The Greatest Medical Discovery of the STARTLING, BUT TRUE

WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from ear to year in that pitiable condition as not even or one day to feel the happy and exhilarating influ-nce insident to the enjoyment of health.

THE BLOOMING BRIDE. THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently in-explicably, becomes a feeble, sickly, sallow, dobili-tated wile, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an uter physical and mental pro-tration, arising from ignorance of the simplest and plainest rules of health as connected with the mar-riage state, the violation of which entails disease, suffering and misery, not only to the wife, but often manancing and only to the wife, but often HERBOITARY COMPLAINTS UPON THE CHILDREN

" UNTO THE THIRD AND FOURTH GENERATION," Fransmitting CONSUMPTION, SCROFULA, HYPOCHONDRIA, INSANITY, GOUT, KING'S EVIL, and other and worse Diseases, as a

DREADFUL INHERITANCE FROM THE PARENTS.

"And must this continue? Must this be? Is there no temedy? No relief? No hope?" The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them. These are pointed out in

the anthor having devoted his exclusive attention to the trastment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, auses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of nstruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for-

bids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described.

How many are suffering from obstructions or irregular ities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice Many suffering from prolapsus uteri (falling of the womb), or from fluor allous (weakness, debility, &c.) Many are in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliverios

and slow and uncertain recoveries. Some whose lives are hararded during such time, will each find in its pages th means of prevention, amelloration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly in-

tended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or nother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in arning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the

mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised ostrums which otherwise would provide for declining years, the infimities of age and the proper education of our children.

In consequence of the universal popularity of the work, a evidenced by its extraordinary sale, various imposias evidenced by its extraordinary sale, various imposi-tions have been attempted, as well on booksellers as on the public, by imitations of tills page, spurious editiona, and surreptitions infringements of copyright, and other devices and deceptions, it has been found necessary. therefore, to

Age. . KENNEDY, of Roxhury has discovered, in one of on common pasture weeds, a remedy that curso EVERY KIND OF HUMOR, EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple. He has tried it is over 100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two humdred cartificates of its virtue, all within twenty miles of Boston. Two bothes are warranted to cure a nursing sore month. One to three bothles will cure the worst kind of Pimples on the face. Two to three bottles will clear the system of Biles. Two to three bottles are warranted to cure the worst canker I

Three to four bottles are warranted to cure the same rhemm. Five to eight hottles will cure the worst case of scrolula. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken. Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case.— So sure as water will oxtinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold an-other; after a trial it always speak for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humor.

discovered it in 1846—second that it should cure all kinds of humor. In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in Some of the wholessic Druggiris who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters. In my own practice I always kept it strictly for humors —but since its introduction as a general family medicine great and wouderful virtues have been found in it that I never stippeeted.

never suspected. Bover a cases of epileptic fits—a disease which was al-ways considered incurable, have been cured by a few bot-tlos. O, what a mercy if it prove effectual in all cases of that awhul mahady—there are but few who have seen mor

that awful malady-there are but low who have seen and of it than 1 have. I know of several cases of Dropsy, all of them aged peo-ple cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known. Constitutional Debility, brought on by selfabuse, a most terrible disease, in the blood. It harf's, there is a valuable saw mill upon the prop-ery, and one hundred and fifty lots in the thriving town of St. Marf's, which its subscribers get. This originally formed part of a large tract, a great por-tion of which was settled by industrions and educated Germans, numbering some twenty-five hundred. They see lected the land on account of its agricultural and mineral wealt, which alone is an indisputable evidence of the facts, as they are well known to be superior judges upon these subjects. They woul there some twelve years ago, and they now have a thriving and beautitui settlement, which is laid off in regular rotations of fine farms. St. Mary's is the town of the settlement, and is rapidly in-creasing in population. It has hotels as good as any in the state—fine stores—a college, where the highest branch-es of education are taught, both literary and musical—saw mills, grist mills, coach manufactories, and every thing conceivable to add wealth and properity to the placo— The land of the company surrounds this town, and all the improvements, thereby reaping the benefit, and presen-ing a splendid opportunity for settlement. Litmestone abounds. This is obtan evidence of the quality of the soil and a great fertilizer. At St. Mary's it sells at from ten to twelve cents a bashch, burnt. It is the only place having the great concentration of railroads, by which New York, the Lakes, Philadelphia and Pittsburg are at its doors. There is no coal in New York, and on account of its northernaly situa-tion, it possesses the advantages of nearness. This is des-tined to become the Pottwille of that portion of the State. The prospect in the future for this place exceeds any that Pottwille ever had; and there, land which a few yearsago was selling at five and ten collars an acre, when the rail-road opened its mines sold for from two to five hundred dollars an acre. These are facts. Those who are ignorant, let them make inquiry. Improvement is still progressing. So arrive at the truth. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer.

let them make inquiry. Improvement is still progressing. So arrive at the truth. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer. The Sunbury and Erie Railroad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany Valley Railroad, of which Goy. Johnson is President, connecting this land with Pittsburg, are in rapid course of completion, and up-on a great extent the locomotives are running. The reflec-tions which suggest themselves upon this subject are these—it takes two hundred weeks to pay for the farms. They will be distributed when they are half paid for. By that time the railroads will be finished. That will be early enough for all practical purposes. The advantage of buying it before their completion is evident. When that is done property will go up one bundred per cest.— Speculation in coal would at once run it up to such a price as would make it impossible to obtain for agricultur-al purposes. We now got it without paying the then im-proved price, and the stockholders will explue rise. A tract of about two thousand acres will be laid of at once, and eady by next Spring. In order that persons whe wish to farm immediately can do so. Friends and relatives, as well as those having more than one share can have their farms bygether. An Improvement department will also be counceted with the company. By this means, in order to accommo-date those who are unable to give their personal attention to facing or preparation, or desire to rent their properties out instead of residing three, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stock-holders can have manure furnished, houses built and other work done upon credit, they securing the payment to the company within a reasenable time, so that a man in the first place receives a farm at the lowset possible price, and then is afforded every assistance in

These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for himself, his wife and children, either at the present or time to come. Many business men, Mechanics, and work-ingmen upon farms, who sayo several dollars a month, can, by thus uniting together, become freeholders, whilst they scarcelyptimiss the outlay, and a tiess expense than the annual cost of tobacco or the most trifling luxnires.
