STARTLING, BUT. TRUE

WHAT EVERY WOMAN SHOULD KNOW. How often it happens, that the wife lingers from ear to year in that pitiable condition as not even or one day to feel the happy and exhilarating influ-nce incident to the enjoyment of health.

THE BLOOMING BRIDE. But a few years ago in the flush of health and youth and buoyancy of spirits, rapidly, and apparently in explicably, becomes a feeble, sickly, sallow, debiliexplicably, becomes a feeble, sickly, sallow, debut-tated wife, with frame emaciated, nerves unstrung, prits depressed, countenance bearing the impressions, and an utter physical and mental protration, arising from ignorance of the simplest and plainest rules of health as connected with the mar-tage state, the violation of which entails disease, suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND FOURTH GENERATION,"

Presenting CONSUMPTION, SCROPULA, HYPOCHONDRIA, INSANITY, GOUT, DREADFUL INHERITANCE FROM THE PARENTS. And must this continue? Must this be? Is there no temesty? No relief? No hope?"

The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them. These are pointed out in

The wife about becoming a mother has often need of astruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all How many are suffering from obstructions or irregular-

Many are in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

Cha Al A Cure for Consumption, Coughs, Colds Asthma, Bronchitis, General hebility and Scrofulous Humors.

HAVE YOU TRILD IT.—This important question should be assed every invalid who is suffering from pulmonary troubles in this fickle climate. Have you tried WILBOR'S COMPOUND OF COD LIVER OIL AND LIME? It will not nauscate like the plain Oil, but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgment) will amply show. No person should neglect for a sincle hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and has performed some surprising cures in decided consumption, where other medical aid has failed:—

Dr. Wilbor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so irritated my lungs, that my physician frankly admitted his fear of consumption? Edinwing this trouble as the Spring weather set in. Medicine seemed to afford me little relief until I tried your preparation of Cod Liver Oil and Lime. The effect I am forced by facts to admit, was almost magical and I have the pleasure of saying at this writing, (May 2d, 1852) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recommend it to those a who are thus affilieted:

So sure as water will extinguish fire, so sure will this

two things about this herb that appear to me surprising:
first that it grows in our pastures, in some places quitplentiful, and yet its value has never been known until
discovered it in 1846—second that it should cure all kinds

In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April 1853, I peddied it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day—in April, 1854, I sold over one thousand bottles per day—in Some of the wholessie Druggirts who have been in the business twenty and thirty years, say that nothing in the annias of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine great and wouderful virtues have been found in it that inever suspected. never suspected. The Greatest Medical Discovery of the DIDGWAY FARM AND AGRICULTU-

DIDGWAY FARM AND AGRICULTULEAL COMPANY.—A Farm within the reach of every,
inn. Pennsylvania Land. Twenty-even thousand
acres of good land have deen purchased, with the intention of giving a Farm of twenty-five Acres for each share,
payable by instalments of one dollar, a week.
It is located in the county of Elik, where a junction will
soon be formed by four railroads, immediately connecting
it, with its great agricultural and coal recourses, with Erie,
Dunkirk, Buffalo, Rochester and all the cities on the Lakes.
Also a road leading directly to N. York, one directly from
this property to Philadelphia and intermediate places, one
directly from this property to Pittaburg, and one directly
from this property connecting with the Western roads,
forming the grandest concentration of railroads upon any
one spot in Pennsylvania, tending at once to develop its
immense agricultural and coal resources. The soil is not
surpassed in richness by any in the State. It is divided—

dod—

I.—Into farms or shares of twenty=five Acrer, at the price of two-hundred dollars, which is payable in instalments of one dollar per week.

II.—Into farms - half shares of twelve and a half acres, at the price of \$2100 payable, in instalments of two dollars a month or by the week. at the price of \$100 psyable, in instalments of two dollars a month or by the week.

Beaides this, there is a valuable saw mill upon the property, and one hundred and fifty lots in the thriving town of \$1. Mary's, which the subscribers get.

This originally formed part of a large tract, a great portion of which was settled by industrious and educated diermans, numbering some twenty-five hundred. They selected the land on account of its agricultural and mineral wealth, which alone is an indisputable evidence of the acts, as they are well known to be superior judges upon these subjects. They went there some twelve years ago, and they now have a thriving and beautiful settlement, which is laid off in regular rotations of fine farms. St. lary's is the town of the settlement, and is rapidly increasing in population. It has hotels as good as any in he state—fine stores—a college, where the highest branches of education are taught, both literary and musical—saw mills, grist mills, coach manufactories, and svery thing conceivable to add wealth and prosperity to the place—The land of the company surrounds this town, and all the improvements, thereby resping the benefits, and presenting a splendid opportunity for settlement. Limestone thounds. This is both an evidence of the quality of the coil and a great fertilizer. At St. Mary's it sells at from the twelver cents a bushel, burnt.

