STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from rear to year in that hitiable condition as not even or one day to feel the happy and exhilarating influ-nce incident to the enjoyment of health. THE BLOOMING BRIDE,

But a few years ago in the flush of health and youth, and buoyaney of spirits; rapidly, and apparently insuperson to the flush of health and youth, and buoyaney of spirits; rapidly, and apparently insuperson to the spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental protrastion, arising from ignorance of the simplest and polariest rules of health as converted with the marration, arising from ignorance of the simplest and plainest rules of health as connected with the mar-siage state, the violation of which entails disease, catering and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND POURTH GENERATION," Transmitting CONSUMPTION, SCROFULA,

THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION, BY DR. A. M. MAURICEAU. PROPEROR OF DISEASES OF WOMEN.

One Hundredth Edition, (500,000), 18mo., pp. 250 [os FIMS PAPES, EXTEA ENDING, \$1.00.]

A standard work of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES ONE HUNDRED THOUSAND SENT BY MAIL. attesting the high estimation in which it is held as a reliable popular Medical BOOK FOR EVERY FEMALE

the author having devoted his exclusive attention to the freatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter. Here every woman can discover, by comparing her own symptoms with those described, the nature, character, uses of, and the proper remedias for, her complaints. The wife about becoming a mother has often need of

astruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such in truction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described. How many are enffering from obstructions or irregularities peculiar to the femals system, which undermine the health, the offects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the

neans of prevention, amelioration and relief. It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly inanded for the married or those contemplating marriage. Reader, are you a busband or a father? a wife or a at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of nato and anxiety, followed by sisepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrams which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In someoquence of the universal popularity of the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the pablic, by imitations of title page, spurious editions, and surreptitions infringements of copyright, and other devices and deceptions, it has been found necessary.

CAUTION THE PUBLIC to buy no book unless the words "Dr. A. M. MATRICTAT, 129 Liberty Streek, N. Y.," is on (and the entry in the Clerk's Office on the back of) the title page; and buy only of respectable and honorable dealers, or send by only of respectable and honorable dear mail, and address to Dr. A. WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A Cure for Consumption, Coughs, Colds Asthma, Bronchitis, General Debility and Scrofulous Humors.

HAVE YOU TRIED IT.—This important question should be asked every invalid who is suffering from pulmonary teroubles in this fickle climate. Hare you tried WILBOR'S COMPOUND OF COD LIVER OIL AND LIME? It will kroubles in this fickle climate. Have you tried WILDOR'S COMPOUND OF COD LIVER OIL AND LIME? It will not nauseate like the plain Oil, but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and has performed some surprising cures in decided consumption, where other medical aid has failed:—

Dr. Wilbor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so irritated my lungs, that my physician frankly admitted his fear of consumption's following this trouble as the Spring weather set in. Medicine seemed to afford me little relict until I tried your preparation of Cod Liver Oil and Lime. The effect I am forced by facts to admit, was almost magical, and I have the pleasure of saying at this writing, (May 20, 1852) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recommend it to those who are thus afflicted:

corn, etc. Economy in cultivating and great productiveness are the well known characteristics of Illinois land. Trees are not required to be cut down, stumps grubbed, or stones picked off, as is generally the case in cultivating new land in the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and feature.

ncing. Wheat sown on the new turned soil is sure to yield very large profits. A man with a plow and two yoke of oxed will break one and a half to two acres per day. Contracts can be made for breaking, rendy for corn or wheat, at from \$2 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state

22 to 2,50 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportationite the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to 4,00 per ton. Wood can be had at the same rates per cord.

Those who think of settling in lowa or Minnesota, should bear in mind, that lands there, of any value, along the water courses and for many miles inland, have been disposed of,—that for those located in the interior, there are no conveniences for transporting the produce to market, Railreads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, Government lands thus situated, at \$1,25 per acre, are not so good investments as the land of this company at the prices fixed.

The same remarks hold good in relation to the lands in Kansus and Nebraska, for although vacant lands may be found nearer the water courses, the distance to market is far greater, and every hundred miles the produce of these lands are carriet-inter in wagons, or interrupted water communications, increases the expenses of transportation, which must be borne by the settiers, in the reduced price of their farms, and of course on their investments, an unally and every year reduced.

The greater fertility of the lands now offered for sale by this

company, and their consequent yield over mose of the Eastern and Middle States, is much more than sufficient to pay it the difference in the cost of transportation, especially in view of the facilities furnished by the Road, and others with which it connects, the operations of which are not interrupted by the low water of summer, or the frost of winter.

PRICE AND TERMS OF PAYMENT.—The price will vary from \$\frac{5}{2}\$ to 25, according to location, etc. Contracts for beeds may be made during the year, 1856, stipulating the purchase money to be paid in five annual instalments. The purchase money to be paid in five annual instalments. That to become due in two years from the date of contract, and the others annually thereafter. The last payment will be contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty her cent, from the credit price will be deducted for cash.—The Company's construction bonds will be roceived as cash.—Badd ranged farmed Farm Bulldings, which can be set up in a

chased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash.—
The Company's construction bonds will be received as cash. Ready framed Farm Buildings, which can be set up in a few days, carticobtained from responsible persons.
They will be 12 feet by 20 feet, divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the Road, \$150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for euch buildings over their road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate wi interest, charged for these lands, will enable a man with o few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four of five fold. When required an experieenced person will accompany applicants, to give information and aid in selecting lands.

