Sr. Louis, June 2, 1856. The weather during the past week has been cool and pleasant. Business is extremely dull. The rivers are fal ling, but still in good stage for the largest class boats. The realth of the city continues unusually good for the advanced season. A very heavy thunder storm passed over our day night last—the lightning struck a house on Franklin avenue, but no one was injured.

A large sale of lots came off last week. The half square n the rear of the Planter's House, was divided into lots and sold for \$500 and \$505 per foot... The following gentle 000; Capt. Blood, one lot, \$10,000; William Wade, three ots, \$57,000; David Rankin, two lots, \$25,492 50; D. H. Armstrong, two lots, \$25,985; William Tyler, one lot, \$6, 672; J. W. It makes our heart swell with joy to see and hear neonle who have never exchanged a word, or even seen the llustrious statesman, prefering him to all others-they isfied of his statesmanship, patriotism and conservative views, and willing that he should hold the reins and guide the destinies of this glorious Union for the next four years. the Commander in Chief of the Democracy is these tron-ured upwards of fourteen inches in length, blesome and exciting times. But should they unfortus nately, commit the great error of rejecting him, it will be ence! of the country, and will throw open a wide breach, and in all probability endanger the cause we have been andeavof reckless and designing politicians. But we have as we

if Mr. Buchanan is the candidate of the Democracy, Mr. Fillmore will at once decline. The K. N's, here seem to think Geo. Law, or Mr. Fuller, of Penna, will be nominated by the Northern K. The Black Republicans of Illinois met in State Convention and nominated a full State Ticket. Col. Bissell, a very talented and nobular man is their candidate for Govern Col. Archer, the Know-Nothing condidate for Governor of that State, seeing there was no chance for him, very sensibly declined bearing the banner of the Dark Lantern Orler: they are therefore without a head-what they will do is yet to be seen. Richardson and Bi-sell are both popular and good men, and the race in all probability will be a close one between the two; but we still think Richardson can beat all opposition combined. The contest in Illinois is based upon the Nebruska issue.

Gov. Reeder has at length "turned up." He was in Law-

Nothing of any moment has transpired this week here. only that Mr. Campbell, for the majority, and Mr. Cabb, for the minority, have presented their reports, relative to The Minister promptly interposed, and defended their reports, relative to the late drubbing Mr. Summer received from Mr. Brooks.

Mr. Cobb's report is able and dignified, while the rehash of dark-repubicanism and in justification of the "licentiousness" of the debate in which Mr. Sumner chose to spread before the senate and the country. The reports will be acted upon during the ensuing week, and then we shall see where and how far the expulsion question will be sustained by the members of the House. We confess we feel some anxlety on seeing the vote of the members of the House sprea pefore the nation. We want to see the durk-republicans show their hands on this important question.

In connexion with this difficulty between Messrs, Sumner and Brooks, and the latter with Senator Wilson, that

One of the candidates of such a controversy s offered in the letter from Dr. Robert Hunter to, the mee ical faculty of New York, printed in another part of this Dr. Hunter is a thoroughly educated physician, who has had a larger practise in the treatment of pulmo-nary consumption, and who has determined from experi-ence and observation that imbalation is the servation that inhalation is the only means by which the disease can be reached and cured. other physicians who argue that the lungs can be most ef

Now the public everywhere are deeply interested in this uestion, and in no other place more so than in this city of lew York, where fifty or sixty persons perish weekly from consumption. The truth cannot suffer from discussion of stion. Dr. Hunter's arguments cannot be disposed of by the mere ipse dixit of any man, however eminent in his profession, but if they can be refuted at all, must be refuted by reasons based upon facts. We are not prone to look favorably on alleged improvements and discoveries in medicine, but Dr. Hunter's treatment seems so reasonable ntific, and we have seen such advantage derived and scientific, and we have seen such advantage derived from it in the case of a young man who was formerly em-ployed in this office, that it is impossible to discredit it without hearing the most convincing reasons from its op-ponents. It is to be hoped that the doctor's invitation to the faculty will bring out an adversary worthy of his

Woman with a Live Snake in her Stomach two years—Its presence disclosed by a Spirit-The Boston Times of a recent date publishes

since, and, we are happy to add, that Mrs. P. is fast regaining politicians. But we have, as we before said, too much confidence in the wisdom and fore sight of the delegates to think of their committing such an error in the face of public sentiment. Buchanan should, and no doubt will be, the successful man. We all look for it.

The telegraph to-day and during the session will be closely and anxiously watched. Everybody is full of speculations and surmises. A large number of our citizens, as well as many from different parts of the States have gone to Cincinnata. If Buchanan is not nominated, we shall, in common with tens of thousands in the Western States be greatly mistaken in the wisdom of the delegates.

Politics here and throughout the state are at a stand still; all parties are an avaiously awaiting the result of the Convention. Various are the opinions as to who will be nominated, and various are the speculations of preminent politicians as to the chances of this, that, and the other candidate whose name is before the body now in session in the face of public sentiment.