The timber is of great value, and consists of Cherry, Ash, Ofescut, Pine, Oak and Hemiock, all of primeval growth, of great size, and towering from eighty to a hundred and twenty feet here.

The numer isol great value, and consists of therety, ast, Chesnut, Pine, Oak and Hemlock, all of primeval growth, if great size, and towering from eighty to a hundred and twenty feet high. That which the stockholders do not want will be sold to the timber merchants, with conditions to cut it in a certain time. This will clear the land, and oring a large revenue into the treasury, which will go to he reduction of the price of the farms.

This arplains its agricultural resources. But there is nother consideration of equal, if not greater, importance the land is one great bed of coal. Upon this property it is iterally inexhaustible. By taking a glance at the latest ansp. first at this locality, and then over the State, it will be bound to possess the grandest feature of prosperity, improvement, and almost immediate development. It is suerior to any other. It is the only place having the great oncentration of railroads, by which New York, the Lakes, 'hiladelphia and Pittsburg are at its doors. There is no onl in New York, and on account of its northernly situal to, it possesses the advantages of nearness. This is desoal in New York, and on account of its northerally situal ion, it possesses the advantages of nearness. This is desired to become the Pottsville of that portion of the State. The prospect in the rature for this place exceeds any that ottsville ever had; and there, land which a few years ago as seiling at five and ten dollars an acre, when the raile oad opened its mines sold for from two to five hundred tollars an acre. These are facts. Those who are ignorant, et them make inquiry. Improvement is still progressing. So arrives the truth. Judge the future by the past, and hen what will this land be? It is proper that reason should give the answer.

be arrive at the truth. Just the truth of the point of the what will this land be? It is proper that reason thould give the answer. The Sanburry and Eric Rallroad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany Valley Railroad, of which Gov. Johnson is President, connecting this land with Pittsburg, are in rapid course of completion, and upon a great extent the locomotives are running. The reflections which suggest themselves upon this subject are these—It takes two hundred weeks to pay for the farms. They will be distributed whom they are half paid for. By that time the railroads will be finished. That will be early enough for all practical purposes. The advantage of buying it before their completion is evident. When that is done property will go up one hundred per cent—speculation in coal would, at once run it up to such a price as would make it impossible to obtain for agricultural purposes. We now got it without paying the them improved price, and the stockholders will eploy the rise.

A tract of about two thousand acres will be laid off at once, and ready by next Spring, in order that persons who wish to farm immediately can do so.

Friends and relatives, as well as those having more than

which to farm immediately can do so.

Friends and relatives, as well as those having more than one share can have their farms together.

An Improvement department will also be connected with the company. By this means, in order to accommodate those who are unable to give their personal attention to fencing or preparation, or desire to rent their properties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stock holders can have manure furnished, houses built and other work done upon credit, they securing the payment of the company within a reasenable time, so that a main to the company within a reasenable time, so that a main to the first place receives a farm at the lowest possible price, and then is afforded every assistance in placing it under the first place receives a farm at the lowest possible price, and then is afforded every assistance in placing it under the first place receives a farm at the lowest possible price, and then is afforded every assistance in placing it under the first place receives a farm at the lowest possible price.

Are exceeding, in beauty and durability, anything ever be fore made. These pictures are not reversed, (as daguerrectypes areand may be seen in anylight. They also possess the rare property of being infrashealist, being hermetically sealed between glass plates, which is secured by Letter Patent, in the United States, Great Britain and Francand practised in Lancaster city by T. & W. CUMMINGS mily, over Sprecher & Bro.'s New Store, North Queen st. Lancaster.

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrotos, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of glass, with the Slack variels in immediate contact with the Picture—buch are not permanent, as the varnish must crack and destroy the Picture.

AMBROTYPE STERSCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.

These embrace the principal features, and an excellent portunity is now offeren for a man to obtain a home for timest, his wife and children, either at the present or time to come. Many business men, Mechanics, and workingmen upon farms, who save several dollars a month, can, by thus uniting together, become freeholders, whilst they scarcely,miss the outlay, and at less expense than the unual cost of tobacco or the most trifling luxurics. A saving and purchase of this kind eat nothing, and constantly increase in value.