Circulars, containing numerous instances of successful farming, signed by respectable and well-known firmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, threshing, etc., by contract—or any other information—will be cheerfully given, on application, either poronally or by letter, in English, French, or German, addressed to

PARM LANDS FOR SALE.—THE HLLNOSI
In Tracts of 40 ACRES and upwards, on long credits and at low rates of interest.
These almads were granted by the Government, to aid in the construction of this Railroad, and include some of the trichest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North East, to Cairo at the South, and from thence to Galena and bunleith, in the North West extreme of the State, and as all the lands lie within fifteen uniles on each side of this Road, roady and cheap means are afforded by it for transporting the products of the lands to any of tkose points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along to the line, and the great increase in population by immigration, etc., afford a substantial and growing home demand for farm produces.

The soil is a dark, rich mould, from one to five feet in the Company within a grant the productive of the lands to any of tkose points and from thence to Eastern and Southern markets. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population to five feet in depth, is gently rolling and peculiarly fitted for grazing for farm produces.

and then is afforded every assistance in placing it under crops.

These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for himself, his wife and children, either at the present or time to come. Many business men, Mechanics, and workingmen upon farms, who save several dollars a month, can, by thus uniting together, become freeholders, whilst they scarcely milist the outlay, and at less expense than the aunual cost of tolacco or the most trifling luxuries. (AUTION--ASTROLOGY.-LOOK OUT!-Good News for All. The never falling Mrs. VANHORN is the very best; she is sure to succeed when all others have failed. All who are in trouble; all who have been unfortu-Zato, deceived and trified with; all whose fond hopes have been crushed and blasted by false promises; all who have been crushed and blasted by false promises; all who have had bad luck, fly to her for radrice and satisfaction, from whatever cause, fly to her for relief and comfort. In love affairs she was never known to fail. She has the secret of winning the affections of the opposite sex. It is this fact which induces illiterate pretenders to try to initate her.—She shows you the likeness of your future wife, husband, or absent friend. It is well known to the public at large that she is the first and only person in this country who can show their likeness in reality—which can be testified and proved by thousands, both married and single, who daily and eagerly visit her. Come one, come all, to No. 534 Lombard Street, between Juniper and Broad, Phila.

IMENSE SUCCESS:—The Cheapest Magazine in the World. BALLOU'S Dollar Monthly. Designed for every American Home. Encouraged by the unprecentented success which this popular monthly has met with, and the rapidity with which it has increased its circulation, dhe proprietor has resolved to make it still more worthy of the patronage of the public. That this admirable work is A Miracle of Cheapness, is admitted by overy one, containing, as it does, one hundred pages of reading matter in each number, being more than any of the \$3 magazines, and forming two volumes a year of six hundred pages each, or twelve hundred pages or reading matter per annum, for

than any of the \$3 magazines, and forming two volumes a year of six hundred pages each, or twelve hundred pages of reading matter per annum, for ONE DOLILAR!

Ballow's Bollar Monthly is printed with new type, upon fine white paper, and its matter is carefully composed and arranged by the hands of the editor and proprietor, who has been known to the public as connected with the Boston press for sixteen years. Its pages contain New Tales, Poems, Stories of the Sas, Sketches, Miscellany, Adventures, Biographies, Wit and Humor, from the best and most popular writers of the country. It is also spiced with a record of the notable evens of the jtimes, of pages and war, of discoveries and improvements occurring in either hemisphere, forming an agreeable companion for a leisure moment or hour, anywhere, at home or abroad, each number being complete in itself.

No sectarian subjects are admitted into its [pages; there are enough controversial publications, each devoted to its peculiar sect or clique. This work is intended for THE MILLION, north or south, east or west, and is filled to the brim each month with chaste, popular and graphic miscellany, just such as any father, brother or friend would place in the hands of a family circle. It is in all its departments, fresh andoriginal, and, what it purports to be, the cheapest magazine in the world.

Any person enclosing one dollar to the proprietor, as below, shall receive a copy gratis.

A RTIFICIAL TEETH .-- A NEW MATERIA ARTIFICIAL TEETH.—A NEW MATERIA A for Plate. The letter and bost Invention of the Agi Dr. S. WELGHERS would respectfully announce to his patrons and the public, that having purchased the right of this city and county to use Dr. Slayton's Patent Colored dutta Parcha, he is prepared to furnish bests of TEETH with this material in a manner far superfor to any other now in use. The advantages are the ability of making a more pefect fit, and a more natural and beantiful job; and the material is vastly more congental and more pleasant to be worn in the mouth than metal. All who have ever had it applied will have nothing also—It is impervious and porfectly indestructible by acids or a killes, and cannot be in the least affected by the sallvas of, or by anything taken into the mouth. I have tested

killes, and cannot be in the least affected by the sall-va of, or by anything taken into the mouth. I have tested this by putting it into the strongest aqua fortis, with no more effect from it than would be from water.

All who wish to try the Gutta Fercha Teeth can have a set put in, and if they do not render perfect satisfaction they need not take them. Or if they are found not to stand the test of time, a gull set, of the very best character, will be inserted in exchange or the money will be refunded. Call at the office of Dr. S. Welchens, No. 34 Kramph's Buildings, North Queen street, for further information on this subject, and see specimens of this truly beautiful invention.

THOMAS ELLMAKER'S

THOMAS ELLMAKER'S

EXPLANATION.

The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambridot, signifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corresponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrodo by acids, nor be injured by water or climate. It is bold in itseffect, beautiful in tone, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against instations made on single plates of glass, with the Slack varnish in immediate contact with the Picture.

AMBOTYPE STERESCOPES MIST BE SEEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambrotype Gallery of the undersigned, and examine specimens before they procure Pictures elsewhere, as they are assured of polite attention.
