and is now in juil. The old lady is recovering.

ODD FEELOWS' JUBILEE. - The Old Fellows of Cincinnati propose having a celebration on a magnificent scale, in that city, on the 24th of April, in honor of the anniver-ary of the astitution of the Order in the United States. The Gazette' says:

"It promises to be one of the most imp tunt celebrations of the kind that has ever taken place in the Western country, perhaps not exceeded by the magnificent parade in Baltimore, and the ceremonics at the dedication of the beautifull Hall of the Order which graces the "Monumental City." We learn that invitations have been sent to Lodges in different sections of the Union, that representatives from each may participate in the festivities of that day, which is the birth-day of Odd Fellowship in this country."

Prof. O. J. Wood—Dear Sir: 1 take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1856 my hair commenced falling off, until the top of my scalp became bald and smooth has glass, and it has continued to full for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment. I found after a few applications that my hair beamenfirmly sot and assumed a very glossy and beautiful appearance; and, by the time I had used a quart bottle full, my hald head was covered over with a young and vigrrous growth of hair, which is now from one to two inches in length, and growing very fast.

Yours truly.

The Greatest Discovery of the Age.—It seldom occurs,

vite attention to the advertisement of Prof. Wood's Hair Restorative. We are too juvenile to require anything of the kind, but some instances of its use have come to our knowledge which almost assure us that it is a sovereign remedy against the hair becoming prematurely gray. It is not a "Hair Dyer" but upon its application as directed, the effect is produced on the skin, which brings out the original native colored hair, without stiffness, and gives it a glossyand natural appearance. We have seen persons who have used it, and they are much pleased with it.—Missouri Remidieur.

A Cure for Consumption, Coughs, Colds Asthma, Bouchitis, General Debility and Scrofulous Humors.

HAVE YOU TRIED IT.—This important question should be asked every invalid who is suffering from polimonary troubles in this fickle climate. Have you tried WILBOR'S COMPOUND OF COD LIVER OIL AND LIME? It will not neuseate like the plain Oil, but is on the contrary, pleasant to the taste, increave the Phosphate of Line is, in this combination, a most remarkable sid to the healing properties of the pure Cod Liver Oil, as the following certificates (elected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and has performed some furprising cures in decided consumption, where other medical aid has failed—
Dr. Wilbor:—During nearly the whole of the past winter, I had suffered scriously with a cough, which so criticated my lungs, that my physician frankly admitted his fear of consumption's following this trouble as the Spring weather set in. Medicine seemed to afford no little relief until I tried your preparation of Cod Liver Oil and Line. The effect I am forced by facts to admit, was almost magical, and I have the pleasure of saying at this writing, May 2d, 1552 I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recommend it to those who are thus afflicted:

Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home demand for farm produce.

corn, etc.

Economy in cultivating and great productiveness are the well known characteristics of illinois land. Trees are not required to be cut down, stumps grubbed, or stones picked of, as is generally the case in cultivating new land in the older States. The first crop of in-lian corn, planted on the newly broken sod, usually rejacs the cost of plowing and teneme.

Those who think of settling in lowa or Minnesota, should bear in mind, that lands there, of any value, along the water courses and for many mids; inland, have been disposed of,—that for those located in the interior, there are no conveniences for transporting the produce to market, Railroads not having been introduced there. That to send the produces of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, Government lands thus littated, at \$1.25 per acre, are not so good investments as the land of this company at the prices faced. Wheat sown on the new turned soil is sare to yield very

\$1,25 per acre, are not so good investments as the land of this company at the prices fixed. The same remarks hold good in relation to the lands in Kansas and Nobraska, for although vacant lands may be found nearer the water courses, the distance to market is far greater, and every hundred niles the produce of those lands are carried either in wagons, or interrupted water communications, increases the expenses of transportation, which must be borne by the settlers in, the reduced price of their products; and to that extent precisely are incincomes from their farms, and of course or their investments, amanually and every year reduced.

The great fortility of the hands now offered for sale by this company, and their consequent yield over those of the Eastern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by the load, and others with which it connects, the operations of which are not in-
