STARTLING-BUT=TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from year to year in that pithable condition as not even for one day to feel the happy and exhilarating infin-ence incident to the enjoyment of health.

THE BLOOMING BRIDE. But a few years ago in the finsh of health and youth, and hnoyancy of spirits, rapidly, and spparently in-explicably, becomes a feeble, sickly, sallow, debili-tated wife, with frame emaciated, nerves unstrang, tated wile, with frame emknated, here's ultisting, spirits depressed, counternance bearing the impress of sufforing, and an utter physical and mental pro-tration, string from ignorance of the simplest and plainest rules of health as connected with the mar-ingo state, the violation of which entails disease, suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " TINTO THE THIED AND FOURTH GENERATION."

Transmitting CONSULPTION, SCROPULA, HYPOCHONDRIA, INSANITY, GOUT, RING'S EVIL, and other and worse Diseases, as a

DREADFUL INHERITANCE FROM THE PARENTS.

"And must this continue? Must this be? Is there no semedy? No relief? No hope?" The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them. These are pointed out in

[or yres Fares, ETER ENTERS (5100), 51.00.] A standard work of established reputation found classed the catalogues of the great trade sales in New York, Lidsdpink, and other cities, and sold by the principal okzelizer in the United States. It was first published 1847, since which time FIVE HUNDBED THOUSAND COPIES

have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL, attesting the high estimation in which it is held as a re liable popular Medical

BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by latter.

Here every woman can discover. by comparing her own symptoms with those described, the nature, character, anses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or slarm as all

the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus ulers (falling of the womb),

or from fluor allous (weakness, debility, &o.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous doliveries, and slow and uncertain recoveries. Some whose lives are

hazarded during such time, will each find in its pages the means of provention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wile or a mother ! Have you the sincere welfare of these yeu love at heart? Prove your sincerity, and lose no thme in learning what causes interfere with their health and hap piness not less than your own. It will avaid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of

our children In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various imposi-tions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptilicous infringements of copyright, and other devices and deceptions, it has been found necessary, hereform.

If you have contracted the terrible disease, which when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, d. not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falschoods too well calculated to deceive the young and those not ac-quainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The selection of a remedy in these cases. THE FLUID EXTRACT BUCHU has been pronounced by eminent Physiclans the greatest remedy ever known.— It is a medicine perfectly pleasant in its taste and very hn-nocent in its action, and yet so thorough that it annihi-lates every particle of the rank and poisonous virus of this direadful disease; and, milke other remedies, it does not dry up the disease in the blood. Constitutional Deblifty, brought on by selfabuse, a most terrible disease, which has braught thousands of the hu-man race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this in-fallible remedy. And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to befound, acting both asa Cure and Percentive. let them make inquiry. Judge the future by the past, and for nrives the truth. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer. The Sunbury and Erie Ballscad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghary Valley Railroad, of which Gov. Johnson is President, connecting this land with Pittsburg, are-in rapid course of completion, and up-on a great extent the locomotives are ranning. Thereflee-tions which suggest themselves upon this subject are these-lit takes two hundred weeks to pay for the farms. They will be distributed when they are half pail for. By that time the railroads will be finished. That will be early enough for all practical purposes. The advantage of buying it before their completion is evident. When that is done property will go up one hundred per cent.-Speculation in coal would at once run it up to such a price as would make it impossible to obtain for agricultur-al purposes. We now get it without paying the then im-proved price, and the stockholdres will be join the grean. A tract of about two thousand access will be laid off at one, and ready by next Spring, in order that persons who wish to farm immediately can do so. Friends and relatives, as well as those having more than one share can have their farms together. An Improvement department will also be connected with the company. By this means, in order to accommo-date those who are unable to give their personal attention to faceling or preparation, or desire to rent their properties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stoci-holders can have manure furnished, houses built and other work done upon credit, they securing the payment to the company within a reasenable time, so that a man in the first place receivers a farm at the lowast possible price, and then is afforded every assi

These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for himself, his wife and children, either at the present or time to come. Many business men, Mechanics, and work-ingmen upon farms, who save several dollars a month, ean, by thus uniting together, become freeholders, whilst they scarcely miss the outlay, and at less axponse than the annual cost of tobacco or the most trifling luxuries.
