## STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW

How often it happens, that the wife lingers from rear to year in that pitiable condition as not even or one day to feel the happy and exhilarsting infu-nce incident to the enjoyment of health.

THE BLOOMING BRIDE. THE BLOOMING BRIDE, But a few years ago in the flush of health and yonth, and bnoyancy of spirits, rapidly, and apparently in-explicably, becomes a feeble, sinkly, sallow, dobli-tated wife, with frame emaciated, nerves nustrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and menial pro-tration, arising from ignorance of the simplest and plainest rules of health as connected with the mar-riage state, the violation of which email disease, suffering and misery, not only to the wife, but often HERDRUG-BU QUORD AUMENT DAVE HERDRUG PROV. "And must this continue; Must this be? Is there no ramedy? No relief? No hope?" The remedy is by knowing the causes and avoiding them, and howing the remedies, and benefiting by them. These are pointed out in

THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION,

BY DR. A. M. MAURICRAU, PROFESSION OF DEPLICE OF WORKES

One Hundredth Edition, (500,000), 18mo., pp. 250. [ON MINE PAPER, MINEA HINDING, \$1.00.] and work of established reputation, found classed stalognes of the great trade sales in New York, bis, and other cities, and sold by the principal rs in the United States. It was first published tince which time

FIVE HUNDRED THOUSAND COPIES have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL, attesting the high estimation in which it is held as a re-liable popular Medical

BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own ymptoms with those described, the nature character, causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of nstruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or slarm as all the peculiarities incident to her situation are described.

How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confine nent. Many have difficult if not dangerous deliveries, and alow and uncertain recoveries. Some whose lives an

hamrded during such time, will each find in its pages the neans of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Readar, are you a husband or a father? a wife or mother? Have you the sincere welfare of those yeu love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and hanpiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining

years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the work, as ordeneed by its extraordinary sale, various imposi-tions have been attempted, as well on booksellers as on the public, by imitations of tile page, spurious editions, and europhilicons infragments of copyright, and other derices and deceptions, it has been found necessary. CAUTION THE PUBLIC

I never sold a bottle of it, but that sold an-other; after a trial it always speak for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite pleniful, and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds

Wer with England i--Ess Porcelain Works HENBY GAST has fitted up and enlarged his forme-works and commenced the manufacture of all kinds of Earthen Ware, Rockingham or Dark Ldstre, Yallow, Cream Colored and White Ware, Toilet Sets, Table and Tea Ser-

This originally formed part of a large iract, a great por-tion of which was settled by industious and educated Germans, numbering some 'venty'dre hundred. They se-lected the land on account of its gricultural and mineral wealth, which alone is an indiputable evidence of the facts, as they are wall known to be superior judges upon these subjects. They went there some tweive years ago, and they now have a thriving and beautiful settlement, which is laid off in regular rotations of fine farms. Bt. Misry's is the town of the settlement, and is rapidly in-creasing in population. It has hotels as good as any in the state-fine stores-a college, where the highest branch-es of education are taught, both julierary and musical-asaw mills grist mills coach manufactories, and every thing conceivable to add wealth and prosperity to the place.-The land of the company surrounds this town, and all the improvements, thereby reaping the benefits, and present-ing a splendid opportunity for settlement. Limestone abounds. This is both an evidence of the quality of the soil and a great fartilizer. At 8t. Mary's it sells at from the twive cents a bushch, burnt. The timber is of great value, and consists of Cherry, Ash, of great size, and towering from eighty to a hundred and twenty free thigh. That which the stockholders do not want will be sold to the timber merchants, with conditions to not the a crisic and Jona the sources. But there is another consideration of equal, if not greater, importance. The land is one great bed of coal. Upon this property it is literally inarkhaustible. By taking aglance at the latest map, first at this locality, and then over the State, it will be found to possess the grandest feature of prosperity, its literally inarkhaustible. By taking aglance at the latest concentration of raility, and then over the State, it will be found to postess the grandest feature of prosperity, its interally inarkhaustible. be found to possess the grandest feature of prosperity, int provement, and almost immediate development. It is su-perior to any other. It is the only place having the great concentration of railroads, by which New York, the Lakes, Philadelphia and Pittsburg are at its doors. There is no coal in New York, and on account of its northernly situa-tion, it possesses the advantages of nearness. This is des-tined to become the Pottsville of that portion of the State. The prospect in the future for this place exceeds any that Pottsville ever had; and there, land which a few years ago was selling at five and ten dollars an acre, when the rail-road opened its mines sold for from two to five hundred dollars an acre. These are facts. Those who are ignorant, let them make inquiry. Improvement is still progressing. So arrive at the truth. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer. The Sunbury and Erie Railroad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadeibhia, and the Allephany Yalley Rairoad, of

The Sunhury and Erie Hailroad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany Valley Railroad, of which Gov. early enough for all practical purposes. The advantage of buying it before their completion is evident. When 1 that is done property will go up one hundred per cent. — Speculation in coal would at once run it up to such a price as would make it impossible to obtain for agricultur-al purposes. We now get it without paying the then im-proved price, and the stockholders will enjoy the rise. A tract of about two thousand acres will be laid off at once, and ready by next Spring, in order that persons who wish to farm immediately can do so. Priends and relatives, as well as those having more than one share can have their farms together. An Improvement department will also be connected with the company. By this means, in order to accommo-date those who are unable to give their personal attention to fencing or peparation, or desire to rent their properties ont instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stock holders can have meanure furnished, houses built and other work done upon credit, they securing the payment to the company within a reasonable time, so that a man in the first place receives a farm at the lowest possible price, and then is efforded avery assistionce in nakeing it under to the company within a reasonable time, so that a man he first place receives a farm at the lowest possible pric and then is afforded every assistance in placing it und
