STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health

THE BLOOMING BRIDE BLOOMING BRIDE,
But a few years ago in the flush of health and youth
and buoyancy of spirits, rapidly, and apparently inexplicably, bocomes a feeble, sickly, allow, debilitated wife, with frame omaciated, nerves unstrung,
spirits depressed, countenance bearing the impress
of suffering, and an atter physical and mental protration, arising from ignorance of the simplest and
plainest rules of health as connected with the marriage state, the violation of which entails disease,

A standard work of established reputation, found classed to the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal cooksellers in the United States. It was first published a 1847, since which time

FIVE HUNDRED THOUSAND COPIES ONE HUNDRED THOUSAND SENT BY MAIL, attesting the high estimation in which it is held as a re-liable popular Medical BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person

symptoms with those described, the nature, character, sauses of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of nstruction and advice of the utmost importance to be: uture health, in respect to which her sensitiveness for bids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described How many are suffering from obstructions or irregular ities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice Many suffering from prolapsus uters (falling of the womb). or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its projes the means of prevention, amelioration and relief

It is of course impracticable to convey fully the various tended for the married or those contemplating marriage Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you lovat heart? crove your sincerity, and lose no time to piness not less than sour own. It will asked to ton and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infinit resol age and the proper education of

your children In consequence of the universal popularity of the cost, as evidenced by its extraordinary sale, various impeditions have been attempted, as well on bookselfers as on the public, by imitations of title page, spirious editions and surreptitions infringements of copyright, and other devices and deceptions, it has been found increasary.

Cure for Consumption, Coughs, Colds Asthma, Brot

COMPOUND OF COD LIVER OIL AND LIME: It will not nauscate like the plain Oil, but is on the contrary, pleasant to the taste; noreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver Oil, as the following certificates (selected from a host of like great acknowledgments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's preparation is both simple, and sure in all ordinary cases, and has performed some surprising cures in declided consumption, where other medical aid has failed:

Dr. Wilbor:—During nearly the whole of the past winter, I had suffered seriously with a cough, which so irritated my laugs, that my physician frankly admitted his fear of consumption's following this trouble as the Spring weather set in. Medicine seemed to afford me little relief until I tried your preparation of Cod Liver Oil and Lime. The effect I am forced by facts to admit, was almost magical, and I have the pleasure of saying at this writing, (May 2d, 1852) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordially recommend it to those who are thus afflicted:

In order to give some idea of the sudden rise, and great popularity of the discovery. I will state that in April, 1853.; I peddied it and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it! Some of the wholessle Druggirts who have been in the business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine great and wonderful virtues have been found in it that I never suspected. never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it prove effectual in all cases of that awful malady—there are but few who have seen mor of it than I have.

PARM LANDS FOR SALE.—THE ILLINGIS ChATRAL RALIROAD-COMPAY is now prepared to sell over TWO MILLION at ACRES OF PARMING LANDS, in Tracts of 40 AORES and upwards, on long credits and toly rates of interest.

in Tracts of 40 ACRES and upwards, on long credits and at low rates of interest.

These lands were granted by the Government, to aid in the construction of this fishiroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The Road extends from Chicago, on the North East, to Cairo at the Suth, and from thence to Galena and Dunleith, in the North West extreme of the State, and as all the lands lie within fifteen miles on each side of this Road, roady and cheap means are afforded by it for transporting the products of the lands on sy of toose points and from themee to Eastern and Southern markets. Moreover, the rapid growth of ilourishing towns and villages along the line, and the great increase in population by immigration, etc., afford a substantial and growing home demand for farm produce,

or farm produce.

The soil is a dark, rich mould, from one to five feet in lepth, is gently rolling and peculiarly fitted for grazing attle and sheep, or the cultivation of wheat, Indian own, etc.

Economy in cultivating and great productiveness are the keola known characteristics of lithinds land. Trees are not required to be cut down, stumps grubbed, or stones picked off, as is generally the case in cultivating new land in the idder States. The first crop of Indian corn, planted on the newly broken seal, usually repays the cost of plowing and forcing.

ioner states. The first crop of indian corn, planted of the lewely broken sed, usually repays the cost of plowing and fencing.

Wheat sown on the new turned soil is sure to yield very large profits. A man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at from \$\frac{1}{2}\$ to 2,60 per acre. By judicious management, the land may be plowed and fenced the first, and under a high state of cultivation the second y ar.

Corn, grain, cattle, etc., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation;for the Eastern market.

Bituminous coal is mined at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$\frac{1}{2}\$ to 4.00 per ten.

Wood can be lad at the same rates per cord.

Those who think of settling in fown or Minnesota, should bear in mind, that lands there, of any value, along the water courses and or many miles inland, have been disposed of,—that for those located in the Interior, there are no conveniences for transporting the produce to market, Railroads not having been introduced there. That to send the produce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of cultivating them; and hence, dovernment hands thus simulated, at \$1.20 per acre, are not so good investments as the land of this company at the prices fixed.

