WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from year to year in that pitable condition as not even for one day to feel the happy and exhilarating influ-snce incident to the enjoyment of health

THE BLOOMING BRIDE. But a few years ago in the flush of health and youth, and buoyancy of spirits, rayidly, and apparently in-explicably, becomes a feeble, sickly, sallow, debili-tated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance, bearing the impress of suffering, and an utter physical and mental pro-tration, ariging from imponence of the simplest and tration, arising from ignorance of the simplest and plainest rules of health as connected with the usa-riage state, the violation of which entails disease, suffering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN ' UNIO THE THIRD AND FOURTH GENERATION,' ransmitting CONSUMPTION, SCROFULA, HYPOCHONDRIA, INSANITY, GOUT, EING'S EVIL, and other and worke Diseases, as a

"And must this continue? Must this be? Is there no semedy? No relief? No hope?" The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them These are pointed out in

the author having devoted his exclusive attantion to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by latter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character.

causes of, and the proper remedies for, her complaints The wife about becoming a mother has often need of

instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for bids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the necellarities incident to her situation are described.

How many are suffering from obstructions or irregular illes peculiar to the female system, which undermine the

health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice

Many suffering from prolapsus uters (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are

in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries and slow and uncertain recoveries. Some whose lives are

hararded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intonded for the married or those contemplating marriage.

Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? i'rove your sincerity, and lose no time in learning what causes interfere with their health and hap

piness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of

your children. In consequence of the universal popularity of the work

as oridonced by its extraordinary sale, varione imposi-tions have been attempted, as well on booksellers as on the public, by imitations of tile page, epurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary. CAUTION THE PUBLIC

a perfect cure is warranted when the above quantify is taken. Reader, I peddied over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case, So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it, but that sold an-other; after a trial it always speak for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite pleniful, and yet its value has never been known until I discovered it in 1846-second that it should cure all kinds of humor.

In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April, 1853, I peddled it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it Some of the wholessle Druggirts who have been in the business twenty and thirty years, say that nothing in the annais of patent medicines was effer like it. hacts, as they are well known to be superior judges upon these subjects. They went there some twelve years ago, and they now have a thriving and beautiful settlement, which is lial off in regular rotations of fine farms. St. Mary's is the town of the settlement, and is rapidly in-creasing in population. It has hotels as good as any in the state—fine stores—a college, where the highest branch-es of education are taught, both liverary and musical—eaw mills, grist nills, coach manufactories, and every thing conceivable to add wealth and prosperity to the place.— The land of the company surrounds this town, and all the improvements, thereby resping the benefits, and present-ing a splendid opportunity for sufficient. Linestone abounds. This is both an evidence of the quality of the soil and a great fertilize. At St. Mary's it sells at from ten to twelve cents a bushel, burnt. The timber is of great value, and consists of Cherry, Ash, Chesnut, Pine, Oak and Hendrek, all of primeral growth-of great size, and towering from eighty to a hundred and twenty feet higb. That which the stockhoiders do not want will be soid to the timber merchants, with conditions to cut it in a certain time. This will clear the land, and bring a large revenue into the treasury, which will wo to the reduction of the price of the farms. This explains its agricultural resources. But there is another consideration of equal, if not greater. Importance.

This explains its agricultural resources. But there is another consideration of equal, if not greater, importance, The land is one great bed of coal. Upon this property it is literally inexhaustible. By taking a glance at the latest map, first at this locality, and then over the State it will be found to possess the grandest feature of prosperity, im provement, and almost immediate development. It is su-perior to any other. It is the only place having the great concentration of railroads, by which New York, the Lakes, Philadelphia and Pittsburg are at its doors. There is no coal in New York, and on account of its northernly situa tion, it possesses the advantages of nearness. This is de-tion to become the Pottsville of that portion of the State. The prospect in the future for this place easing any and yours selling at five and ten dollars an are, when the rail-road, opened its mines sold for from two to free hundred

was selling at live and ten dollars an acre, when the rail-road opened its mines sold for from two to five hundred dollars an acre. These are facts. Those who are ignorant, let them make inquiry. So arrive at the truth. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer. The Sunbury and Erie Rallroad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany Valley Railroad, of which Gov. Johnson is President, connecting this land * with Pittsburg, are in rapid course of completion, and up-on a great extent the locomotives are running. The reflec-tions which suggest themselves upon this subject are these—It takes two hundred weeks to pay for the farms. They will be distributed when they are half paid for. By that time the railroads will be finished. That will be early enough for all practical purposes. The advantage of buying it before their completion is evident. When that is done property will go up one hundred week to the farms, proved price, and the stockholders will be finished. That upposes. We now get it without paying the then im-proved price, and the stockholders will be laid of at one, and relatives, as well as those having more than one share can have their farms together. An Improvement department will also be connected with the company. By this means, in order to accommo-date those who are unable to give their properties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stock-holder can have manure furnished, houses built and other work done upon credit, they securing the payment

me must prace receives a tarm at the lowest possible price, and then is afforded every assistance in placing it under crops.
 These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for himself, his wife, and children, either at the present or time to come. Many businessmen, Mechanics, and work-ingmen upon farms, who save several dollars a month, can, by thus uniting together, become freeholders, whilet they scarcely miss the outlay, and at less expense that the annual cost of tobacco or the most triffing luxinfes. A saving and purchase of this kind est nothing, and con-stantly increase in value. In case of sickness or misfor-tune by which he is thrown out of employment, he has a home tog to, where he can always make a good living.— The title is unexceptionably good—one of the oldest in the State, being the Holland Title. LABCASTET. EXPLANATION. The term AMBROTPPE, by which these Pictures are designated: is derived from the Greek word Ambrodes, sig-nifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to, which another plate of corres-ponding Size is secured with an indestructible coment, by by which the picture will retain its original brilliancy for ages; it will not correde by arids, nor be injured by water or climato. It is bold in its effect, beautiful in tone, surpasses any thing in the gradetions of light and shade, and may be seen in any light. The public are cautioned against initiations made on single plates of glass, with the Slack vernish in immediate contact with the Picture.— bach are not permanent, as the varnish must crack and destroy the Picture. AMBROTYPE STERESCOPES MUST BE SEEN, to be appreciated—the relief being fully as perfect as life.
