STARTLING, BUT TRUE WHAT EVERY WOMAN SHOULD KNOW

How often it happens, that the wife lingers from year to year in that pitable condition as not even for one day to feel the happ and exhilarating influ-ence incident to the enjoyment of health.

THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently in syplicably, becomes a feeble, sinkly, sallow, debili-tated wike, with frame ennexisted, nerves unstrung, spirits-depressed, countenance bearing the impress of suffering, and an atter physical and mental pro-tration, arising from ignorance of the simplest and plainest rules of health as connected with the mar-ringe state, the violation of which entails disease, suffering and minery, not only to the wife, but often the physicably. symptoms with those described, the nature, character. causes of, and the proper remedies for, her complaints

The wife about becoming a mother has often need of ustruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for bids consulting a medical gentleman, will find such in struction and advice, and also explain many symptoms

which otherwise would occasion anxiety or alarm as ai the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular

Many are in constant agony for many months preceding confine ment. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are

It is of course impracticable to convey fully the variou

These lands were granted by the Governmont, to aid in the construction of this failroad, and include some of the richest and most fertile Prairies in the State, intersporsed here and there with magnificent groves of cak and other timber. The Road extends from Chicago, on the North East, to Cairo at the South, and from thence to Galena and Dauleith, in the North West extreme of the State, and as all the lands lis within fifteen miles on each side of this Road, roady and cheap means are alforded by it for trans-porting the products of the lands to any of those points and thence to Eastern and Southern markets. Corn, grain, cattle, etc., will be forwarded at reasonable rates to thicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of lill-nois over the high priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation, to the Eastern market. Bituminous coal is mined at several points along the Read, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1,50 to 4,60 per tou. Wood can be had at the same rates per cord. Those who think of settling in lowa or Minnesota, should bear in mind, that lands there, of any value, along the wa-ter coarses and for many miles inhand, have been disposed of,—that for those located in the interior, there are no con-veniences for transporting the produce to market, Raifroads not having been introduced there. That to sell the pro-duce of these lands, one or two hundred miles by wagon to market, would cost much more than the expense of culti-vating them, and hence, Government hands thus situated, at \$1,25 per are, are not so good investments as the land of this company at the prices fixed. The same remarks hold good in relation to the lands in Kansas aud Nebraska, for although vacant lands may be found nearer the water courses, the distance to market is for graver, and every hundred miles the produce of these to and the pro-found nearer the water course, the distance to market is for graver, and every hundred miles the produce of the same remarks hold four of here in the set produce of the set of the se

Bigler is President, and which connects this land with the Lakes and Philadelphia, and the Alleghany Valley Railroad, of which Gov. Johnson 1s President, connecting this had with Pittsburg, are in rapid course of completion, and up-on a great oxteat the locomotives are running. The reflec-tions which suggest themselves upon this subject are these—It takes two hundred weeks to pay for the farms. They will be distributed when they are hair paid for. By that time the railroads will be insided. That will be early enough for all practical purposes. The advantage of buying it before their completion is evident. When that is done property will go up one hundred weer cent. — Speculation in coal would at once run it up to such a price as would make it impossible to obtain for agricultur-al purposes. We now got it without paying the then im-proved price, and the stockholders will enjoy the rise. A tract of about two theusand acres will be laid of at one, and ready by next Spring, in order that persons who wish to farm immediately can do so. Triends and relatives, as well as those having more than one share can have their farms together. An Improvement department will also be connected with the company. By this means, in order to accommo-date those who are unable to give their personal attention to facing or preparation, or desire to rent their properties out instead of residing these, arrangements can be made to place each farm in complete order, so as to be ready for cultivation. After the farms have been all sold, stock-holders can have manure furnished, houses built and other work done upon credit, they securing the payment to the company within a reasenable time, so that a man in the first place receives a farm at the lowset posible price, and dhen is alforded every assistance in placing it under crops.

These embrace the principal features, and an excellent opportunity is now offeren for a man to obtain a home for himsolf, his wife and children, either at the present or time to come. Many business mon, Mechanics, and work-ingmen upon farms, who save several dollars a month, cao, by thus uniting together, become freeholders, whilst they scarcely miss the outlay, and at less expense than the annual cost of tobacco or the most trilling luxurics. It will not nauseate like the plain OIL but is on the contrary, pleasant to the taste; moreover the Phosphate of Lime is, in this combination, a most remarkable aid to the healing properties of the pure Cod Liver OIL, as the following cer-tificates (selected from a host of like great acknowledg-ments) will amply show. No person should neglect for a single hour a cough, or any affection of the lungs, lest the most serious consequences follow. Dr. Wilbor's prepara-tion is both simple, and sure in all ordinary cases, and has performed some surprising cures in decided consump-tion, where other medical aid has fulfed: ... Dr. Wilbor:--During nearly the whole of the past win-ter, I had suffered seriously with a cough, which so irrita-ted my lungs, that my physician frankly admitted his fear of consumption's following this trouble as the "spring weather set in. Medicine seemed to afford me little relief until I tried your preparation of Cod Liver Oil and Lime. The effect I am forced by facts to admit, was almost magi-cal, and I have the pleasure of saying at this writing, (May 20, 1822) I am entirely free from any pulmonary trouble. With thanks to you for your valuable discovery, I cordi-ally recommend it to those who are thus afflicted : MARTIN C. HURD, Chamber street, Boston. N. In the mean time, the rapid settlement of the coun-try will probably have increased their value four or five fold. Lancaster. EXPLANATION. The term AMBROTYPE, by which these Pictures are designated; is derived from the Greek word Ambrodos, spi-nifying indestructibility, permanency, &c. The Picture is taken upon plate glass, to which another plate of corres-ponding size is secured with an indestructible cement, by by which the picture will retain its original brilliancy for ages; it will not corrode by acids, nor be injured by water or climate. It is bold in its effect, basulful in tons, surpasses any thing in the gradations of light and shade, and may be seen in any light. The public are cautioned against imitations made on single plates of ylass, with the Slack varnish in immediate contact with the Picture.— buch are not permanent, as the varnish must crack and destroy the Picture. AMBROTY PE STARESCOPES MUST BE SEN, to be appreciated—the relief being fully as perfect as life. Citizens and Strangers are invited to call at the Ambro-type Gallery of the undersigned, and examine specimens usfor they procure Pictures elsewhere, as they are assured of polite attention.
