STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it imprens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health. THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and howancy of spirits, rapidly, and apparently in-explicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emaciated, norves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, ruffering and misery, not only to the wife but often ring and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND FOURTH GENERATION," Fransmitting CONSUMPTION, SCROFULA, HYPOCHONDRIA, INSANITY, GOUT, KING'S EVIL, and other and worse Discase, as a

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, anses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her tuture health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described. health, the effects of which they are ignorant, and for Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are n constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various aubjects treated of, as they are of a nature strictly intended for the married or, those contemplating marriage. Reader, are you a husband ores father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in icarning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of

## WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A Cure for Consumption, Coughs, Colds Asthma, Bronchitis, General Debility and Scrofulous Humors.

HAVE YOU TRIED IT.—This important question should be asked every invalid who is suffering from pulmonary troubles in this fickle climate. Have you tried Wild BOR'S COMPOUND OF COD LIVER OIL AND LIME? It will not nausetae like the plain 6il. but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and has performed some surprising cures in decided consumption, where other medical aid has failed:—

Dr. Wilbor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so irritated my lungs, that my physician frankly admitted his fear of consumptions following this action as the Spring weather set in Medicine seemed to affor me little relief until I ried your preparation of Cod Liver Oil and Lime The effect I am forced by facts to admit, was almost magical, and I have the pleasure of saying at this writing (May 20, 1862) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recommend it to those who are thus sfilicted:

any be plowed and fonced the first, and under a high state of cultivation the second year.

Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the lastern market. Bituminous coal is mined at several points along the Road, and is a cheap and destrable fuel. It can be delivered at several points along the Road, and is a cheap and destrable fuel. It can be delivered at several points along the Road, and is a cheap and destrable fuel. It can be delivered at several points along the Road and the same rates per cord.

Those who think of settling in lowe or Minnesota, should bear in mind, that lands there, of any value, along the water courses and for many miles inland, have been disposed of,—that for those located in the interior, there are no conveniences for transporting the produce to market, Railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, Government lands thus situated, at \$1.25 per acre, are not so good investments as the land of this company at the prices fixed.

The same remarks hold good in relation to the lands in

heir products; and to that extent precisely are the incomes from their farms, and of course on their investments, an-unally and every year reduced.

The great fertility of the lands now offered for sale by this

purchase money to be paid in five annual instalments. The first to become due in two years from the date of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

Interest will be charged at only three per cent. per annum. As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash.—The Company's construction bonds will be received as cash. Ready framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 20 feet, divided into one living and three bed rooms, and will cost complete set up on ground chosen anywhere along the Road, \$150 in rash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale prices.

It is believed that the price, long credit, and low rate winterest, charged for these lands, will enable a man with the whundred dollars in eash and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants, to give information and aid in selecting lands.

Circulars, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of harvesting, deriching, etc., by contract—or any other information—will be clearfully given, on application, either porsonally or be better, in English. Economy in cultivating and great productiveness are the well known characteristics of lilinois land. Trees are not required to be cut down, stumps grubbed, or stones picked off, as is generally the case in cultivating new land into he older States. The first crop of Indian corn, planted on the older States. The first crop of Indian corn, planted on the newly broken sod, usually repays the cost of plowing and feeding.

Wheat sown on the new turned soil is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two acres per day.