The same remarks hold good in relation to the lands in Kanasa and Nebraska, for although vacant lands may be found nearer the water courses, the distance to market is far gratery, and every hundred miles the produce of those

The timber is of great value, and consists of Cherry, Ash Chesnut, Plne, Oak and Hemlock, all of prinewal growth, of great stze, and towering from eighty to a hundred and twenty feet high. That which the stockholders do not want will be sold to the timber merchants, with conditions to cut it in a certain time. This will clear the land, and bring a large revenue into the treasury, which will go to the reduction of the price of the farms

This explains its agricultural resources. But there is another consideration of equal, if not greater, importance, The land is one great bed of coal. Upon this property it is literally inexhaustible. By taking a glance at the latest map, first at this locality, and then over the State, it will be found to possess the grandest feature of prosperity, improvement, and shouch immediate development. It is superior to any other. It is the only place having the great concentration of railroads, by which New York, the Lakes. Philadelphia and Pittsburg are at its doors. There is no coal in New York, and on account of its northernly situation, it possesses the advantages of nearness. This is destined to become the Pottsville of that portion of the State. The prospect in the future for this place exceeds any that Pottsville ever had; and there, land which a few years ago was selling at five and ten dollars an acre, when the railroad oppened its mines sold for from two to five hundred dollars an acre. These are facts. Those who are ignorant, let them make inquiry. Improvement is still progressing. So arrive at the truth. Judge the future by the past, and then what will this land be? It is proper that reason should give the answer.

So arrive at the truth. Judge the fature by the past, and then what will this land be? It is proper that reason should give the answer.

The Sanbury and Eric Raliroad, of which Gov. Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany Valley Raliroad, of which Gov. Johnson is President, connecting this land with Pittsburg, are in rapid course of completion, and upon a great extent the locomotives are running. The reflections which suggest themselves upon this subject are these—It takes two hundred weeks to pay for the farms. They will be distributed when they are half paid for. By that time the railroads will be fulshed. That will be early enough for all practical purposes. The advantage of buying it before their completion is evident. When that is done property will go up one hundred per cent.—Speculation in coal would at once run it up to such a price as would make it impossible to obtain for agricultural purposes. We now get it without paying the then improved price, and the stockholders will enjoy the rise.

A tract of about two flavoniant acres will be laid off at once, and ready by next Spring, in order that persons who wish to farm immediately can do so.

Friends and relative, as well as those having more than one share can have their farms together.

An Improvement department will also be connected with the company. By this means, in order to proper the continuous date those who are unable to give their personal attention to fencing or preparation, or desire to rent their properties out instead of residing there, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stockholders can have menure furnished, houses built and other work done upon credit, they securing the payment to the company within a reasenable time, so that a man in the first place receives a farm at the lowest possible price, and then is afforded every assistance in placing it under reops.

me nist place receives a larin at the lowest possible price, and then is afforded every assistance in placing it under crops.

These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for time to come. Many business ifen, Mechanics, and workingmen upon farms, who save soveral dollars a month, can, by thus uniting together, become freeholders, whilst they scarcely miss the outlay, and at less expense than the annual cost of tobacco or the most trifling luxuries. A axing and purchase of this kind eat nothing, and constantly increase in value. In case of sickness or misfortune by which he is thrown out of employment, he has a home to go to, where he can always make a good living.—The title is unexceptionably good—one of the oldest in the State, being the Holland Title. Those who desire farms, will please address, personally or by letter (enclosing first instainent.) to Samuel W. A RTIFICIAL TREETH.—A NEW MATERIA
A For Plate. The latest and best Invention of the Agt
Dr. S. WELCHENS would respectfully announce to his pa
trons and the public, that having purchased the right of
this city and county to use Dr. Slayton's Patent
Colored Gutta Percha, he is prepared to furnish
Sets of TEETH with this material in a manner
far superior to any other now in use. The advantages are
the ability of making a more pecter fit, and a more natural
and beautiful job; and the material is vastly more congenidual more pleasant to be worn in the mouth than metal.
All who have ever had it applied will have nothing else.—
It is impervious and perfectly indestructible by acits or altilies, and cannot be in the least affected by the saliva of, or by anything taken into the mouth. I have tested
this by putting it into the strongest aqua fortis, with no ra of, or by anything taken into the mouth. I have tested this by putting it into the strongest aqua fortis, with no more effect from it than would be from water.

All who wish to try the Gutta Percha Teeth can have a set put in, and if they do not render perfect satisfaction they need not take them. Or if they are found not to stand the test of time, a gold set, of the very best character, will be inserted in exchange or the money will be refunded. Call at the office of Dr. S. Welchens, No 34 Kramph's Buildings, North Queen street, for further information on this subject, and see specimens of this truly beautiful invention.
